On April 1, 2009, the Company had issued and outstanding 142,326,493 common shares, par value US\$.0005 per share ("Common Shares"). Holders of Common Shares are entitled to one vote for each share held.

All registered shareholders can appoint a proxy by paper proxy or by telephone by following the instructions included with their proxy card. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on voting their Common Shares. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm participating in the Broadridge Financial Services, Inc. online program may appoint a proxy electronically through the Internet. Instruction forms will be provided to shareholders whose bank or brokerage firm is participating in Broadridge's program. Signing and returning the proxy card or submitting the proxy by telephone or through the Internet does not affect the right to vote in person at the annual general meeting.

In the case of registered shareholders, a proxy may be revoked at any time prior to its exercise by (a) giving written notice of such revocation to the Secretary of the Company at the Company's principal office, 2910 Seventh Street, Berkeley, California 94710, (b) appearing and voting in person at the annual general meeting, (c) properly completing and executing a later-dated proxy and delivering it to the Company at or before the annual general meeting or (d) retransmitting a subsequent proxy by telephone before the annual general meeting. Presence without voting at the annual general meeting will not automatically revoke a proxy, and any revocation during the meeting will not affect votes previously taken. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on revoking their previously appointed proxies. Abstentions and broker non-votes are each included in the number of Common Shares present and entitled to vote for purposes of establishing a quorum but are not counted in tabulations of the votes cast on proposals presented to shareholders.

The Company will bear the entire cost of solicitation, including preparation, assembly, printing, and mailing of this proxy statement, the proxy card, and any additional material furnished to shareholders. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding in their names Common Shares that are beneficially owned by others to forward to such beneficial owners. The solicitation of proxies may be supplemented by one or more of telephone, telegram, or personal solicitation by directors, officers, or employees of the Company for no additional compensation. We have also engaged Georgeson Inc. to assist in such solicitation at an estimated fee of \$7,500 plus disbursements. Shareholders appointing a proxy through the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, that must be borne by the shareholder.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

The primary objectives of the Company's compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's shareholders through the creation of shareholder value and achievement of strategic corporate objectives. We attract and retain executives by benchmarking against peer companies in our industry to ensure that our compensation packages remain competitive. This practice is discussed in greater detail below under the heading "Benchmarking." When creating an executive's overall compensation package, the different elements of compensation are considered in light of the role the executive will play in our achieving near term and longer term goals as well as the compensation packages provided to similarly situated executives at peer companies. We also tie short and long-term cash and equity rewards to the achievement of measurable corporate and individual performance criteria to create incentives that we believe enhance executive performance. Such performance criteria vary depending on individual executives' roles, but include value-adding achievements such as revenue generation, cost reduction, gains in production efficiency and timely completion of undertakings.

Benchmarking

The Compensation Committee has retained the services of Compensia, a consulting firm that specializes in executive compensation consulting (the "Consultant"), to assist the Compensation Committee in evaluating the Company's executive compensation program against the relevant market.

The Consultant created a survey (the "Executive Compensation Survey") which compared the Company's executive pay levels to those of a peer group of 30 companies. The peer group consisted of (1) core peers developed by targeting Phase II business and labor comparators with similar market capitalization and (2) aspirational peers generally representing Phase III and beyond comparators. The names of the companies that comprised the peer group are attached hereto as Appendix A. In preparing the Executive Compensation Survey, the Compensation Committee has relied on the Consultant to conduct its own research, compile its own survey data and provide a summary of such data relevant to the Compensation Committee's decisions with respect to setting executive compensation levels.

As noted above, the Compensation Committee considers the various benchmarks (i.e., the 25th percentile, the 50th percentile and the 75th percentile) based on the Executive Compensation Survey and chooses a benchmark for a particular year based on the level it deems most appropriate for the Company. For 2009, the Compensation Committee chose the 50th percentile as the benchmark. This process is performed to ensure that total compensation is competitive within the industry and appropriate when certain levels of performance are achieved. If, based on this evaluation, the Compensation Committee determines that the Company's current compensation levels are not appropriate or tailored to our compensation objectives, then the Compensation Committee may adjust the applicable compensation levels and targets accordingly.

As part of the benchmarking process, the Compensation Committee recognizes the practical reality that job responsibilities of persons with similar titles may vary significantly from company to company, and that a person's title is not necessarily descriptive of a person's duties. The Compensation Committee considers the scope and complexity of executive positions within the Executive Compensation Survey and compares these positions to the scope and complexity of our executive positions. The result is an assessment of the compensation being paid to our executives in light of the compensation being paid to persons performing duties of similar scope and complexity at the companies participating in the Executive Compensation Survey. The Compensation Committee uses this assessment to assist it in making decisions regarding appropriate compensation levels for our executive positions. The underlying principle of the evaluation methodology is to focus on identifying those positions that have a scope and complexity of

responsibilities that are comparable to those duties exercised by each of our particular executives.

Compensation Components

Base Salary. The level of compensation paid to an officer is determined on the basis of the individual's overall experience, responsibility, performance and compensation level in his or her prior position (for newly hired offi-

cers), the individual's overall performance and compensation level at the Company during the prior year (for current employees), the compensation levels of peer companies (including the biotechnology companies included in Appendix A) and other labor markets in which the Company competes for employees, the performance of the Company's Common Shares during the prior fiscal year and such other factors as may be appropriately considered by the Board, by the Compensation Committee and by management in making its proposals to the Compensation Committee.

Long-Term Incentive Program. The principal methods for long-term incentive compensation are the 1981 Share Option Plan (the "Option Plan") and Restricted Share Plan, and compensation thereunder principally takes the form of incentive and non-qualified option grants. These grants are designed to promote the convergence of long-term interests between the Company's key employees and its shareholders; specifically, the value of options granted will increase or decrease with the value of the Company's Common Shares. In this manner, key individuals are rewarded commensurately with increases in shareholder value. These grants also typically include a 4-year vesting period to encourage continued employment. The size of a particular option grant is determined based on the individual's position and contribution to the Company. For grants during 2008, the number of options granted were determined based on employee performance and perceived potential, the numbers of options granted to such individuals in the previous fiscal year, the aggregate number of options held by each such individual, the number of options granted to similarly situated individuals in the pharmaceutical and biotechnology industries, the price of the Company's Common Shares relative to other companies in such industries and the resulting relative value of such options; no specific measures of corporate performance were considered.

The Option Plan is described in greater detail below under the heading "Description of Option Plan."

CICP. In 2004, the Compensation Committee, the Board and the shareholders approved the CEO Incentive Compensation Plan (the "CICP") in order to make the Chief Executive Officer's ("CEO") compensation more commensurate with that of industry peers and because the Compensation Committee believed that it was not appropriate to include the CEO in the Management Incentive Compensation Plan given the CEO's active role in administering that plan.

Only our CEO is eligible to participate in the CICP and, depending on his or her performance and that of the Company, earn incentive compensation. The determination of the incentive compensation awarded for each fiscal year is as follows: The target award opportunity for the CEO is set at 50% of his or her base salary. As soon as practicable after the end of each fiscal year (the "Plan Period"), the Compensation Committee recommends to the Board and the Board determines whether and to what extent certain Company objectives have been met. For 2008, these objectives included the following: increasing total revenue to a target amount; reducing operating loss to a target amount; a year-end cash balance of a target amount; entering into new arrangements and revising certain existing arrangements; advancing proprietary products; accelerating product development; acquiring or constructing technologies, building capabilities and creating intellectual property that support strategic business goals; and maintaining effective financial and business controls (collectively, the "2008 Company Objectives"). For each Plan Period, unless 70% of the objectives for that Plan Period have been met, no incentive compensation will be awarded.

The incentive compensation is weighted based 70% on meeting Company objectives and 30% based on discretionary objectives. The award opportunity range for the CEO expressed as a percentage of his or her base salary is as follows: minimum award opportunity—25%; target award opportunity—50%; and maximum award opportunity—75%.

The performance of the CEO is typically rated as soon as practicable following the conclusion of the Plan Period. Distribution of incentive compensation is generally made in February or March of the succeeding year after the Plan Period. The incentive awards granted under the CICP in 2008 and thereafter are payable entirely in cash.

In February of 2008, the Board determined that, notwithstanding that Mr. Engle had met a percentage of the 2008 Company Objectives in excess of the 70% minimum required by the CICP in order to make an award thereunder, in light of current economic conditions and in order to conserve the Company's cash resources, it was in the best interest of the Company not to award any incentive compensation under the CICP for 2008.

MICP. Certain employees are also compensated through the Management Incentive Compensation Plan (the "MICP"), in which officers (other than the CEO) and employees who have the title of Senior Director, Director or

Manager, as well as certain additional discretionary participants chosen by the CEO, are eligible to participate. Under the MICP, at the beginning of each fiscal year, the Board (with advice from the Compensation Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company's performance in achieving its corporate objectives.

After each fiscal year, the Board and the Compensation Committee make a determination as to the performance of the Company and MICP participants in meeting corporate objectives and individual objectives, which are determined from time to time by the Board in its sole discretion and which for 2008 included the 2008 Company Objectives. Awards to MICP participants vary depending upon the level of achievement of corporate objectives, the size of the incentive compensation pool and the MICP participants' base salaries and performance during the fiscal year as well as their expected ongoing contribution to the Company. The Company must meet a minimum percentage of its corporate objectives (currently 70%) before any awards are made under the MICP.

Awards under the MICP granted in 2008 and thereafter are payable entirely in cash.

For 2008, 123 individuals were determined to be eligible to participate in the MICP, including all of the executive officers named in the "Summary Compensation Table" below other than Mr. Engle. In February of 2008, the Board determined that, notwithstanding that management had met a percentage of the 2008 Company Objectives in excess of the 70% minimum required by the MICP in order to make an award thereunder, in light of current economic conditions and in order to conserve the Company's cash resources, it was in the best interest of the Company not to award any incentive compensation under the MICP for 2008.

Other Compensation. The Company maintains broad-based benefits and perquisites that are provided to all employees, including health insurance, life and disability insurance, vision and dental insurance, a 401(k) plan and temporary housing and other living expenses for relocated employees.

Tax Treatment. Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), generally limits the deductible amount of annual compensation paid to certain individual executive officers (i.e., the chief executive officer and the four other most highly compensated executive officers of the Company) to no more than \$1 million. However, qualifying performance-based compensation will be excluded from the \$1 million cap on deductibility, and the Compensation Committee believes, based on information currently available, that the Company's options issued to its executive officers qualify for this exclusion. Considering the current structure of executive officer compensation and the availability of deferral opportunities, the Compensation Committee and the Company believe that the Company will not be denied any significant tax deduction for 2008. The Company and the Compensation Committee will continue to review tax consequences as well as other relevant considerations in connection with compensation decisions.

Summary Compensation Table

The following table sets forth certain summary information for the prior three years concerning the compensation earned by the Company's Chief Executive Officer, former Chief Financial Officer, interim Chief Financial Officer and our three other most highly compensated officers who were named executive officers of the Company as of December 31, 2008.

Named Executive Officers. Each of our named executive officers has entered into change of control severance agreements (the "Change of Control Agreements") that may require us to make certain payments and/or provide certain benefits to certain executive officers in the event of a termination of employment or a change of control.

Change of Control. A "change of control" is defined in the Change of Control Agreements as the occurrence of any of the following events: (i) a merger, amalgamation or acquisition in which the Company is not the surviving or continuing entity, except for a transaction the principal purpose of which is to change the jurisdiction of the Company's organization; (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company; (iii) any other reorganization or business combination in which fifty percent (50%) or more of the Company's outstanding voting securities are transferred to different holders in a single transaction or series of related transactions; (iv) any approval by the shareholders of the Company of a plan of complete liquidation of the Company; (v) any "person" (as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended) becoming the "beneficial owner" (as defined in Rule 13d-3 under said Act), directly or indirectly, of securities of the Company representing more than fifty percent (50%) of the total voting power represented by the Company's then outstanding voting securities; or (vi) a change in the composition of the Board, as a result of which fewer than a majority of the directors are incumbent directors.

Vesting of Options. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, the exercisability of all options granted to such named executive officer by the Company shall automatically be accelerated so that all the options may be exercised immediately upon such involuntary termination for any or all of the shares subject thereto and the post-termination exercise period shall be extended to sixty (60) months or the remainder of the maximum term of the options (or such shorter period of time to avoid the application of Section 409A of the Code). The options shall continue to be subject to all other terms and conditions of the Company's share option plans and the applicable option agreements between the employee and the Company.

Outplacement Program. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, the named executive officer will immediately become entitled to participate in a twelve

(12) month executive outplacement program provided by an executive outplacement service, at the Company's expense not to exceed fifteen thousand dollars (\$15,000).

Cash Severance. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, then the named executive officer shall be entitled to receive a severance payment equal to the sum of (A) an amount equal to 1.5 times (or, in the case of Mr. Engle, 2.0 times) the named executive officer's annual base salary as in effect immediately prior to the involuntary termination, plus (B) an amount equal

to 1.5 times (or, in the case of Mr. Engle, 2.0 times) the named executive officer's target bonus as in effect for the fiscal year in which the involuntary termination occurs.

Health and Other Benefits. If a named executive officer's employment is involuntarily terminated within eighteen (18) months of a change of control, then for a period of eighteen (18) months (or, in the case of Mr. Engle, twenty-four (24) months) following such termination, (A) the Company shall make available and pay for the full cost of the coverage (plus an additional amount to pay for the taxes on such payments, if any, plus any taxes on such additional amount) of the named executive officer and his or her spouse and eligible dependents under any group health plans of the Company on the date of such termination of employment at the same level of health (i.e., medical, vision and dental) coverage and benefits as in effect for the named executive officer or such covered dependents on the date immediately preceding the date of his or her termination and (B) if the named executive officer is, at the time of such termination, an eligible participant in the Company's mortgage differential program, the Company shall continue to make mortgage assistance payments to such named executive officer pursuant to such program as in effect at the time of such termination.

Compensation Committee Report on Executive Compensation

The Company's compensation program for officers (including the named executive officers) is administered by the Compensation Committee of the Board (the "Committee"), which is composed of three independent directors. Following review and approval by the Compensation Committee, all issues pertaining to officer compensation are submitted to the full Board for approval.

COMPENSATION OF DIRECTORS

The primary objectives of the Company's director compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's shareholders through the creation of shareholder value. We attract and retain directors by benchmarking against companies in our industry of similar size to ensure that our director compensation packages remain competitive. The different elements of director compensation are considered in light of the compensation packages provided to similarly situated directors at peer companies.

The Compensation Committee has retained the services of the Consultant to assist in evaluating the Company's director compensation program against the relevant market. The Consultant created a survey (the "Director Compensation Survey") which compared the Company's director pay levels to those of the same peer group of companies used in the Executive Compensation Survey. In preparing the Director Compensation Survey, the Compensation Committee has relied on the Consultant to conduct its own research, compile its own survey data and provide a summary of such data relevant to the Compensation Committee's decisions with respect to setting director compensation levels. The benchmarking process for director compensation used by the Compensation Committee based on the Director Compensation Survey is substantially similar to the process for evaluating executive compensation described above under "Compensation Discussion and Analysis."

The table below sets forth the non-employee director compensation for 2008.

As of December 31, 2008, the aggregate option amounts outstanding for each non-employee director were as follows: Mr. Bowes—149,500; Dr. Fisher—163,600; Mr. Hutt—165,600; Mr. Van Ness—224,500 (214,500 of which are held by The Van Ness 1983 Revocable Trust); Mr. Varian—70,000 and Mr. Zenner—161,800.

Director Compensation Policy

Prior to July 1, 2008, each non-employee director received a quarterly retainer of \$5,000, \$2,000 for each meeting of the Board attended in person, \$1,000 for each meeting of the Board attended telephonically, \$2,000 to the committee chair and \$1,000 to other members of the committee for each committee meeting attended in person or telephonically, and \$500 for each other telephonic meeting. Beginning in 2008 and prior to July 1, 2008, the retainer and meeting fees for any non-employee director serving as chairman of any committee of the Board of Directors and/or as Lead Independent Director were increased by the Applicable Multiple. "Applicable Multiple" means (1) 1.3, in the case of the chairman of the Audit Committee, (2) 1.2, in the case of the chairman of the Compensation Committee or Nominating & Governance Committee and (3) 1.5, in the case of the Lead Independent Director, except that if an individual is serving in more than one of these capacities, the Applicable Multiple will be cumulative, such that, for example, the Applicable Multiple for an individual serving as both chairman of the Compensation Committee and as

Lead Independent Director would be 1.7.

Beginning on July 1, 2008, each non-employee director will receive an annual retainer of \$35,000, plus an additional (1) \$15,000, in the case of the chairman of the Audit Committee, (2) \$7,500, in the case of any other member of the Audit Committee, (3) \$12,000, in the case of the chairman of the Compensation Committee or Nominating & Governance Committee, (4) \$6,000, in the case of any other member of the Compensation Committee or Nominating & Governance Committee, and (5) \$10,000, in the case of the Lead Independent Director. All meeting fees have been eliminated.

Additionally, each non-employee director is granted options to purchase 40,000 Common Shares pursuant to the 1992 Directors Share Option Plan (the "Directors Plan") upon initial election to the Board and, in 2008, was annually granted an option to purchase 25,000 Common Shares pursuant to the Directors Plan upon reelection to the Board, each at an exercise price per share equal to the closing market price of the Common Shares on the date of grant. See Item 6 for certain proposed amendments to the Directors Plan. In 2008, all non-employee directors, with the exception of Mr. Varian, were granted an option to purchase 25,000 Common Shares at an exercise price of \$2.10 per share. Mr. Varian was granted an initial option of 70,000 Common Shares at an exercise price of \$1.07, 30,000 of which were granted pursuant to the Board's discretionary authority under the Directors Plan.

Directors who are employees of the Company are neither paid any fees or other remuneration nor awarded options or Common Shares of the Company for services as members of the Board or its committees.

ITEM 1—ELECTION OF DIRECTORS

The Company's directors are elected annually to serve until the next annual general meeting of shareholders and until their successors are elected, or until their death, resignation or removal. The nominees for the Board are set forth below. Unless otherwise instructed, the proxy holders will vote all proxies received by them in the accompanying form for the nominees for directors listed below. In the event any nominee should become unavailable for election due to an unexpected occurrence, the proxies will be voted for any such substitute nominee as may be designated by the present Board to fill the vacancy. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them for the nominees listed below. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any of the nominees listed below will be unable to serve. The eight candidates receiving the highest number of affirmative votes of the Common Shares entitled to vote at the annual general meeting will be elected as directors of the Company. Mr. Address passed away on March 11, 2008. Mr. Varian became a director on December 8, 2008.

Board Matters

Board Meetings

During the fiscal year ended December 31, 2008, the Board held 11 meetings. Each Board member, except for Mr. Andress and Mr. Varian, attended at least 75% of the aggregate number of meetings of the Board and the committees of the Board on which he served that were held during the last fiscal year. Each of Dr. Fisher and Messrs. Bowes, Hutt, Van Ness, Varian and Zenner is "independent" as defined in the listing standards of The NASDAQ Stock Market. Directors are encouraged to attend the Company's annual general meetings of shareholders where practicable. All of the current directors except Mr. Varian attended last year's annual general meeting of shareholders. Mr. Andress passed away on March 11, 2008. Mr. Varian became a director on December 8, 2008.

The Board has standing audit, compensation and nominating & governance committees.

Compensation Committee

The Compensation Committee is responsible for recommending and reviewing the compensation, including options and perquisites, of the Company's officers and other employees. The Compensation Committee, currently consisting of Messrs. Van Ness and Bowes and Dr. Fisher, held 2 meetings during 2008. The Board has adopted a written charter for the Compensation Committee, a copy of which is available on the Company's website at www.xoma.com. See "Compensation Committee Report on Executive Compensation" and "Compensation Discussion

and Analysis.”

Nominating & Governance Committee

The Nominating & Governance Committee assists the Board by identifying individuals qualified to become Board members, recommends to the Board the director nominees for the next annual general meeting of shareholders, rec-

-17-

ommends to the Board the director nominees for each committee and develops, recommends to the Board and oversees the governance principles applicable to the Company. The Nominating & Governance Committee, currently consisting of Messrs. Bowes, Hutt and Van Ness, held 10 meetings during 2008. Each member of the Nominating & Governance Committee is “independent” as defined in the listing standards of The NASDAQ Stock Market. The Board has adopted a written charter for the Nominating & Governance Committee, a copy of which is available on the Company’s website at www.xoma.com.

The Nominating & Governance Committee’s charter provides that the committee will, on behalf of the Board, review letters from shareholders regarding the Company’s annual general meeting and governance process. Beyond this, the committee has no formal policy regarding consideration of director candidates recommended by shareholders, in large part because the Company has never received from any of its shareholders a recommendation of a director nominee with reasonably adequate qualifications. The need for a more formal policy was considered and determined to be unnecessary by the committee. The committee will consider candidates recommended by shareholders, and a shareholder wishing to submit a recommendation should send a letter to the Secretary of the Company at 2910 Seventh Street, Berkeley, California 94710. The mailing envelope must contain a clear notation indicating that the enclosed letter is a “Director Nominee Recommendation.” The letter must identify the author as a shareholder and provide a complete listing of the candidate’s qualifications to serve on the Board, the candidate’s current principal occupation, most recent five-year employment history and current directorships and a statement that the proposed nominee has consented to the nomination, as well as contact information for both the candidate and the author of the letter. Shareholders may also nominate candidates who are not first recommended to the Nominating & Governance Committee by following procedures set forth in our bye-laws.

To be considered by the Nominating & Governance Committee, a director nominee must have experience as a board member or senior officer of a company in the healthcare or other industries, have a strong financial background, be a leading participant in another field relative to the Company’s business or have achieved national prominence in a relevant field as a faculty member, professional or government official. In addition to these minimum requirements, the committee seeks director candidates based on a number of qualifications, including their independence, knowledge, judgment, leadership skills, education, experience, financial literacy, standing in the community and ability to foster a diversity of backgrounds and views and complement the Board’s existing strengths.

The Board and the Nominating & Governance Committee begin the process of identifying and evaluating director nominees by seeking recommendations from a wide variety of contacts, including current executive officers and directors and industry, academic and community leaders. The Board or the committee may retain a search firm to identify and screen candidates, conduct reference checks, prepare biographies for review by the committee and the Board and assist in setting up interviews. The Nominating & Governance Committee and one or more of the Company’s other directors interview candidates, and the committee selects nominees that best suit the Company’s needs.

Audit Committee

The Audit Committee is primarily responsible for approving the services performed by the Company’s independent auditors and reviewing the Company’s accounting practices and systems of internal accounting controls. In 2008, this committee consisted of Messrs. Address, Bowes, Van Ness, Varian and Zenner and held 6 meetings. Mr. Address passed away on March 11, 2008. As disclosed on April 1, 2008, Mr. Bowes was appointed to the Audit Committee following the passing of Mr. Address. Mr. Varian was appointed to the Audit Committee in December of 2008. Mr. Bowes stepped down from the committee in February of 2009. Each member of the Audit Committee is “independent” as defined in the listing standards of The NASDAQ Stock Market. The Board has determined that Messrs. Varian and Zenner are each an “audit committee financial expert” as defined by the rules of the SEC. The Board has adopted a written charter for the Audit Committee, a copy of which is available on the Company’s website at www.xoma.com.

In accordance with rules established by the SEC, the Audit Committee has prepared the following report for inclusion in this proxy statement:

As part of its ongoing activities, the Audit Committee has:

-18-

- met with management periodically to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting, and discussed these matters with the Company's independent auditors and with appropriate Company financial personnel;
 - regularly met privately with the independent auditors, who have unrestricted access to the committee;
- recommended the appointment of the independent auditors and reviewed periodically their performance and independence from management;
- reviewed the Company's financing plans and reported recommendations to the full Board for approval and to authorize action;
- reviewed and discussed with management the Company's audited consolidated financial statements for the fiscal year ended December 31, 2008;
- discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communications with Audit Committees, as amended; and
- received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and discussed with the independent auditors their independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

ITEM 2—APPOINTMENT OF INDEPENDENT AUDITORS

The Board, on the recommendation of its Audit Committee, recommends the appointment of Ernst & Young LLP (“Ernst & Young”) to serve as the Company’s independent auditors for 2009. Ernst & Young has been acting as the Company’s independent auditors since fiscal year 1998.

Audit Fees. The aggregate fees billed for each of the 2007 and 2008 fiscal years for professional services rendered by Ernst & Young for the audit of the Company’s annual financial statements, review of financial statements included in the Company’s Form 10-Q, services that are normally provided by Ernst & Young in connection with statutory and regulatory filings or engagements and for attestation services related to Sarbanes-Oxley compliance for those fiscal years were \$826,289 and \$894,231, respectively.

Audit-Related Fees. There were no audit-related fees billed in either of the 2007 or 2008 fiscal years other than the services provided in the preceding paragraph.

Tax Fees. There were no fees billed in either of the 2007 or 2008 fiscal years for professional services rendered by Ernst & Young for tax compliance, tax advice and tax planning.

All Other Fees. The aggregate fees billed in each of the 2007 and 2008 fiscal years for products and services provided by Ernst & Young other than the services reported in the three immediately preceding paragraphs were \$67,192 and \$115,072, respectively.

The Audit Committee considered whether the provision of the services covered in the four immediately preceding paragraphs of this section is compatible with maintaining Ernst & Young’s independence.

The Audit Committee’s policy is to pre-approve all audit and permissible non-audit services provided by the Company’s independent accountants. Pre-approval is generally provided for up to one year, is detailed as to the particular service or category of services and is generally subject to a specific budget. The committee may also pre-approve particular services on a case-by-case basis. In assessing requests for services by the independent accountants, the committee considers whether such services are consistent with the auditor’s independence, whether the independent accountants are likely to provide the most effective and efficient service based on their familiarity with the Company, and whether the service could enhance the Company’s ability to manage or control risk or improve audit quality. The committee has delegated pre-approval authority to its chairman, who must report any decisions to the committee at its next scheduled meeting.

The recommendation to appoint Ernst & Young and the authorization of the Board to agree to Ernst & Young’s fee are being submitted to the shareholders at the annual general meeting. If such appointment is not made, the Board will consider other auditors for appointment. The Board recommends a vote “FOR” the appointment of Ernst & Young as the Company’s independent auditors for the 2009 fiscal year and the authorization of the Board to agree to Ernst & Young’s fee.

A representative of Ernst & Young is expected to be present at the meeting with an opportunity, if desired, to make a statement and to respond to your questions.

ITEM 3—RECEIPT OF AUDITED FINANCIAL STATEMENTS

In accordance with Bermuda company law and practice, the Company's audited financial statements for fiscal year 2008 will be laid before the annual general meeting. No shareholder action is required in connection therewith.

ITEM 4—INCREASE IN THE NUMBER OF AUTHORIZED COMMON

SHARES AND SHARE CAPITAL

Background

Currently, the Company is authorized to issue 210,000,000 Common Shares in the aggregate. On February 26, 2009, the Board of Directors unanimously approved a proposal to increase the Company's authorized share capital by the creation of an additional 190,000,000 Common Shares.

On April 1, 2009, the Company had issued and outstanding 142,326,493 Common Shares. As of that date, the Company had reserved approximately 24,416,883 shares for issuance upon exercise of outstanding options and convertible preference shares and in connection with existing share-based compensation and benefit plans. Consequently, the Company has approximately 43,256,624 shares available for other issuances.

Recommendation

The Company has approximately 67,673,507 Common Shares available for future option grants, issuances of warrants, preferences shares, financings and other issuances. The Board of Directors of the Company considers it necessary and in the best interest of the Company to have a sufficient number of Common Shares available for issuance in order to provide the Company with business and financing flexibility. The Board also believes in the importance of share-based compensation and benefits plans to align employee and shareholder interests and to continue to attract and retain the services of outstanding employees. Common Shares may be issued by the Company in connection with future strategic business collaborations or equity financings, upon conversion or exchange of outstanding securities. The Company is also obligated to reserve shares for issuance to certain existing investors. Except as referred to herein, there are currently no agreements or understandings regarding the issuance of any of the additional Common Shares that would become available if the Company's authorized share capital is increased as proposed. For these reasons, the Board unanimously recommends a vote "FOR" approval. Approval of the increase requires the affirmative vote of the holders of a majority of the votes cast at the annual general meeting on the proposal.

Effects of Adoption of the Proposal

The adoption of this proposal would increase the authorized share capital of the Company from US\$155,000, consisting of 210,000,000 Common Shares and 1,000,000 Preference Shares, to US\$250,000, consisting of 400,000,000 Common Shares (with identical rights and ranking to the existing Common Shares) and 1,000,000 Preference Shares. The additional Common Shares for which authorization is sought would be part of the existing class of Common Shares, and, to the extent issued, would have the same rights and privileges as the Common Shares currently outstanding. No holder of the Common Shares is entitled to any preemptive right to subscribe for or purchase any shares or other securities of the Company. The issuance of a substantial amount of Common Shares or the granting of an option to purchase a substantial amount of Common Shares could have a potential anti-takeover effect with respect to the Company which may make it more difficult to effect a change in control of the Company (for example, by decreasing the percentage of share ownership of those persons seeking to obtain control), although the Board of Directors is not presenting the proposal for that reason and does not anticipate using the newly authorized

shares for such a purpose. Under applicable law, the Board of Directors is required to make any determination to issue such shares based on its judgment at the time of such issuance as to the best interest of the Company.

Approval of the proposal would not affect the number of authorized preference shares or the number of shares issuable under any of the Company's existing share-based compensation or benefit plans.

ITEM 5—AMENDMENT TO OPTION PLAN

Background

The Board has adopted, subject to shareholder approval, an amendment to the Option Plan to increase the number of Common Shares issuable over the term of the plan by 6,500,000 shares to 32,100,000 shares in the aggregate. The Option Plan is designed to encourage equity ownership of the Company by the employees who are primarily responsible for its management, growth and financial success, to align the interests of such employees with those of the Company's shareholders and to assist the Company in attracting and retaining the services of such employees (see "Compensation Discussion and Analysis" above).

Recommendation

At the annual general meeting, the Company's shareholders will be asked to approve the proposal to amend the Option Plan to increase the number of shares issuable over the term of the plan by 6,500,000 shares to 32,100,000 shares in the aggregate. As part of the Company's new product-based strategy, the Board anticipates that the Company will need more options to attract and properly incentivize outstanding employees. The Board believes that approval of the proposed amendment is in the best interest of the Company, its shareholders and its employees and unanimously recommends a vote "FOR" approval. Approval of the amendments requires the affirmative vote of the holders of a majority of the votes cast at the annual general meeting on the proposal.

Description of Option Plan

This summary does not purport to be a complete description of the Option Plan. Copies of actual plan documents may be obtained by contacting the Secretary of the Company or by locating them on the Internet site maintained by the SEC at <http://www.sec.gov>. The following information is provided to assist shareholders in locating Option Plan-related documents on the SEC website:

- the 1981 Share Option Plan, as amended and restated, was filed as Exhibit 10.1 to the Company's Registration Statement on Form S-8 filed August 28, 2003,
- the first Amendment and Amendment No. 2 to the 1981 Share Option Plan were filed as Exhibits 10.1B and 10.1C, respectively, to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2004,
- Amendment No. 3 to the 1981 Share Option Plan was filed as Exhibit 10.1 to the Company's Current Report on Form 8-K filed November 6, 2007, and
- the form of Share Option Agreement for the Option Plan was filed as Exhibit 10.1A to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as amended.

The essential features of the Option Plan are summarized below.

Of the 25,600,000 Common Shares currently authorized for issuance under the Option Plan, approximately 3,800,664 shares had been issued upon the exercise of options granted under the Option Plan, 21,337,117 shares were subject to outstanding options under the Option Plan, and 462,219 shares were available for issuance under future option grants to be made under the Option Plan, as of the close of business on April 1, 2009. The expiration dates for all such outstanding options range from May 25, 2009 (at the earliest) to April 1, 2019 (at the latest).

The Common Shares issuable over the term of the Option Plan will be made available from authorized but unissued Common Shares. Each option will have an exercise price per share of not less than 100% of the fair market value per Common Share on the date of grant. The Option Plan's term expires on November 15, 2011.

-22-

Key employees (including officers and directors) of the Company (or its subsidiaries) who provide valuable services to the Company (or its subsidiaries) are eligible to participate in the Option Plan (each, a “Participant”). Directors who are not employees of the Company are not eligible to participate in the Option Plan.

The Option Plan provides that such plan will be administered by either the full Board or, if appointed by the Board, a committee thereof comprised of at least two “Non-Employee Directors” within the meaning of Rule 16b-3 of the Securities Exchange Act of 1934, as such term is interpreted from time to time. Currently, the Compensation Committee administers the Option Plan as each relates to individuals other than directors, officers or ten-percent shareholders of the Company. The Compensation Committee’s authority to grant options under the Option Plan is limited to 15,000 shares per individual. In all other respects, the Option Plan is administered by the Board.

The Board and, with respect to individuals who are not directors, officers or ten-percent shareholders of the Company, the Compensation Committee (the “Plan Administrators”) are authorized (subject to the provisions of the Option Plan) to establish such rules and regulations as they may deem appropriate for the proper administration of the Option Plan. Each option granted under the Option Plan will be exercisable at such times, during such period or periods, and for such number of shares as the relevant Plan Administrator determines. No such granted option may have a term in excess of ten years from the grant date.

The number of Common Shares for which options or SARs (as defined below) may be granted to any Participant under the Option Plan is currently limited to not more than 7,000,000 during any calendar year.

Exercise of Options. The exercise price of options granted under the Option Plan will be immediately due upon exercise of the option and may be paid (i) in cash; (ii) in Common Shares having a fair market value on the date the option is exercised equal to the option price; (iii) in a combination of cash and Common Shares valued at fair market value on the day the option is exercised; or (iv) through a broker-dealer sale and remittance procedure pursuant to which shares acquired under the option are sold immediately and there is paid to the Company, out of the sale proceeds, an amount equal to the option price for the acquired shares plus all applicable withholding taxes. For all purposes of valuation under Option Plan, the fair market value of the Common Shares on any relevant date will be the closing sale price per Common Share, as reported for such date through The NASDAQ Stock Market.

The relevant Plan Administrator may also assist any optionee (other than a director) in the exercise of an option by authorizing a loan from the Company, by permitting the optionee to pay the option price in installments over a period of years or by authorizing a guarantee by the Company of a third party loan to the optionee, the terms and conditions of which will be established by the relevant Plan Administrator in its sole discretion. However, the maximum credit available to the optionee may not exceed the option price payable for the purchased shares, plus any tax liability.

Transfer. The Option Plan provides that non-qualified options granted thereunder may be granted on terms permitting transfer to immediate family members of the optionee (or an entity comprised entirely of the optionee and such immediate family members) in certain circumstances.

Termination of Employment. Should an optionee under the Option Plan cease to be an employee or consultant of the Company for any reason (other than death, certain retirements, termination for cause or unauthorized disclosure, as described below), such optionee (or its permitted transferee) will not have more than a twelve (12) month period (or such shorter period as set forth in the option agreement) following the date of such cessation of status in which to exercise any outstanding options. For options granted on or after February 25, 2003, should an optionee cease to be an employee or consultant by reason of death, the options will become fully exercisable and shall remain exercisable for a twelve (12) month period following the date of death. For options granted on or after February 25, 2003, should

an optionee cease to be an employee or consultant by reason of retirement at or after age fifty-five (55) and where optionee's age plus service exceed seventy (70), the options will become fully exercisable and shall remain exercisable for the full option term as if the optionee had continued in employment. In all of the cases above, under no circumstances may any options be exercised after the specified expiration date of the option term. Should an optionee be terminated for cause (including, but not limited to, any act of dishonesty, willful misconduct, fraud or embezzlement or any unauthorized disclosure or use of confidential information or trade secrets), or should an op-

tionee make or attempt to make any unauthorized use or disclosure of confidential information or trade secrets, then all outstanding options shall immediately terminate and cease to be exercisable.

Share Appreciation and Repurchase Rights. The Option Plan includes a share appreciation right (“SAR”) feature whereby the relevant Plan Administrator has the authority to grant one or more optionees the right, exercisable upon such terms and conditions as such Plan Administrator deems appropriate, to surrender all or part of an unexercised option and to receive in exchange therefor an amount equal to the excess of (i) the fair market value (on the date of surrender) of the number of vested shares for which the surrendered option is at the time exercisable over (ii) the aggregate option price payable for such vested shares, payable in Common Shares valued at fair market value on the date of surrender, in cash, or partly in shares and partly in cash. To date, no SARs have been granted.

Acceleration of Options. Pursuant to certain corporate transactions, including: a merger, amalgamation or acquisition in which the Company is not the surviving or continuing entity; the sale, transfer or other disposition of all or substantially all of the assets of the Company; or any other business combination in which 50% or more of the Company’s outstanding voting shares is transferred to different holders in a single transaction or a series of related transactions, all options at the time outstanding and not then otherwise fully exercisable will immediately, prior to the specified effective date of such corporate transaction, become fully exercisable for up to the total number of Common Shares purchasable thereunder unless the options are assumed by the successor entity or replaced with comparable options of the successor entity.

Amendment. The Option Plan permits the grant of options to purchase Common Shares in excess of the number of shares then available for issuance. Any option so granted cannot be exercised prior to shareholder approval of an amendment increasing the number of shares available for issuance under the Option Plan.

The Board has full power and authority to amend or modify the Option Plan in any or all respects, except that no such amendment or modification may, without the consent of the option holders, adversely affect rights and obligations with respect to options at the time outstanding under the Option Plan prior to such action, and the Board may not, without the approval of the Company’s shareholders, (i) increase the maximum number of shares issuable under the Option Plan, except for permissible adjustments in the event of certain changes in the Company’s capitalization, (ii) materially increase the benefits accruing to Participants in the Option Plan or (iii) materially modify the eligibility requirements for participation therein.

Federal Income Tax Consequences

The following discussion summarizes the principal federal income tax consequences of the Option Plan. This discussion is based on current provisions of the Code, the Treasury regulations promulgated thereunder, and administrative and judicial interpretations thereof. The summary does not address any foreign, state or local tax consequences of participation in the Option Plan.

Share Options. In general, the grant of an option will not be a taxable event to the recipient and it will not result in a deduction to the Company. The tax consequences associated with the exercise of an option and the subsequent disposition of Common Shares acquired on the exercise of such option depend on whether the option is an incentive stock option or a non-qualified stock option.

Upon the exercise of a non-qualified stock option, the Participant will recognize ordinary taxable income equal to the excess of the fair market value of the Common Shares received upon exercise over the exercise price. The Company will generally be able to claim a deduction in an equivalent amount. Any gain or loss upon a subsequent sale or exchange of the Common Shares will be capital gain or loss, long-term or short-term, depending on the holding period for the Common Shares.

Generally, a Participant will not recognize ordinary taxable income at the time of exercise of an incentive stock option and no deduction will be available to the Company, provided the option is exercised while the Participant is an employee or within three (3) months following termination of employment (longer, in the case of disability or death). If an incentive stock option granted under the Option Plan is exercised after these periods, the exercise will be treated for federal income tax purposes as the exercise of a non-qualified stock option. Also, an incentive stock

option granted under the Option Plan will be treated as a non-qualified stock option to the extent it (together with other incentive stock options granted to the Participant by the Company) first becomes exercisable in any calendar year for Common Shares having a fair market value, determined as of the date of grant, in excess of \$100,000.

If Common Shares acquired upon exercise of an incentive stock option are sold or exchanged more than one year after the date of exercise and more than two years after the date of grant of the option, any gain or loss will be long-term capital gain or loss. If Common Shares acquired upon exercise of an incentive stock option are disposed of prior to the expiration of these one-year or two-year holding periods (a “Disqualifying Disposition”), the Participant will recognize ordinary income at the time of disposition, and the Company will generally be entitled to a deduction, in an amount equal to the excess of the fair market value of the Common Shares at the date of exercise over the exercise price. Any additional gain will be treated as capital gain, long-term or short-term, depending on how long the Common Shares have been held. Where Common Shares are sold or exchanged in a Disqualifying Disposition (other than certain related party transactions) for an amount less than their fair market value at the date of exercise, any ordinary income recognized in connection with the Disqualifying Disposition will be limited to the amount of gain, if any, recognized in the sale or exchange, and any loss will be a long-term or short-term capital loss, depending on how long the Common Shares have been held.

Although the exercise of an incentive stock option as described above would not produce ordinary taxable income to the Participant, it would result in an increase in the Participant’s alternative minimum taxable income and may result in an alternative minimum tax liability.

If an option is exercised through the use of Common Shares previously owned by the Participant, such exercise generally will not be considered a taxable disposition of the previously owned shares and, thus, no gain or loss will be recognized with respect to such previously owned shares upon such exercise. The amount of any built-in gain on the previously owned shares generally will not be recognized until the new shares acquired on the option exercise are disposed of in a sale or other taxable transaction.

Share Appreciation Rights. With respect to share appreciation rights under the Option Plan, generally, when a Participant receives payment with respect to a share appreciation right granted to him or her under the Option Plan, the amount of cash and the fair market value of any other property received will be ordinary income to such Participant and will be allowed as a deduction for federal income tax purposes to the Company.

Payment of Withholding Taxes. The Company may withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy any federal, state or local withholding tax requirements associated with awards under the Plan.

Limitation on Compensation in Excess of \$1 Million. Section 162(m) of the Code generally limits the deductible amount of annual compensation paid (including, unless an exception applies, compensation otherwise deductible in connection with awards granted under the Plan) by a public company to a “covered employee” (i.e., the chief executive officer and four other most highly compensated executive officers of the Company) to no more than \$1 million. The Company currently intends to structure share options granted under the Option Plan to comply with the exception to nondeductibility under Section 162(m) of the Code. See “Compensation Committee Report on Executive Compensation.”

ITEM 6—AMENDMENTS TO THE DIRECTORS PLAN

Background

The Board has adopted, subject to shareholder approval, an amendment to the Company's 1992 Directors Share Option Plan (the "Directors Plan") to, effective as of July 1, 2008, (1) increase the number of shares automatically granted under the Directors Plan (the "Annual Grant") to non-employee directors (other than the Lead Independent Director) to 35,000 per year, (2) change the Annual Grant to non-employee directors who serve in the capacity of Lead Independent Director to 45,000 per year, and (3) increase the number of shares granted under the Directors Plan to non-employee directors as an initial grant on first becoming a director to 70,000.

The Board has also adopted, subject to shareholder approval, an amendment to the Directors Plan to extend the vesting of options granted under the Directors Plan on or after July 1, 2008 to (1) monthly over three years (compared to in full on the first anniversary of the date of grant), in the case of initial awards and (2) monthly over one year (compared to in full on the date of grant), in the case of Annual Grants.

The Board has also adopted, subject to shareholder approval, an amendment to the Directors Plan to increase the number of shares issuable over the term of the plan by 250,000 shares to 1,600,000 shares.

Recommendation

At the annual general meeting, the Company's shareholders will be asked to approve the amendments to the Directors Plan described in the preceding paragraphs. The Board believes that approval of the proposed amendments relating to the numbers of shares to be granted and issuable over the term of the plan is in the best interest of the Company, its shareholders and its employees because it will assist the Company in continuing to attract and retain the services of outstanding directors and will compensate its non-employee directors for the recent reduction in their cash compensation. The Board believes that approval of the proposed amendments relating to vesting is in the best interest of the Company, its shareholders and its employees because it will further align the interests of directors, shareholders and employees in the Company's long-term growth. As a result, the Board recommends a vote "FOR" approval. Approval of the amendments requires the affirmative vote of the holders of a majority of the votes cast at the annual general meeting on the proposal.

Description of the 1992 Directors Share Option Plan

This summary does not purport to be a complete description of the Directors Plan. Copies of actual plan documents may be obtained by contacting the Secretary of the Company.

The Directors Plan was originally adopted by the Board on February 20, 1992 (the "Adoption Date") and approved by the shareholders at a meeting held April 29, 1992 and was amended and restated on each of May 19, 2004 and May 13, 2008. Shares issuable over the term of the Directors Plan will be made available from authorized but unissued Common Shares. Should an option be terminated for any reason prior to exercise in full, the shares subject to the portion not so exercised will be available for subsequent grants under the Directors Plan. Only non-employee directors of the Company are eligible to receive options under the Directors Plan.

The Directors Plan was generally designed to operate automatically and not require administration; however, to the extent administration is necessary, the Directors Plan is administered by those members of the Board who are not eligible to participate in the Directors Plan (the "Directors Plan Administrators"). The Directors Plan Administrators have the authority to establish rules and regulations for the proper administration of the Directors Plan. The Board is also permitted to make grants to non-employee directors under the Directors Plan from time to time in its discretion.

Of the 1,350,000 Common Shares currently authorized for issuance under the Directors Plan, approximately 42,000 shares had been issued upon the exercise of options granted under the Directors Plan, 920,000 shares were subject to outstanding options under the Directors Plan, and 388,000 shares were available for issuance under future option grants to be made under the Directors Plan, as of the close of business on April 1, 2009. The expiration dates for all such outstanding options range from May 25, 2009 (at the earliest) to December 8, 2018 (at the latest).

Prior to the adoption of the proposed amendments, each person who becomes a non-employee director for the first time after the Adoption Date shall be granted an option, on date such person becomes a non-employee director, to

purchase that number of Common Shares equal to 40,000 minus the number of Common Shares with respect to which options have been previously granted to such non-employee director. The current amendments if approved will increase the number of shares for which options will be granted to newly-elected non-employee directors to 70,000 minus the number of shares with respect to which options have previously been granted.

Prior to the adoption of the proposed amendments, on each date that the Company holds its annual general meeting of shareholders, each non-employee director then in office (other than those directors first elected at such meeting) will receive an Annual Grant of 25,000 shares, which amount is further increased for directors who serve in the capacity of chairman of any of the Audit Committee, Compensation Committee or Nominating & Governance Committee and/or as Lead Independent Director by the Applicable Multiple (as defined above). The current amendments if approved will increase the Annual Grant to 35,000 shares in the case of non-employee directors other than the Lead Independent Director and 45,000 shares in the case of the Lead Independent Director. Under the proposed amendments, only the Lead Independent Director will be entitled to receive an Annual Grant in excess of 35,000 shares.

The Directors Plan also provides that the options granted thereunder shall have maximum terms of 10 years. Prior to the adoption of the proposed amendments, options granted to non-employee directors upon their initial election to the Board vest on the first anniversary of the date of grant, and Annual Grants vest on the date of grant. The current amendments if approved will extend the vesting of options granted under the Directors Plan on or after July 1, 2008 to (1) monthly over three years, in the case of initial awards and (2) monthly over one year, in the case of Annual Grants. The option price will be immediately due upon exercise of the option and may be paid in cash or by check.

The price per share to be paid by a director at the time an option is exercised will be 100% of the fair market value of the Common Shares on the date of grant. For purposes of establishing the exercise price, the fair market value of the Common Shares on any relevant date will be the closing sale price per share of Common Shares, as reported for such date through The NASDAQ Stock Market. If the Common Shares is subsequently listed or admitted to trading on any other stock exchange, then the fair market value will be the closing sale price per share reported for such date by the principal exchange on which the Common Shares is traded.

The Directors Plan provides that options granted thereunder will be granted on terms generally permitting transfer to immediate family members of the optionee (or an entity comprised entirely of the optionee and such immediate family members).

The Board has full power and authority to amend or modify the Directors Plan; provided, however, that the Board may not, without further approval of the shareholders of the Company, increase the number of shares as to which options may be granted under the Directors Plan, materially increase the benefits accruing to participants under the Directors Plan, or materially modify the requirements as to eligibility under the Directors Plan. In addition, the Board may not amend the Directors Plan or any agreements thereunder more than once every six (6) months, other than to comport with the Code or the rules thereunder.

Termination of Director Status. Should an optionee cease to be a non-employee director of the Company for any reason (including death or permanent disability), such optionee will not have more than a twelve (12) month period following the date of such cessation of status in which to exercise any outstanding options, but under no circumstance may any such option be exercised after the specified expiration date of the option term. Each such option will, during such limited period, be exercisable only to the extent of the number of shares (if any) for which the option is exercisable on the date of such cessation of status, except as discussed below.

Acceleration of Options. In the event of one or more of the following transactions (“Corporate Transaction”): (i) a merger or acquisition in which the Company is not the surviving entity, except for a transaction the principal purpose of which is to change the state of incorporation, (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company, or (iii) any other business combination in which 50% or more of the Company’s outstanding voting shares is transferred to different holders in a single transaction or a series of related transactions, then all options granted under the Directors Plan at the time outstanding and not then otherwise fully exercisable will,

immediately prior to the specified effective date for the Corporate Transaction, become fully exercisable for up to the total number of shares purchasable thereunder. However, in no event will any such acceleration occur if the terms of the Corporate Transaction require as a condition to consummation that each such outstanding option either be assumed by the successor corporation or be replaced with a comparable option to purchase shares of capital stock of the successor corporation. Upon the consummation of the Corporate Transaction, all outstanding options will, to the extent not previously exercised or assumed by the successor corporation, terminate and cease to be exercisable.

The acceleration of options in the event of a Corporate Transaction may be seen as an anti-takeover provision and may have the effect of discouraging a proposal for merger, a takeover attempt or other efforts to gain control of the Company.

Federal Income Tax Consequences

The following discussion summarizes the principal federal income tax consequences of the Directors Plan. This discussion is based on current provisions of the Code, the Treasury regulations promulgated thereunder, and administrative and judicial interpretations thereof as in effect on the date hereof. The summary does not address any foreign, state or local tax consequences of participation in the Directors Plan.

In general: (i) no income is recognized by the optionee at the time a non-qualified stock option is granted; (ii) upon exercise of the non-qualified stock option, the optionee recognizes ordinary income in an amount equal to the difference between the exercise price and the fair market value of the shares on the date of exercise; and (iii) at disposition any increase or decrease in value of the shares after the date of exercise is treated as capital gain or loss. If the holding period for the shares is not more than one year, the gain or loss will be short-term capital gain or loss. Short-term capital gain is taxable at the same rates as ordinary income. If the holding period is more than one year, the gain or loss will be long-term capital gain or loss. In general, long-term capital gain is subject to lower maximum federal income tax rates than ordinary income. Currently, the maximum rate for long-term capital gain on assets held for more than eighteen (18) months is generally 20%, and the maximum rate on capital gain on assets held for more than one year but less than eighteen (18) months (“mid-term gain”) is 28%.

Generally, the Company will be entitled to a tax deduction equal to the amount of ordinary income recognized by the optionee at the date of exercise.
