Item 2.05. Costs Associated with Exit or Disposal Activities.

On June 25, 2008, Starbucks Corporation (Starbucks or the Company) committed to move forward with a plan to close approximately 600 underperforming Company-operated stores in the U.S. market. This decision is a result of a rigorous evaluation by the Company of its U.S. Company-operated store portfolio and includes the 100 stores targeted for closure in the Company s previously announced plans. The majority of the store closures are scheduled to occur during the remainder of fiscal 2008 and the first half of fiscal 2009. The timing of the closures is dependent on finalizing third-party agreements, and is therefore subject to change.

The U.S. Company-operated stores identified for closure are spread across all major U.S. markets with approximately 70 percent of them opened since the beginning of fiscal 2006. The Company used several criteria to identify stores for closure that included locations that were not profitable at the store level and were not projected to provide acceptable returns in the foreseeable future. In addition to site and market-specific criteria, consideration was given to the impact of current and anticipated economic trends.

As many as 12,000 full-time and part-time retail positions will be eliminated over the course of the store closures, representing approximately seven percent of the Company s global workforce. The Company expects to place many of the affected partners (employees) into available positions at nearby Starbucks stores.

Pre-tax charges related to the store closures include approximately \$200 million of asset write-offs to be recognized in the third quarter of fiscal 2008. In addition, a projected \$120 to \$140 million for lease termination costs and future lease obligations are currently expected, nearly all of which will be recognized in the fourth quarter of fiscal 2008 and the first half of fiscal 2009. Costs associated with severance are currently estimated to be approximately \$8 million, and the Company anticipates these charges to be recorded during the same timeframe as the store closures. The aggregate pre-tax charges associated with the planned U.S. Company-operated store closures, including costs associated with severance, are estimated to be in the range of \$328 to \$348 million. Upon the completion of the actions, cash charges are expected to result in a net cash outflow of approximately \$100 million, net of related income tax benefits.

In addition, Starbucks now expects to open fewer than 200 new U.S. Company-operated stores in fiscal 2009.

On July 1, 2008, the Company issued a press release announcing the store closures. The press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
