ABLEST INC.

Notes to Condensed Financial Statements
(Unaudited)

1. COMPANY BACKGROUND

Ablest Inc. (Company) offers staffing services in the United States. Staffing services are principally provided through 48 service locations in the Eastern United States and selected Southwestern markets with the capability to supply staffing services for the clerical, industrial and information technology needs of their customers. Positions often filled include, but are not limited to, data entry, office administration, telemarketing, light industrial assembly, order picking, shipping, network administration, database administration, program analyst, web development, project management and technical writing. Ablest does not service any specific industry or field; instead, its services are provided to a broad-based customer list.

2. BASIS OF PRESENTATION

These interim financial statements have been prepared in accordance with accounting principles generally accepted (GAAP) in the United States for interim financial information, the instructions to Quarterly Report on Form 10-Q, and Rule 10-01 of Regulation S-X and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 28, 2003. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

All adjustments, consisting of only normal recurring adjustments, considered necessary for fair presentation have been reflected in these condensed financial statements. The operating results for the thirteen week period ended June 27, 2004 are not necessarily indicative of the results that may be expected for the fiscal year ending December 26, 2004.

In order to maintain consistency and comparability between periods presented, certain amounts may have been reclassified from the previously reported consolidated financial statements to conform with the financial statement presentation of the current period.

3. SIGNIFICANT ACCOUNTING POLICIES

Cash Equivalents

All highly liquid investments with original maturities of three months or less are considered cash equivalents. There were no cash equivalents at June 27, 2004 and June 29, 2003.

Revenue Recognition

The Company s revenues are derived from providing staffing services to its customers. Substantially all revenue is billed on a direct cost plus markup basis. Revenue is recognized at the time the service is performed.

In addition, the Company bills revenues under piecework contracts and permanent placement services. Piecework contracts are billed to the customer on a cost per unit basis versus an hourly basis. Revenue from piecework contracts is recognized at the time service is performed. Permanent placement services are fee-based services to recruit and fill regular staff positions for customers. Revenue from permanent placement services is recognized when a candidate begins full-time employment.

Table of Contents

ABLEST INC.

Notes to Condensed Financial Statements
(Unaudited)

Property, Plant and Equipment

Property, plant and equipment are recorded at cost and are depreciated over the estimated useful lives of the respective assets on the straight-line method. Leasehold improvements are amortized on the straight-line method over the shorter of the lease term or estimated useful life of the asset. Estimated useful lives generally range from three to seven years.

Expenditures for maintenance and repairs are charged to expense as incurred. Additions and major replacements or betterments that increase capacity or extend useful lives are added to the cost of the asset. Upon sale or retirement of the asset, the cost and accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss is included in other income (expense), net in the accompanying statements of operations.

Deferred Tax Assets

In assessing the realizability of deferred tax assets, management considers, within each taxing jurisdiction, whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the years in which the deferred tax assets are deductible, management provides valuation allowances as needed for those deferred tax assets that were not expected to be realized.

Allowance for Doubtful Accounts

The Company must make estimates of the collectibility of accounts receivables. Management analyzes historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in the customer's payment tendencies when evaluating the adequacy of the allowance for doubtful accounts.

Self-Insurance Reserves

The Company is self-insured for general liability and workers' compensation coverages. To derive an estimate of the Company's ultimate claims liability, established loss development factors are applied to current claims information. An independent actuary is engaged periodically to determine loss development factors. The calculated ultimate liability is then reduced by cumulative claims payments to determine the required reserve. Management evaluates the accrual on a quarterly basis and adjusts as needed to reflect the required reserve calculation. Whereas management believes the recorded liabilities are adequate, there are inherent limitations in the estimation process whereby future actual losses may differ from projected loss rates, which could materially affect the financial condition and results of operations of the Company.

Goodwill and Other Intangible Assets

Intangible assets, which represent the excess of acquisition cost over the fair market value of identified net assets acquired in business combinations accounted for as purchases, were amortized using the straight-line method over three to thirty years prior to fiscal 2002.

In July 2001, the Financial Accounting Standards Board issued Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets . Under SFAS No. 142, goodwill and indefinite lived intangible assets are no longer amortized but are reviewed at least annually for impairment. At June 27, 2004, the Company did not have indefinite lived intangible assets other than goodwill and did not have any intangible assets with definite lives. The Company has adopted SFAS No. 142 effective December 31, 2001, the first day of fiscal 2002. SFAS No. 142 prescribes a two-phase process for impairment testing of goodwill. The first phase, required to be completed by June 30, 2002, screens for impairment; while the second

Table of Contents

phase (if necessary), required to be completed by December 29, 2002, measures the impairment. The Company screened for impairment during the first quarter of 2002 and fourth fiscal quarters of 2002 and 2003 and found no instances of impairment of its recorded goodwill.

Impairment of Long-Lived Assets

In October 2001, the Financial Accounting Standards Board issued Financial Accounting Standards No. 144, (SFAS No. 144), Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 establishes a single accounting model for long-lived assets to be disposed of by sale. The Company adopted the provisions of SFAS No. 144 for its 2002 fiscal year started on December 31, 2001. Adoption of SFAS No. 144 did not have a material financial impact upon the Company.

Income Taxes

Income taxes are accounted for by the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to operating loss and credit carryforwards and differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized as income or expense in the period that includes the enactment date.

Income (Loss) Per Common Share

Basic income (loss) per common share is computed by using the weighted average number of common shares outstanding. Diluted income (loss) per share is computed by using the weighted average number of common shares outstanding plus the dilutive effect, if any, of stock options.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

Stock Option Plans

The Company applies the intrinsic value-based method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, in accounting for its fixed plan stock options. As such, compensation expense would be recorded on the date of the grant if the current market price of the underlying stock exceeded the exercise price. Statement of Financial Accounting Standards No. 123 (SFAS No. 123) Accounting for Stock Based Compensation, established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, the Company has elected to continue to apply the intrinsic value-based method of accounting described above, and has adopted the disclosure requirements of SFAS No. 123. The following table represents the effect on net income and earnings per share if the Company had applied the fair value based method and recognition provisions of Financial Accounting Standards No. 123, (SFAS No. 123), Accounting for Stock-Based Compensation .

4. SHORT-TERM BORROWINGS

On August 13, 2003, the Company signed a two year \$7,500,000 Committed Revolving Credit Facility (Facility) with Manufacturers and Traders Trust Company (M&T). The Company elects the interest rate on borrowings under

the Facility at the time of borrowing at either the bank's prime rate or the thirty, sixty or ninety day LIBOR plus 200 basis points. The Facility expires on August 12, 2005 and is renewable for one year with the consent of both parties. The Facility requires the Company to maintain certain financial covenants including a tangible net worth ratio among other restrictions. The Company was in compliance with all financial covenants at June 27, 2004. The Company did not borrow funds during the twenty-six week period ended June 27, 2004.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Statements made in this discussion, other than those concerning historical information, should be considered forward-looking statements and are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated. This notice is intended to take advantage of the safe harbor provided by the Private Securities Litigation Reform Act of 1995 with respect to such forward-looking statements. Risks and uncertainties include, but are not limited to, hiring and maintaining qualified employees, legislative and judicial reforms which could increase the cost of our services to our customers and make the use of staffing service providers less beneficial, the proper functioning of our management information systems, changes in general economic conditions, and trends in workers compensation claims.

Results of Operations:

The following discussion compares the quarter ended June 27, 2004 to the quarter ended June 29, 2003, and June 27, 2004 year to date to June 29, 2003 year to date and should be read in conjunction with the Condensed Financial Statements, including the related notes thereto, appearing elsewhere in this Report.

Net service revenues increased to \$26.8 million and \$52.6 million for the quarter and year to date periods ended June 27, 2004 as compared to \$24.3 million and \$47.5 million for the quarter and year to date periods ended June 29, 2003. The increase is due to greater staffing requirements of several existing and new light industrial clients. Revenue

Edgar Filing: ABLEST INC - Form 10-Q

increased over the prior year by 11.1% and 11.3% for light industrial clients and 7.6% and 11.9% for clerical clients for the quarter and year to date periods ended June 27, 2004 as compared to those ending June 29, 2003.

Gross profit increased to \$4.6 million and \$8.3 million for the quarter and year to date periods ended June 27, 2004 as compared to \$3.7 million and \$7.8 million for the quarter and year to date periods ended June 29, 2003.

Gross profit as a percentage of net service revenue was 17.2% for the current year's quarter as compared to 15.3% for the prior year's quarter. This increase is due to a \$600,000 expense in the prior year's quarter for an increase in workers' compensation self-insurance reserves for adverse developments in a small group of claims originated in 2001 and 2002. Gross profit as a percentage of net service

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

revenue was 15.7% for the year to date period ended June 27, 2004 as compared 16.5% for the year to date period ended June 29, 2003. This decrease relates to the current year's first quarter increase in workers' compensation provision and continued higher state unemployment costs.

Selling, general and administrative expenses increased by \$428,000, or 11.2%, and \$520,000, or 6.4%, to \$4.3 million and \$8.6 million for the quarter and year to date periods ended June 27, 2004 as compared to the same periods ended June 29, 2003. This reflects an increase in bad debt expense of \$161,000 for both the quarter and year to date periods ended June 27, 2004 as compared to June 29, 2003.

Other income was \$6,000 for the quarter ended June 27, 2004 as compared to none for the quarter ended June 29, 2003. For the year to date period ended June 27, 2004, other income decreased \$8,000 as compared to the year to date period ended June 29, 2003. The net decrease for the period ended June 27, 2004, was primarily the result of \$17,000 of sublease income in 2003.

Income tax expense of \$142,000 was recorded for the quarter ended June 27, 2004, as compared to a benefit of \$44,000 for the quarter ended June 29, 2003. The effective tax rate remained unchanged at 38%. Income tax benefit of \$128,000 was recorded for the year to date period ended June 27, 2004, as compared to a benefit of \$86,000 for the year to date period ended June 29, 2003.

Liquidity and Capital Resources:

The quick ratio was 3.2 to 1 at both June 27, 2004 and December 28, 2003, and the current ratio was 3.5 to 1, for the same periods. Net working capital decreased by \$64,000 to \$11.9 million for the current year to date period. Reference should be made to the Statement of Cash Flows, which details the sources and uses of cash. Capital expenditures were \$227,000 during the current year to date period.

On August 13, 2003, the Company signed a two year \$7,500,000 Committed Revolving Credit Facility (Facility) with Manufacturers and Traders Trust Company (M&T). The Company elects the interest rate on borrowings under the Facility at the time of borrowing at either the bank's prime rate or the thirty, sixty or ninety day LIBOR plus 200 basis points. The Facility expires on August 12, 2005 and is renewable for one year with the consent of both parties. The Facility requires the Company to maintain certain financial covenants including a tangible net worth ratio among other restrictions. The Company was in compliance with all financial covenants at June 27, 2004. The Company did not borrow funds during the twenty-six week period ended June 27, 2004.

It is anticipated that existing funds, cash flows from operations and available borrowings will be sufficient to cover working capital requirements and capital expenditures for the remainder of fiscal 2004.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company does not believe that its exposure to fluctuations in interest rates is material.

ITEM 4. CONTROLS AND PROCEDURES

Edgar Filing: ABLEST INC - Form 10-Q

Based on their evaluation, as of the end of the period covered by this quarterly report of the effectiveness of our disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer have each concluded that our disclosure controls and procedures are effective and sufficient to ensure that we record, process, summarize, and report information required to be disclosed by us in our periodic reports filed under the Securities Exchange Act within the time periods specified by the Securities and Exchange Commission's rules and forms.

Subsequent to the date of their evaluation, there have not been any significant changes in the

Table of Contents

Company's internal controls or in other factors to the Company's knowledge that could significantly affect these controls, including any corrective action with regard to significant deficiencies and material weaknesses. The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company's 2003 Annual Meeting of Shareholders was held on May 6, 2004. The following directors, comprising the entire Board of Directors of the Company, were re-elected to the Board of Directors for a term of one year expiring at the date of the Company's 2005 Annual Meeting of Shareholders:

	<u>Votes For:</u>	<u>Withheld</u>
Charles H. Heist	2,597,654	44,096
W. David Foster	2,597,634	44,116
Kurt R. Moore	2,597,634	44,116
Charles E. Scharlau	2,597,654	44,096
Ronald K. Leirvik	2,597,654	44,096
Donna R. Moore	2,597,654	44,096
Richard W. Roberson	2,597,654	44,096

Shareholders approved adoption of the Company's Executive Stock Awards Plan with a vote of 2,255,052 for adoption, 69,556 against adoption, 2,620 abstaining, and 314,522 broker non-votes.
