FIFTH CONSECUTIVE YEAR OF EPS GROWTH;
COMPANY CONFIRMS GUIDANCE - EPS GROWTH TO CONTINUE IN 2003

HOUSTON, FEB. 19, 2003--GROUP 1 AUTOMOTIVE, INC. (NYSE: GPI), a Fortune 500 specialty retailer, today reported more than \$1 billion in revenues and \$0.53 diluted earnings per share compared to \$0.68 in fourth quarter 2001, which was one of the best periods in the history of the automobile industry.

"Although our operating results are down from fourth quarter last year, as we compare against the exceptional financial results realized a year ago, we continue to generate significant earnings and cash flow. We are benefiting from our diverse revenue streams despite the challenge of operating in a soft U.S. economy and a challenging used car environment," said B.B. Hollingsworth Jr., Group 1's chairman, president and chief executive officer. This marks the Company's fifth consecutive year of earnings per share growth.

RESULTS FOR THE FOURTH QUARTER

For the fourth quarter ended Dec. 31, 2002, revenues were \$1.0 billion, consistent with the same period last year. After a 21.4 percent increase in same store revenues in the fourth quarter of 2001, the Company experienced a 14.1 percent decline in same store revenues in the fourth quarter of 2002. This decline was offset by revenues contributed by dealerships acquired during the

Edgar Filing: GROUP 1 AUTOMOTIVE INC - Form 8-K

year. New vehicle retail sales fell 1.9 percent, on a unit sales decrease of 3.8 percent. Used vehicle retail sales fell 9.3 percent, with retail unit sales 11.8 percent lower. Parts and service and finance and insurance revenues grew 16.6 percent and 3.9 percent, respectively.

Net income decreased 23.9 percent to \$12.3 million from \$16.2 million, resulting in diluted earnings per share of \$0.53 from \$0.68 a year ago, a 22.1 percent reduction. Average shares outstanding decreased 1.8 percent to 23.2 million as the Company repurchased common stock.

Gross margin for the quarter increased to 15.4 percent compared with 14.7 percent during the year-ago period, as vehicle sales slowed and other higher margin revenues increased. Income from operations was \$28.6 million versus \$33.8 million, a 15.6 percent decrease. Operating margin was 2.8 percent compared with 3.3 percent during the year-ago period.

Hollingsworth stated, "We have focused this quarter on the very successful integration of our new Los Angeles platform, on cost control and on our underperforming operations in Atlanta, South Florida and Dallas." Hollingsworth further noted that from a brand standpoint Honda and Toyota were among the strongest performers. "Our record of 20 consecutive quarters of double-digit year-over-year earnings per share growth ended, but we are proud of that achievement and look forward to the opportunities of a new year," he added.

RECORD PERFORMANCE FOR FULL YEAR

For the year, revenues reached \$4.2 billion, a 5.5 percent increase from \$4.0 billion for 2001. New vehicle retail sales grew 6.5 percent on a 4.8 percent increase in unit sales. Used vehicle retail sales decreased 2.9 percent on a retail unit sales decline of 3.3 percent. Parts and service and finance and insurance revenues grew 11.7 percent and 14.8 percent, respectively.

Gross margin for 2002 increased to 15.5 percent compared with 15.2 percent in 2001. Income from operations rose 4.8 percent to \$137.6 million from \$131.3 million, and operating margin remained stable at 3.3 percent. Diluted earnings per share increased 8.1 percent to \$2.80 on net income of \$67.1 million, compared with \$2.59 per diluted share on net income of \$55.4 million, for the previous year.

ACQUISITION PROGRAM

During the fourth quarter, Group 1 acquired a new Toyota franchise in the Boston market area, expanding the Ira platform to 14 automobile franchises. The Company also purchased new Lincoln and Mercury

franchises in Amarillo, Texas bringing the Gene Messer platform to 17 automobile franchises. The new Ira Toyota and the Gene Messer Lincoln-Mercury franchises began operations in December 2002 with expected annual revenues of \$41 million. For the year, the Company completed 21 franchise acquisitions with annual aggregate revenues of \$827 million, while it disposed of five dealerships with \$51 million of annualized revenues, as part of its previously stated acquisition strategy for 2002.

In January of this year, the Company completed the acquisition of Bob Howard Ford-Lincoln-Mercury, and the divestiture of the Bob Howard Mercedes-Benz dealership in Oklahoma City, Okla. In total, these transactions are expected to add net revenues of \$84 million in 2003.

MANAGEMENT'S OUTLOOK

"We expect another strong new vehicle market in 2003, although perhaps lower than 2002. With our ability to adjust our cost structure, combined with

Edgar Filing: GROUP 1 AUTOMOTIVE INC - Form 8-K

successful integration of recent acquisitions, and expected increases in parts and service revenues, we have confidence in confirming the range of our diluted earnings per share guidance for 2003 of \$3.10 to \$3.30. Earnings growth is expected to emanate from a combination of acquisitions and improved dealership performance, as well as common stock repurchases, as warranted," commented Hollingsworth. In 2002, the Company repurchased 983,000 shares of its common stock at an average price of \$24.20.

Group 1 continues to seek strategic tuck-in acquisitions to augment its current markets, as well as platform acquisitions to enter new markets, targeting to add dealerships with aggregate revenues of approximately \$800 million. "We have one of the strongest balance sheets in the industry which allows us to implement our growth plan without reliance on the equity market," commented Hollingsworth.
