Unless stated otherwise or the context otherwise requires, references to EverBank Financial Corp, we, our, us and the Company for all periods subsequent to the reorganization transactions described in the section of the Registration Statement entitled Reorganization refer to EverBank Financial Corp, a newly formed Delaware corporation, and its consolidated subsidiaries after giving effect to such reorganization transactions. Revised Proposed Terms of the Initial Public Offering

The following is a summary of the revised proposed terms of the offering:

Common stock offered by us	19,220,000 shares. No shares of our common stock will be offered by any selling stockholders.
Option to purchase additional shares from us	2,883,000 shares
Total shares of common stock to be outstanding immediately after this offering	113,179,343 shares (or 116,062,343 shares if the underwriters exercise their option to purchase additional shares from us in full)
Estimated initial public offering price per share	It is currently estimated that the initial public offering price per share will be between \$11.00 and \$12.00 per share.
Net proceeds to us	We estimate that the net proceeds to us from the sale of our common stock in this offering will be \$198.2 million, at an assumed initial public offering price of \$11.50 per share, the midpoint of the price range set forth above, and after deducting estimated underwriting

discounts and commissions and estimated offering expenses. Our net proceeds will increase by approximately \$31.0 million if the underwriters' option to purchase additional shares is exercised in full. Each \$1.00 increase (decrease) in the assumed initial public offering price of \$11.50 per share would increase (decrease) the net proceeds to us of this offering by \$18.0 million, or \$20.7 million if the underwriters' option is exercised in full, assuming the number of shares offered by us, as set forth above, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses.

Risk Factors

We have added the following risk factor related to our status as an emerging growth company, as defined in Section 2(a) of the Securities Act of 1933, as amended:

We are an emerging growth company within the meaning of the Securities Act, and if we decide to take advantage of certain exemptions from various reporting requirements applicable to emerging growth companies, our common stock could be less attractive to investors.

We are an emerging growth company within the meaning of the rules under the Securities Act. We are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including, but not limited to, reduced disclosure about our executive compensation and omission of compensation discussion and analysis, and an exemption from the requirement of holding a non-binding advisory vote on executive compensation. In addition, we will not be subject to certain requirements of Section 404 of the Sarbanes-Oxley Act, including the additional level of review of our internal control over financial reporting as may occur when outside auditors attest as to our internal control over financial reporting. As a result, our stockholders may not have access to certain information they may deem important. Further, we are eligible to delay adoption of new or revised accounting standards applicable to public companies and we intend to take advantage of the benefits of this extended transition period. To the extent we choose to do so, our financial statements may not be comparable to companies that comply with such new or revised accounting standards. We will remain an emerging growth company for up to five years, though we may cease to be an emerging growth company earlier under certain circumstances. If we take advantage of any of these exemptions, we do not know if some investors will find our common stock less attractive as a result. The result may be a less active trading market for our common stock and our stock price may be more volatile.

(1) As adjusted column includes an aggregate 18,765,804 shares of our common stock that were issued upon conversion of the Series A Preferred Stock and will be issued upon conversion of the Series B Preferred Stock. Both columns include 5,950,046 shares of common stock held in escrow at December 31, 2011 as a result of our acquisition of Tygris. Pursuant to the terms of the Tygris acquisition agreement and related escrow agreement, we are required to review the average carrying value of the remaining Tygris portfolio annually and upon certain events, including this offering, release a number of escrowed shares to the former Tygris shareholders to the extent that the aggregate value of the escrowed shares (on a determined per share value) equals 17.5% of the average carrying value of the remaining Tygris portfolio on the date of each release (see Business Recent Acquisitions Acquisition of Tygris Commercial Finance Group, Inc.). Based on our first annual review of the average carrying value of the remaining Tygris portfolio, we released 2,808,175 escrowed shares of our common stock to the former Tygris shareholders on April 25, 2011. As of December 31, 2011, 5,950,046 shares of our common stock remain in escrow. Following the offering, based on our second annual review of the carrying value of the remaining Tygris portfolio, we will release 2,915,043 escrowed shares of our common stock to the former Tygris shareholders. We expect that another partial release of the escrowed shares to the former Tygris shareholders will occur in connection with the consummation of this offering. As the necessary valuation of the remaining Tygris portfolio for the partial release of escrowed shares triggered by this offering must be made after the consummation of this offering, the number of shares to be released from escrow cannot be determined at present.

Both columns exclude 11,507,077 shares of our common stock issuable upon exercise of outstanding stock options at a weighted-average exercise price of \$11.04 per share, 470,605 shares of common stock issuable upon the vesting of outstanding restricted stock units with a remaining weighted average vesting period, as of December 31, 2011, of 1.4 years and 18,574,468 additional shares of common stock reserved for issuance under our equity incentive plans.

Dilution

The information in the Registration Statement under the caption **Dilution** has been replaced in its entirety with the following:

DILUTION

If you invest in our common stock, your ownership interest will be diluted to the extent of the difference between the initial public offering price per share of our common stock and the as adjusted net tangible book value per share of our common stock immediately after this offering. Our historical net tangible book value as of December 31, 2011, after giving effect to the conversion of the Series A Preferred Stock and the Reorganization, was \$944.5 million, or \$10.05 per as converted common share at period end. Net tangible book value per share is determined by dividing our total tangible assets less our total liabilities by the number of shares of common stock outstanding.

After giving effect to the Reorganization and our sale of 19,220,000 shares of common stock at an assumed initial public offering price of \$11.50 per share, the midpoint of the range on the cover of this prospectus, and after deducting estimated underwriting discounts and commissions and estimated offering expenses, our as adjusted net tangible book value as of December 31, 2011 would have been \$1,142.6 million, or \$10.10 per share. This amount represents an immediate increase in net tangible book value to our existing stockholders of \$0.05 per share and an immediate dilution to new investors of \$1.40 per share. The following table illustrates this per share dilution:

Assumed initial public offering price per share		\$ 11.50
Historical net tangible book value per as converted common share at December 31, 2011	\$ 10.05	
Increase in net tangible book value per share attributable to investors purchasing shares in this offering	0.05	
As adjusted net tangible book value per share after giving effect to this offering		10.10
Dilution in as adjusted net tangible book value per share to investors in this offering		\$ 1.40

Each \$1.00 increase (decrease) in the assumed public offering price of \$11.50 per share would increase (decrease) our as adjusted net tangible book value by approximately \$18.0 million, or approximately \$0.15 per share, and the dilution per share to investors in this offering by approximately \$0.85 per share, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions and offering expenses. The as adjusted information discussed above is illustrative only and will adjust based on the actual public offering price and other terms of this offering determined at pricing.

If the underwriters exercise their option to purchase additional shares in full in this offering at the assumed offering price of \$11.50 per share, our as adjusted net tangible book value at December 31, 2011 would be \$1,173.6 million, or \$10.11 per share, representing an immediate increase in as adjusted net tangible book value to our existing stockholders of \$0.06 per share and an immediate dilution to investors participating in this offering of \$1.39 per share.

The following table summarizes as of December 31, 2011, on an as adjusted basis and after giving effect to the Reorganization, the number of shares of common stock purchased from us, the total consideration paid to us and the average price per share paid by our existing stockholders and by investors participating in this offering, based upon an assumed initial public offering price of \$11.50 per share, the mid-point of the range on the cover of this prospectus, and before deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

	Shares Purchased		Total Consideration (000 s)		Average Price per Share
	Number	Percentage	Amount	Percentage	
Existing stockholders	93,959,343	83.02%	\$ 562,002	71.77%	\$ 5.98
New investors	19,220,000	16.98%	\$ 221,030	28.23%	11.50
Total	113,179,343	100%	\$ 783,032	100%	

The above discussion and tables do not include 12,222,787 shares of common stock issuable upon the exercise of options outstanding as of April 15, 2012 at a weighted average exercise price of \$11.21 per share and 406,999 shares of common stock issuable upon the vesting of restricted stock units outstanding as of April 15, 2012.

Effective upon the completion of this offering, an additional 15,000,000 shares of our common stock will be reserved for future issuance under our equity incentive plans. To the extent that any of these options and restricted stock units are exercised, new options or restricted stock units are issued under our equity incentive plans or we issue additional shares of common stock in the future, there will be further dilution to investors participating in this offering.

Principal Stockholders

The information in the Registration Statement under the caption **Principal and Selling Stockholders** has been renamed **Principal Stockholders** and replaced in its entirety with the following:

PRINCIPAL STOCKHOLDERS

The following table sets forth information about the beneficial ownership of our common stock at April 15, 2012, after giving effect to the Reorganization, and as adjusted to reflect the sale of the shares of common stock by us in this offering, for:

each person known to us to be the beneficial owner of more than 5% of our common stock;

each named executive officer;

each of our directors and director nominees; and

all of our executive officers and directors as a group.

Unless otherwise noted below, the address of each beneficial owner listed on the table is c/o EverBank Financial Corp, 501 Riverside Avenue, Jacksonville, Florida 32202. We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the tables below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws. We have based our calculation of the percentage of beneficial ownership on 93,959,343 shares of our common stock (including 77,994,699 shares outstanding on April 15, 2012 and an additional 15,964,644 shares of our common stock issuable upon conversion of all outstanding shares of Series B Preferred Stock upon consummation of the Reorganization), and 113,179,343 shares of common stock outstanding after the completion of this offering.

In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options or restricted stock units held by that person that are currently exercisable or exercisable within 60 days of April 15, 2012. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.
