Item 7.01 Regulation FD Disclosure

On April 6, 2006, certain members of Arch Coal, Inc.'s management made a presentation at the Howard Weil Energy Conference. The text of slides shown during the presentation is attached hereto and incorporated herein by reference in its entirety.

The furnishing of Exhibit 99 is not intended to constitute a representation that such furnishing is required by Regulation FD or that the information it contains includes material investor information that is not otherwise publicly available. Statements in Exhibit 99 which are not statements of historical fact are forward-looking statements within the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on the information available to, and the expectations and assumptions deemed reasonable by, Arch Coal at the time the statements are made. Because these forward-looking statements are subject to various risks and uncertainties, actual results may differ materially from those projected in the statements. These expectations, assumptions and uncertainties include: Arch Coal's expectation of continued growth in the demand for electricity; belief that legislation and regulations relating to the Clean Air Act and the relatively higher costs of competing fuels will increase demand for its compliance and low-sulfur coal; expectation of continued improved market conditions for the price of coal; expectation that Arch Coal will continue to have adequate liquidity from its cash flow from operations, together with available borrowings under its credit facilities, to finance Arch Coal's working capital needs; a variety of operational, geologic, permitting, labor and weather related factors; and the other risks and uncertainties which are described in Arch Coal's periodic and other filings with the Securities and Exchange Commission which are available on the SEC's website at [www.sec.gov](http://www.sec.gov).

Item 9.01 Financial Statements and Exhibits.
