On December 14, 2005, our Board of Directors approved the accelerated vesting of certain unvested stock options previously awarded under our BancorpSouth, Inc. 1994 Stock Incentive Plan. As a result of the acceleration, 845,333 stock options with a range of exercise prices between \$23.19 and \$24.03 per share became exercisable on December 14, 2005. Aside from the acceleration of the vesting date, the terms and conditions of the stock option agreements governing the underlying stock options remain unchanged.

The \$23.19 exercise price was selected because it was higher than the closing price of shares of our common stock on the New York Stock Exchange on December 14, 2005, which was \$23.02. The accelerated options represent approximately 27.3% of the total of all outstanding options to purchase our common stock. Of the 845,333 stock options which became exercisable as a result of the acceleration of vesting, 388,999 were held by certain of our named executive officers. The following table sets forth the grant date, the number of options accelerated and the exercise prices of each such option held by our executive officers.

As a result of the acceleration, we expect to reduce the pretax stock option expense we otherwise would be required to record in connection with the accelerated options.
