NEW YORK, August 16, 2011 Forest Laboratories, Inc. (NYSE: FRX) ( Forest ) today sent the following open letter to all Forest shareholders in connection with the Company's Annual Meeting, which will be held on August 18, 2011. August 16, 2011

Dear Fellow Shareholders,

The Forest Annual Meeting will be held in less than three days, on Thursday, August 18, 2011 at 10:00 am EDT. How you vote at this meeting will be critical to your investment and the future of your Company. You have the opportunity to support Forest and our ten talented and extremely experienced Board nominees, each of whom is committed to building value for **all** our shareholders and are the **most** qualified to lead this company forward. We are writing to ask for your support which you can deliver by voting the WHITE card.

We always welcome constructive input from our shareholders, and over the past few weeks, we have had the opportunity to meet with many of you and engage in thoughtful and productive conversations concerning the future of our company. We have learned a great deal throughout this process and sincerely appreciate the honest and helpful feedback we have received. The entire Forest Board is wholeheartedly committed to delivering value for shareholders and to upholding the highest standards of corporate governance and we are taking some additional steps to underscore these commitments.

**Forest Announces New Accelerated Share Repurchase Program**

Yesterday, Forest announced its intention to repurchase an additional \$350 million of its shares under an accelerated share repurchase program. This is in addition to the two \$500 million accelerated share repurchases implemented in the last 14 months and the \$4.4 billion of capital that Forest already has returned to shareholders through repurchases over the past five years.

Over the years, Forest has allocated capital efficiently, maintaining a strong balance sheet that has enabled the Company to return significant capital to shareholders while building one of the deepest, diversified and most promising product portfolios in the

industry. Forest has maintained a disciplined and measured approach, including acquiring Clinical Data and Novexel in the last two fiscal years both of which have meaningfully strengthened and diversified our late-stage pipeline. As we look towards the future, we expect our ongoing flexibility will continue to provide us with the ability to pursue additional promising opportunities as they arise in the marketplace.

**Continued Enhancement of Our Corporate Governance Practices**

At Forest we have always taken pride in our corporate governance and continually look for new ways to improve our practices. That is why in addition to our three new, independent nominees, who we anticipate will make significant contributions to our Board and serve on key committees we have decided to recommend that our board make a commitment, which would be part of our Corporate Governance Guidelines, to consult at least once per year with leading corporate governance experts to stay abreast of best practices and consider how they might apply to Forest. Our Nominating and Corporate Governance Committee comprised of independent directors will select the appropriate experts, consult with them, and make recommendations to the full Board regarding any reforms that should be enacted. We believe this reflects our Board's serious and long-term commitment to maintaining a culture of good corporate governance on our Board and ethics and integrity throughout our Company.
