PROXY STATEMENT**

To the Shareholders of
BADGER METER, INC.

We are furnishing you with this Proxy Statement in connection with the solicitation of proxies by the Board of Directors of Badger Meter, Inc. (the Company) to be used at the Annual Meeting of Shareholders of the Company (the Meeting), which will be held at 8:30 a.m., local time, Friday, April 28, 2006, at **Badger Meter, Inc.**, 4545 West Brown Deer Road, Milwaukee, Wisconsin 53223, and at any adjournments or postponements thereof.

If you execute a proxy, you retain the right to revoke it at any time before it is voted by giving written notice to the Company or in open meeting, or by submitting a valid proxy bearing a later date. Unless you revoke your proxy, your shares will be voted at the Meeting.

Since you were a shareholder of record as of the close of business on February 28, 2006, you are entitled to notice of, and to vote at, the Meeting. As of this record date, the Company had 6,921,150 shares of Common Stock (the Common Stock) outstanding and entitled to vote. You are entitled to one vote for each of your shares.

We commenced mailing this Proxy Statement on or about March 21, 2006.

NOMINATION AND ELECTION OF DIRECTORS

You and other holders of the Common Stock are entitled to elect three directors at the Meeting. Directors will be elected by a plurality of votes cast at the Meeting (assuming a quorum is present). If you do not vote your shares at the Meeting, whether due to abstentions, broker nonvotes or otherwise, they will have no impact on the election of directors.

If you submit a proxy to the Company, it will be voted as you direct. If, however, you submit a proxy without specifying voting directions, it will be voted in favor of the election of each of the three nominees for director identified below. Once elected, a director serves for a three-year term or until his successor has been duly appointed, or until his prior death, resignation or removal. If your shares are held in street name by your broker, your broker may vote your shares in its discretion on the election of directors if you do not furnish instructions.

After the Meeting, the Board of Directors will consist of eight members divided into three classes, with one class elected each year to serve for a term of three years.

The nominees of the Board of Directors for director, together with certain additional information concerning each such nominee, are identified below. All of the nominees are presently directors of the Company. If any nominee is unable or unwilling to serve, the named proxies have discretionary authority to select and vote for substitute nominees. The Board of Directors has no reason to believe that any of the nominees will be unable or unwilling to serve.

Director Compensation

Richard A. Meeusen and Ronald H. Dix are employees of the Company and do not receive compensation for their service as directors.

All non-employee directors receive the following compensation: Directors are compensated at a rate of \$1,500 for each Board of Directors meeting attended and are reimbursed for out-of-pocket travel, lodging and meal expenses. Directors are compensated at the rate of \$1,000 for each committee meeting they attend. In addition, during 2005, directors were paid a retainer of \$750 per month and committee chairmen (other than the chairman of the Audit and Compliance Committee) and the lead director received an annual fee of \$2,000. Mr. Fischer, as chairman of the Audit and Compliance Committee, received an annual fee of \$4,000. Directors may elect to defer their compensation, in whole or in part, in a stock and/or cash subaccount of the Badger Meter Deferred Compensation Plan for Directors. If a director elects to defer compensation in a stock subaccount, the subaccount is credited with a number of units equivalent to the dollar amount of such fees on the date they would otherwise be payable. Amounts credited to the stock subaccount are credited with dividends by multiplying the number of units in the participant's stock subaccount on each dividend record date, by the amount of each dividend, to determine the dividend amount. The dividend amount is then divided by the closing stock price on the last day of the previous quarter to determine the number of stock units to be added to the stock subaccount. Upon distribution of any portion or all of a participant's stock subaccount, the value of the account will be computed by multiplying the number of units in the account on the date of distribution by the closing price of the Common Stock on the last day of the month prior to the distribution.

Previously, the non-employee directors participated in the Company's Long-Term Incentive Plan (LTIP) as certain members of the Company's management group. The LTIP provided annual cash bonuses to the directors with respect to a four-year performance period which ended in 2005. The awards were based upon annual attainment of earnings objectives for each year. The maximum amount that a director earned

Table of Contents

under the LTIP ranged from \$15,188 to \$22,022 per year, depending on the date of award. Beginning in 2006, the directors no longer participate in the LTIP.

Non-employee directors receive a one-time grant of options to purchase up to 16,000 shares of Common Stock and an annual award of 600 shares of Common Stock under the shareholder-approved 2002 Director Stock Grant Plan. No stock options were granted to directors in 2005.

Committees, Meetings and Attendance

The Board of Directors has adopted written charters for each committee, which are available on the Company's website at www.badgermeter.com under the selection Company Corporate Governance Committees of the Board. A copy of the Audit and Compliance Committee Charter was published in the April 23, 2004 Proxy Statement and has not been changed since.

The Board of Directors has affirmatively determined that all of the Company's directors (other than Mr. Meeusen and Mr. Dix) are independent as defined in the listing standards of the American Stock Exchange.

The Audit and Compliance Committee met five times in 2005. The Audit and Compliance Committee oversees the Company's financial reporting process on behalf of the Board of Directors and reports the results of their activities to the Board. The activities of the Audit and Compliance Committee include employing an independent registered public accounting firm for the Company, discussing with the independent registered public accounting firm and internal auditors the scope and results of audits, monitoring the Company's internal controls and preapproving and reviewing audit fees and other services performed by the Company's independent registered public accounting firm. The Committee also reviews the various management development and succession programs and adopts and maintains the Company's Principles of Corporate Governance. In addition, the Committee selects nominees for the Board of Directors.

Table of Contents

The Employee Benefit Plans Committee met three times in 2005. The Employee Benefit Plans Committee oversees the administration of the Company's pension plan, employee savings and stock ownership plan, health plans and other benefit plans.

The Finance Committee was dissolved in 2005. The Board of Directors assumed responsibility for the Committee's role to review the Company's various financing activities and insurance coverage and recommend changes in the corporate capitalization structure.

The Board of Directors held five meetings in 2005. Mr. Payne currently serves as lead outside director of the Board. During 2005, all directors attended at least 75% of the meetings of the Board of Directors and meetings of the committees held in 2005 on which they served during the period. All members of the Board of Directors attended the 2005 Annual Meeting of Shareholders. It is the Board's policy that all directors attend the Annual Meeting of Shareholders, unless unusual circumstances prevent such attendance.

Nomination of Directors

The Corporate Governance Committee (the Governance Committee) has responsibility for selecting nominees for the Company's Board of Directors. All members of the Governance Committee meet the definition of independence set forth by the American Stock Exchange. The Board of Directors has adopted a policy by which the Governance Committee will consider nominees for Board positions, as follows:

The Governance Committee will review potential new candidates for Board positions.

The Governance Committee will review each candidate's qualifications in light of the needs of the Board and the Company, considering the current mix of director attributes and other pertinent factors.

The minimum qualifications required of any candidate include the highest ethical standards and integrity, and sufficient experience and knowledge commensurate with the Company's needs.

The specific qualities and skills required of any candidate will vary depending on the Company's specific needs at any point in time.

No candidate, including current directors, may stand for reelection after reaching the age of 70.

There are no differences in the manner in which the Governance Committee evaluates candidates recommended by shareholders and candidates identified from other sources.

To recommend a candidate, shareholders should write to the Board of Directors, c/o Secretary, Badger Meter, Inc., P.O. Box 245036, Milwaukee, WI 53224-9536, via certified mail. Such recommendation should include the candidate's name and address, a brief biographical description and statement of qualifications of the candidate and the candidate's signed consent to be named in the proxy statement and to serve as a director if elected.

To be considered by the Governance Committee for nomination and inclusion in the Company's proxy statement, the Board must receive shareholder recommendations for director no later than October 15 of the year prior to the relevant Annual Meeting of Shareholders.

During 2005, and as of the date of this proxy statement, the Governance Committee did not pay any fees to third parties to assist in identifying or evaluating potential candidates. Also, the Governance Committee has not received any shareholder nominees for consideration at the 2006 Annual Meeting of Shareholders.

Key Executive Employment and Severance Agreements

The Company has entered into Key Executive Employment and Severance Agreements (KEESAs) with certain key executive officers, including certain of the above-named executive officers, whose expertise has been critical to the Company's success, to remain with the Company in the event of any merger or transition period. The KEESA agreements provide for payment of severance to executive officers whose employment is terminated under certain circumstances, such as other than for cause, death or disability, in

anticipation of or following a change in control or by the officer for good reason following such a change, within two years of a change in control.

There are two forms of the KEESA. The KEESA for the Chairman, President and Chief Executive Officer provides for payment of three years of salary and annual incentive compensation, as well as the actuarial equivalent of the additional retirement benefits the executive officer would have earned if he had remained employed for three more years, continued medical, dental, and life insurance coverage for three years, outplacement services, and financial planning counseling. The KEESA for the remainder of the covered executive officers provides for payment of two years salary and annual incentive compensation, along with two years of the other benefits set forth above.

(1) NQ options are non-qualified stock options for purposes of the Internal Revenue Code of 1986, as amended. The option base price is the fair market value of the stock at the time of the grant. Options become fully exercisable five years after date of grant or upon a defined change of control. Termination of employment for any reason other than death, disability or retirement will result in the cancellation of the unexercisable options. The option term is ten years.

(2) The current present value at date of grant was computed under the Black-Scholes option pricing model using the following assumptions: risk-free interest rate of 3.9%; dividend yield of 1.42%; expected market price volatility factor of 30.1%; and a weighted average expected life of 6.1 years.

Pension Plan Table

The Company maintains a defined benefit pension plan (the Pension Plan) covering all domestic salaried employees including certain of the above-named executive officers. Effective January 1, 1997, the Pension Plan was modified to become a cash balance plan. Under this approach, a participant has an account balance which is credited each year with dollar amounts equal to 5% of compensation, plus 2% of compensation in excess of the Social Security wage base. Interest is credited to the account balance each year at a rate of interest based upon 30-year U.S. Treasury securities. A starting balance was established for each participant based upon December 31, 1996 accrued benefits under the prior Pension Plan formula.

Additional annual dollar amounts are credited to the accounts of participants with Pension Plan participation prior to January 1, 1997 based on their service on January 1, 1997. These additional annual credits are 3% for those with less than 11 years; 4% for those with 11 to 20 years; and 5% for those with 21 or more years. The additional credits will apply for years after 1996 for each year of continued employment but limited to the lesser of 15 years or the number of the participant's years of credited service as of December 31, 1996. At retirement, a participant may elect a cash payment of the account balance or a life annuity of equivalent value.

Mr. Meeusen, Mr. Johnson, and Mr. Zandron are eligible for benefits under the cash balance plan, but are not eligible for benefits under the prior plan's final average pay formula. The estimated total annual benefits payable to those executives under the cash balance plan at age 65 are \$99,215 for Mr. Meeusen, \$44,898 for Mr. Johnson, and \$60,643 for Mr. Zandron. These projected benefits were determined assuming no future increases in pay and interest credited to the cash balance account at a rate of 5%.

Mr. Dix, because of his age and service, is expected to obtain retirement benefits according to the prior plan's final average pay formula, which has been retained under the modified Pension Plan as a minimum benefit for employees who had attained age 50 and completed 10 or more years of service as of December 31, 1996.

Table of Contents

Under the prior formula, the monthly pension at normal retirement (age 65) for all executive officers is equal to the sum of nine-tenths percent (0.9%) of the participant's average monthly compensation (based on the highest 60 months of the last 120 months compensation) multiplied by the participant's years of service, not to exceed 30; and six-tenths percent (0.6%) of the participant's average monthly compensation in excess of covered compensation, multiplied by the participant's years of service, not to exceed 30. IRS regulations limit the amount of compensation to be considered in benefit calculations to \$210,000 in 2005, and varying amounts for prior years. Participants whose compensation is in excess of the IRS limits also participate in a non-qualified unfunded supplemental retirement plan. Benefits from this plan are calculated to provide the participant the same pension benefits as if there was no compensation limit.

Based on the assumption that retirement occurs at age 65, the following table shows the approximate annual retirement benefit payable from either the funded or unfunded plan to salaried employees retiring in 2005, based on the benefit formula described above.

Average Annual Compensation (\$)	Years of Service

Compensation covered by the Defined Benefit Plan is a participant's salary and bonus, as shown in the Summary Compensation Table, whether or not such compensation has been deferred at the participant's election.

The above table does not reflect limitations imposed by the Internal Revenue Code of 1986 (the Code), as amended, on pensions paid under federal income tax qualified plans. However, an executive officer covered by the Company's unfunded program will receive the full pension to which he would be entitled in the absence of such limitations.

There are 24 years of credited service under the Pension Plan for Mr. Dix. The current remuneration for this individual for purposes of the Pension Plan is set forth in the Summary Compensation Table.

In 1990, Mr. Dix agreed to the cancellation of substantially all of his post-retirement group term life insurance in exchange for an unfunded supplemental retirement plan. This plan provides for the payment of 20% of his final monthly salary for 120 months after retirement. Assuming no increase in salary before retirement, Mr. Dix would be paid an additional annual pension of \$48,000.

In 2005, the Company established an unfunded, non-qualified supplemental retirement plan known as the Badger Meter Executive Supplemental Plan for Key Employees, and the current participants are Messrs. Meeusen and Johnson. Under the terms of the Plan, and solely for the purpose of measuring the total amount due the participants, the Company will credit to an account for each participant, on the last day of each month, an amount equal to 7.5% of the participant's base compensation for that month. Interest shall be credited to amounts in the account at a rate equal to the prime rate of interest as of the first business day of each calendar year. Upon retirement, the accumulated balance in a participant's account can be withdrawn in a lump sum or over a 10-year period, with interest continuing to accrue. Assuming no change in salary or interest rates before a retirement age of 65, Messrs. Meeusen and Johnson would be paid an additional annual pension averaging \$112,000 and \$66,000, respectively, for the 10-year period after retirement.

Mr. Gras, a German resident and citizen, is not covered by the defined benefit pension plan. The Company, through its European subsidiary, provides Mr. Gras with an insurance policy that provides benefits similar to those of

the other named executives covered by the cash balance plan.

Corporate Governance Committee Report on Executive Compensation

In addition to its responsibilities relating to corporate governance, the Corporate Governance Committee administers the Company's executive compensation program. The Governance Committee is composed of four nonemployee directors. Following the Governance Committee's review and approval, all matters related to its activities are reported to the full Board of Directors for approval.

The compensation policies that are used as a general guideline by the Governance Committee as it carries out its duties are as follows:

The design of executive pay programs should attract and retain qualified executive officers, motivate and reward performance;

Achievement of annual incentive compensation levels requires attainment of performance goals as approved by the Governance Committee;

Long-term incentive programs must focus on the enhancement of shareholder value through the use of stock options, restricted stock and long-term cash incentives; and

The Governance Committee uses its judgment to achieve a fair and competitive compensation structure, utilizing both short-term and long-term plans, with fixed and variable components.

In making its decisions, the Governance Committee reviews:

Competitive compensation data for organizations of similar size and similar business activity, considering both base salary and bonus data separately, on a combined basis and total cash and noncash compensation;

Financial performance for the Company as a whole and for various product lines, relative to prior year, the budget and other meaningful financial data; and

Personal performance, including objectives approved by the Governance Committee and on a discretionary basis, where appropriate.

The compensation program for the executive officers of the Company involves base salaries, short-term annual cash incentive bonuses and a long-term program using stock options, restricted stock and cash incentives.

Base Salaries. Salary rates are established for each officer by the Governance Committee, using data supplied by an independent consulting firm on organizations of similar size and similar business activity. The compensation survey incorporates privately-held as well as publicly-held companies of similar size, and has a broader definition of similar business activity, thereby providing the best basis for evaluating compensation relative to the companies that compete with the Company for executives. The data includes salaries, total cash compensation and, total compensation. In establishing the compensation of each officer, including the President and Chief Executive Officer, the Governance Committee is given a five-year history, including base salary, short-term incentive awards, and long-term compensation programs. This process has been consistently used by the Governance Committee for the past 15 years. The Company's policy is to pay executives at market, with appropriate adjustments for performance and levels of responsibility.

Base salary increases approved for 2006 by the Governance Committee ranged from 2.0 to 7.9 percent, with the President and Chief Executive Officer's compensation increasing 5.0 percent, after evaluation of the factors set forth above relative to each individual's circumstances and performance.

Short-Term Incentive Plan. Under the 2005 short-term incentive plan, the target bonus payable is 66 percent of base salary for the President and Chief Executive Officer and 55-60.5 percent for the other named executive officers. Two factors are used for the short-term incentive plan—financial and predetermined performance objectives. The financial factor is based on the attainment of a certain level of earnings before interest and taxes for the Company, approved at the beginning of each year by the Governance Committee. The target bonus can be adjusted up or down 10 percent depending on an individual's performance. For 2005, bonuses were paid to the executive officers upon

achievement of goals.

Table of Contents

Long-Term Incentive Plans/ Stock Option Plans. A long-term compensation program, which includes the Company's Stock Option Plans, presents an opportunity for the officers to gain or increase their equity interests in the Company. All of the stock options were granted at the market price on the date of grant and are based on a factor of compensation.

The Company's Long-Term Incentive Plan provides annual cash bonuses to the members of the management group with respect to a four-year performance period. The awards are based upon annual attainment of earnings objectives for each year, as established by the Board of Directors. The plan in effect for 2005 was put in place for 2002-2005.

Section 162(m) Limitations. It is anticipated that all 2005 compensation to executive officers will be fully deductible under Section 162(m) of the Code and therefore the Governance Committee determined that a policy with respect to qualifying compensation paid to certain executive officers for deductibility is not necessary.

The foregoing report has been approved by all members of the Governance Committee.

Ernst & Young LLP provided the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (regarding independence discussions with audit committees), and the Audit Committee discussed with Ernst and Young LLP the firm's independence from Management and the Company, including the matters in those written disclosures.

Prior to the audit, the Audit Committee discussed with Ernst & Young LLP and the Company's internal auditors the overall scope and plans for their respective audits. Ernst and Young LLP then conducted their independent audit. Following the audit, the Audit Committee met with Ernst & Young LLP, with and without Management present, to discuss the results of their audit examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting, as well as the matters required to be discussed by the Statement on Auditing Standards No. 61 (regarding communication with audit committees), as amended, that were not otherwise covered and other professional standards and regulatory requirements as currently in effect.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for fiscal 2005 for filing with the US. Securities and Exchange Commission.

All members of the Audit Committee have approved the foregoing report.
