<b>Liability for Floating Rate Note Obligations Related to Securities Held (15.6%)</b> (Cost (\$44,035,000)) (44,035) Notes with interest rates ranging from 0.44% to 1.78% at January 31, 2009 and contractual maturities of collateral ranging from 2017 to 2038 (g)	\$ (44,035,000)
<b>Total Net Investments 164.4%</b> (Cost \$503,934,083)	463,773,351
<b>Liabilities in Excess of Other Assets (2.0%)</b>	(5,559,965)
<b>Preferred Shares (including accrued distributions (62.4%))</b>	(176,060,564)
<b>Net Assets Applicable to Common Shares 100.0%</b>	\$ 282,152,822

Percentages are calculated as a percentage of net assets applicable to common shares.

- (a) Underlying security related to Inverse Floaters entered into by the Trust.
- (b) Security purchased on a when-issued, delayed delivery, or forward commitment basis.
- (c) Escrowed to Maturity
- (d) Variable Rate Coupon
- (e) Security has been deemed illiquid.
- (f) Security includes a put feature allowing the Trust to periodically put the security back to the issuer at amortized cost on specified put dates. The interest rate shown represents the current interest rate earned by the Trust based on the most reset date.
- (g) Floating rate notes. The interest rates shown reflect the rates in effect at January 31, 2009.

The Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157), effective November 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FAS 157 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs)

and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust's investments. The inputs are summarized in the three broad levels listed below.

Level 1 - quoted prices in active markets for identical investments

Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of January 31, 2009 in valuing the Trust's investments carried at value:

<b>Valuation Inputs</b>	<b>Investments in Securities</b>
Level 1 - Quoted Prices	\$-0-
Level 2 - Other Significant Observable Inputs	507,808,351
Level 3 - Significant Unobservable Inputs	-0-
<b>Total</b>	<b>\$507,808,351</b>

Municipal bonds are valued by independent pricing services or dealers using the mean of the last reported bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

Item 2. Controls and Procedures.

(a) The Trust's principal executive officer and principal financial officer have concluded that the Trust's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Trust in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Trust's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

Item 3. Exhibits.

(a) A certification for the Principal Executive Officer of the registrant is attached hereto as part of EX-99.cert.

(b) A certification for the Principal Financial Officer of the registrant is attached hereto as part of EX-99.cert.
