Table of Contents

HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.) and its majority-owned subsidiaries (collectively, Helix or the Company). Unless the context indicates otherwise, the terms we, us and our in this report refer collectively to Helix and its subsidiaries. We account for our 50% interest in Deepwater Gateway, L.L.C., our 20% interest in Independence Hub, LLC (Independence) and our 40% interest in Offshore Technology Solutions Limited (OTSL) using the equity method of accounting as we do not have voting or operational control of these entities. All material intercompany accounts and transactions have been eliminated. These condensed consolidated financial statements are unaudited, have been prepared pursuant to instructions for the Quarterly Report on Form 10-Q required to be filed with the Securities and Exchange Commission and do not include all information and footnotes normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles.

The accompanying condensed consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles and are consistent in all material respects with those applied in our annual report on Form 10-K for the year ended December 31, 2005. The preparation of these financial statements requires us to make estimates and judgments that affect the amounts reported in the financial statements and the related disclosures. The actual results may differ from our estimates. Please see our 2005 Annual Report on Form 10-K for a detailed description of our critical accounting policies. The SEC has defined critical accounting policies as the ones that are most important to the portrayal of a company's financial condition and results of operations and require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain.

Management has reflected all adjustments (which were normal recurring adjustments unless otherwise disclosed herein) that it believes are necessary for a fair presentation of the condensed consolidated balance sheets, results of operations and cash flows, as applicable. Operating results for the period ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. Our balance sheet as of December 31, 2005 included herein has been derived from the audited balance sheet as of December 31, 2005 included in our 2005 Annual Report on Form 10-K. These condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements and notes thereto included in our 2005 Annual Report on Form 10-K.

Certain reclassifications were made to previously reported amounts in the condensed consolidated financial statements and notes thereto to make them consistent with the current presentation format. Reclassifications related primarily to reportable segment realignment in the fourth quarter of 2005.

Note 2 Statement of Cash Flow Information

We define cash and cash equivalents as cash and all highly liquid financial instruments with original maturities of less than three months. As of June 30, 2006 and December 31, 2005, we had \$32.6 million and \$27.0 million, respectively, of restricted cash included in other assets, net, all of which related to Energy Resource Technology, Inc. (ERT), a wholly owned subsidiary of the Company, escrow funds for decommissioning liabilities associated with the South Marsh Island 130 (SMI 130) field acquisitions in 2002. Under the purchase agreement for those acquisitions, ERT is obligated to escrow 50% of production up to the first \$20 million of escrow and 37.5% of production on the remaining balance up to \$33 million in total escrow. ERT may use the restricted cash for decommissioning the related fields.

Table of Contents

During the three and six months ended June 30, 2006, we made cash payments for interest charges, net of capitalized interest, of \$3.6 million and \$5.0 million, respectively, and \$1.7 million and \$3.4 million during the three and six months ended June 30, 2005, respectively. In addition, during the three and six months ended June 30, 2006, we paid \$32.6 million and \$41.4 million in income taxes, respectively. During the three and six months ended June 30, 2005, we paid \$271,000 and \$1.2 million in income taxes, respectively.

Non-cash investing activities for the six months ended June 30, 2006 included \$62.6 million related to accruals of capital expenditures. The accruals have been reflected in the condensed consolidated balance sheet as an increase in property and equipment and accounts payable.

Note 3 Offshore Properties

We follow the successful efforts method of accounting for our interests in oil and gas properties. Under the successful efforts method, the costs of successful wells and leases containing productive reserves are capitalized. Costs incurred to drill and equip development wells, including unsuccessful development wells, are capitalized. Costs incurred relating to unsuccessful exploratory wells are expensed in the period the drilling is determined to be unsuccessful. During the three months ended June 30, 2006, we did not recognize any impairment expense. For the six months ended June 30, 2006, impairments and unsuccessful capitalized well work totaling \$20.7 million were expensed as a result of analyses on certain properties (see Tulane discussion below). During the three and six months ended June 30, 2005, impairments and unsuccessful capitalized well work totaling approximately \$2.8 million and \$4.4 million, respectively, were expensed as a result of analyses on certain properties. Furthermore, we expensed approximately \$70,000 and \$4.5 million of purchased seismic data related to our offshore properties in the six months ended June 30, 2006 and 2005, respectively. In addition, in the three and six months ended June 30, 2006, we expensed inspection and repair costs totaling approximately \$5.5 million and \$8.9 million, respectively, related to Hurricanes *Katrina* and *Rita*, partially offset by \$2.7 million of insurance recoveries recognized in the first quarter of 2006.

As an extension of ERT's well exploitation and PUD strategies, ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in the first quarter of 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and after further review, the well was plugged and abandoned. The total estimated cost to us of approximately \$20.7 million was charged to earnings in the first quarter of 2006. We continue to evaluate various options with the operator for recovering the potential reserves. Approximately \$5.5 million of the equipment was redeployed and remains capitalized.

In March 2005, ERT acquired a 30% working interest in a proven undeveloped field in Atwater Block 63 (Telemark) of the Deepwater Gulf of Mexico for cash and assumption of certain decommissioning liabilities. In December 2005, ERT was advised by Norsk Hydro USA Oil and Gas, Inc. (Norsk Hydro) that Norsk Hydro will not pursue their development plan for the deepwater discovery. As a result, ERT acquired a 100% working interest and operatorship in April 2006 following a non-consent to the ERT plan of development by Norsk Hydro. ERT's interest in this property and surrounding fields were sold in July 2006 for \$15 million in cash and with ERT also retaining a reservation of an overriding royalty interest in the Telemark development.

In April 2005, ERT entered into a participation agreement to acquire a 50% working interest in the Devil's Island discovery (Garden Banks Block 344 E/2) in 2,300 feet water depth. This deepwater development is operated by Hess. An appraisal well was drilled in April 2006 and was suspended. A new sidetrack well completion plan is currently under review. Participation in the additional sidetrack will require an amended participation agreement which is currently under negotiation with Hess. The field will ultimately be developed via a subsea tieback to Baldpate Field (Garden Banks Block 260). Our Contracting Services assets would participate in this development.

Table of Contents

Also in April 2005, ERT acquired a 37.5% working interest in the Bass Lite discovery (Atwater Blocks 182, 380, 381, 425 and 426) in 7,500 feet water depth along with varying interests in 50 other blocks of exploration acreage in the eastern portion of the Atwater lease protraction area from BHP Billiton. The Bass Lite discovery contains proved undeveloped gas reserves in a sand discovered in 2001 by the Atwater 426 #1 well. In October 2005, ERT exchanged 15% of its working interest in Bass Lite for a 40% working interest in the Tiger Prospect located in Green Canyon Block 195. ERT paid \$1.0 million in the exchange with no corresponding gain or loss recorded on the transaction. In December 2005, Mariner Energy elected to exercise its option to gain an additional 5% working interest. The resulting transaction leaves ERT with a 17.5% working interest in the project.

The Tiger Prospect, located at a water depth of 1,850 feet, initiated sidetrack drilling operations in May 2006. The successful well continued with completions through June 2006 and is currently waiting on flowline and umbilical installation. Production is expected to begin in October 2006.

In February 2006, ERT entered into a participation agreement with Walter Oil & Gas for a 20% interest in the Huey prospect in Garden Banks Blocks 346/390 in 1,835 feet water depth. Drilling of the exploration well began in April 2006. If successful, the development plan would consist of a subsea tieback to the Baldplate Field (Garden banks 260). Under the participation agreement, ERT has committed to pay a disproportionate share of the costs to casing point to earn the 20% interest in the potential development. ERT's share of drilling costs incurred during the six months ended June 30, 2006 was approximately \$8.0 million.

As of June 30, 2006, we had incurred costs of \$84.7 million and committed to an additional estimated \$41.0 million for development and drilling costs related to the above property transactions.

In June 2005, ERT acquired a mature property package on the Gulf of Mexico shelf from Murphy Exploration & Production Company USA (Murphy), a wholly owned subsidiary of Murphy Oil Corporation. The acquisition cost to ERT included both cash (\$163.5 million) and the assumption of the abandonment liability from Murphy of approximately \$32.0 million (a non-cash investing activity). The acquisition represents essentially all of Murphy's Gulf of Mexico Shelf properties consisting of eight operated and eleven non-operated fields. ERT estimated proved reserves of the acquisition to be approximately 75 BCF equivalent. The results of the acquisition are included in the accompanying condensed consolidated statements of operations since the date of purchase. The purchase price allocation was finalized during the second quarter of 2006.

Note 4 Acquisitions

In April 2005, we agreed to acquire the diving and shallow water pipelay assets of Acergy US Inc. (formerly known as Stolt Offshore, Inc.) (Acergy) that operate in the waters of the Gulf of Mexico (GOM) and Trinidad. The transaction included: seven diving support vessels; two diving and pipelay vessels (the *Kestrel* and the *DLB 801*); a portable saturation diving system; various general diving equipment and Louisiana operating bases at the Port of Iberia and Fourchon. All of the assets are included in the Shelf Contracting segment. The transaction required regulatory approval, including the completion of a review pursuant to a Second Request from the U.S. Department of Justice. On October 18, 2005, we received clearance from the U.S. Department of Justice to close the asset purchase from Acergy. Under the terms of the clearance, we will divest one diving support vessel and have disposed of one diving support vessel and a portable saturation diving system from the combined asset package acquired through this transaction and the Torch Offshore, Inc. transaction, which closed August 31, 2005. These assets were included in assets held for sale totaling \$1.0 million and \$7.8 million (included in other current assets in the accompanying consolidated balance sheet) as of June 30, 2006 and December 31, 2005, respectively. On November 1, 2005, we closed the transaction to purchase the Acergy diving assets operating in the Gulf of Mexico. The assets include: seven diving support vessels, a portable saturation diving system, various general diving equipment and Louisiana operating lease at the Port of Iberia and Fourchon. We acquired the *DLB 801* in January 2006 for approximately \$38.0 million and the *Kestrel* for approximately \$39.9 million in March 2006 and we paid approximately \$274,000 additional transaction cost related to the Acergy acquisitions in 2006.

Table of Contents

The Acergy acquisition was accounted for as a business purchase with the acquisition price allocated to the assets acquired and liabilities assumed based upon their fair values, with the excess being recorded as goodwill. The final valuation of net assets was completed in the second quarter of 2006. The total transaction value for all of the assets was approximately \$124.3 million. As of June 30, 2006, the allocation of the Acergy purchase prices was as follows (in thousands):

Vessels	\$ 94,583
Goodwill	11,594
Portable saturation system and diving equipment	9,494
Facilities, land and leasehold improvements	4,314
Customer relationships intangible asset ⁽¹⁾	3,698
Materials and supplies	631
Total	\$ 124,314

(1) The customer relationship intangible asset is amortized over eight years on a straight-line basis, or approximately \$463,000 per year.

The results of the acquired assets are included in the accompanying condensed consolidated statements of operations since the date of the purchase. Pro forma combined operating results adjusted to reflect the results of operations of the *DLB 801* and the *Kestrel* prior to their acquisition from Acergy in January and March 2006, respectively, are not provided because the 2006 pre-acquisition results related to these vessels were immaterial.

Subsequent to our purchase of the *DLB 801*, we sold a 50% interest in the vessel in January 2006 for approximately \$19.0 million. We received \$6.5 million in cash in 2005 and a \$12.5 million interest-bearing promissory note in 2006. We have received \$9.0 million of the promissory note and expect to collect the remaining balance in the third quarter of 2006. Subsequent to the sale of the 50% interest, we entered into a 10-year charter lease agreement with the purchaser, in which the lessee has an option to purchase the remaining 50% interest in the vessel beginning in January 2009. This lease was accounted for as an operating lease. Included in our lease accounting analysis was an assessment of the likelihood of the lessee performing under the full term of the lease. The carrying amount of the *DLB 801* at June 30, 2006, was approximately \$18.2 million. Minimum future rentals to be received on this lease are \$69.8 million through January 2016. In addition, under the lease agreement, the lessee is able to credit \$2.35 million of its lease payments per year against the remaining 50% interest in the *DLB 801* not already owned.

On November 3, 2005, we acquired Helix Energy Limited for approximately \$32.7 million (approximately \$27.1 million in cash, including transaction costs, and \$5.6 million at time of acquisition in a two-year, variable rate note payable to certain former owners), offset by \$3.4 million of cash acquired. Helix Energy Limited is an Aberdeen, UK based provider of reservoir and well technology services to the upstream oil and gas industry with offices in London, Kuala Lumpur (Malaysia) and Perth (Australia). The acquisition was accounted for as a business purchase with the acquisition price allocated to the assets acquired and liabilities assumed based upon their estimated fair values, with the excess being recorded as goodwill. The allocation of the purchase price resulted in \$8.9 million allocated to net working capital, equipment and other assets acquired, \$1.1 million allocated to patented technology

(to be amortized over 20 years), \$6.9 million allocated to a customer-relationship intangible asset (to be amortized over 12 years), \$2.4 million allocated to covenants-not-to-compete (to be amortized over 3.5 years), \$6.3 million allocated to trade name (not amortized, but tested for impairment on an annual basis) and goodwill of approximately \$6.6 million. Resulting amounts are included in the Contracting Services segment. The final valuation of assets acquired and liabilities assumed was completed in the first quarter of 2006. The results of Helix Energy Limited are included in the accompanying condensed consolidated statements of operations since the date of the purchase.

Table of Contents

In January 2006, the *Caesar* (formerly known as the *Baron*), a four year old mono-hull vessel, originally built for the cable lay market, was acquired by our subsidiary Vulcan Marine Technology LLC (Vulcan) for the Contracting Services segment for approximately \$27.5 million in cash. It is currently under charter to a third-party. After completion of the charter (anticipated to end by the end of 2006), we plan to convert the vessel into a deepwater pipelay asset. The vessel is 485 feet long and already has a state-of-the-art, class 2, dynamic positioning system. The conversion program will primarily involve the installation of a conventional S lay pipelay system together with a main crane and a significant upgrade to the accommodation capability. A conversion team has already been assembled with a base at Rotterdam, The Netherlands, and the vessel is likely to enter service by mid-2007. We have entered into an agreement with the third-party currently leasing the vessel, whereby, the third-party has an option to purchase up to 49% of Vulcan for consideration totaling (i) \$32.0 million cash prior to the vessel entering conversion plus its proportionate share of actual conversion costs (total conversion cost estimated to be \$93 million), or (ii) once conversion begins, proportionate share (up to 49%) of total vessel and conversion costs (estimated to be \$120 million). The third-party must make all contributions to Vulcan on or before December 28, 2006.

Note 5 Details of Certain Accounts (in thousands)

Other current assets consisted of the following as of June 30, 2006 and December 31, 2005:

Note 6 Equity Investments

In June 2002, we, along with Enterprise Products Partners L.P. (Enterprise), formed Deepwater Gateway, L.L.C. to design, construct, install, own and operate a tension leg platform (TLP) production hub primarily for Anadarko Petroleum Corporation's *Marco Polo* field discovery in the Deepwater Gulf of Mexico. Our investment in Deepwater Gateway, L.L.C. totaled \$117.4 million and \$117.2 million as of June 30, 2006 and December 31, 2005, respectively. Further, for the six months ended June 30, 2006 and 2005, we received cash distributions from Deepwater Gateway, L.L.C. totaling \$7.8 million and \$13.6 million, respectively.

In December 2004, we acquired a 20% interest in Independence, an affiliate of Enterprise. Independence will own the Independence Hub platform to be located in Mississippi Canyon block 920 in a water depth of 8,000 feet. Our investment was \$71.3 million and \$50.8 million as of June 30, 2006 and December 31, 2005, respectively, and our total investment is expected to be approximately \$83 million. Further, we are party to a guaranty agreement with Enterprise to the extent of our ownership in Independence. The agreement states, among other things, that Enterprise and we guarantee performance under the Independence Hub Agreement between Independence and the producers group of exploration and production companies up to \$397.5 million, plus applicable attorneys' fees and related expenses. We have estimated the fair value of our share of the guarantee obligation to be immaterial at June 30, 2006 based upon the remote possibility of payments being made under the performance guarantee.

In July 2005, we acquired a 40% minority ownership interest in OTSL in exchange for our DP DSV, *Witch Queen*. Our investment in OTSL totaled \$14.1 million and \$11.5 million at June 30, 2006 and December 31, 2005. OTSL provides marine construction services to the oil and gas industry in and around Trinidad and Tobago, as well as the U.S. Gulf of Mexico. Effective December 31, 2003, we adopted and applied the provisions of FASB Interpretation (FIN) No. 46, *Consolidation of Variable Interest Entities*, as revised December 31, 2003, for all variable interest entities. FIN 46 requires the consolidation of variable interest entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. OTSL qualified as a variable interest entity (VIE) under FIN 46 through June 30, 2006. We have determined that we were not the primary beneficiary of OTSL and, thus, have not consolidated the financial results of OTSL. We account for our investment in OTSL under the equity method of accounting.

Table of Contents

Further, in conjunction with our investment in OTSL, we entered into a one year, unsecured \$1.5 million working capital loan, initially bearing interest at 6% per annum, with OTSL. Interest is due quarterly beginning September 30, 2005 with a lump sum principal payment originally due to us on June 30, 2006. In July 2006, we extended the lump sum principal payment due date to September 15, 2006 and increased the interest rate to three-month LIBOR plus 4.0%.

In the first quarter of 2006, OTSL contracted the *Witch Queen* to us for certain services performed in the U.S. Gulf of Mexico. We incurred costs associated with the contract with OTSL totaling approximately \$6.9 million in the first quarter of 2006. The charter ended in March 2006.

Note 7 Long-Term Debt*Convertible Senior Notes*

On March 30, 2005, we issued \$300 million of 3.25% Convertible Senior Notes due 2025 (Convertible Senior Notes) at 100% of the principal amount to certain qualified institutional buyers. The Convertible Senior Notes are convertible into cash and, if applicable, shares of our common stock based on the specified conversion rate, subject to adjustment.

The Convertible Senior Notes can be converted prior to the stated maturity under certain triggering events as specified in the indenture governing the Convertible Senior Notes. To the extent we do not have alternative long-term financing secured to cover the conversion, the Convertible Senior Notes would be classified as a current liability in the accompanying balance sheet. During the second quarter of 2006, no conversion triggers were met.

Approximately 1.3 million shares and 1.2 million shares underlying the Convertible Senior Notes were included in the calculation of diluted earnings per share for the three and six months ended June 30, 2006, respectively, because our average share price for the respective periods was above the conversion price of approximately \$32.14 per share. As a result, there would be a premium over the principal amount, which is paid in cash, and the shares would be issued on conversion. The maximum number of shares of common stock which may be issued upon conversion of the Convertible Senior Notes is 13,303,770.

As of June 30, 2006 and December 31, 2005, we estimated the fair value of our \$300 million (carrying value) fixed-rate debt to be \$447.0 million and \$433.7 million, respectively, based upon quoted market prices.

MARAD Debt

At June 30, 2006, \$133.1 million was outstanding on our long-term financing for construction of the *Q4000*. This U.S. Government guaranteed financing is pursuant to Title XI of the Merchant Marine Act of 1936 which is administered by the Maritime Administration (MARAD Debt). The MARAD Debt is payable in equal semi-annual installments which began in August 2002 and matures 25 years from such date. The MARAD Debt is collateralized by the *Q4000*, with us guaranteeing 50% of the debt, and initially bore interest at a floating rate which approximated AAA Commercial Paper yields plus 20 basis points. As provided for in the MARAD Debt agreements, in September 2005, we fixed the interest rate on the debt through the issuance of a 4.93% fixed-rate note with the same maturity date (February 2027). In accordance with the MARAD Debt agreements, we are required to comply with certain covenants and restrictions, including the maintenance of minimum net worth, working capital and debt-to-equity requirements. As of June 30, 2006, we were in compliance with these covenants.

Table of Contents

In September 2005, we entered into an interest rate swap agreement with a bank. The swap was designated as a cash flow hedge of a forecasted transaction in anticipation of the refinancing of the MARAD Debt from floating rate debt to fixed-rate debt that closed on September 30, 2005. The interest rate swap agreement totaled an aggregate notional amount of \$134.9 million with a fixed interest rate of 4.695%. On September 30, 2005, we terminated the interest rate swap and received cash proceeds of approximately \$1.5 million representing a gain on the interest rate differential. This gain was deferred and is being amortized over the remaining life of the MARAD Debt as an adjustment to interest expense.

Revolving Credit Facilities

In August 2004, we entered into a four-year, \$150 million revolving credit facility with a syndicate of banks, with Bank of America, N.A. as administrative agent and lead arranger. We cancelled this credit facility on June 30, 2006 and replaced it with a revolving credit facility that became effective on July 3, 2006 (see Note 21 below). As a result, we expensed the remaining unamortized deferred financing cost of \$407,000 as of June 30, 2006.

Other

In connection with the acquisition of Helix Energy Limited, we entered into a two-year note payable to the former owners totaling approximately 3.1 million British Pounds, or approximately \$5.6 million on November 3, 2005 (approximately \$5.8 million at June 30, 2006). The notes bear interest at a LIBOR based floating rate with interest payments due quarterly beginning January 1, 2006. Principal amounts are due in November 2007.

Scheduled maturities of Long-term Debt and Capital Lease Obligations outstanding as of June 30, 2006 were as follows (in thousands):

	MARAD Debt	Convertible Senior Notes	Loan Notes	Capital Leases	Total
Less than one year	\$ 3,731	\$	\$	\$ 2,585	\$ 6,316
One to two years	3,917		5,796	2,559	12,272
Two to Three years	4,113			217	4,330
Three to four years	4,318				4,318
Four to five years	4,533				4,533
Over five years	112,517	300,000			412,517
Long-term debt	133,129	300,000	5,796	5,361	444,286
Current maturities	(3,731)			(2,585)	(6,316)
Long-term debt, less current maturities	\$ 129,398	\$ 300,000	\$ 5,796	\$ 2,776	\$ 437,970

We had unsecured letters of credit outstanding at June 30, 2006 totaling approximately \$6.9 million. These letters of credit primarily guarantee various contract bidding and insurance activities.

We capitalized interest totaling \$1.2 million and \$2.4 million during the three and six months ended June 30, 2006, respectively. For the three and six months ended June 30, 2005, we capitalized interest totaling \$514,000 and \$587,000, respectively. We incurred interest expense of \$4.9 million and \$9.5 million during the three and six months ended June 30, 2006, respectively, and \$4.1 million and \$5.5 million during the three and six months ended June 30, 2005, respectively.

Table of Contents**Note 8 Income Taxes**

The effective tax rate of 34% for the three and six months ended June 30, 2006, respectively, was lower than the effective rate of 36% for the same periods in 2005 due to our ability to realize foreign tax credits and oil and gas percentage depletion due to improved profitability both domestically and in foreign jurisdictions and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production.

Note 9 Convertible Preferred Stock

On January 8, 2003, we completed the private placement of \$25 million of a newly designated class of cumulative convertible preferred stock (Series A-1 Cumulative Convertible Preferred Stock, par value \$0.01 per share) that is convertible into 1,666,668 shares of our common stock at \$15 per share. The preferred stock was issued to a private investment firm. Subsequently in June 2004, the preferred stockholder exercised its existing right and purchased \$30 million in additional cumulative convertible preferred stock (Series A-2 Cumulative Convertible Preferred Stock, par value \$0.01 per share). In accordance with the January 8, 2003 agreement, the \$30 million in additional preferred stock is convertible into 1,964,058 shares of Helix common stock at \$15.27 per share. In the event the holder of the convertible preferred stock elects to redeem into Helix common stock and our common stock price is below the conversion prices, unless we have elected to settle in cash, the holder would receive additional shares above the 1,666,668 common shares (Series A-1 tranche) and 1,964,058 common shares (Series A-2 tranche). The incremental shares would be treated as a dividend and reduce net income applicable to common shareholders.

The preferred stock has a minimum annual dividend rate of 4%, subject to adjustment (approximately 5.85% at June 30, 2006), payable quarterly in cash or common shares at our option. We paid these dividends in 2006 and 2005 on the last day of the respective quarter in cash. The holder may redeem the value of its original and additional investment in the preferred shares to be settled in common stock at the then prevailing market price or cash at our discretion. In the event we are unable to deliver registered common shares, we could be required to redeem in cash.

The proceeds received from the sales of this stock, net of transaction costs, have been classified outside of shareholders' equity on the balance sheet below total liabilities. Prior to the conversion, common shares issuable are assessed for inclusion in the weighted average shares outstanding for our diluted earnings per share using the if-converted method based on the lower of our share price at the beginning of the applicable period or the applicable conversion price (\$15.00 and \$15.27).

Note 10 Hedging Activities

Our price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to our oil and gas production. All derivatives are reflected in our balance sheet at fair value. During 2005 and the first half of 2006, we entered into various cash flow hedging costless collar contracts to stabilize cash flows relating to a portion of our expected oil and gas production. All of these qualified for hedge accounting. The aggregate fair value of the hedge instruments was a net liability of \$9.6 million and \$13.4 million as of June 30, 2006 and December 31, 2005, respectively. We recorded unrealized gains (losses) of approximately \$(788,000) and \$2.4 million, net of tax (expense) benefit of \$424,000 and \$(1.3 million), during the three and six months ended June 30, 2006, respectively, in accumulated other comprehensive income (loss), a component of shareholders' equity, as these hedges were highly effective. For the three and six months ended June 30, 2005, we recorded \$3.7 million and \$6.7 million, respectively, of unrealized losses, net of tax benefit of \$2.0 million and \$3.6 million, respectively. During the three and six months ended June 30, 2006, we reclassified approximately \$1.4 million and \$6.3 million of gains, respectively, from other comprehensive income to Oil and Gas Production revenues upon the sale of the related oil and gas production. For the three and six months ended June 30, 2005, we reclassified approximately \$1.7 million and \$3.0 million, respectively, of losses from other comprehensive income to Oil and Gas Production revenues.

Table of Contents

As of June 30, 2006, we had the following volumes under derivative contracts related to our oil and gas producing activities:

Production Period	Instrument Type	Average Monthly Volumes	Weighted Average Price	
Crude Oil:				
July 2006 - December 2006	Collar	125 MBbl	\$ 44.00	\$70.48
January 2007 - December 2007	Collar	50 MBbl	\$ 40.00	\$62.15
Natural Gas:				
July 2006 - December 2006	Collar	600,000 MMBtu	\$ 7.25	\$13.40
January 2007 - June 2007	Collar	550,000 MMBtu	\$ 8.00	\$13.69
July 2007 - December 2007	Collar	233,333 MMBtu	\$ 7.50	\$10.79

We have not entered into any hedge instruments subsequent to June 30, 2006.

As of June 30, 2006, Remington Oil and Gas Corporation (Remington) had oil forward sales contracts for the period from July 2006 through June 2007. The contracts cover 50.7 MBbl per month at a weighted average price of \$70.48. In addition, Remington had natural gas forward sales contracts for the period from July 2006 through June 2007. The contracts cover 733,000 MMBtu per month at a weighted average price of \$9.31. These hedges do not qualify for hedge accounting.

Note 11 Foreign Currency

The functional currency for our foreign subsidiaries, Well Ops (U.K.) Limited and Helix Energy Limited, is the applicable local currency (British Pound). Results of operations for these subsidiaries are translated into U.S. dollars using average exchange rates during the period. Assets and liabilities of these foreign subsidiaries are translated into U.S. dollars using the exchange rate in effect at the balance sheet date, and the resulting translation adjustment, which were unrealized gains of \$7.8 million and \$9.0 million for the three and six months ended June 30, 2006, respectively, is included in accumulated other comprehensive income (loss), a component of shareholders' equity. For the three and six months ended June 30, 2005, we recorded \$5.0 million and \$6.7 million, respectively, of unrealized losses in accumulated other comprehensive income relate to translation adjustment. Deferred taxes have not been provided on foreign currency translation adjustments since we consider our undistributed earnings (when applicable) of our non-U.S. subsidiaries to be permanently reinvested. All foreign currency transaction gains and losses are recognized currently in the statements of operations. These amounts for the three months and six months ended June 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

Canyon Offshore, Inc. (Canyon), our ROV subsidiary, has operations in the United Kingdom and Southeast Asia sectors. Canyon conducts the majority of its operations in these regions in U.S. dollars which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the three and six months ended June 30, 2006 and 2005, respectively, were not material to our results of operations or cash flows.

Table of Contents**Note 12 Comprehensive Income**

The components of total comprehensive income for the three and six months ended June 30, 2006 and 2005 were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Net income	\$ 69,944	\$ 26,577	\$ 126,137	\$ 52,537
Foreign currency translation gain (loss)	7,846	(5,041)	9,006	(6,677)
Unrealized gain (loss) on commodity hedges, net	(788)	(3,683)	2,443	(6,736)
Total comprehensive income	\$ 77,002	\$ 17,853	\$ 137,586	\$ 39,124

The components of accumulated other comprehensive income (loss) were as follows (in thousands):

	June 30, 2006	December 31, 2005
Cumulative foreign currency translation adjustment	\$ 15,985	\$ 6,979
Unrealized loss on commodity hedges, net	(6,265)	(8,708)
Accumulated other comprehensive income (loss)	\$ 9,720	\$ (1,729)

Note 13 Earnings Per Share

Basic earnings per share (EPS) is computed by dividing the net income available to common shareholders by the weighted-average shares of outstanding common stock. The calculation of diluted EPS is similar to basic EPS, except the denominator includes dilutive common stock equivalents and the income included in the numerator excludes the effects of the impact of dilutive common stock equivalents, if any. The computation of basic and diluted per share amounts were as follows (in thousands):

	Three Months Ended June 30, 2006		Three Months Ended June 30, 2005	
	Income	Shares	Income	Shares
Earnings applicable per common share Basic	\$ 69,139	78,462	\$ 26,027	77,444
Effect of dilutive securities:				
Stock options		414		696
Restricted shares		137		192
Employee stock purchase plan		4		
Convertible Senior Notes		1,317		
Convertible preferred stock	805	3,631	550	3,631
Earnings applicable per common share Diluted	\$ 69,944	83,965	\$ 26,577	81,963

	Six Months Ended June 30, 2006		Six Months Ended June 30, 2005	
	Income	Shares	Income	Shares
Earnings applicable per common share Basic	\$ 124,528	78,216	\$ 51,437	77,294
Effect of dilutive securities:				

Edgar Filing: HELIX ENERGY SOLUTIONS GROUP INC - Form 10-Q

Stock options		513		737
Restricted shares		122		188
Employee stock purchase plan		7		
Convertible Senior Notes		1,170		
Convertible preferred stock	1,609	3,631	1,100	3,631
Earnings applicable per common share	Diluted	\$ 126,137	83,659	\$ 52,537
				81,850

Table of Contents

There were no antidilutive stock options in the three and six months ended June 30, 2006 and 2005, respectively. Net income for the diluted earnings per share calculation for the three and six months ended June 30, 2006 and 2005 was adjusted to add back the preferred stock dividends on the 3.6 million shares.

Note 14 Stock-Based Compensation Plans

We have three stock-based compensation plans: the 1995 Long-Term Incentive Plan, as amended (the 1995 Incentive Plan), the 2005 Long-Term Incentive Plan (the 2005 Incentive Plan) and the 1998 Employee Stock Purchase Plan (the ESPP). Under the 1995 Incentive Plan, a maximum of 10% of the total shares of common stock issued and outstanding may be granted to key executives and selected employees who are likely to make a significant positive impact on our reported net income as well as non-employee members of the Board of Directors. Following the approval by shareholders of the 2005 Incentive Plan on May 10, 2005, no further grants have been or will be made under the 1995 Plan. The aggregate number of shares that may be granted under the 2005 Incentive Plan is 6,000,000 shares (after adjustment for the December 8, 2005 two-for-one stock split) of which 4,000,000 shares may be granted in the form of restricted stock or restricted stock units and 2,000,000 shares may be granted in the form of stock options. The 1995 and 2005 Incentive Plans and the ESPP are administered by the Compensation Committee of the Board of Directors, which in the case of the 1995 and 2005 Incentive Plans, determines the type of award to be made to each participant and set forth in the related award agreement, the terms, conditions and limitations applicable to each award. The committee may grant stock options, stock and cash awards. Awards granted to employees under the 1995 and 2005 Incentive Plan typically vest 20% per year for a five-year period (or in the case of certain stock option awards under the 1995 Incentive Plan, 33% per year for a three-year period), if in the form of stock options, have a maximum exercise life of ten years and, subject to certain exceptions, are not transferable.

Prior to January 1, 2006, we used the intrinsic value method of accounting for our stock-based compensation. Accordingly, no compensation expense was recognized when the exercise price of an employee stock option was equal to the common share market price on the grant date and all other terms were fixed. In addition, under the intrinsic value method, on the date of grant for restricted shares, we recorded unearned compensation (a component of shareholders' equity) that equaled the product of the number of shares granted and the closing price of our common stock on the grant date, and expense was recognized over the vesting period of each grant on a straight-line basis.

We began accounting for our stock-based compensation plans under the fair value method beginning January 1, 2006. We continue to use the Black-Scholes option pricing model for valuing share-based payments and recognize compensation cost on a straight-line basis over the respective vesting period. No forfeitures were estimated for outstanding unvested options and restricted shares as historical forfeitures have been immaterial. We have selected the modified-prospective method of adoption, which requires that compensation expense be recorded for all unvested stock options and restricted stock beginning in 2006 as the requisite service is rendered. In addition to the compensation cost recognition requirements, tax deduction benefits for an award in excess of recognized compensation cost is reported as a financing cash flow rather than as an operating cash flow. The adoption did not have a material impact on our consolidated results of operations, earnings per share and cash flows. There were no stock option grants in the first half of 2006 or 2005.

Table of Contents

The following table reflects our pro forma results if the fair value method had been used for the accounting for these plans for the three and six months ended June 30, 2005 (in thousands, except per share amounts):

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Net income applicable to common shareholders:		
As Reported	\$ 26,027	\$ 51,437
Add back: Stock-based compensation cost included in reported net income, net of taxes	130	254
Deduct: Total stock-based compensation cost determined under the fair value method, net of tax	(594)	(1,051)
Pro Forma	\$ 25,563	\$ 50,640
Earnings per common share:		
Basic:		
As reported	\$ 0.34	\$ 0.67
Pro forma	\$ 0.33	\$ 0.66
Diluted:		
As reported	\$ 0.32	\$ 0.64
Pro forma	\$ 0.32	\$ 0.63

For the purposes of pro forma disclosures, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. The estimated fair value of the option is amortized to pro forma expense over the vesting period.

On January 3, 2005, we granted 188,132 restricted shares to key executives and selected management employees, which vest 20% per year for a five-year period. The market value (based on the quoted price of the common stock on the business day prior to the date of the grant) of the restricted shares was \$19.56 per share, or \$3.7 million, at the date of the grant. The amounts granted were recorded as unearned compensation, a component of shareholders' equity, and charged to expense over the respective vesting periods. Amortization of unearned compensation totaled \$204,000 and \$397,000 for the three and six months ended June 30, 2005, respectively. Awards are amortized directly to expense and additional paid in capital (a component of Common Stock). The balance in unearned compensation at December 31, 2005 was \$7.5 million and was reversed in January 2006 upon adoption of the fair value method.

During the six months ended June 30, 2006, we made the following restricted share grants to members of our board of directors, key executives and selected management employees (market value is based on the quoted price of the common stock on the business day prior to the date of grant):

196,820 restricted shares on January 3, 2006 which vest 20% per year for a five-year period. The market value of the restricted shares was \$35.89 per share, or \$7.1 million, at the date of the grant;

Edgar Filing: HELIX ENERGY SOLUTIONS GROUP INC - Form 10-Q

1,705 restricted shares on March 1, 2006 which vest 20% per year for a five-year period. The market value of the restricted shares was \$35.21 per share, or approximately \$60,000, at the date of the grant;

10,000 restricted shares on March 20, 2006 which vest 20% per year for a five-year period. The market value of the restricted shares was \$35.61 per share, or approximately \$356,000, at the date of the grant;

3,207 restricted shares on April 3, 2006 which vest on January 1, 2008. The market value of the restricted shares was \$37.90 per share, or approximately \$122,000, at the date of the grant;

Table of Contents

2,140 restricted shares on May 8, 2006 which vest 20% per year for a five-year period. The market value of the restricted shares was \$42.91 per share, or approximately \$92,000, at the date of the grant; and

4,180 restricted shares on June 30, 2006 which vest 20% per year for a five-year period. The market value of the restricted shares was \$35.92 per share, or approximately \$150,000, at the date of the grant.

For the three and six months ended June 30, 2006, \$1.7 million and \$3.2 million, respectively, was recognized as compensation expense related to unvested stock options and restricted shares. Total compensation cost related to nonvested awards not yet recognized at June 30, 2006 is approximately \$16.4 million.

Subsequent to June 30, 2006, we granted 148,665 and 24,780 restricted shares to key executives retained from Remington (see Note 21). These shares vest 60% after the third anniversary and 20 % there after for a five-year period and 50% for a two-year period, respectively. The market value of the restricted shares was \$40.36 per share, or approximately \$6.0 million and \$1.0 million, respectively, at the date of grant. In addition, we granted 12,390 restricted shares to a new member of our Board of Directors. These shares vest 20% per year for a five-year period. The market value of the restricted shares was \$40.36 per share, or approximately \$500,000.

All of the options outstanding at June 30, 2006, have exercise prices as follows: 163,000 shares at \$8.57; 67,510 shares at \$9.32; 117,346 shares at \$10.92; 73,000 shares at \$10.94; 64,800 shares at \$11.00; 195,320 shares at \$12.18; 70,400 shares at \$13.91; and 211,800 shares ranging from \$8.14 to \$12.00, and a weighted average remaining contractual life of 6.24 years.

Options outstanding are as follows:

	June 30, 2006		June 30, 2005	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price

Effective May 12, 1998, we adopted a qualified, non-compensatory ESPP, which allows employees to acquire shares of common stock through payroll deductions over a six month period. The purchase price is equal to 85 percent of the fair market value of the common stock on either the first or last day of the subscription period, whichever is lower. Purchases under the plan are limited to 10 percent of an employee's base salary. Under this plan 41,006 and 42,224 shares of common stock were purchased in the open market at a share price of \$26.14 and \$15.26 during the six months ended June 30, 2006 and 2005, respectively, related to the purchase periods for the second half of 2005 and 2004, respectively. In July 2006, 56,592 shares of common stock were purchased in the open market at a share price of \$38.17 related to the purchase period for the first half of 2006. For the six months ended June 30, 2006, we recognized \$568,000 of compensation expense related to stock purchased under the ESPP. No expenses related to the ESPP were recognized in 2005 under the intrinsic value method.

Table of Contents**Note 15 Stock Buyback Program**

On June 28, 2006, our Board of Directors authorized the Company to discretionarily purchase up to \$50 million of our common stock in the open market. The timing of any share repurchases under the program will depend on a variety of factors, including market conditions, and may be suspended and discontinued at any time. Common stock acquired through the program will be accounted for as treasury shares. As of June 30, 2006, no shares were purchased under this program.

Note 16 Business Segment Information (in thousands)

In the fourth quarter of 2005, we modified our segment reporting from three reportable segments to four reportable segments. Our operations are conducted through the following primary reportable segments: Contracting Services (formerly known as Deepwater Contracting), Shelf Contracting, Oil and Gas Production and Production Facilities. The realignment of reportable segments was attributable to organizational changes within the Company as it is related to separating Marine Contracting into two reportable segments Contracting Services and Shelf Contracting. Contracting Services operations include deepwater pipelay, well operations and robotics. Shelf Contracting operations consist of assets deployed primarily for diving-related activities and shallow water construction. See Note 20 for discussion of potential initial public offering of Cal Dive International, Inc. (CDI) common stock (represented by the Shelf Contracting segment). As a result, segment disclosures for the prior period have been restated to conform to the current period presentation. All intercompany transactions between the segments have been eliminated.

Shelf contracting	749		749	
Total	\$ 997	\$	\$ 997	\$

During the three and six months ended June 30, 2006, we derived \$33.2 million and \$62.3 million, respectively, of our revenues from the U.K. sector, utilizing \$185.8 million of our total assets in this region. During the three and six months ended June 30, 2005, we derived \$18.0 million and \$48.7 million, respectively, of our revenues from the U.K. sector utilizing \$137.0 million of our total assets in this region. The majority of the remaining revenues were generated in the U.S. Gulf of Mexico.

Note 17 Related Party Transactions

In April 2000, ERT acquired a 20% working interest in *Gunnison*, a Deepwater Gulf of Mexico prospect of Kerr-McGee Oil & Gas Corp. Financing for the exploratory costs of approximately \$20 million was provided by an investment partnership (OKCD Investments, Ltd. or OKCD). The investors of this entity include current and former Helix senior management, in exchange for a revenue interest that is an overriding royalty interest of 25% of our 20% working interest. Production began in December 2003. Payments to OKCD from ERT totaled \$9.0 million and \$19.4 million in the three and six months ended June 30, 2006, respectively, and \$6.7 million and \$13.2 million in the three and six months ended June 30, 2005, respectively.

Note 18 Commitments and Contingencies*Commitments*

At June 30, 2006, we had committed to convert a certain Contracting Services vessel (the *Caesar*, acquired in January 2006 for \$27.5 million in cash) into a deepwater pipelay vessel. Total conversion costs are estimated to be approximately \$93 million, of which \$15.2 million had been committed at June 30, 2006. In addition, we will upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$29.5 million had been committed at June 30, 2006.

Table of Contents

In December 2005, we entered into a memorandum of understanding to acquire the business of Singapore-based Fraser Diving International Ltd. (FDI) for \$23.5 million. FDI owns six portable saturation diving systems and 15 surface diving systems that operate primarily in Southeast Asia and the Middle East. As a part of the proposed purchase, in December 2005, a payment of an additional \$2.5 million was made to FDI for the purchase of one of the portable saturation diving systems. We also paid FDI \$2.5 million and issued an irrevocable letter of credit for an additional \$2.5 million to FDI that constitutes a non-refundable deposit totaling \$5.0 million. The purchase of FDI was completed in July 2006.

Contingencies

We are involved in various routine legal proceedings, primarily involving claims for personal injury under the General Maritime Laws of the United States and the Jones Act as a result of alleged negligence. In addition, we, from time to time, incur other claims, such as contract disputes, in the normal course of business. In that regard, in 1998, one of our subsidiaries entered into a subcontract with Seacore Marine Contractors Limited (Seacore) to provide the *Sea Sorceress* to a Coflexip subsidiary in Canada (Coflexip). Due to difficulties with respect to the sea and soil conditions, the contract was terminated and an arbitration to recover damages was commenced. A preliminary liability finding has been made by the arbitrator against Seacore and in favor of the Coflexip subsidiary. We were not a party to this arbitration proceeding. Seacore and Coflexip settled this matter prior to the conclusion of the arbitration proceeding, with Seacore paying Coflexip \$6.95 million CDN. Seacore has initiated an arbitration proceeding against Cal Dive Offshore Ltd. (CDO), a subsidiary of ours, seeking contribution for half of this amount. One of the grounds in the preliminary findings by the arbitrator is applicable to CDO, and CDO holds substantial counterclaims against Seacore.

Although the above discussed matters may have the potential for additional liability, we believe the outcome of all such matters and proceedings will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

We sustained damage to certain of our oil and gas production facilities in Hurricanes *Katrina* and *Rita*. We estimate total repair and inspection costs resulting from the hurricanes will range from \$5 million to \$8 million net of expected insurance reimbursement. These costs, and any related insurance reimbursements, will be recorded as incurred this year.

Note 19 Recently Issued Accounting Principles

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN 48), which clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, *Accounting for Income Taxes* (SFAS No. 109). FIN 48 clarifies the application of SFAS No. 109 by defining criteria that an individual tax position must meet for any part of the benefit of that position to be recognized in the financial statements. Additionally, FIN 48 provides guidance on the measurement, derecognition, classification and disclosure of tax positions, along with accounting for the related interest and penalties. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact the adoption of FIN 48 will have on our financial position, results of operations and cash flows.

Table of Contents

Note 20 Pending Transaction

On May 31, 2006, we announced that CDI, a wholly owned subsidiary of the Company, filed a Registration Statement on Form S-1 with the SEC for the initial public offering of a minority interest in CDI's common stock. An amended Form S-1 was subsequently filed on July 7, 2006. CDI represents our Shelf Contracting segment that provides manned diving, pipelay and pipe burial services to the offshore oil and natural gas industry. The amended registration statement has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the amended registration statement becomes effective.

Note 21 Subsequent Event

Remington Acquisition

As of July 1, 2006, we effected the acquisition of Remington, an independent oil and gas exploration and production company headquartered in Dallas, Texas, with operations concentrating in the onshore and offshore regions of the Gulf Coast, for approximately \$1.4 billion in cash and stock. The merger consideration was 0.436 of a share of our common stock and \$27.00 in cash for each share of Remington common stock. On July 1, 2006, we issued 13,032,528 shares of our common stock to Remington shareholders and funded the cash portion of the Remington acquisition (approximately \$807.7 million) through a credit agreement (see below).

The cash portion of the merger consideration was financed from borrowings under a credit agreement we entered into in conjunction with the merger. On July 3, 2006, we
