## **Section 2 - Financial Information**

### **Item 2.02 Results of Operations and Financial Condition.**

On January 25, 2007, Bay National Corporation (the "Company") issued a press release announcing its earnings for the quarter and year ended December 31, 2006.

Among other figures, the press release presents a comparison of diluted net income per share before income taxes for the quarterly and twelve month periods ended December 31, 2006 compared to net income per diluted share for the quarterly and twelve month periods ended December 31, 2005. Because the Company had an income tax benefit during the periods ended December 31, 2005, a comparison of the Company's net income per diluted share, which would include the impact of income tax expense for the periods ended December 31, 2006, could obscure the impact of changes in the Company's operations. Therefore, management believes that the comparison provides investors with a more accurate period-to-period comparison of the per-share impact of changes in the Company's operations.

The press release also reports that core deposits rose 33.5% year-over-year to \$189.4 million at December 31, 2006. Core deposits, which management categorizes as all deposits other than national market certificates of deposit, deposits purchased through the certificate of deposit account registry service (CDARS) program and all but \$3.0 million in deposits from select accounts with highly variable balances, are closely monitored by management because they consider them not only a relatively stable source of funding but also reflective of the growth of commercial and consumer depository relationships.

The press release is furnished as Exhibit 99.1 hereto.
