To the Participants and the Plan Administrator of the

Financial Institutions, Inc. 401(k) Plan:

We have audited the accompanying statement of net assets available for benefits of Financial Institutions, Inc. 401(k) Plan as of December 31, 2005, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The 2004 financial statements were reported on by other auditors whose report dated June 24, 2005 gave an unqualified opinion on the financial statements.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Financial Institutions, Inc. 401(k) Plan as of December 31, 2005, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. Supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2005 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**FINANCIAL INSTITUTIONS, INC. 401(k) PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2005 AND 2004**

**1. DESCRIPTION OF PLAN**

The following description of the Financial Institutions, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan sponsored and administered by Financial Institutions, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of the Plan is the responsibility of the Executive Committee of the Company. Fidelity Investments Institutional Brokerage Group (the Custodian or Fidelity) holds the assets of the Plan and invests, controls, and disburses the funds of the Plan in accordance with the Plan agreement. The Burke Group is the record keeper for the Plan (party-in-interest). The Burke Group was a subsidiary of the Company until September 11, 2005, on which date the Company sold all of its interest in the Burke Group.

**Eligibility**

All employees of the Company and its subsidiaries are eligible to participate in the Plan on the first of the month following the date of their employment and upon the attainment of age 20-1/2. Participants become eligible to receive the employer match following completion of one year of service, based on hire date anniversary.

**Contributions**

Eligible participants may contribute up to 50% of their pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions and the Company's matching contributions into various investment options offered by the Plan. The Plan participants are able to select the Company's common stock as an investment option for up to 25% of their total account balance. The Company matches 25% of a participant's contributions up to the first 8% of compensation. The Company may also make additional discretionary matching contributions. During the year ended December 31, 2005, the Company made a discretionary contribution of \$911,679. Contributions are subject to certain limitations.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and all earnings or losses (realized or unrealized) thereon.

**Vesting**

Company and participant contributions are fully vested at the time of contribution. Earnings are also immediately vested.

**Payment of Benefits**

The participant's account balance will be distributed upon termination of employment due to separation from service, retirement, disability, or death, or upon financial hardship as defined in the Internal Revenue Code (IRC) and distributions are recorded by the Plan when paid.

## 1. DESCRIPTION OF PLAN (Continued)

### Payment of Benefits (Continued)

When a participant terminates employment, the participant may elect to receive benefits in a lump-sum distribution or a deferred annuity. If the participant's account attributable to Company contributions is \$1,000 or less, the form of the distribution is at the discretion of the Plan administrator. An unpaid loan balance at the time a participant withdraws from the Plan is presented as a benefit paid to participants on the statement of changes in net assets available for benefits.

Withdrawal of an active employee's before-tax contributions prior to a participant reaching age 59-1/2 may only be made on account of financial hardship as determined by the Trustee.

### Participant Loans

Participants may borrow from their accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of their account balance. Loan terms must have a definite repayment period not to exceed five years unless the loan is used for the purchase of a principal residence, in which case the repayment period may not exceed 15 years. The loans are secured by the participant's account and bear interest at 2% above the prime rate at the time of the loan origination, currently ranging from 6.0% to 10.5%. Principal and interest are paid ratably through after-tax payroll deductions.

### Plan Expenses

Expenses related to the administration and investment activity of the Plan are borne by the Company, at its discretion, and are therefore not reflected in the accompanying financial statements.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States

### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of net assets available for benefits and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

### Investments

All contributions made to the Plan may be invested in one or more investment options. The investments are carried at fair value. Participant loans are carried at their outstanding balances, which approximate fair value. Transactions are accounted for on a trade date basis. Investment income includes interest, dividends, and realized and unrealized gains and losses applicable to the plan shares in the funds. The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation or depreciation on these investments during the year.

The investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the near term would materially effect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)****Contributions**

Contributions from participants and any related employer match are recognized on the accrual basis as participants earn salary deferrals. Additional discretionary employer matching contributions are recognized when declared by the Company.

In the event of Plan termination, participants will be entitled to the entire amount of their account balances at the date of such termination.

**7. TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated March 28, 2000, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, there is no provision for income taxes in these financial statements due to the applicable exemption under the IRC.

**8. RELATED-PARTY TRANSACTIONS**

Plan investments include mutual funds and cash managed by Fidelity, which totaled \$22,046,779 and \$20,659,507 at December 31, 2005 and 2004, respectively. Plan investments also include common stock of the Company, which totaled \$772,008 and \$651,326 at December 31, 2005 and 2004, respectively. Transactions in this common stock qualify as party-in-interest transactions. The Burke Group, a subsidiary of the Company through September 11, 2005, is the Plan record-keeper. The Company pays all costs related to these record-keeping services. Participant loans, totaling \$452,951 and \$453,555 at December 31, 2005 and 2004, respectively, are also considered party-in-interest transactions.

**9. PLAN AMENDMENTS**

The normal retirement age was increased from 62 to 65 years of age, effective January 1, 2006.

**10. SUBSEQUENT EVENT STOCK PRICE**

On June 20, 2006, the market value of the Company's common stock was \$18.50 per share, which represents a decrease of 5.7% over the December 31, 2005 market value of \$19.62 per share. This decrease in the market value resulted in an unrealized loss of approximately \$44,070 for the 39,348 shares of the Company's common stock held by the Plan at December 31, 2005.
