PART I

ITEM 1. DESCRIPTION OF BUSINESS

GENERAL

eResource Capital Group, Inc. (formerly flightserv.com) and its subsidiaries ("RCG" or the "Company") are currently engaged in the operation of leisure charter travel services, telecommunications call center, technology business consulting, home technology, and Internet solutions businesses. RCG is a Delaware corporation incorporated in 1982.

Prior to fiscal 1996, the Company, then known as Proactive Technologies, Inc., operated a drug-screening and testing lab and a computer software development business. In fiscal 1996, the Company discontinued these operations when it acquired Capital First Holdings, Inc., a residential real estate development company. Through the first half of fiscal 1999, the Company was engaged primarily in the design, development and sale of single-family subdivisions.

In the second half of fiscal 1999, the Company acquired a commercial real estate business consisting of two strip-mall, shopping centers and a hotel development concept. Also, during the second half of fiscal 1999, the Company decided to discontinue its residential real estate development operations and focus primarily on developing an Internet Web site to provide access to private aviation travel services. The Company changed its name to flightserv.com in June 1999 to reflect the new business direction. In fiscal 2000, the Company continued development of the private aviation concept and launched the Private Seats program in March 2000. The Company was able to generate only minimal customer bookings through the Private Seats program and did not book any flights after June 2000.

In fiscal 2001, the Company modified its business plan and acquired several companies in various business segments. In October 2000, the Company changed its name to eResource Capital Group, Inc. to reflect the new business direction. Also, in fiscal 2001 the Company discontinued its commercial real estate business.

Certain statements contained in this report, including, without limitation, statements containing the words "believes", "anticipates", "expects", and words of similar import, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following: international, national and local general economic and market conditions; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; existing governmental regulations and changes in or the failure to comply with, governmental regulations; adverse publicity; competition; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; and other factors referenced in this report. Certain of these factors are discussed in more detail elsewhere in this report. Given these uncertainties, readers of this report and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

AVIATION TRAVEL SERVICES

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

In fiscal 1999 and 2000, the Company developed an Internet Web site to provide access to private jet flight and travel services. The Web site was launched on March 9, 2000 and featured the Company's Private Seats(TM) program which was designed to aggregate individual demand for private jet travel between designated cities to make chartering of an aircraft economical for the charter operator and individual travelers. From April 17, 2000 through June 30, 2000, the Company chartered a limited number of flights. Thereafter, the Company has not generated any revenue from the Private Seats program. The Company currently has no plans to further develop and market its private aviation charter travel services business.

On August 25, 2000, the Company completed the acquisition of Internet Aviation Services, Ltd. ("IASL") in accordance with a definitive purchase agreement dated August 11, 2000, which provided for the exchange of 1,750,000 shares of the Company's common stock, par value \$0.04 per share (the "Common Stock"), for all of IASL's common stock. On August 11, 2000, the 1,750,000 shares of common stock issued for IASL had a market value of \$984,375. Including direct acquisition costs, the aggregate purchase price for IASL was \$1,176,905. The excess value of the purchase price over the fair value of IASL's net assets on the acquisition date aggregating \$1,126,905 was allocated to goodwill.

IASL was a new leisure and business travel services company, which provided charter services. In October 2000, RCG formed a new wholly-owned subsidiary, flightserv.com ("FSW"), which now operates the Company's aviation travel service business. FSW does not own or operate any aircraft. FSW has an agreement with a tour operator to provide air charter services between Charlotte, North Carolina and Cancun, Mexico for a 12-month period ending December 21, 2001. FSW has an agreement with Southeast Airlines to operate the aircraft. In addition, FSW has an agreement with Casino Express Airline to charter a 122 seat B-737-200 jet aircraft to provide air service for casinos in Tunica, Mississippi and an agreement to provide additional charter service to Cancun with a major tour operator.

In October 2000, FSW entered into a contract with Southeast Airlines to charter two additional DC-9-30 jet aircraft to provide jet shuttle service between Norfolk, Virginia and New York City, New York and between Norfolk and Orlando, Florida. Due to low consumer demand for this service FSW suspended its jet shuttle operations in January 2001 and terminated its contract with Southeast for the two DC-9-30 aircraft.

In May 2001, FSW added retail travel agency operations to generate additional revenue and provide services to FSW's leisure charter operations.

In July 2001, FSW entered into an agreement with Vacation Express, which is effective December 2001, to create a passenger hub in Orlando-Sanford International Airport. Pursuant to the terms of the agreement, six commercial jet aircraft will originate in six eastern and midwestern cities and serve five Caribbean destinations and Orlando, Florida.

TELECOMMUNICATIONS CALL CENTER

On September 7, 2000, the Company completed the acquisition of DM Marketing, Inc. ("DMM") in accordance with a definitive purchase agreement dated August 16, 2000, which provided for the exchange of 8,450,000 shares of the Company's Common Stock for all of the common stock of DMM. On August 16, 2000, the 8,450,000 shares of common stock issued for DMM had a market value of \$5,281,250. Including direct acquisition costs, the aggregate purchase price for DMM was \$6,210,897 and the transaction was recorded using the purchase method of

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

accounting. The excess value of the purchase price over the fair value of DMM's net assets on the acquisition date aggregating \$5,722,267 was allocated to goodwill.

DMM operates a thirty-five (35) seat telecommunications call center providing telemarketing, help desk and other services for Internet related and other companies. Currently, none of the seats in the call center are being utilized.

In fiscal 2001, the Company determined that it would not develop its Private Seats business and, accordingly, that DMM would not be utilized to provide services to the Private Seats business. In addition, DMM reduced employee staff significantly due to its inability to secure service contracts. As a result, the Company wrote-off unamortized goodwill of \$4,660,570 related to the DMM acquisition in June 2001.

TECHNOLOGY BUSINESS CONSULTING

On February 13, 2001, the Company acquired all of the outstanding capital stock of Avenel Ventures, Inc. ("Avenel") in exchange of 6,700,000 shares of Common Stock pursuant to a stock purchase agreement dated as of November 8, 2000. The total purchase price aggregated \$6,834,000 and the transaction was recorded using the purchase method of accounting. The excess value of the purchase price over the fair value of Avenel's net assets on the acquisition date aggregating \$5,610,144 was allocated to goodwill.

Avenel Ventures provides investment and advisory services to technology and other companies, and through its wholly-owned subsidiary, Avenel Alliance, provides e-commerce and business development services to clients implementing innovative strategies in e-commerce Internet marketing.

Avenel began operations in June 2000 and Avenel Alliance in August 2000. Since that time, the companies had developed relationships with major companies offering marketing services. In connection with the acquisition of Avenel, two key employees of Avenel joined the Company's management team. At June 30, 2001, the Company had reduced the staff of Avenel from ten employees to one employee in part because certain employees of Avenel became employees of RCG upon RCG's acquisition of Avenel and in part due to the business downturn in the economy in general and the technology sector in particular. The companies continue to pursue consulting contracts that will enable them to grow their consulting business in the future.

HOME TECHNOLOGY

On April 3, 2001, the Company acquired LST, Inc. d/b/a Lifestyle Technologies ("LST") in exchange of 8,074,675 shares of Common Stock pursuant to certain stock purchase agreements. Including direct acquisition costs, the total purchase price aggregated \$7,267,208 and the transaction was recorded using the purchase method of accounting. The excess value of the purchase price over the fair value of LST's net assets on the acquisition date aggregating \$8,069,669 was allocated to goodwill.

LST is a full service home technology integration company providing complete installation and equipment for structured wiring, home security, PC networking, home audio, home theater, central vacuum and accent lighting. During fiscal 2001, LST expanded from its headquarters in Charlotte, N.C. to Raleigh, N.C., Greenville, S.C., Columbia, S.C., Hilton Head, S.C. and Charleston, S.C. LST creates relationships with high-end (\$250,000 and higher) residential

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

homebuilders providing a basic structured wiring and security package in exchange for an agreement to introduce the homeowner to a LST sales consultant, as well as a visit to the local LST showroom. While in the showroom, the homeowner is introduced to the complete line of home security, entertainment, lighting, and home office options. Using LST pricing software, the sales consultant can customize, design and price the consumer's package while they are enjoying their "showroom experience," a significant advantage within the industry. LST has also secured relationships with product manufacturers, distributors and service providers (cable, Internet service provider - "ISP", broadband and security) to insure the highest quality and most attractive pricing for the homeowners' needs. The "up sales" for these products and services usually range from \$2,000 to \$10,000. LST, however, has installed packages up to \$100,000.

In the fourth quarter of fiscal 2001, LST began development of a national franchising program, which was implemented in September 2001. In connection with the franchising program, LST, at June 30, 2001, had received non binding letters of intent from prospective franchisees to purchase franchise licenses for 11 markets, including all LST-operated markets, except Charlotte N.C. Also, in July 2001, LST acquired a home technology business in Atlanta, Georgia. LST plans to own and operate the Charlotte, NC and Atlanta, GA markets.

INTERNET/TECHNOLOGY SOLUTIONS

On June 19, 2001, the Company acquired Logisoft Computer Products ("Logisoft") in exchange of 5,500,000 shares of Common Stock pursuant to certain agreement and plan of merger. The total purchase price aggregated \$5,504,879 and the transaction was recorded using the purchase method of accounting. The excess value of the purchase price over the fair value of Logisoft's net assets on the acquisition date aggregating approximately \$4,146,489 was allocated to goodwill.

Logisoft works with clients on projects ranging from e-commerce strategies and implementation, to software and hardware needs, to LAN configurations and system integration consulting. Logisoft, which was founded in 1989, conducts its business through two units:

Technology Solutions: provides data networking and communications infrastructure consulting and implementation and is a leading distributor of third party software to corporate and educational customers.

Internet Solutions: Logisoft Interactive, Logisoft's strategic Internet services business ("LGI"), is a full spectrum Internet services provider with a focus on enabling globalization of e-business. LGI creates global and localized Internet solutions for Global 2000 and top tier private companies that require a sophisticated cost-effective Internet presence. LGI employs a comprehensive approach to Internet services engagements including up-front planning with its strategic consulting services, custom front-end-architecture and web site development as well as comprehensive back end support upon web site completion. LGI e-commerce and globalization services address business strategy, currency exchange, cultural assessment, logistical support, tax, legal and fraud issues, language requirements and micro-marketing. In addition, LGI partners with traditional and pure web-based businesses to take those businesses to the Internet through partner sites. LGI participates in the development and implementation of the business plan in exchange for revenue-sharing and/or equity-based arrangements.

RECENT BUSINESS DEVELOPMENTS

On July 10, 2001, the Company acquired certain net assets and the business of a home technology company in Atlanta, Georgia for approximately \$1,255,000 which was paid in cash (\$275,000), common stock (975,556 shares) and a four - year term note (\$250,000). The total purchase price including direct

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

acquisition costs, aggregated approximately \$1,260,000 and the transaction was recorded using the purchase method of accounting. The excess value of the purchase price over the fair value of the net assets on the acquisition date aggregating approximately \$1,136,000 has been allocated to goodwill.

FACTORS AFFECTING FUTURE RESULTS AND FORWARD-LOOKING STATEMENTS

The Company's business, results of operations and financial condition are subject to many risks, including those set forth below. The following discussion highlights some of these risks and others are discussed elsewhere herein or in other documents filed by the Company with the Securities and Exchange Commission ("SEC"). In addition, statements in this report relating to matters that are not historical facts are forward-looking statements based on management's belief and assumptions using currently available information. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it cannot give any assurances that

5

6

these expectations will prove to be correct. Such statements involve a number of risks and uncertainties, including, but not limited to those set forth below.

Many of RCG's Businesses Have Minimal Operating History

DMM, FSW, Avenel and LST generally have limited operating history upon which to base an evaluation of their business and prospects. As a result, there is limited information upon which to base an evaluation of the Company's prospects. RCG's chances of financial and operating success should be evaluated in view of the risks, uncertainties, expenses, delays and difficulties associated with starting a new business.

Loss Of Key Management Personnel Could Adversely Affect The Business

RCG's success depends primarily on the skills of its management team. Several of its officers have joined the Company recently and many of its key personnel have worked together for a relatively short time. The loss of one or more of our key management personnel may adversely affect RCG's business and financial condition.

RCG Faces Significant Competition

The success of RCG depends on its ability to grow its businesses all of which operate in highly competitive business segments. Many of its competitors have financial resources substantially greater than RCG.

RCG Growth Is Dependent On The Successful Completion Of Acquisitions And RCG May Be Unable To Successfully Execute It's Acquisition Strategy.

RCG anticipates that a portion of the future growth will be accomplished through acquisitions. The success of this plan depends upon RCG's ability to:

- identify suitable acquisition opportunities;
- effectively integrate acquired personnel, operations, products and technologies into our organization;
- retain and motivate the personnel of acquired businesses;

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

- retain customers of acquired businesses;
- obtain necessary financing on acceptable terms or be able to use Common Stock as consideration for acquisitions.

Additionally, in pursuing acquisition opportunities, RCG may compete with other companies with similar growth strategies, many of which are larger than RCG and have greater financial and other resources than does the Company. Competition for acquisition targets could also result in increased prices for acquisition targets as well as turbulence in financial markets and the slowdown in the U.S. economy, may result in diminished pool of companies available for acquisition.

The Loss Of One Or More Major Customers Could Harm RCG's Business.

RCG's businesses currently have just a few or limited number of customers. The loss of one or more major customers, the failure to attract new customers on a timely basis, or a reduction in revenue associated with existing or proposed customers would harm its business and prospects.

RCG Needs To Raise Additional Funds In Order To Continue To Operate And Grow Its Business.

Based on RCG's current operations and projections, RCG will need to raise additional funds in order to continue to operate, to grow its business and to continue to execute its business acquisition strategy. RCG is currently in the process of attempting to secure debt financing to provide RCG with additional working capital. If RCG raises funds through debt financing, then RCG will incur additional interest expense going forward. If RCG raises additional funds by issuing additional equity securities, then the percentage ownership of RCG's current stockholders will be diluted. RCG cannot be certain that additional financing will be available when and to the extent required or that, if available, it will be on acceptable terms. In addition, RCG's ability to complete future financings may be affected by the market price of the Common Stock. If adequate funds are not available on acceptable terms, RCG will not be able to continue to fund its existing businesses or its planned expansion or take other steps necessary to enhance its business, or continue its operations.

6

7

RCG Has Been Incurring Operating Losses And There Can Be No Assurance That RCG Will Achieve Or Sustain Profitability.

RCG has incurred substantial operating losses in fiscal years ended June 30, 2001 and 2000. RCG's past operating losses include significant losses associated with its aviation businesses and in particular losses associated with the development of the Private Seats(TM) program and the jet shuttle service based in Norfolk, Virginia. While RCG has suspended its operations of both the Private Seats(TM) and Norfolk jet shuttle programs, RCG's other businesses have been and continue to incur operating losses as well. In particular, RCG has incurred significant operating losses in connection with its efforts to expand its existing businesses and to grow through acquisitions. As a result of these costs and uncertain revenue growth, there can be no assurance that RCG will achieve or sustain profitability.

RCG Has Been Unsuccessful In Implementing Its Prior Business Plans, Has Recently Modified Its Current Business Plan And May Not Be Able To Successfully Implement Its Current Business Plan.

During the fiscal year ended June 30, 2000, RCG incurred substantial

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

expenses developing its Private Seats program. RCG was unable to generate sufficient customer use of its Private Seats program and had to discontinue the service shortly after it was launched. As a result, RCG made a decision to diversify through the acquisitions of DMM, IASL, Avenel, LST and Logisoft. In addition, RCG expanded its business plan to attempt to acquire expansion-stage technology companies. At the same time, RCG has had a change in its executive team. However, RCG has limited resources and there can be no assurance that RCG will be able to implement its current business plan or achieve profitability. In addition, if RCG is not successful in implementing its new strategy or if RCG otherwise believe it to be in its best interest, RCG may modify or change its business plans.

RCG's Acquisition Strategy Has And Will Continue To Dilute Our Current Stockholders' Ownership.

RCG issued a total of 30,474,675 shares in connection with the acquisitions of IASL, DMM, Avenel, LST, and Logisoft and RCG's acquisition strategy contemplates that it will continue to issue shares of its Common Stock to make strategic acquisitions and attempt to grow its business in the future. However, each of the acquisitions that RCG completes in the future will further dilute its current stockholders' ownership interest in the Company.

Events of September 11, 2001 May Have an Adverse Affect on RCG's Businesses.

The terrorist attack against the United States has produced great uncertainty in the economy in general and in the aviation industry in particular. Industry reports indicate that these events have had a sudden and substantial negative impact on the demand for air travel generally. These events may drastically alter the long-term demand for charter services. In addition, these events may lead the FAA to place additional restrictions on charter flight operators which may increase the cost of private charter services. The long-term impact of these events on the aviation industry and the chartered services segment of that industry are not known. These events could have a material adverse effect on FSW's charter services business including FSW's planned commencement of charter hub service through Orlando, Florida.

Also, the terrorist attack against the United States has produced uncertainty in the financial markets which could prolong the current economic recession. The long-term impact of these events on the United States economy is unknown. These events could have an adverse effect on RCG's home technology and other business segments.

Volatility of Stock Price/Potential for Future Sales of Restricted Securities

The market price of the Company's Common Stock is highly volatile and is likely to continue to be subject to wide fluctuations in response to factors including the announcement by the Company of future acquisitions or other corporate developments. Additionally, in recent years many companies with Internet related businesses have experienced extreme price and volume fluctuations that have often been unexplained by the operating performance of such companies. The Company's stock price could also be negatively affected by the future sale of shares of restricted Common stock or shares underlying options and warrants that have been issued by the Company. Approximately 47,250,000 issued and outstanding shares of the Company's Common Stock are believed to be restricted securities as defined in Rule 144 promulgated under the Securities Act of 1933, as amended (the "Securities Act"). Rule 144 provides generally that restricted securities must be held for one year prior to resale and provides certain additional limitations on the sale of such shares after one year including restrictions on the volume that a beneficial owner may sell in any three month period. Generally, non-affiliated owners may sell restricted securities without the volume limitations, after the shares have been held for at least two years. In addition, certain holders of restricted shares have

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

registration rights and, to the extent any shares of restricted stock are included in a registration statement filed by the Company, these shares will become freely tradable on the effective date of such registration statement. The Company has also issued warrants and options which, if exercised, could result in up to an additional 25,433,398 shares of the Company's Common Stock being outstanding.

7

8

FSW Is Dependent On The Availability And Quality Of Charter Flight Operators

FSW does not intend to own or operate any aircraft and will be dependent upon aircraft operators to provide all flight services. The success of FSW will depend directly on the ability of aircraft operators to provide quality service. Shortages in available aircraft could be disruptive to FSW's business. In addition, the quality of the services (including the reliability and comfort of services at the airport and in flight) provided by the aircraft operators will be critical to the success of FSW's business.

FSW's Business May Be Negatively Effected If The Cost Of Chartering Flights Increases

FSW does not intend to own or operate any aircraft. However, FSW's revenue for leisure charter flights will be equal to the difference between the fares negotiated with the travel agency and the cost to operate the aircraft including the fee charged by the aircraft operator. FSW plans to enter into contracts with aircraft operators establishing fees, which will be fixed for limited periods of time. However, if the costs of operating charter flights increase over time, the aircraft operators may increase the price of chartering a flight. In that event, FSW will have to increase the price to its customers or experience a reduced profit margin it receives from each flight. FSW will have limited control over the cost of aircraft, which could increase as a result of changes in operating costs (such as jet fuel, pilot fees, airport fees or maintenance fees) or as a result of other factors such as high demand for charter flights or general economic conditions or increased FAA regulations. If aircraft costs increase and, as a result, FSW increases its customers prices, it may lose customers.

Government Regulation Of The Travel Industry Could Impact FSW's Operations

Certain segments of the travel industry are regulated by the United States Government and, while FSW is not currently required to be certified or licensed under such regulation, certain services offered by FSW are affected by such regulation. Charter flight operators, which FSW depends on, are subject to vigorous and continuous certification requirements by the Federal Aviation Administration ("FAA"). Changes in the regulatory framework for aviation travel (including changes resulting from the events of September 11, 2001) could adversely affect FSW's business, operations and financial condition.

Logisoft's Fixed-fee Contracts Involve Financial Risk

Many of Logisoft's existing strategic Internet services contracts are on a fixed-fee basis. Logisoft assumes greater financial risk on fixed-fee contracts than on time-and-materials engagements. Logisoft has a limited history in estimating costs for fixed-fee engagements. If Logisoft fails to estimate costs on fixed-fee contracts accurately or encounter unexpected problems, its financial performance will be adversely affected. To reduce this financial risk, Logisoft is continuously refining its estimating methods, attempts to price new contracts on a time-and-materials basis and negotiates payments for extended

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

requirements gathering engagements when possible. From time to time, Logisoft has had to commit unanticipated resources to complete some of its projects, resulting in lower gross margins. Logisoft may experience similar situations in the future.

Logisoft Generally Does Not Have Long-term Contracts

Its clients generally retain Logisoft on a project-by-project basis, rather than under long-term contracts. As a result, a client may or may not engage Logisoft for further services once a project is completed or may unilaterally reduce the scope of, or terminate, existing projects. The absence of long-term contracts creates an uncertain revenue stream, which could negatively affect Logisoft's financial condition.

8

9

The Developing Market For Strategic Internet Services And The Level Of Acceptance Of The Internet As A Business Medium Will Affect Logisoft's Business

The market for strategic Internet services is relatively new and is evolving rapidly. Logisoft's future growth is dependent upon its ability to provide strategic Internet services that are accepted by its existing and future clients as an integral part of its business model. Demand and market acceptance for recently introduced services are subject to a high level of uncertainty. The level of demand and acceptance of strategic Internet services is dependent upon a number of factors, including:

- the growth in consumer access to and acceptance of new interactive technologies such as the Internet;
- companies adopting Internet-based business models
- the development of technologies that facilitate two-way communication between companies and targeted audiences.
- the level of capital spending on Internet, technology and communications initiatives; and
- the extent and nature of any domestic or international regulation of e-business or uses of the Internet.

Significant issues concerning the commercial use of these technologies include security, reliability, cost, ease of use and quality of service. These issues remain unresolved and may inhibit the growth of Internet business solutions that utilize these technologies.

Industry analysts and others have made many predictions concerning the growth of the Internet as a business medium. These predictions should not be relied upon and recently the market for strategic Internet services in particular has contracted. If the market for strategic Internet services fails to develop, or develops more slowly than expected, or if Logisoft's services do not achieve market acceptance, Logisoft's revenue and operating results may be volatile and insufficient.

Logisoft May Not Be Able To Keep Up With The Continuous Technological Change In Its Market

Logisoft's success will depend, in part, on its ability to respond to technological advances. Logisoft may not be successful in responding quickly,

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

cost-effectively and sufficiently to these developments. Many of Logisoft's competitors are larger than Logisoft and have significantly more financial resources to invest in advances in technology, products, engagement methodology and other areas central to providing technology and Internet solutions. Logisoft will not be able to complete effectively if Logisoft is unable, for technical, financial or other reasons, to adapt in a timely manner in response to technological advances. In addition, employee time allocated to responding to technological advances will not be available for client engagements.

Logisoft's Business Is Largely Dependent Upon Retaining Its Manufacturer Authorizations That Allow It To Sell Software To Educational Facilities At Discounted Pricing

Since 1991, Logisoft has been accumulating authorizations from key software manufacturers that allow it to sell products to educational facilities at deep discounts. If Logisoft were to lose any of these authorizations, its ability to sell computer products to educational customers could be adversely impacted, which could have a similar impact on its sales, profitability and ability to expand within this business line. In addition, this business uses credit lines extended by software and hardware manufacturers and distributors. The loss of any of these credit lines would limit Logisoft's ability to meet customer demand, thereby reducing sales and profits.

DMM Has Been Unable To Consistently Generate Service Contracts For Its Call Center

DMM has a 35-seat telecommunications call center that is currently not being utilized. RCG had intended to utilize a portion of the call center in connection with its private aviation travel services business but RCG determined that such services from DMM were not needed after it determined not to proceed with its Private Seats program. In order to utilize its call center, DMM is dependent upon securing service contracts. To date, DMM has not been able to secure sufficient service contracts to utilize its call center in a profitable manner.

STRATOS INNS CONCEPT

The Company owns the Stratos Inns business concept and during 2000 and 2001 the Company held a lease on property at the Dekalb-Peachtree Airport in Dekalb County, Georgia (the "PDK Property"). The PDK Property and similar properties at other general aviation airports provided an opportunity for Stratos Inns or a strategic partner to develop and provide a variety of lodging and related hospitality services to private aviation pilots and passengers. The Company was declared in default of the lease by the landlord in October 2000 on the basis that it did not commence construction on the PDK property. Due to its limited available capital and inability to secure a hotel management partner, the Company determined it was unlikely that it would be able to complete the construction of a hotel facility within the time constraints of its property lease or to obtain a lease extension from the landlord. In December 2000, the Company recorded a

9

10

noncash charge of \$1,164,000 to write off its PDK and Stratos Inns investments. The Company has no plans to develop the Stratos Inns concept.

DISCONTINUED OPERATIONS

The Company discontinued its residential real estate development business in fiscal 1999. During fiscal 1999 and 2000, the Company disposed of

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

the majority of its residential real estate holdings and disposed of the remaining properties in fiscal 2001.

In fiscal 2001, the Company discontinued its commercial real estate business, which consisted of two strip-mall shopping centers in the Atlanta, Georgia area. In May 2001, the Company entered a contract to sell its two shopping centers, which closed on August 31, 2001. As a result, the Company recorded a gain of approximately \$575,000.

EMPLOYEES

At June 30, 2001, the Company had 135 full-time employees:

Aviation Travel Services	12
Telecommunication Call Center	5
Technology Business Consulting	1
Home Technology	60
Internet/Technology Solutions	50
Corporate	7

	135

The Company has no collective bargaining agreements with any unions and believes that overall relations with its employees are good.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board issued FAS No. 141 "Business Combinations" ("FAS 141") and FAS No. 142 "Goodwill and Other Intangible Assets" ("FAS 142"). FAS 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. FAS 141 also specifies the criteria applicable to intangible assets acquired in a purchase method business combination to be recognized and reported apart from goodwill. FAS 142 requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually. FAS 142 also requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed for impairment.

The Company adopted FAS 141 and 142 effective July 1, 2001. In adopting FAS 142, the Company will no longer amortize goodwill. The Company recorded \$2,030,630 of goodwill amortization in fiscal 2001 or the equivalent of \$0.04 per share. The Company would have recorded approximately \$4,038,000 of goodwill amortization in fiscal 2002 based on the Company's existing goodwill at June 30, 2001 and the goodwill related to the business acquisition in July 2001. The Company has not yet determined what other effect, if any, FAS 141 and 142 will have on the Company's results of operations or financial position.

Information regarding other sales of unregistered securities by the Company during the fiscal year ended June 30, 2001 is contained in the Company's Quarterly Reports on Form 10-QSB for the quarters ended September 30, 2000, December 31, 2000 and March 31, 2001.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

In fiscal 2000, the Company's continuing operations included development of an Internet-based, private aviation travel services business and other investments. In addition to these businesses, the Company, in fiscal 2001 acquired leisure and business travel services, telecommunications call center, technology consulting, home technology, and Internet solutions businesses. Due to these business acquisitions, the Company's revenue and expense category amounts in fiscal 2001 vary significantly from fiscal 2000. Also in fiscal 2001, the Company discontinued its commercial real estate business.

Results of Continuing Operations

The following table summarizes operating results by business segment for fiscal 2001 and 2000:

Segment	Sales	Gross Profit (Deficit)
-----	-----	-----
Aviation Travel Services		
Charter	\$ 10,017,428	\$ 708,766

Corporate	--	--
	-----	-----
	\$ 13,607,093	\$ 1,643,540
	=====	=====

The Company's revenues in fiscal 2001 were \$13,607,093 compared to \$10,040 in fiscal 2000. The increase in fiscal 2001 is due to the newly acquired businesses. In fiscal 2000, the Company generated \$10,040 of revenue from the Private Seats program which began flight operations in April 2000. The Private

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

Seats program did not generate any revenue in fiscal 2001. The Company operated jet shuttle flights from November 2000 to January 2001. Due to low customer demand, the Company suspended its jet shuttle services in January 2001. The Company's leisure charter operations commenced in October 2000.

Gross profit in fiscal 2001 was \$1,643,540 compared to a deficit of \$83,521 in fiscal 2000. The increase in fiscal 2001 is due to the newly acquired businesses.

In fiscal 2001, the Company recognized \$6,885,201 of non-cash expense related to the issuance of stock options and warrants compared to \$48,996,238 in fiscal 2000. This expense decreased in fiscal 2001 because the Company granted fewer compensatory options and warrants than in fiscal 2000.

Selling, general and administrative expenses -- other in fiscal 2001 were \$6,593,637 compared to \$6,677,618 in fiscal 2000. This decrease is due to the non-recurring development costs of the Private Seats program partially offset by the expenses of newly acquired businesses.

The Company's depreciation and amortization expense in fiscal 2001 was \$2,299,653 compared to \$154,367 in fiscal 2000. The increase is due primarily to amortization of the goodwill related to the business acquisitions in the current fiscal year, which aggregated \$2,030,630. Amortization of the Company's web site and depreciation of its businesses acquired in fiscal 2001 also contributed to the increase.

13

14

Also, in fiscal 2001, the Company recorded noncash expenses to reflect the write off of the goodwill related to the DMM acquisition (\$4,660,570), pre-development costs of its Stratos Inns concept (\$1,164,043), and Private Seats web site (\$753,931).

Discontinued Operations

In fiscal 2001 and 2000, the Company recognized a loss on disposal of discontinued operations of \$300,000 and \$600,000, respectively, which reflect revised estimates of costs and expenses to liquidate the remaining assets of discontinued residential real estate operations and, in fiscal 2001, a federal tax income assessment from prior years. Also in fiscal 2001 and 2000, the Company recognized a loss from discontinued operations of \$332,611 and \$461,232, respectively, which reflects the operating results of the Company's commercial real estate operations that were discontinued in fiscal 2001.

Liquidity and Capital Resources

The net loss in fiscal 2001 of \$21,690,701 was offset by an increase in stockholder's equity of \$26,841,567 related to the stock purchases of IASL, DMM, Avenel, LST and Logisoft. A \$2,689,701 increase related to the issuance of stock and stock options and \$3,495,476 of proceeds from the sale of Common Stock and exercise of options and warrants resulted in a net increase in stockholders' equity of \$11,423,677.

The Company experienced an operating loss of \$5.3 million before non-cash expenses of \$15.8 million during fiscal 2001. The Company used cash of \$3.6 million in operations in fiscal 2001 and has cash and cash equivalents of \$1.3 million at June 30, 2001. As a result of these factors, the Company will continue to monitor costs in relation to revenues, and if necessary, undertake cost reduction measures. In addition, the Company is actively pursuing debt and equity investment alternatives to provide additional cash to support operations.

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

The Company believes the existing balances of cash and cash equivalents and cash flow from operations, coupled with the assurance of financial support from one of the Company's shareholders, will be sufficient to meet working capital and capital expenditure requirements for the next twelve months.

The Company's aviation travel service business has been cash flow positive since terminating the Jet Shuttle operations in the third quarter of fiscal 2001. The Company expects cash flow to increase significantly in the second half of fiscal 2002 when it realizes the benefit of its new leisure charter contract which is projected to generate \$40,000,000 in annual revenues and \$1,600,000 of annual cash flow.

The Company currently is not utilizing its 35-seat telecommunication call center and, therefore, is not generating any revenue from its telecommunications business at this time. During fiscal 2001, in connection with the decision to shut down the Private Seats program, the Company determined that it would not need the call center to support its travel services business. As a result, the Company will need to generate external service contracts in order to generate revenue from its call center.

During fiscal 2001, the Company's technology consulting business was substantially reduced due in part to the economic conditions in the technology market place and in part to the transition of certain employees of Avenel to RCG. After joining RCG, these employees focused on developing RCG's business plan as opposed to providing services for third parties. Currently, the Company has one employee providing technology consulting services and, while it intends to attempt to grow this business in the future, the Company does not expect significant revenue increases from consulting services during fiscal year 2002.

In the fourth quarter of fiscal 2001, the Company began development of a national franchising program for its home technology business and determined to sell certain markets to franchisees. The home technology business also reduced staff in connection with this change in the business plan. Further, the Company has identified revenue enhancements and other cost savings that should reduce the home technology operating losses significantly in fiscal 2002.

In fiscal 2002, the Company intends to continue the development of its Internet/Technology solutions business. The Company added two (2) new markets in June 2001 and has restructured its administrative staff to reduce costs. Currently, the Internet/Technology solutions business has significantly reduced its cash flow deficit from the previous 12 months of operations and the Company expects this improvement to continue.

Also, the Company expects corporate overhead expenses to decrease approximately \$1,000,000 in fiscal 2002 due to staff reductions, limited investor relations services, reduced business acquisition activities, and relocation of the Atlanta corporate office to more economical office space.

14

15

In addition to the changes discussed above, the Company has taken the following actions to provide near-term liquidity while it continues the development of its businesses in an effort to reach positive cash flow from operations:

- (i) Obtained \$1,100,000 in term loans subsequent to June 30, 2001
- (ii) Obtained a commitment letter for a \$1,000,000 term loan from certain shareholders.

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

(iii) Plans to continue the sale of certain marketable securities.

With the measures discussed above (including completion of the \$1 million term loan), the Company expects to have adequate cash balances to operate its businesses while it continues to focus on improving its cash flow. However, even with these measures, the Company may need additional debt or equity financing depending upon its ability to grow its newly acquired businesses and improve cash flow from operations. There can be no assurance that additional financing will be available when needed or, if available, that it will be on terms favorable to the Company and its stockholders. If the Company is not successful in generating sufficient cash flow from operations, or in raising additional capital when required in sufficient amounts and on terms acceptable to the Company, these failures would have a material adverse effect on the Company's business, results of operations and financial condition. If additional funds are raised through the issuance of equity securities, the percentage ownership of its then-current stockholders would be diluted.

The Company's business, results of operations, and financial condition are subject to many risks. In addition, statements in this annual report relating to matters that are not historical facts are forward-looking statements based on management's belief and assumptions using currently available information. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it cannot give any assurances that these expectations will prove to be correct. Such statements involve a number of risks and uncertainties, including, but not limited to those discussed herein or in other documents filed by the Company with the Securities and Exchange Commission.

eRESOURCE CAPITAL GROUP, INC AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

These financial statements include the operations of eResource Capital Group, Inc. ("RCG") (formerly flightserv.com) and its subsidiaries (collectively the "Company"). In October 2000, RCG changed its name from flightserv.com to reflect the new business direction of the Company. Prior to June 30, 2000, the Company was engaged in the development of its private aviation business and limited commercial real estate activities. In fiscal 2001, the Company acquired several companies and businesses. At June 30, 2001, the Company operated leisure

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

charter aviation travel services, telecommunications call center, technology consulting, home technology, and Internet/technology solutions businesses in the United States.

All significant intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the fiscal 2001 presentation and to reflect the commercial real estate business segment as discontinued operations.

The Company experienced an operating loss of \$5.3 million before non-cash expenses of \$15.8 million during fiscal 2001. The Company used cash of \$3.6 million in operations in fiscal 2001 and has cash and cash equivalents of \$1.3 million at June 30, 2001. As a result of these factors, the Company will continue to monitor costs in relation to revenues, and if necessary, undertake cost reduction measures. In addition, the Company is actively pursuing debt and equity investment alternatives to provide additional cash to support operations.

The Company believes the existing balances of cash and cash equivalents and cash flow from operations, coupled with the assurance of financial support from one of the Company's shareholders, will be sufficient to meet working capital and capital expenditure requirements for the next twelve months.

CASH AND CASH EQUIVALENTS

The Company classifies as cash equivalents any investments which can be readily converted to cash and have an original maturity of less than three months. At times cash and cash equivalent balances at a limited number of banks and financial institutions may exceed insurable amounts. The Company believes it mitigates its risks by depositing cash or investing in cash equivalents in major financial institutions.

CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash, accounts receivable, investments, and notes payable. The Company places its temporary cash with high credit quality principal institutions. The Company performs periodic credit evaluations of its customers' financial condition and generally does not require collateral. Although due dates of receivables vary based on contract terms, credit losses have been within managements estimates in determining the level of allowance for doubtful accounts. Overall financial strategies are reviewed periodically.

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

- Cash and cash equivalents: The carrying amount reported in the balance sheet for cash approximates its fair value.
- Accounts receivable and accounts payable: Due to their short term nature, the carrying amounts reported in the balance sheet for accounts receivable and accounts payable approximate their fair value.
- Marketable Securities: The fair values for available-for-sale equity securities are based on quoted market prices.
- Notes Payable: The carrying amount of the Company's note payable approximates its fair value, as

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

the interest rate is variable.

INVESTMENTS

Investments, including certificates of deposit with maturities of greater than three months, not readily marketable equity securities, and other marketable securities, are classified as available for sale. Investment securities that are not readily marketable include securities (a) for which there is no market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933, or (c) that cannot be offered or sold because of other arrangements, restrictions, or conditions applicable to the securities or the Company. Certificates of deposit are recorded at cost plus accrued interest. Marketable equity securities are recorded at estimated values based on quoted market values for marketable securities of the investee discounted for trading restrictions. If there is no quoted market value, the recorded values are based on the most recent transactions in the securities discounted for lack of marketability. Investment securities transactions are recorded on a trade date basis. The difference between cost and fair value is recorded as unrealized gain or loss on available for sale securities as a component of comprehensive income.

21

22

Investments also include stock purchase warrants, which the Company periodically receives as part of its compensation for services. Stock purchase warrants from companies with publicly traded common stock are considered derivatives in accordance with FAS 133 "Accounting for Derivative Investments and Hedging Activities". The Company recognizes revenue at the fair value of such stock purchase warrants when earned based on the Black - Scholes valuation model. The Company recognizes unrealized gains or losses in the statement of operations based on the changes in value in the stock purchase warrants as determined by the Black - Scholes valuation model subsequent to the date received. Unrealized losses for fiscal 2001 aggregated \$368,843. The Company did not hold any stock purchase warrants prior to July 1, 2000.

INVENTORY

Inventory is stated at cost using the first-in, first-out method. Inventory consists primarily of finished goods.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost, less accumulated depreciation. Depreciation is computed on the straight-line basis over the assets' estimated useful lives. Expenditures for maintenance and repairs are expensed as incurred. Expenditures for improvements which extend the useful life or add value to the asset are capitalized and then expensed over the assets remaining useful life.

Sales and disposals of assets are recorded by removing the related cost and accumulated depreciation amounts with any resulting gain or loss reflected in the statement of operations.

The carrying value of property and equipment and predevelopment costs is reviewed for impairment whenever events or changes in circumstances indicate that such amounts may not be recoverable. If such an event occurred, the Company would prepare projections of future results of operations for the remaining useful lives of such assets. If such projections indicated that the expected future net cash flows (undiscounted and without interest) are less than the carrying amounts of the property and equipment and the predevelopment costs, the

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

Company would record an impairment loss in the period such determination is made. As a result of such review, the Company recorded charges of \$753,931 and \$1,164,043 related to the write off of web site development costs of its private aviation travel services business and predevelopment costs of its Stratos Inns concept, respectively, during the year ended June 30, 2001.

REVENUE RECOGNITION

Charter Travel Aviation

Revenue related to the Company's aviation travel services consists of fees for charter flights and is recognized upon completion of the related flight.

Technology Business Consulting

The Company provides e-commerce and business development services to clients pursuant to contracts with varying terms. The contracts generally provide for monthly payments and, in some cases, advance deposits. Revenue is recognized over the respective contract period as services are provided. Deferred revenue consists of advanced payments for consulting services and is recognized over a one-year period from the date of the consulting agreement.

Home Technology

The Company's home technology services work is completed in two phases - wiring, then hardware installation. The Company invoices its customers and records revenue as work is completed on each project. For customers that purchase contracts for alarm monitoring services, revenue is recognized only when the contracts are sold to third parties. The Company sells substantially all of its alarm monitoring contracts immediately subsequent to the date the contracts are signed by the customer.

Internet/Technology Solutions

Internet services project revenue is recognized on a percentage of completion basis for fixed fee contracts, based on the ratio of costs incurred to total estimated costs for individual projects. Revenue is recognized as services are performed for time and material contracts at the applicable billing rates.

22

23

Unbilled revenue represents revenue earned under contracts in advance of billings. Such amounts are normally converted to accounts receivable within 90 days. Advanced billings represent amounts billed or cash received in advance of services performed or cost incurred under contracts. Any anticipated losses on contracts are charged to earnings when identified.

Revenue from uncollateralized e-commerce sales or sales of hardware and software is recognized upon passage of title of the related goods to the customer.

IMPAIRMENT OF LONG-LIVED ASSETS

Goodwill represents the excess of cost over net tangible assets acquired of purchased businesses and through June 30, 2001 was being amortized using the straight-line method over five years.

The Company evaluates goodwill for impairment when events and

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

circumstances indicate that the assets might be impaired and records an impairment loss if the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets. The impairment loss recognized is equal to the difference between the discounted cash flows and the carrying amount of the assets. As a results of such evaluation, the Company recorded a charge of \$4,660,570 related to goodwill impairment in connection with its acquisition of DM Marketing, Inc. during the year ended June 30, 2001.

NET LOSS PER SHARE

The Company computes net loss per share in accordance with SFAS No. 128, "Earnings per Share" which requires dual presentations of basic earnings per share ("EPS") and diluted EPS.

Basic earnings per share is computed using the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of common shares outstanding and potentially dilutive shares outstanding during the period. Options and warrants to purchase 25,433,398 and 22,445,120 shares of Common Stock were outstanding at June 30, 2001 and 2000, respectively. Such outstanding options and warrants could potentially dilute earnings per share in the future but have not been included in the computation of diluted net loss per share in 2001 and 2000 as the impact would have been antidilutive.

ADVERTISING

The Company expenses advertising costs as incurred. Advertising expense aggregated \$522,944 and \$134,424 for the years ended June 30, 2001 and 2000, respectively.

INCOME TAXES

The Company accounts for income taxes in accordance with the liability method as provided under SFAS No. 109, "Accounting for Income Taxes." Accordingly, deferred income taxes are recognized for the tax consequences of differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. The measurement of deferred tax assets is reduced, if necessary, by the amount of any benefits that, based on available evidence, are not expected to be realized.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board issued FAS No. 141 "Business Combinations" ("FAS 141") and FAS No. 142 "Goodwill and Other Intangible Assets" ("FAS 142"). FAS 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. FAS 141 also specifies the criteria applicable to intangible assets acquired in a purchase method business combination to be recognized and reported apart from goodwill. FAS 142 requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment, at least annually. FAS 142 also requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed for impairment.

The Company adopted FAS 141 and 142 effective July 1, 2001. In adopting FAS 142, the Company will no longer amortize goodwill. The Company recorded \$2,030,630 of goodwill amortization in fiscal 2001 or the equivalent of \$0.04 per share. The Company would have recorded approximately \$4,038,000 of goodwill amortization in fiscal 2002 based on the Company's existing goodwill at June 30, 2001 and the goodwill related to the business acquisition in July 2001. The Company has not yet determined what other effect, if any, FAS 141 and 142 will have on the Company's results of operations or financial position.

NOTE 2. ACQUISITIONS

RECENT BUSINESS DEVELOPMENTS

On July 10, 2001, the Company acquired certain net assets and the business of a home technology company in Atlanta, GA for \$1,255,000 which was paid in cash (\$275,000), Common Stock (975,556 shares) and a four - year term note (\$250,000). Including direct acquisition costs, the total purchase price aggregated \$1,259,857 and the transaction was accounted for using the purchase method of accounting. The excess value of the purchase price over the fair value of the net assets on the acquisition date aggregated approximately \$1,135,860 which was allocated to goodwill.

AVIATION TRAVEL SERVICES

On August 25, 2000, the Company completed the acquisition of Internet Aviation Services, Ltd. ("IASL") in accordance with a definitive purchase agreement dated August 11, 2000, which provided for the exchange of 1,750,000 shares of the Company's Common Stock for all of IASL's common stock. On August 11, 2000, the 1,750,000 shares of common stock issued for IASL had a market value of \$984,375. Including direct acquisition costs, the aggregate purchase price for IASL was \$1,176,905 and the transaction was accounted for using the purchase method of accounting. The excess value of the purchase price over the fair value of IASL's net assets on the acquisition date aggregating \$1,126,905 was allocated to goodwill.

IASL was a new leisure and business travel services company, which offers charter services. In October 2000, RCG formed a new wholly-owned subsidiary, flightserv.com ("FSW"), which now operates the Company's aviation travel services business. FSW has an agreement with a tour operator to provide air charter services between Charlotte, North Carolina and Cancun, Mexico for a 12-month period ending December 21, 2001. FSW has an agreement with Southeast Airlines to operate the aircraft. In addition, FSW signed a contract with Casino Express Airline to provide air service for casinos in Tunica, Mississippi and has an agreement to provide additional Cancun service for a major tour operator.

In October 2000, FSW entered into a contract with Southeast Airlines to charter two additional jet aircraft to provide jet shuttle service between Norfolk, Virginia and New York City, New York and between Norfolk and Orlando, Florida. Due to low consumer demand for this service FSW suspended its jet shuttle operations in January 2001 and terminated its contract with Southeast Airlines for the two aircraft.

In May 2001, FSW added retail travel agency operations to generate additional revenue and provide services to FSW's leisure charter operations.

In July 2001, FSW has entered into an agreement with Vacation Express to create a passenger hub in Orlando-Sanford International Airport. Pursuant to

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

the terms of the agreement, six commercial jet aircrafts will originate in six eastern and Midwestern cities and serve five Caribbean destinations and Orlando.

TELECOMMUNICATIONS CALL CENTER

On September 7, 2000, the Company completed the acquisition of DM Marketing, Inc. ("DMM") in accordance with a definitive purchase agreement dated August 16, 2000, which provided for the exchange of 8,450,000 shares of the Company's Common Stock for all of the common stock of DMM. On August 16, 2000, the 8,450,000 shares of common stock issued for DMM had a market value of \$5,281,250. Including direct acquisition costs, the aggregate purchase price for DMM was \$6,210,897 and the transaction was accounted for using the purchase method of accounting. The excess value of the purchase price over the fair value of DMM's net assets on the acquisition date aggregating \$5,722,267 was allocated to goodwill.

DMM operates a telecommunications call center providing telemarketing, help desk and other services for Internet related companies. Michael D. Pruitt, the Company's current Chief Executive Officer, was an officer, director and a 50% shareholder of DMM at the time it was acquired by the Company. Mrs. Pruitt was not an officer, director, or shareholder of RCG prior to its acquisition of DMM.

24

25

TECHNOLOGY BUSINESS CONSULTING

On February 13, 2001, the Company acquired all of the Common Stock of Avenel Ventures, Inc. ("Avenel") in exchange of 6,700,000 shares of Common Stock pursuant to a share exchange purchase agreement dated as of November 8, 2000. The total purchase price aggregated \$6,834,000 and the transaction was accounted for using the purchase method of accounting. The excess value of the purchase price over the fair value of Avenel's net assets on the acquisition date aggregating \$5,610,144 was allocated to goodwill.

Michael D. Pruitt was an officer, director, and 4.9% shareholder of Avenel Ventures prior to the acquisition. Melinda Morris Zaroni, the Company's Executive Vice President, was an officer, director and 29.9% shareholder of Avenel Ventures at the time of acquisition.

Avenel Ventures provides investment and advisory services to technology companies, and through its wholly-owned subsidiary, Avenel Alliance, provides e-commerce and business development services to clients implementing innovative strategies in e-commerce Internet marketing.

HOME TECHNOLOGY

On April 3, 2001, the Company acquired LST, Inc. d/b/a Lifestyle Technologies ("LST") in exchange of 8,074,675 shares of Common Stock pursuant to certain stock purchase agreements. Also, the Company may issue an additional 2,000,000 shares of Common Stock in connection with the acquisition if LST achieves certain performance goals through December 31, 2004. At June 30, 2001, LST had met none of the performance goals. Including direct acquisitions costs, the total purchase price aggregated \$7,695,586 and the transaction was recorded using the purchase method of accounting. The excess value of the purchase price over the fair value of LST's net assets on the acquisition date aggregating \$8,069,669 was allocated to goodwill.

Michael D. Pruitt was a 3.2% shareholder of LST prior to the acquisition by the Company. Avenel was a 3.5% shareholder of LST prior to the

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

acquisition by the Company.

LST is a full service home technology integration company providing complete installation and equipment for structured wiring, home security, PC networking, home audio, home theater, central vacuum and accent lighting. During fiscal 2001, LST expanded from its headquarters in Charlotte, N.C. to Raleigh, N.C., Greenville, S.C., Columbia, S.C., Hilton Head, S.C. and Charleston, S.C. LST has also secured relationships with product manufacturers, distributors and service providers.

In the fourth quarter of fiscal 2001, LST began development of a national franchising program. In connection with the franchising program, LST, at June 30, 2001, had received non binding letters of intent from prospective franchisees to purchase franchise licenses in 11 markets, including all of the LST-operated markets except Charlotte, N.C. Also in July 2001, LST acquired a home technology business in Atlanta, Georgia. LST plans to own and operate the Charlotte, NC and Atlanta, GA markets.

INTERNET/TECHNOLOGY SOLUTIONS

On June 19, 2001, the Company acquired Logisoft Computer Products Corp. ("Logisoft") in exchange of 5,500,000 shares of Common Stock pursuant to an Agreement and Plan of Merger. Also, the Company may issue an additional 500,000 shares of Common Stock in connection with the acquisition if Logisoft achieves certain performance goals from September 30, 2001 through June 30, 2002. Including direct acquisition costs, the total purchase price aggregated \$5,504,879 and the transaction was accounted for using the purchase method of accounting. The excess value of the purchase price over the fair value of Logisoft's net assets on the acquisition date aggregating approximately \$4,146,489 was allocated to goodwill.

Logisoft works with clients on projects ranging from e-commerce strategies and implementation, to software and hardware needs, to LAN configurations and system integration consulting. Logisoft, which was founded in 1989, conducts its business through two units:

Technology Solutions: provides data networking and communications infrastructure consulting and implementation and is a leading distributor of third party software to corporate and educational customers.

Internet Solutions: Logisoft Interactive, Logisoft's strategic Internet services business ("LGI"), is a full spectrum Internet services provider with a focus on enabling globalization of e-business. LGI creates global and localized Internet solutions for Global 2000 and top tier private companies that require a sophisticated cost-effective Internet presence. LGI employs a comprehensive approach to Internet services engagements including up-front planning with its strategic consulting services, custom front-end-architecture and web site development as well as comprehensive back end support upon web site completion. LGI's e-commerce and globalization services address business strategy, currency exchange, cultural assessment, logistical support, tax, legal and fraud issues, language requirements and micro-marketing. In addition, LGI partners with traditional and pure web-based businesses to take those businesses to the Internet through

partner sites. LGI participates in the development and implementation of the business plan in exchange for revenue-sharing and/or equity-based arrangements.

The Company's consolidated results of operations include the results of

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

operation of each of the acquired companies discussed above for the period from each respective purchase date through June 30, 2001.

STRATOS INN CONCEPT

The Company owns the Stratos Inns business concept and during fiscal 2000 and 2001 the Company held a lease on approximately two acres at the Dekalb-Peachtree Airport in Dekalb County, Georgia (the "PDK Property"). The PDK Property and similar properties at other general aviation airports provided an opportunity for Stratos Inns or a strategic partner to develop and provide a variety of lodging and related hospitality services to private aviation pilots and passengers. The Company was declared in default of the lease by the landlord in October 2000 on the basis that it did not commence construction on the PDK property. Due to its limited available capital and inability to secure a hotel management partner, the Company determined it was unlikely that the Company would be able to complete the construction of a hotel facility within the time constraints of its property lease or to obtain a lease extension from the landlord. In December 2000, the Company recorded a noncash charge of \$1,164,000 to write off its PDK and Stratos Inns investments. The Company has no plans to develop the Stratos Inns concept.

PRO FORMA RESULTS OF OPERATIONS

Following is the unaudited pro forma consolidated financial information reflecting the Company's acquisitions of IASL, DMM, Avenel, LST and Logisoft as if such acquisitions had occurred as of the beginning of fiscal 2001 and 2000 (in thousands, except per share amounts):

	2001

Revenue	\$ 22,591
Net loss from continuing operations	\$ (30,835)
Net loss	\$ (31,468)
Basic and diluted net loss per share	\$ (.44)
Weighted average shares	71,625,714

NOTE 3. DISCONTINUED OPERATIONS

Residential Real Estate

Effective January 1, 1999 the Company discontinued its residential real estate development operations. Residential real estate operations include developed lots, undeveloped land, and equity investments in residential real estate development companies, partnerships, and joint ventures. The Company made certain estimates regarding the fair values of certain assets and the costs to dispose of the remaining assets of the discontinued residential real estate operations during fiscal 2001 and 2000.

In July 1999, the company sold certain undeveloped land with a book value of approximately \$1,200,000 in exchange for approximately \$768,000 of cash and the assumption of approximately \$799,000 of mortgage indebtedness. In fiscal 1999, the Company recorded a gain of approximately \$367,000 on the transaction.

In September 1999, the Company transferred, pursuant to a contractual arrangement, the remaining discontinued operations real estate assets with an aggregate book value of approximately \$3,700,000 to an entity, in which a former chief executive officer was an affiliate. The Company received a note for \$1,000,000 and the buyer assumed mortgage indebtedness of approximately

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

\$2,200,000. The Company recorded a loss of approximately \$500,000 on the transaction in 1999. The Company is contingently liable on indebtedness aggregating \$2,200,000 which is due to mortgage holders. In the event the entity is not able to satisfy the \$2,200,000 of mortgage notes, the Company would be obligated to satisfy such obligations and would have the right to foreclose on the land. In June 2000, the Company determined that it was unlikely that the buyer would be able to complete the terms of the contract. As a result, the Company recorded a \$900,000 loss on disposal of discontinued operations to reflect the estimated net realizable value of this property.

The \$600,000 loss on disposal of discontinued operations in 2000 consists of a write down in the valuation of real estate inventory (\$900,000) partially offset by a reduction (\$300,000) in the estimated expenses to dispose of discontinued operations assets.

In January 2001, the Company sold a portion of its discontinued operations real estate. The net proceeds of approximately \$85,000 were used to reduce the note payable of the discontinued operations.

26

27

In June 2001, the Company sold certain real estate of discontinued operations for \$380,000. Also, in June 2001, the Company repaid certain mortgage notes and accrued interest payable of discontinued operations by transferring certain real estate inventory valued at approximately \$2,265,000 to the mortgagor.

In fiscal 2001, the Company recorded a \$300,000 loss on disposal of discontinued operations to reflect revised estimates of the net realizable value of the residential real estate inventories and of the income tax liability from prior years assessed in March 2001 by the Internal Revenue Service.

Commercial Real Estate

In fiscal 2001, the Company discontinued its commercial real estate business, which consisted of two strip-mall shopping centers in the Atlanta, Georgia area. In May 2001, the Company entered a contract to sell its two shopping centers which provided for closing on August 31, 2001. As of June 30, 2001 the Company received \$162,500 in refundable deposits related to this sale which are included in deposits and other liabilities on the Company's balance sheet. In August 2001, the Company completed the sale of the stock of its commercial real estate business in exchange for cash (\$312,500) and a 60-day note (\$62,500). The Company realized a gain of approximately \$575,000, in August 2001, on the sale. The Company's fiscal year 2000 financial statements have been reclassified to reflect the commercial real estate business as discontinued.

Following is a summary of the net assets (liabilities) of discontinued operations at June 30:

	2001

Cash	\$ 46,414

 Mortgage payable to a bank in monthly installments of \$1,751, including
 interest at 7.96% through October 2015 collateralized by the building

Less current maturities

Long-term portion

In July 2001, the Company executed two promissory notes payable in connection with a home technology business acquisition. The first note, with principal of \$250,000 payable over 48 months, bears interest at 6.75% per annum-payable monthly and is secured by certain accounts receivable of the Company's home technology business. The second note, with principal of \$300,000 payable in July 2002, bears interest at 10% per annum payable monthly, and is secured by certain assets of the Company's home technology business.

Also in July 2001, the Company executed an unsecured promissory note with principal of \$200,000 due in July 2002 which bears interest at 10% per annum payable monthly.

In September 2001, the Company executed a promissory note with principal of \$650,000 due in September 2002 which bears interest at 12% per annum payable monthly, and is secured by accounts receivable and inventory of LST. At the option of the noteholder, this note can be converted into the RCG's Common Stock at a ratio of one (1) share of Common Stock for each \$0.65 of outstanding principal and interest.

Future maturities of the mortgage payable and notes payable are as follows at June 30, 2001:

As of June 30, 2001 the Company had approximately \$37,074,000 of net operating loss carry forwards (NOL's) for federal income tax purposes, which expire between 2019 through 2021. A deferred income tax asset valuation allowance has been established against all deferred income tax assets as management is not certain that the deferred income tax assets will be realized. In addition, due to substantial limitations placed on the utilization of net operating losses following a change in control, utilization of such NOL's could be limited.

NOTE 9. COMMON STOCK AND PAID IN CAPITAL

In August 2000, the Company sold 7,070,000 shares of restricted Common Stock at \$0.375 per share in a private placement transaction. After fees and expenses, the Company realized \$2,409,000 from the private placement.

In January and February 2001, the Company raised \$575,000 in a private placement sale of 287,500 units. Each unit consists of 1) two shares of restricted Common Stock, 2) a warrant to purchase two shares of restricted Common Stock at \$3 per share, based on certain criteria, that expires 12 months after the shares underlying the warrant can be sold pursuant to an effective registration statement under the Securities Act as amended; 3) a warrant to purchase two shares of restricted Common Stock at \$4 per share, based on certain criteria, that expires in 24 months after the shares underlying the warrants can be sold pursuant to an effective registration statement under the Securities Act.

In fiscal 2001, the Company issued 30,474,675 shares of restricted Common Stock in connection with the acquisition of IASL, DMM, Avenel, LST, and Logisoft.

In fiscal 2001, the Company issued an aggregate of 772,042 shares of restricted Common Stock, including 400,000 treasury shares, in exchange for legal, strategic acquisition, franchise and other consulting services from third parties and issued 924,000 shares of restricted Common Stock in connection with a one year contract with a public relations and investor relations consultant. The Company recorded \$624,128 of expense related to such issuances.

In fiscal 2001, the Company issued an aggregate of 2,863,427 shares of Common Stock in connection with the exercise of options and warrants.

On January 18, 2000, the Company entered into Common Stock purchase agreements (the "Purchase Agreements") with Acqua-Wellington Value Fund, Ltd., ("AWVF") and Four Corners Capital, LLC, ("Four Corners") which provided for a

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

private placement of restricted Common Stock and warrants to purchase restricted Common Stock. On January 18, 2000, Four Corners purchased 165,070 shares of restricted Common Stock for an aggregate purchase price of \$1,000,000. In addition, the Company issued to Four Corners warrants to purchase up to 1,238,030 and 1,485,228 shares of Common Stock at initial exercise prices of \$9.77 and \$6.06 per share, respectively, subject to adjustments. In January 2001, the Company replaced the Four Corners warrants. See Note 10.

Under the terms of the AWVF Purchase Agreement, AWVF agreed to purchase from the Company for aggregate consideration of \$10,000,000 (i) 1,650,709 shares of restricted Common Stock and (ii) warrants to purchase up to 3,260,151 shares of restricted Common Stock at a future date. The AWVF Purchase Agreement required AWVF to complete the acquisition of the Common Stock and warrants in two equal tranches. The first tranche for \$5,000,000 closed simultaneously with the execution of the AWVF Purchase Agreement. The second tranche was to have closed no later than February 29, 2000. AWVF failed to close the second tranche as required by the AWVF Purchase Agreement. At the closing of the first tranche, AWVF purchased from the Company, for an aggregate purchase price equal to \$5,000,000, 825,354 shares of restricted Common Stock and warrants to purchase up to 1,052,327 and 577,748 shares of Common Stock at initial exercise prices of \$9.77 and \$6.06 per share, respectively, subject to adjustment. In January 2001, the Company settled with AWVF regarding the breach of provisions of the Purchase Agreement and replaced AWVF's warrants. See Note 10.

In March 2000, the Company sold 50,000 shares of restricted Common Stock from treasury for \$312,500 cash in a private placement transaction to a third party.

In fiscal 2000, the Company issued 1,135,995 shares of restricted Common Stock in connection with the exercise of stock options and warrants.

30

31

In December 1999, the Company issued 400,000 shares of restricted Common Stock from treasury stock to certain parties including a former director and former officer of the Company. The shares were issued pursuant to an agreement resolving outstanding issues related to certain prior transactions involving the Company's discontinued real estate operations, which reduced the related asset valuations by \$193,000. In connection therewith, the Company entered into a Registration Rights Agreement providing the holders of such shares with certain registration rights.

NOTE 10. STOCK OPTIONS AND WARRANTS

The Company accounts for stock option grants in accordance with APB Opinion No. 25, "Accounting For Stock Issued To Employees" and options and warrants issued to non-employees under FASB No. 123, "Accounting For Stock Based Compensation". For the options and warrants issued to non-employees, the fair value of each award has been calculated using the Black Scholes Model in accordance with FASB No. 123.

In fiscal 1999, the Company issued nonqualified stock options to purchase 2,000,000 shares of its Common Stock at an exercise price of \$0.44 per share to directors and certain officers. During fiscal 2000, options to purchase 200,000 shares were exercised. In fiscal 2001, 1,400,000 of these options were cancelled and 400,000 were exercised.

At the July 11, 2000 meeting, the shareholders approved the Company's 2000 Stock Compensation Plan (the "Option Plan"). The Company's Option Plan provides for the granting of either incentive stock options or non-qualified

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

options to purchase shares of the Company's Common Stock to provide incentives to employees, directors and other individuals or companies at the discretion of the Board of Directors. The Plan allows participants to purchase Common Stock of the Company at prices set by the Board of Directors, but in the case of incentive stock options not less than fair market value at the date the option is granted. Unexercised options expire 10 years after the date of grant unless otherwise specified by the Board of Directors. At the January 10, 2001 meeting, the shareholders increased the number of shares available for the granting of incentive stock options under the Option Plan from 10,000,000 to 20,000,000 shares.

In 2001, the Company issued options to purchase 9,433,278 shares of Common Stock to certain employees, officers and directors under the Option Plan. In fiscal 2001, the Company issued non qualified options to purchase 125,000 shares of Common Stock to an employee. The Company recognized \$1,125,000 of compensation expense in connection with these option grants to employees.

Also, in fiscal 2001, the Company issued options to purchase 3,000,000 shares of Common Stock in exchange for venture capital and investment banking services.

In fiscal 2001, options to purchase 2,000,000 shares of Common Stock at an exercise price of \$0.40, 60,000 shares at an exercise price of \$0.25, and 100,000 shares at an exercise price of \$0.70 were exercised. Also, in May 2001, options to purchase 400,000 shares of Common Stock at an exercise price of \$0.44 were exercised on a cashless basis. The Company recognized \$151,000 of expense in fiscal 2001 in connection with these cashless exercises.

The following table summarizes the outstanding options at June 30:

Pro forma information regarding net loss is required by FASB No. 123, which also requires that the information be determined as if the Company had accounted for its employee stock options granted subsequent to July 1, 1996 under the fair value method of that statement. The fair value for these options was estimated at the date of grant using the Black-Scholes Model with the following weighted average assumptions for fiscal 2001; risk-free interest rate range of 4.91% to 5.97%; no dividend yield; volatility factor of the expected market price of the Company's Common Stock of .975; and an expected life of the option of 5 years. The weighted average grant date fair value of options granted in 2001 was \$0.39 per share. Pro forma information regarding FASB No. 123 is not presented for fiscal 2000 because there were no option grants in fiscal 2000 and all outstanding options at that date were fully vested on the date of grant.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility because the Company's employee stock options have characteristics significantly different from those of traded options and because changes in the subjective input assumptions can naturally affect the fair value estimate. In management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of the Company's employee stock options.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On February 14, 2000 the Company dismissed Jones and Kolb as the Company's independent auditors and engaged Ernst & Young LLC to serve as the Company's independent auditors. Jones and Kolb served as independent auditors of the Company for the fiscal years ended June 30, 1997, 1998, and 1999. The Company's principal auditors' report on the financial statements for the year preceding the dismissal of Jones and Kolb did not contain an adverse opinion or disclaimer opinion, nor was it modified as to uncertainty, audit scope or accounting principles. The decision to change accountants was approved by the Company's Board of Directors (the "Board"). There were no disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope of procedure. The Company had no discussions with the new accountants as to specific accounting matters or type of opinion that might be rendered, other than those related to the normal engagement of certified accountants.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In connection with consulting services related to the Company's Internet-based, private aviation travel service business provided by Mr. Bert Lance, the father of the Company's former President and Chief Executive Officer, the Company in fiscal 2000 and 1999 granted warrants to purchase 1,600,000 and 400,000 shares, respectively, of its Common Stock to the Bert Lance Grantor Trust. In addition, the Company paid consulting fees of \$183,000 to Mr. Bert Lance in fiscal 2000. In August 2000, the Bert Lance Grantor Trust assigned 250,000 of such warrants to an unrelated third party, with the Company's consent, and such warrants were exercised for cash proceeds of \$125,000 to the Company.

On or about January 29, 1999, the Wendell M. Starke Trust (the "Starke Trust") purchased 2,500,000 shares of restricted Common Stock for \$1,000,000 and on June 29, 1999 another 2,300,000 shares for \$1,725,000. In connection with the sale of the shares, the Company entered into a Registration Rights Agreement with the trust.

On or about March 18, 1999, the Godley Morris Group, LLC (the "GMG") purchased 2,500,000 shares of restriction Common Stock for \$1,000,000 and on June 29, 1999 another 2,300,000 shares for \$1,725,000. In connection with the sale of the shares, the Company entered into a Registration Rights Agreement with the GMG.

In January 2000, the Company entered into a common stock purchase agreement (the "Four Corners Purchase Agreement") with Four Corners Capital, LLC ("Four Corners"), which provides for an equity financing package consisting of the sale of restricted Common Stock and warrants. Under the terms of the Four Corners Purchase Agreement, Four Corners purchased from the Company, for an aggregate purchase price of \$1 million, 165,070 shares of restricted Common Stock, and warrants to purchase up to 2,723,668 shares of Common Stock. In connection with the Four Corners Purchase Agreement, the Company entered into a Registration Rights Agreement with respect to the Common Stock purchased by Four Corners and the Common Stock underlying all options or warrants held by Four Corners. The terms of the Purchase Agreement were the result of arms' length negotiations between the parties. Mr. Goldberg, a former director of the Company, owns a 25% interest in Four Corners.

40

41

In connection with the equity financing provided by the Four Corners Purchase Agreement and the Company's \$5,000,000 private placement of Common Stock in January 2000, the Company agreed to pay Four Corners a fee for services provided to the Company equal to 6% of the proceeds actually received by the Company and to reimburse Four Corners for expenses relating to the financing. In fiscal 2000, the Company paid fees to Four Corners in the amount of \$360,000 and has reimbursed Four Corners for approximately \$58,000 in expenses.

On January 23, 2001, the Company entered into a General Release and Settlement Agreement with Four Corners and D.C. Investment Partners Exchange Fund, L.P. pursuant to which all claims relating to the Four Corners Purchase Agreement and the fees owed to Four Corners by the Company, if any, were settled and released.

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

In a series of transactions consummated during the 1999 fiscal year, Mr. Conner, a former President and Chief Executive Officer of the Company, and another former officer of the Company purchased real property assets used in connection with certain discontinued operations of the Company with an aggregate book value of \$16 million and assumed all related mortgage indebtedness. The Company received cash, notes receivable or Common Stock in these transactions. As of June 30, 1999, the Company held notes receivable for \$465,000 with respect to these transactions, and received payment in full subsequent thereto. In fiscal 2000, the Company sold additional assets of discontinued operations with a carrying value of \$400,000 for cash and other assets of discontinued operations for \$1 million in notes receivable plus assumption of approximately \$2.2 million in mortgage indebtedness. At June 30, 2000, the aggregate note balance was \$900,000 which amount was fully reserved as uncollectible by the Company due to Mr. Conner's inability to obtain financing to complete the plan development of property. These transactions were entered into with entities in which the former chief executive officer and former officer are investors. All such transactions were the result of arms' length negotiations.

In December 1999, the Company issued 400,000 shares of restricted Common Stock from treasury to certain parties including Langdon Flowers, Jr. (a former director of the Company), Mr. Flower's father and a former officer of the Company. The shares were issued pursuant to an agreement that resolved outstanding issues related to certain transactions involving the Company's discontinued real estate operations, which reduced the related asset valuations, by \$193,000. The transaction was the result of arms' length negotiations. In connection therewith, the Company entered into a Registration Rights Agreement providing the holders of such shares with certain registration rights.

In fiscal 2000, the Company advanced \$275,100 in anticipation of an equity investment in a newly formed entity that would acquire private jets for use in connection with flights arranged thru the Company's Private Seats(TM) program. The entity was formed and managed by Four Corners. Due to the Company's inability to raise adequate capital to complete the planned acquisition of aircraft, these advances were written off as of June 30, 2000.

Mr. Pruitt and a company owned by Mr. Pruitt have loaned money to the Company. At June 30, 2001, \$120,000 and \$216,052 were due to Mr. Pruitt and a company owned by Mr. Pruitt, respectfully. Of the \$120,000 due to Mr. Pruitt, \$100,000 is a demand note payable to Mr. Pruitt bearing interest at 12%. The other \$20,000 from Mr. Pruitt is an advance bearing imputed interest of 8% and payable upon demand. The \$216,052 is notes payable that bears computed interest of 8% and are due on demand.

In September 2000, the Company acquired all of the issued and outstanding shares of capital stock of DM Marketing, Inc. ("DMM") for 8,450,000 shares of the Company's Common Stock. Mr. Pruitt was a 50% stockholder of DMM at the time of the acquisition. Mr. Pruitt was not a director, officer or stockholder of the Company at the time the acquisition was negotiated and the consideration paid was determined as a result of arms-length negotiations.

In February 2001, the Company acquired all of the issued and outstanding capital stock of Avenel Ventures, Inc. ("Avenel") for 6,700,000 shares of the Company's Common Stock. Mr. Pruitt was an officer, director and 4.9% stockholder of Avenel. Melinda Morris Zaroni was a director, officer and 29.9% stockholder of Avenel. In connection with the acquisition, Mr. Pruitt and Ms. Zaroni entered into employment agreements to serve as executive officers of the Company. Ms. Zaroni was not an officer, director or stockholder of the Company at the time the Avenel acquisition was approved by the Company's Board of Directors. The consideration paid was the result of negotiations between the Company and the Avenel stockholders and was recommended by a special committee of the Company's Board of Directors.

Edgar Filing: ERESOURCE CAPITAL GROUP INC - Form 10KSB40

In April 2001, the Company acquired 100% of the issued and outstanding capital stock of LST, Inc. ("LST") for 8,074,575 shares of the Company's Common Stock excluding 2,000,000 shares issuable based on certain performance goals. Mr. Pruitt was a 3.2% stockholder of LST at the time of the acquisition and sold his shares for the same per share consideration received by the other LST stockholders.

Mr. Johnson, a director of the Company, is an investor in a company which intends to become a franchisee of the Company's home technology business in the Dallas, Texas market upon regulatory approval of the Company's franchising program.

Mr. Pruitt, President/CEO and director of the Company, is a minority investor in the two companies that intend to become franchisees of the Company's home technology business in Baltimore, Maryland and three markets in South Carolina upon regulatory approval of the Company's franchising program.
