ITEM OTHER EVENTS

8.01

On October 24, 2011, Flagstone Reinsurance Holdings, S.A. (the “Company”) issued a press release announcing a number of strategic initiatives, including a refocused underwriting strategy and the implementation of certain structural changes to reduce expenses and leverage existing strengths.

In addition, the Company announced its preliminary estimates for losses occurring in the third quarter of 2011. Losses impacting the reinsurance segment related to Hurricane Irene, floods in Denmark, and U.S. Aggregate covers are expected to be approximately \$20 million, \$10 million, and \$5 million, respectively, net of reinstatement premiums and retrocession. Furthermore, the Company expects its Lloyd’s segment to report a \$10 million net loss for the quarter.

The Company also announced that, due to updated loss estimates for catastrophes that occurred during the first half of 2011, the Company expects that its collective loss estimate related to first half catastrophes will negatively impact the third quarter by approximately \$35 million, net of reinstatement premiums and retrocession.

Lastly, the Company announced that weak financial markets in the third quarter will have a negative impact on the Company’s low duration fixed income investment portfolio of negative 1%.

The Company’s loss estimates are based on its proprietary modeling analysis, the assessment of individual treaties and client data, and third-party vendor models. These estimates may be further refined as additional information is received from cedents and there exists the risk for further revisions.
