Director Independence and Board Committees

The Board of Directors has four standing committees: an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee and a Strategic Oversight Committee. The duties of each committee are described below. The Board of Directors has determined that each member of the Board, other than Vinod Gupta, Elliott S. Kaplan, Bill L. Fairfield, and John N. Staples III, is independent, as defined by the rules for companies listed on the NASDAQ Global Select Market.

The Audit Committee currently consists of Clifton T. Weatherford (Chair), Gary Morin and Thomas L. Thomas. Among other duties, the Audit Committee selects the Company's independent auditors, reviews and evaluates significant matters relating to the audit and internal controls of the Company, reviews the scope and results of audits by, and the recommendations of, the Company's independent auditors, and pre-approves all audit and permissible non-audit services provided by the auditors. Before the Company's independent accountant is engaged by the Company to render audit or non-audit services, the engagement is approved by the Audit Committee. Each member of the Audit Committee is independent, as independence for audit committee members is defined by the applicable rules and regulations of the SEC and the Nasdaq Global Select Market. The Audit Committee has determined that Clifton T. Weatherford, Gary Morin and Thomas L. Thomas are audit committee financial experts as that term is defined in Item 407(d)(5)(ii) of Regulation S-K.

The Compensation Committee currently consists of directors Bernard W. Reznicek (Chair), George Krauss, Roger Siboni and Thomas L. Thomas. The Compensation Committee establishes the compensation of the Company's executive officers and administering existing and future stock and option plans of the Company, including the Company's 2007 Omnibus Incentive Plan. The details of determining the compensation of its executive officers are described in Item 11, *Executive Compensation* of this Annual Report under the heading *Compensation Discussion*

and Analysis. Each member of the Compensation Committee is independent, under the applicable rules and regulations of the SEC and the Nasdaq Global Select Market.

The Nominating and Corporate Governance Committee currently consists of George Krauss (Chair), Gary Morin and Clifton T. Weatherford. The Nominating and Corporate Governance Committee identifies and recommends to the Board of Directors qualified director candidates; makes recommendations to the Board of Directors regarding Board committee membership; establishes, implements, and monitors practices and processes regarding corporate governance matters; and makes recommendations regarding management succession planning. Each member of the Nominating and Corporate Governance Committee is independent, under the applicable rules and regulations of the SEC and the Nasdaq Global Select Market.

The Strategic Oversight Committee currently consists of Roger Siboni (Chair), Bernard W. Reznicek and John N. Staples III. The Strategic Oversight Committee was formed in January 2009 to consider and oversee strategic planning at the Company in conjunction with management. There are no independence requirements for the members of the Strategic Oversight Committee.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the SEC. Such officers, directors and 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons, the Company believes that, during the fiscal year ended December 31, 2008, all Section 16(a) filing requirements applicable to its officers, directors and 10% stockholders were timely complied with, except that the following reports were filed late: four Form 3's reporting newly named Board of Directors Robin S. Chandra, George Krauss, John N. Staples III and Clifton T. Weatherford, four Form 4's reporting restricted stock unit grants for Bill L. Fairfield, Thomas Oberdorf, Thomas J. McCusker and Fred Vakili, two Form 5's reporting gifting of shares of stock for Vinod Gupta and one Form 3 reporting newly named executive officer Mark Israelsen.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers and employees, including our principal executive officer, principal financial officer and principal accounting officer. The Code of Business Conduct and Ethics is posted on the Company's website at www.infoGROUP.com under the caption Corporate Governance.

We intend to satisfy the disclosure requirement under Item 10 of Form 8-K regarding an amendment to, or waiver from, a provision of the Code of Business Conduct and Ethics by posting such information on our website, at the address and location specified above and, to the extent required by the listing standards of the NASDAQ Global Select Market, by filing a Current Report on Form 8-K with the SEC, disclosing such information.

Item 11. Executive Compensation

Compensation Discussion and Analysis

This Compensation Discussion and Analysis (CD&A) should be read in conjunction with the Summary Compensation Table and related discussion provided below. The term Named Executive Officers (NEOs) refers to the executive officers listed in the Summary Compensation Table. Our CD&A addresses the following items:

overview of executive compensation;

how we determine executive compensation;

our philosophy regarding executive compensation;

objectives of executive compensation elements;

executive compensation decisions for fiscal year 2008;

severance and change in control considerations; and

tax and accounting considerations.

Overview of Executive Compensation

The Compensation Committee of our Board of Directors (the Committee) is responsible for establishing, implementing and monitoring the administration of our executive compensation programs in accordance with the Company's compensation philosophy and strategy, and for approving executive compensation (other than for the Chief Executive Officer, for whom the Committee makes recommendations to the full Board). The Committee also works in conjunction with the Independent Directors to determine equity plan awards. The Committee seeks to reward the Company's executive officers in a fair, reasonable and competitive manner. The compensation program consists of base salary, annual short-term incentives (both performance-based and discretionary), long-term equity-based incentive compensation, and personal benefits.

During fiscal year 2008, the members of the Committee who determined the compensation of our executive officers for 2008 were Bernard W. Reznicek (Chair and member for the entire year), Robin S. Chandra (from January 25, 2008 until year end), George F. Haddix (from January 25, 2008 until August 20, 2008), and Clifton T. Weatherford (from September 12, 2008 until year end) and Dennis Walker (from January 1, 2008 until January 25, 2008).

How We Determine Executive Compensation

The Role of the Committee. Executive compensation is determined by the Committee, which meets at least quarterly to consider issues relating to executive compensation. It draws on internal and external resources to provide necessary information and recommendations, as appropriate. In 2008, the Committee met eight times. Each year, the Committee (1) reviews its Charter to ensure that it remains consistent with stockholder interests and good corporate governance principles and (2) performs an evaluation of its performance. In 2008, the Committee engaged in the following activities related to executive compensation to ensure it carried out its responsibilities as outlined in the Charter:

reviewed each element of compensation of the NEOs;

reviewed and approved corporate goals and objectives relevant to the compensation of the Chief Executive Officer (CEO) and made a recommendation to the Board with regards to the CEO's compensation levels;

considered and made recommendations to the Board of Directors with respect to the adoption, amendment, administration or termination of compensation, welfare, benefit, pension and other plans related to the compensation of current and former employees of the Company;

reviewed and approved the CD&A as required by the SEC and certified the CD&A and its contents through the issuance of the Compensation Committee Report; and

retained legal, accounting and other relevant advisors as it deemed necessary to carry out its fiduciary responsibilities at the Company's expense.

In addition, each member of the Committee is a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act), an outside director within the meaning of Section 162(m) of the Internal Revenue Code, and an independent director under the applicable rules of the NASDAQ Global Select Market.

For the benefit of our stockholders, the Compensation Committee Charter is posted on the Company's website at www.infogroup.com under the caption Corporate Governance.

The Committee, in carrying out the responsibilities as outlined in its Charter, is wholly responsible for determining the compensation paid to the executive officers, other than the CEO, and recommending the compensation of the CEO to the Board. The Board determines the compensation of the CEO. The CEO is not present during Board or Committee deliberations or voting on the compensation of the CEO.

The Role of Executive Officers. In January 2008, our former CEO reviewed the performance of Mr. Mallin, Mr. Dean, Mr. Israelsen and Dr. Mahnke, the NEOs employed by the Company at that time. Based on this review, the former CEO made compensation recommendations to the Committee, including recommendations for base salary adjustments, actual annual incentive award recommendations, and performance metrics for determining such awards at the end of 2008. In January 2009, Bill Fairfield, our current CEO, made compensation recommendations for the executive officers, including base salary adjustments, annual incentive awards to be granted for 2008 performance and metrics for determining 2009 annual incentive awards. Although the Committee considered these recommendations, it retained full discretion to set all compensation for the NEOs. The Committee has the discretion to invite the CEO to be present during the Committee's deliberations on the compensation of the NEOs.

The Role of the Compensation Consultant. Under the Committee's Charter, the Committee has the authority to retain consultants to aid in its duties from time to time. Pursuant to this authority, in 2007, the Committee retained Pearl Meyer & Partners (PM&P), an outside executive compensation consulting firm. PM&P assists the Committee with the collection and interpretation of competitive market data and prevalence information with regard to executive compensation levels and executive compensation plan design. PM&P is engaged by, and reports directly to, the Committee. PM&P works with the Committee, in conjunction with management, to design the Company's compensation programs to support our business strategy.

PM&P also participates in the executive session of Committee meetings where no members of Company management are present.

Employment Agreements. The Committee has negotiated and approved employment agreements with executive officers of the Company, including compensation terms commensurate with those of similarly-situated companies. In December 2008, the Committee negotiated and approved employment agreements with Mr. Fairfield and Mr. Oberdorf.

Compensation Benchmarking. It is crucial to our long-term performance that we are able to attract and retain a strong leadership team. To facilitate retention of executive officers, it is critical that we are able to offer compensation opportunities competitive with those available to them in equivalent positions in our industry or at other publicly-traded or similarly-situated companies. The Committee considers publicly-available information concerning executive compensation levels paid by other companies in our industry and in relevant labor markets as one factor in determining appropriate compensation levels.

In 2008, PM&P provided the Committee with counsel on compensation plan design and compensation levels for the CEO and the other senior executives, including each of the NEOs. PM&P assisted the Committee by providing market compensation data on base pay, as well as annual and long-term incentives, as further discussed below.

Peer Group. The Company primarily competes for talent in the information collection and distribution industry and benchmarks executive compensation levels against other publicly-traded companies in this industry. In 2008, the Committee referred to the following peer group, developed by PM&P, of publicly-traded companies in the information collection and distribution industry for benchmarking executive compensation.

Acxiom Corporation

Dun & Bradstreet Corporation

Equifax Incorporated

FactSet Research Systems, Inc.

Fair Isaac Corporation

Gartner Incorporated

Harte-Hanks Incorporated

Lamar Advertising Company

MSC Industrial Direct

Salesforce.com

Valassis Communications, Incorporated

This peer group was developed to reflect the size and growth profile of the Company. Data is generally size-adjusted as appropriate to account for the size of the companies in the peer group relative to the Company.

Other Market Comparisons. PM&P also provides the Committee with competitive data from compensation surveys conducted by other compensation consulting firms. These surveys collect compensation information from hundreds of companies for different positions in a variety of industries. These compensation surveys were queried to

analyze the types and levels of compensation paid to executive officers (with responsibilities similar to those of our executive officers) of companies comparable in size and growth profile to the Company.

In addition, PM&P periodically provides the Committee and management with market data on a variety of compensation-related topics.

The Committee considers the competitive data from the peer group and from the compensation surveys but does not rely on it exclusively in making decisions with regard to executive compensation levels. Because the Company does not rely on compensation surveys exclusively, the specific compensation survey participants were not material to our decisions regarding executive compensation. Finally, the Committee was not aware of any individual participant in these surveys.

Our Philosophy Regarding Executive Compensation

We believe that it is in the best interest of the Company and its stockholders to employ talented, committed, high-performing leaders who can sustain and improve the Company's performance. We believe that executive compensation must serve to:

- align the interests of executives and stockholders;

- attract and retain top executives;

- reward executives for meeting and exceeding financial and strategic business goals;

- motivate executives to perform at their highest potential;

- reinforce a sense of teamwork through common objectives and shared rewards for performance;

- provide a competitive pay opportunity; and

- maintain internally fair and equitable compensation levels and practices.

The Committee does not necessarily target a specific position within the external market (i.e., the 50th percentile) but rather evaluates total compensation within the context of a number of factors described in greater detail below.

Objectives of Executive Compensation Elements

Each NEO's annual total compensation is composed of a mix of fixed and variable compensation elements, consisting of:

- base salary;

- annual cash incentive plan;

- long-term equity incentives; and

- other benefits.

We expect that this mix can and should change from time to time as our business needs and objectives evolve, and as external business and market circumstances change. The Committee reviews the combined value of all of the elements of compensation awarded in previous years, both targeted and actual, when considering proposed compensation for the current year.

We believe that it is appropriate to take a holistic view of each executive officer's total compensation opportunity and review it annually on a prospective basis. The Company believes the value of an executive's performance cannot be measured solely by reference to objective performance indicators or based on a simple formulaic approach; compensation should be awarded based on consideration of both objective and subjective factors. Therefore, we retain discretion to adjust different compensation elements based on particular facts and circumstances and consider other subjective factors.

Base Salary. The objectives of the Company's base salary element are to allow the Company to attract and retain qualified executives and to recognize and reward individual performance. The following items are considered when determining actual base salaries and making adjustments to base salaries:

our past performance and expectations of future performance;

individual scope of responsibility, performance and experience;

competitive compensation data from the peer group and other market comparisons;

historical salary levels; and

the recommendations of the CEO (only with respect to other NEOs).

Annual Cash Incentive Plan. The objectives of our Annual Cash Incentive Plan, which consists of annual performance-based cash incentives and discretionary bonuses, are to:

reward executives for meeting financial and strategic business goals and objectives;

motivate executives to perform at their highest potential;

reinforce a sense of teamwork through common objectives and shared rewards for performance; and

align the interests of executives and stockholders.

For performance-based cash incentives, target award opportunities are established at the beginning of each year. Actual awards of performance-based cash incentives are predicated on:

the Company's and individual's performance against goals and objectives established at the beginning of the year, which rewards executives for meeting financial and strategic business goals and objectives; and

the Committee's assessment of individual performance, which motivates executives to perform at their highest potential.

Each year the Committee selects performance measures and goals for the performance-based cash incentive portion of the Annual Cash Incentive Plan. The Company believes the performance measures and goals support stockholder value creation and align the interests of executives and stockholders.

For business unit heads, performance goals are often based on business unit-specific performance goals to reward executives when their business unit meets financial and strategic business goals and objectives.

The Committee has also used discretionary bonus awards in the past. The Committee considers a number of factors in determining who will receive a discretionary bonus award and the size of the award. Historically, discretionary cash bonuses have been made to recognize extraordinary efforts in the context of:

actual performance not warranting a formulaic incentive award because of changing business conditions; or

the completion of special projects (such as a business acquisition) or strategic initiatives.

The Committee believes it is important that it retain the authority to consider the strategic importance of items with respect to the payment of discretionary bonuses, as these items are not necessarily part of any business or strategic plan developed at the beginning of the year.

Long-term Equity Incentives. While the Committee focused on cash compensation for our executive officers in recent years and through most of 2008, the Committee, in conjunction with the disinterested Independent Directors on the board, implemented long-term equity incentives for executives near the end of 2008. The equity-based component is intended to provide significant incentives directly linked to the long-term performance of the Company. All equity grants are approved by a majority vote of the disinterested Independent Directors of the Board.

Benefits and Perquisites. We offer a variety of health, welfare and qualified retirement programs to all employees, including our NEOs. The health, welfare and retirement programs available to our NEOs are the same as those offered to all employees. The Company believes that offering a competitive benefits program is necessary to attract high-caliber executive talent. The Company does not offer any supplemental benefit programs, such as a supplemental executive retirement plan (SERP), to any NEO.

In the past, the Company also has offered certain perquisites, generally restricted to NEOs. As described below, as a result of the Special Litigation Committee's investigation, the Independent Directors implemented a policy essentially eliminating such perquisites in October 2008. Please see the "All Other Compensation" column in the Summary Compensation Table (and the related discussion in the footnotes thereto) provided below for more detailed information on the perquisites and personal benefits received by the NEOs during fiscal years 2006, 2007, and 2008.

The Special Litigation Committee, whose activities are described in more detail in Item 9A of our 2007 Form 10-K/A, reviewed, among other things, certain expense reimbursements (including those for lodging, flights, meals, private club memberships, the use of the former chief executive officer's residences, and legal fees incurred by the former chief executive officer) and certain other corporate expenditures (including for the usage of aircraft, a yacht and automobiles, premiums for life insurance policies, salaries of several employees and grants of stock options).

Based on its review, the Special Litigation Committee found that various expense reimbursements and corporate expenditures were excessive and approved a series of remedial measures relating to perquisites and personal benefits. These measures have been implemented by the Company and include the following, which are designed to continue in effect at least until December 31, 2013:

A new position of Executive Vice President for Business Conduct and General Counsel has been created. The Executive Vice President for Business Conduct and General Counsel will, among other things, approve certain expense reimbursement requests as determined by the Independent Directors (as such term is defined in the Stipulation of Settlement).

The Independent Directors developed and approved a new delegation of authority protocol to specify the size of transactions each officer is permitted to enter into on behalf of the Company. Among other things, pursuant to the protocol, the following will require prior approval by the Chairman of the Board, the Chairman of the Audit Committee and the Executive Vice President for Business Conduct and General Counsel (and a subsequent report to the Audit Committee): the purchase or lease of aircraft or motor vehicles (not including conventional car rentals); mortgage or rental payments on offices, homes, apartments or any other real property not used exclusively for business purposes; and club membership fees.

The Independent Directors mandated, in the delegation of authority, a business expense policy applicable to all employees of the Company. The policy prohibits the reimbursement of any expense that is not a legitimate business expense. The policy also provides guidance as to determining what is and what is not a proper business expenditure. In this regard, the policy prohibits the use of Company resources (including corporate credit cards) for personal expenses, requires restitution of any expenditure later deemed personal, and includes a compensation hold-back feature to ensure that restitution is made when necessary.

All company reimbursements for expenses are subject to uniform, company-wide policies and procedures.

As mentioned above, the delegation of authority adopted by the Independent Directors eliminated any Company expense that conveys to any employee a significant personal benefit unrelated to the Company's business interests.

Copies of the policies implementing the remedial measures adopted by the Special Litigation Committee are posted on the Company's website at www.infogroup.com under the caption Corporate Governance.

Executive Compensation Decisions for Fiscal Year 2008

For the fiscal year ended December 31, 2008, the principal components of compensation for the NEOs were: base salary; annual incentive plan consisting of performance-based cash incentive awards; equity-based awards; and other personal benefits and perquisites.

Base Salary. On an annual basis (and/or at the time of promotion), the Committee reviews individual base salaries of the NEOs. Salary increases are based on the Company's overall performance and the executive's attainment of individual objectives during the preceding year in the context of competitive market data.

The Committee does not assign relative weights or rankings to the different factors previously discussed to determine base salary, but instead makes a determination based upon the consideration of all factors.

At its meeting in January 2008, the Committee determined base salary levels for Mr. Dean at \$380,000, Mr. Mallin at \$660,000, Mr. Israelsen at \$400,000, and Dr. Mahnke at \$332,000. Effective in September 2008, the Committee approved increases to salaries for Mr. Dean and Mr. Mallin. The salaries at fiscal year-end December 31, 2008 for these NEOs are as follows:

Fiscal Year-end December 31, 2008	Fiscal Year-end December 31, 2007	Percent Increase (Decrease) for
--	--	--

NEO	2008 Position	Base Salary	Base Salary	Fiscal Year 2008
Stormy L. Dean	Chief Financial Officer	451,100	300,000	50%
Edward C. Mallin	President, Services Group	804,700	600,000	34%
Mark Israelsen	President, SalesGenie.com	400,000		
Dr. Greg Mahnke	President, Macro International	332,000	332,000	

The Committee approved an employment agreement with Mr. Israelsen in connection with his appointment as President of SalesGenie.com in January 2008, which such agreement was entered into on February 1, 2008. That agreement provides for (1) a base salary of \$400,000 per year, (2) the opportunity for annual cash incentives based on the annual growth rate of SalesGenie.com; (3) an additional bonus of \$100,000 per quarter for the first 12 quarters of employment; (4) other long-term incentives; and (5) a right to receive severance payments under certain conditions. In a related agreement, Mr. Israelsen agreed to post-employment non-competition and non-solicitation obligations.

Mr. Fairfield was appointed CEO on August 20, 2008, and the Committee deferred a decision concerning his base salary at that time. In October 2008, the Committee recommended, and the Board approved, a base salary of \$750,000 per year for Mr. Fairfield. In December 2008, the Committee also negotiated and approved an employment agreement incorporating the guidelines for Mr. Fairfield's compensation established by the Board in October 2008. Mr. Fairfield's agreement provides for (1) a base salary of \$750,000 per year, (2) the opportunity for annual cash incentives based upon achievement of individual and objective Company performance criteria, (3) other long-term incentives which may be awarded from time to time, and (4) a right to receive severance payments under certain conditions. This agreement was ratified by the Board in January 2009. As part of the agreement, Mr. Fairfield agreed to post-employment non-competition and non-solicitation obligations.

The Committee negotiated and approved an employment agreement with Thomas Oberdorf in connection with his appointment as CFO on December 5, 2008, providing for (1) a base salary of \$425,000 per year, (2) a one-time sign-on bonus of \$100,000, (3) the opportunity for annual cash incentives based upon achievement of individual and objective Company performance criteria, (4) other long-term incentives which may be awarded from time to time, (5) Company paid relocation expenses and (6) a right to receive severance payments under certain conditions. As part of the agreement, Mr. Oberdorf agreed to post-employment non-competition and non-solicitation obligations.

Mr. Gupta, whose base salary had not yet been established for 2008 resigned as CEO on August 20, 2008. His severance arrangements are described below under the heading *Other Potential Post-Employment Payments*.

Annual Cash Incentive Plan. The 2008 Annual Cash Incentive Plan was designed to motivate and reward the NEOs for achievement of high levels of operating performance and to motivate executives to perform at their highest potential. NEOs were eligible for performance-based cash incentives under the plan based primarily upon achievement, both by the individual officer and the Company, of performance goals established for the year, as well as on the Committee's assessment of individual performance.

The Committee set minimum (threshold), target and maximum levels for each performance measure.

As a general rule, we believe that performance goals should be set at levels that reflect excellent performance, superior to the results of median-performing companies in our industry. Achieving performance goals requires significant effort on the part of the NEOs and the Company. At the same time, performance goals should be realistically achievable to provide the appropriate degree of motivation. To achieve this objective, in making the annual determination of the minimum, target and maximum performance goals, the Committee considers:

the specific circumstances facing the Company in the current year;

financial objectives of our strategic plan; and

stockholder expectations regarding the Company's performance.

The minimum performance goal reflects the Committee's minimum level of acceptable performance. If the Company does not achieve the minimum performance goal, performance-based cash incentive awards will not be made. The maximum performance goal reflects a level of performance that would significantly exceed the Committee's and the Company's expectations of performance.

At the end of each fiscal year, the Committee also completes an assessment of individual performance relative to the goals that were set at the beginning of each year. These individual performance goals motivate and reward strong Company performance in relation to key metrics such as EBITA—earnings before interest expense, income taxes and amortization—, revenue and earnings per share. Specifically, the Committee compared the actual performance to the performance goals set at the beginning of the year, and linearly interpolated the amount of incentive to be paid to each individual based on actual Company performance.

For 2008, the Committee selected the following performance measures and the performance goals required for Messrs Mallin and Dean to earn the indicated cash bonus. Each of the performance measures was equally weighted.

12

Performance Measures	Threshold	Target	Maximum
Revenue	\$748 million	\$768 million	\$788 million
EBITA	\$114 million	\$118 million	\$123 million
EPS	84¢ per share	88¢ per share	94¢ per share
Year End Bonus As % of Salary	50% of salary	75% of salary	100% of salary

The Committee uses straight line interpolation in determining the year end bonus if actual performance occurs between goals. The performance measures and targets disclosed above are done so solely in the context of the annual cash incentive plan for 2008 and are not statements of management's expectations or estimates of future results or other guidance. Investors are cautioned not to apply these statements to other contexts.

The exhibit below shows the threshold, target, maximum performance-based cash incentive opportunity for each executive.

	Annual Performance-Based Cash Incentive Opportunity as a Percentage of Salary		
	Threshold	Target	Maximum
NEO			
Stormy L. Dean	50% of salary	75% of salary	100% of salary
Edward C. Mallin	50% of salary	75% of salary	100% of salary

The performance levels were not met for 2008 and therefore, no performance based year end bonuses were paid for 2008.

Mr. Fairfield, Mr. Oberdorf, and Mr. Gupta did not participate in the 2008 Annual Cash Incentive Plan. The employment agreement with Mr. Israelsen provides that he is eligible for an annual cash bonus equal to his base salary multiplied by a percentage that is equal to two times the annual growth rate of SalesGenie.com. Based on this calculation, Mr. Israelsen did not receive an annual performance based cash award for 2008. Dr. Mahnke's annual performance based cash award is based on 10% of operating income over \$13 million for the Macro International division. Based on this calculation, Dr. Mahnke received an annual performance based cash award of \$261,398 for 2008.

As previously discussed, the Committee also retains the authority to provide discretionary cash bonuses to NEOs. During 2008 discretionary bonuses were awarded to Mr. Dean in the amount of \$50,000, and Mr. Mallin in the amount of \$150,000. Mr. Mallin was awarded his discretionary bonus for 2008 based on his leadership of the Services Group, the performance of that group during the year despite a difficult economy, and in recognition that his total compensation was below the average of his peer group for the year. Mr. Dean was awarded his discretionary bonus for 2008 based on his leadership during the management transition at the Company, his increased and exceptional participation since the management changes of August 2008, and in recognition that his total compensation was below the average of his peer group for the year.

In January 2009, the Committee selected the participants and received input from management on the performance goals for the 2009 annual incentive program. The objective financial performance goals for most NEOs in 2009 are based on divisional and corporate operating income. For individuals who do not have responsibility for revenue producing areas of the Company, the financial performance goals are based on operating income and different forms of cost containment. All NEOs have also been provided with subjective goals related to Company and individual performance as well.

Long-term Equity Incentives. The Company did not actively use long-term incentives through most of 2008. After the management changes in August, the Committee reviewed its prior focus on cash compensation, developing the view that the Company needed to add an equity-based component. The equity-based component is intended to provide significant incentives directly linked to the long-term performance of the Company and the performance of our stock price.

The Committee considered the balance between short-term and long-term incentives for executive officers. In December 2008, the Committee recommended to the Independent Directors, and the Independent Directors approved, the grant of restricted stock units to all executive officers. The award amounts (other than those for the CEO) were recommended by the CEO, based in part on the income level and relative importance of the executive officer. The vesting provisions for these restricted stock units are described within the *Grants of Plan-Based Awards* table.

Name	Restricted Stock units Granted (#)
B. Fairfield	200,000
S. Dean	25,000
T. Oberdorf	117,080
E. Mallin	100,000
M. Israelsen	40,000
G. Mahnke	25,000

Other Personal Benefits and Perquisites. Our NEOs are entitled to participate in the same health, welfare and retirement programs offered to all employees. These programs include tax-qualified 401(k), medical, dental and vision coverage and wellness programs, use of our employee assistance program, short and long-term disability, and paid time off in accordance with company policies. For programs to which employees contribute premiums, executives are subject to the same premium structure as other exempt employees.

In addition to the benefits programs described above, in the past we also provided our executives with certain perquisites of a more personal nature, to the extent they serve a legitimate business function. However, the Special Litigation Committee's review, as described above, has found that various expense reimbursements and corporate expenditures related to perquisites were excessive. Based on the Special Litigation Committee's review, the Independent Directors eliminated material perquisites for Company executives. For information on the perquisites and personal benefits received by the NEOs during fiscal years 2006, 2007 and 2008, please see the *All Other Compensation* column in the *Summary Compensation Table* and related discussions in the footnotes thereto provided below. Please refer to (i) Item 9A of the 2007 Form 10-K/A for more information on the Special Litigation Committee's findings and (ii) the Form 8-K/A filed with the Securities and Exchange Commission on August 22, 2008 for the final remedial measures adopted in connection with the Stipulation of Settlement. Severance and Change in Control Considerations

Mr. Dean and Mr. Mallin entered into severance agreements with the Company in February 2006 that provide for certain payments upon termination of employment and/or change in control. The Company's employment agreements with Mr. Fairfield and Mr. Oberdorf entered into in December 2008, and Mr. Israelsen, entered into in February 2008, provide for certain payments upon termination of their employment.

When the Company entered into these severance arrangements, it was determined that such arrangements were appropriate based on their prevalence within the information collection and distribution industry, as well as for public companies in general, and the dynamic nature of mergers and acquisitions activity within the industry. Given the nature of the responsibilities of the NEOs, we also recognize that they could be involved in critical decisions relating to potential change in control transactions and responsible for the successful implementation of such transactions, while being at risk of losing their jobs if a change in control occurs. The severance arrangements are intended to provide sufficient protection for the NEOs to permit them to consider potential transactions that are in the best interest

of our stockholders without being unduly influenced by the possible effects of the transaction on their personal employment situation and individual compensation.

As previously reported, on August 20, 2008, the Company announced that Mr. Gupta resigned as the CEO of the Company effective as of that date. In connection with Mr. Gupta's resignation, the Company and Mr. Gupta entered into a separation agreement and general release, dated as of August 20, 2008. The Company and Mr. Gupta amended

the separation agreement and general release on September 4, 2008 to clarify the terms that govern Mr. Gupta's entitlement to healthcare benefits.

The severance arrangements and Mr. Gupta's separation agreement and general release, along with the severance arrangements of the other NEOs, are described in greater detail below under the heading "Other Potential Post-Employment Payments."

Tax and Accounting Considerations

The Committee considers the tax impact and accounting considerations of our compensation programs on the Company as well as on the NEOs from a personal perspective. For example, the Committee has considered the impact of tax provisions such as Section 162(m) of the Internal Revenue Code in structuring our executive compensation program and, to the extent reasonably possible, in consideration of compensation goals and objectives, the compensation paid to the NEOs has been structured so as to qualify as performance-based and deductible for federal income tax purposes under Section 162(m). However, in consideration of the competitive nature of the market for executive talent, the Committee believes it is more important to deliver situation-appropriate and competitive compensation to drive shareholder value than to use a particular compensation practice or structure solely to ensure tax deductibility. Tax and accounting considerations are one of the many key elements of the Committee's decision-making process.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report.

Respectfully submitted by the

Compensation Committee:

(a) As described under Item 13 Certain Relationships and Related Transactions, and Director Independence of this Form 10-K/A, the Company made payments during 2008 and 2007 to Jess Gupta, Mr. Gupta's son, of approximately \$24,000 and \$48,000, respectively for rent and \$6,000 and \$11,000, respectively for condominium association dues for a residence owned by Jess Gupta and used on occasion by Company employees and other persons with a business

relationship with the Company. However, after these payments are reduced by (1) amounts attributable to the use of the property for business purposes by Company employees or other persons with a business relationship with the Company, as calculated on a per-day basis using the rates of nearby hotels, and (2) amounts attributable to the use of other properties owned by Mr. Gupta for business purposes by Company employees or other persons with a business relationship with the Company for which the Company was not charged a rental fee, as calculated on a per-day basis using the rates of hotels in comparable locations, after which no net benefit to Mr. Gupta remains, and therefore no amount has been included in the table above. The Company's rental of this

condominium
was discontinued
in August 2008.

- (b) Represents the amount awarded under the terms of the Stipulation of Settlement, related to Mr. Gupta's resignation as Chief Executive Officer of the Company on August 20, 2008. Mr. Gupta and the Company entered into a Separation Agreement and General Release dated August 20, 2008 (the Separation Agreement), under which Mr. Gupta granted a full release of the Company and received the right to severance payments totaling \$10.0 million.
- (c) Represents the aggregate incremental cost to the Company during 2007 and 2006 of use of a Company-owned yacht by Mr. Gupta and his guests. We calculated the incremental cost of the use of the yacht by adding the operational

cost of the yacht (including fuel, crew cost and catering), the depreciation recorded with respect to the yacht and the interest expenses associated with the yacht, in each case pro-rated based on the number of days spent on board. Mr. Gupta believes that the Company has listed in this category expenses that were reasonable business expenses and that were integrally and directly related to the performance of his executive duties and/or did not provide any personal benefit to him.

- (d) Represents the aggregate incremental cost to the Company during 2008, 2007 and 2006 of use of Company-owned or leased automobiles by Mr. Gupta. We calculated the cost of the use of the automobiles by adding the lease payments with respect to

Company-leased automobiles, the depreciation recorded with respect to Company-owned automobiles and the insurance premiums. Mr. Gupta believes that the Company has listed in this category expenses that were reasonable business expenses and that were integrally and directly related to the performance of his executive duties and/or did not provide any personal benefit to him.

- (e) Represents the cost to the Company of use of Company-owned fractional ownership interests in aircraft by Mr. Gupta, and his respective guests during 2008, 2007 and 2006. With respect to flights undertaken for business purposes, no value has been attributed to additional passengers (including

friends, family members and other guests) because the Company is billed for flights by the hour, regardless of the number of passengers, and therefore such passengers add only de minimis cost to such flights. Mr. Gupta believes that the Company has listed in this category expenses that were reasonable business

expenses and that were integrally and directly related to the performance of his executive duties and/or did not provide any personal benefit to him.

- (f) Represents payments by the Company during the fiscal year of usage fees, entertainment expenses and other expenses, as well as of one half of periodic dues, in connection with the use by Mr. Gupta, his guests, and Company employees, of golf club and country club memberships (the remainder of the periodic dues are paid directly by Mr. Gupta). OTHER POTENTIAL POST-EMPLOYMENT PAYMENTS

Severance Agreements with NEOs

In February 2006, the Company entered into severance agreements with Edward C. Mallin and Stormy L. Dean. Each of the severance agreements provides that if the executive's employment is terminated either (i) by the Company for any reason other than Cause (as defined in the severance agreement), or (ii) by the executive for Good Reason (as defined in the severance agreement), the Company will make payments to the executive at a rate equal to the executive's Total Compensation (as defined below) for a period from 6 months to 24 months, depending on the length of service completed by the executive. In addition, if the executive elects to continue health and/or dental insurance coverage under COBRA, the Company will pay the employer portion of the monthly premium until the executive obtains substantially equivalent insurance coverage, but, in any event, for not more than 12 months. Total Compensation means the executive's base salary as in effect at the time of termination, plus the average of the executive's annual bonus amount for the three calendar years preceding the year in which the executive's employment terminates. If the Company becomes subject to a Change in Control (as defined below) and within twelve (12) months after such Change in Control, the executive's employment is terminated either (i) by the Company for any reason other than Cause, or (ii) by the executive for Good Reason, the Company shall pay to the executive a lump sum based on the executive's Total Compensation. The amount of the lump sum will be from one time up to three times the executive's Total Compensation, depending on the length of service completed by the executive, together with additional payments sufficient to compensate for certain federal excise taxes. In addition, if the executive elects to continue health and/or dental insurance coverage under COBRA, the Company will pay the employer portion of the monthly premium until the executive obtains substantially equivalent insurance coverage, but, in any event, for not more than 12 months. Also, all shares of capital stock, stock options, performance units, stock appreciation rights or other derivative securities of the Company held by the executive at the time of

termination will become fully vested and exercisable. If the executive's employment terminates as a result of the executive's death or Disability (as defined in the severance agreement), the Company shall pay the executive's accrued compensation through the termination date, and a pro rata portion of the executive's target bonus for the year in which termination occurs. To receive any severance benefits, the executive must execute a general release of all claims against the Company and must refrain from competing with the Company and from soliciting the Company's employees for a period of up to 12 months after the date of termination. If it is determined that any payment or distribution will be subject to the excise tax imposed under Internal Revenue Code Section 280G, then the executive will be entitled to receive an additional payment or "gross up" to ensure that severance payments are not diminished.

For purposes of the severance agreements, a "Change in Control" includes (i) the consummation of a merger or consolidation of the Company with or into another entity or any other corporate reorganization, if persons who were not stockholders of the Company immediately prior to such merger, consolidation or other reorganization own immediately after such merger, consolidation or other reorganization 50% or more of the voting power of the outstanding securities of each of (A) the continuing or surviving entity and (B) any direct or indirect parent corporation of such continuing or surviving entity; (ii) the sale, transfer or other disposition of all or substantially all of the Company's assets; (iii) a change in the majority of the board of directors without the approval of the incumbent board; (iv) any incumbent director who beneficially owns more than twenty percent (20%) of the total voting power represented by the Company's then outstanding voting securities involuntarily ceasing to be a director; or (v) any transaction as a result of which any person first becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing at least 15% of the total voting power represented by the Company's then outstanding voting securities.

In December 2008, the Company entered into an employment agreement with Bill L. Fairfield. Please refer to the Form 8/K filed by the Company on December 31, 2008 for a complete copy of the employment agreement. The agreement with Mr. Fairfield provides for severance under certain circumstances. If the executive's employment is terminated either (i) by the Company without Cause (as defined in the agreement), or (ii) by the executive for Good Reason (as defined in the agreement), and such termination is not in anticipation of or on or after a Change of Control (as defined in the agreement), the Company will make payments to the executive at a rate equal to one half the Executive's then Annual Salary plus one half the targeted Annual Cash Incentive for the year of termination. If such termination is in anticipation of or on or after a Change of Control, the Company shall pay to the executive a lump sum equal to two times Executive's then Annual Salary plus two times the targeted Annual Cash Incentive for the year of termination, less any Change of Control incentive payment received by the executive. Regardless of whether such termination was related to a Change of Control, the executive, his spouse and dependent children shall be entitled to continuation of health insurance coverage under the Company's plans at the Company's expense for one year. Also, all equity awards held by executive at termination which vest based on time shall become vested as of termination. Finally, any performance objectives upon which the earning of performance-based long-term incentives are conditioned shall be earned based on actual performance at the date of termination.

If the executive's employment terminates as a result of the executive's death or Disability (as defined in the severance agreement), the Company shall pay the executive's accrued compensation through the termination date, and a pro rata portion of the executive's target bonus for the year in which termination occurs. The executive (if disabled), his spouse and dependent children shall be entitled to continuation of health insurance coverage under the Company's plans at the Company's expense for one year. Also, all equity awards held by executive at termination which vest based on time shall become vested as of termination. Finally, any performance objectives upon which the earning of performance-based long-term incentives are conditioned shall be deemed to have been met at the target level on the date of termination.

To receive any severance benefits, the executive must execute a general release of all claims against the Company. Executive has also agreed to refrain from competing with the Company and from soliciting the Company's employees for a period of one year after the date of termination. If it is determined that any payment or distribution will be subject to the excise tax imposed under Internal Revenue Code Section 280G, then the executive will be entitled to receive an additional payment or "gross up" to ensure that severance payments are not diminished.

In February 2008, a subsidiary of the Company, SalesGenie.com, Inc. entered into an employment agreement with Mark Israelsen, which provides for severance under certain circumstances. If Mr. Israelsen is terminated

without cause (as defined in the agreement) or resigns for Good Reason (as defined in the agreement), the Company shall pay him, for a period of twelve months, his then current base salary plus a pro-rata amount equal to his annual bonus for the prior year. Such payments will cease immediately upon the first date executive commences any other full time employment. Additionally, upon such termination, the Company shall pay the executive any amount remaining under his agreed upon quarterly bonus, which is payable for the first 12 quarters of employment at \$100,000 per quarter.

To receive any severance benefits, the executive must execute a general release of claims against the Company. Executive has also agreed to refrain from competing against the Company and soliciting the Company's customers or employees for a period of two years following termination of employment.

In December 2008, the Company entered into an employment agreement with Thomas Oberdorf. Please refer to the Form 8-K/A filed by the Company on December 31, 2009 for a complete copy of the employment agreement. The agreement with Mr. Oberdorf provides for severance under certain circumstances. If the executive's employment is terminated either (i) by the Company without Cause (as defined in the agreement), or (ii) by the executive for Good Reason (as defined in the agreement), and such termination is not in anticipation of, or on or after a Change of Control (as defined in the agreement), the Company will make payments to the executive at a rate equal to one times the Executive's then Annual Salary plus one times the average of the two highest Annual Cash Incentive payments received by the executive in the preceding three years (the total being defined as the Base Severance Amount). If such termination is in anticipation of or on or within 2 years after a Change of Control, the Company shall pay to the executive a lump sum equal to the Base Severance Amount within 30 days of termination, and will also pay, one year after termination, another lump sum equal to the Base Severance Amount less executive's then total compensation from any gainful employment. Regardless of whether such termination was related to a Change of Control, the executive, his spouse and dependent children shall be entitled to continuation of health insurance coverage under the Company's plans at the Company's expense for one year. Also, all equity awards held by executive at termination which vest based on time shall become vested as of termination. Finally, any performance objectives upon which the earning of performance-based long-term incentives are conditioned shall be earned based on actual performance at the date of termination.

If the executive's employment terminates as a result of the executive's death or Disability (as defined in the severance agreement), the Company shall pay the executive's accrued compensation through the termination date, and a pro rata portion of the executive's target bonus for the year in which termination occurs. The executive (if disabled), his spouse and dependent children shall be entitled to continuation of health insurance coverage under the Company's plans at the Company's expense for one year. Also, all equity awards held by executive at termination which vest based on time shall become vested as of termination. Finally, any performance objectives upon which the earning of performance-based long-term incentives are conditioned shall be deemed to have been met at the target level on the date of termination.

To receive any severance benefits, the executive must execute a general release of all claims against the Company. Executive has also agreed to refrain from competing with the Company and from soliciting the Company's employees for a period of one year after the date of termination. If it is determined that any payment or distribution will be subject to the excise tax imposed under Internal Revenue Code Section 280G, then the executive will be entitled to receive an additional payment or gross up to ensure that severance payments are not diminished.

Following the end of 2008, the Company, in March of 2009, entered into a severance and change in control agreement with Dr. Greg Mahnke. The agreement with Dr. Mahnke provides for severance if he is terminated without cause within twelve months following the sale of the Company's Macro International subsidiary to ICF International, which such sale was completed on March 31, 2009. If, during the twelve months following the sale, either (i) the executive's employment is terminated for other than Cause (as defined in the agreement), or (ii) the executive terminates his employment for Good Reason (as defined in the agreement), the Company will make a lump sum payment to the executive at a rate equal to one times the Executive's base annual salary plus one times the executive's targeted bonus for the year in which the Change in Control occurs.

To receive any severance benefits, the executive must execute a general release of all claims against the Company. Executive has also agreed to refrain from soliciting the Company's customers during the term of the agreement, and

shall not solicit the Company's employees for the term of the agreement plus a period of one year following.

- (3) Tax Fees consist of fees for state and federal income tax preparation for a Company subsidiary, tax research and preparation of refund claims.

The above amounts include out-of-pocket expenses incurred by KPMG. The Audit Committee pre-approved all non-audit services described above. A copy of the Audit Committee's pre-approved policy with respect to non-audit services appears below under the heading Audit and Non-Audit Services Pre-Approval Policy. The Audit Committee has considered whether the provision of the services described above was and is compatible with maintaining the independence of KPMG.

AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY

Statement of Principles.

The Audit Committee is required to pre-approve the audit and non-audit services performed by the Company's independent auditor. As part of the pre-approval process, the Audit Committee shall consider whether the services to be performed by the auditor are consistent with the SEC's rules on auditor independence. Unless a type of service to be provided by the independent auditor has received pre-approval under this Policy, it will require separate pre-approval by the Audit Committee. The pre-approval requirement does not apply to the provision of non-audit services for which the de minimis exception described under "De Minimis Exception" applies.

The Audit Committee shall pre-approve, by resolution, the type and amount of audit, audit-related, tax and all other services to be performed by the Company's independent auditor. The term of such pre-approval is 12 months from the date of pre-approval, unless otherwise specified in such resolutions. The Audit Committee will periodically review its pre-approval resolutions and modify the types and amount of services as it determines in its discretion. To assist the Audit Committee, the independent auditor will provide the Audit Committee with detailed back-up documentation regarding the specific services to be pre-approved.

Delegation.

The Audit Committee hereby delegates to the Chairman of the Audit Committee the authority to approve the engagement of the independent auditor to provide non-audit services as permitted by the Sarbanes-Oxley Act of 2002, to the extent that such non-audit services are not pre-approved as described herein and if such engagement is less than \$25,000. The Chairman shall report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

Audit Services.

The annual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit (including required quarterly reviews), subsidiary audits and other procedures required to be performed by the independent auditor to be able to form an opinion on the Company's consolidated financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit or quarterly review. Audit services also include the attestation engagement for the independent auditor's report on management's report on internal controls for financial reporting. The Audit Committee will monitor the audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Company structure or other items.

In addition to the annual audit services engagement approved by the Audit Committee, the Audit Committee may pre-approve other audit services, which are those services that only the independent auditor reasonably can provide. Other audit services may include statutory audits or financial audits for subsidiaries or affiliates of the Company and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

Audit-related Services.

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements or that are traditionally performed by the independent auditor. The Audit Committee may pre-approve audit-related services, including, among others, due diligence services pertaining to potential business acquisitions/dispositions; accounting consultations and audits in connection with acquisitions and dispositions; accounting consultations related to accounting, financial reporting or disclosure matters not classified as

Audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; financial audits of employee benefit plans; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements.

Tax Services.

The Audit Committee may pre-approve those tax services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Audit Committee may consult with management or its independent advisors, including counsel, to determine that the tax planning and reporting positions are consistent with this Policy.

All Other Services.

The Audit Committee may pre-approve those non-audit services classified as all other services that it believes are routine and recurring services and would not impair the independence of the auditor.

De Minimis Exception.

The pre-approval requirements for non-audit services is waived provided that all such services: (1) do not aggregate to more than five percent (5%) of the total revenues paid by the Company to its independent auditor in the fiscal year in which such services are provided; (2) were not recognized as non-audit services by the Company at the time of the engagement; and (3) are promptly reported to the Audit Committee and approved prior to completion of the audit.

Prohibited Non-Audit Services.

The Company may not retain its independent auditor to provide any of the prohibited non-audit services listed under the heading Prohibited Non-Audit Services. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions. The Audit Committee will review the list of prohibited non-audit services at least annually to determine whether any additions or deletions should be made.

Pre-Approval Fee Levels or Budgeted Amounts.

Pre-approval fee levels or budgeted amounts for all services to be provided by the independent auditor will be established annually by the Audit Committee and reviewed as the Audit Committee deems appropriate. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee, or its designee as described under Delegation. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee shall consider the appropriate ratio between the total amount of fees for audit, audit-related and tax services, and the total amount of fees for services classified as all other services.

Procedures.

All requests or applications for services to be provided by the independent auditor will be submitted to the Chief Financial Officer and shall include a description of the services to be rendered. The Chief Financial Officer will determine whether such services are included within the list of services that have been pre-approved by the Audit Committee. The Audit Committee will be informed on a periodic basis of the services rendered by the independent auditor. The Chief Financial Officer shall consult as necessary with the Chairman of the Audit Committee in determining whether any particular service has been pre-approved by the Audit Committee.

The Audit Committee has designated the Chief Financial Officer to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with the pre-approval policy. The Chief Financial Officer will report to the Audit Committee on a periodic basis on the results of such monitoring. The Chief Financial Officer will immediately report to the Chairman of the Audit Committee any breach of the pre-approval policy that comes to the attention of the Chief Financial Officer.

Actuarial services
