Summary of the resolutions

Ø Acquisition by the Company of its own shares

Tenth resolution

The authorisation, which the General Meeting of 3 July 2002 gave to the Company to acquire its shares, was not used during the course of the past fiscal year.

However, in order to provide flexibility to the Company, it is proposed in this resolution to cancel this former authorisation which shall expire and to renew it for a period expiring on the date of the General Meeting which will approve the financial statements for the fiscal year beginning on 1 April 2003.

This authorisation will allow the Company to acquire its own shares not only for stabilisation purposes or to allow sale and purchase of shares depending on the market, but also to allocate such shares to employees and management of the Group (in particular through stock option plans), to retain the shares acquired and, if need be, to sell, transfer or exchange the shares acquired in the context of any financial transaction (including the exercise of rights attached to securities), as well as in the context of the general and financial management of its share capital and shareholders' equity, in particular with regard to its financing requirements. The shares may also be cancelled pursuant to the *fifteenth resolution* submitted to this General Meeting.

The purchase, sale, transfer or exchange of these shares may be effected on or off the market, at any time, including during any take-over bid, and by any means, including through block transfer or the use or exercise of any financial instruments, derivative products and, particularly, through optional transactions such as the purchase and sale of put and call options. These shares may also be transferred free of charge under the conditions specified by law, in particular articles L. 443-1 *et seq.* of the French *Code du Travail*.

The number of shares which may be purchased pursuant to the present authorisation cannot exceed 10% of the share capital as of 31 March 2003, i.e 28,166,052 shares.

We propose that the maximum purchase price of shares be fixed at 20 and that the minimum sale price be fixed at 1.25.

Ø EXTRAORDINARY PART OF THE SHAREHOLDERS' MEETING

Ø Decisions following the loss of the fiscal year 2003

Eleventh and twelfth resolutions

Edgar Filing: ALSTOM - Form 6-K

As a result of the loss of (7,474,080,874.35) recorded in the statutory accounts for the fiscal year 2003, the shareholders' equity amounts to less than half of the share capital and it is therefore proposed in the eleventh resolution, pursuant to the French *Code de Commerce*, to not decide the anticipated liquidation of the Company.

Following the appropriation of the loss of the fiscal year as set forth in the third resolution which results in a negative balance carried forward, it is proposed in the twelfth resolution to decide to reduce the share capital from 1,689,963,138 to 352,075,653.75 in order to offset the major part of the balance carried forward, and to implement this reduction in the share capital by reducing the nominal value of each share from 6 to 1.25.

Ø **Renewal of financial authorisations**

Thirteenth, fourteenth, and fifteenth resolutions

All the extraordinary resolutions to be put before the General Meeting relate to the renewal of some of the financial authorisations given to the Board of Directors by the General Meeting of 24 July 2001 and 3 July 2002 and which have not been used.

It is first proposed in the *thirteenth resolution* to cancel the former authorisations given by the General Meeting of 3 July 2002 in its eighth and ninth resolutions which, if not approved, would remain valid, and to vote a new authorisation to increase the share capital with maintenance of preferential subscription rights for the reason explained below.

As part of the signing by a group of banks in March 2003 of a 600 million bridge loan (the *Bridge Loan*) and of agreements

Shareholders' Meeting 2003

Table of Contents

Summary of the resolutions submitted to the Shareholders Meeting

which postponed the maturity date of former credit lines amounting to 475 million (the Extended Credit Lines), the Company has undertaken to submit a resolution before the General Meeting in order to authorise the Board of Directors for a period of 26 months, to launch at the appropriate time a capital increase with maintenance of the preferential subscription rights of the shareholders.

Pursuant to the terms and conditions of the Bridge Loan and Extended Credit Lines agreements, would the General Meeting not grant such authorisation, the banks would have the ability to request the immediate repayment of the 600 million Bridge Loan and of the 475 million of Extended Credit Lines. Therefore, the Board recommends to the shareholders to approve this resolution.

The Board of Directors has recommended to implement to the extent possible and subject to prevailing market conditions before the end of the calendar year 2003, a share capital increase with maintenance of preferential subscription rights and to raise up to 600 million in net proceeds.

Therefore, pursuant to this *thirteenth resolution*, it is proposed to authorise the Board of Directors, for a period of 26 months as from the date of the General Meeting, to issue, in any currency and on any financial market, shares of the Company, and/or securities redeemable, convertible or otherwise exchangeable immediately or in the future into capital shares of the Company, while maintaining the preferential subscription rights of existing shareholders of the Company, including warrants issued independently of other securities with or without consideration, within the limit of an aggregate nominal amount of increase in share capital of 600 million, which will represent approximately 164% of the share capital after the reduction contemplated in the *twelfth resolution* (excluding adjustments linked to subsequent issues of securities) and the nominal amount of debt securities which could be issued pursuant to this resolution could not exceed 1.5 billion or its exchange value in any other currency.

This proposed authorisation should give the Board of Directors for a new 26 months period, the flexibility necessary to allow it to proceed with the issue of all financial instruments in order to refinance or reduce the Company's debt with the objective to improve the debt maturity profile and/or reduce financial expenses, and to strengthen the shareholders' equity.

Pursuant to the provisions of the French *Code de Commerce*, the renewal of the authorisation we propose in the *thirteenth resolution*, also leads us to propose in the *fourteenth resolution* to renew the authorisation granted to the Board of Directors at the General Meeting of 3 July 2002 in the eleventh resolution to proceed with capital increases reserved for employees although this resolution has not been used and is still valid.

We propose in the *fourteenth resolution* to cancel the previous authorisation and to renew it by authorising the Board of Directors, for a period of 26 months, to undertake increases in the share capital of the Company by the issue of shares or any other securities which give access to the share capital of up to a maximum nominal amount of 35,200,000 which will represent approximately 10% of the share capital after reduction (excluding adjustments), reserved for members (who may subscribe to these new shares, in accordance with the laws and regulations currently in force, directly or indirectly through mutual funds) of a Company savings plan belonging to the Company or its subsidiaries. This will result in the express waiver by the existing shareholders of their preferential subscription right for the benefit of the persons to whom the issue is reserved.

The subscription price of the issued shares, in accordance with the laws and regulations currently in force, shall not be lower by more than 20% of the average price of the Company share prices during the last twenty trading days preceding the date on which the issue is decided, or higher than such average price. A free allocation of shares or other securities giving access to the Company's capital may be effected.

Edgar Filing: ALSTOM - Form 6-K

Where the Board decides to use these authorisations, in accordance with the provisions of article 155-2 of the French decree of 23 March 1967, the final conditions of the issues as well as their effect shall be the subject of additional reports by the Board of Directors and the statutory auditors.

The *fifteenth resolution* is intended to renew the authorisation granted by the General Meeting of 24 July 2001 in its twentieth resolution which will expire on next 24 July and to authorise your Board, for a period of twenty-four months, to reduce the share capital by up to 10% of its amount by cancelling all or part of the shares that would be repurchased by the Company under any share repurchase authorisation granted by the General Meeting of the shareholders, and in particular the *tenth resolution* of this Meeting subject to your approval.

Finally, in the *sixteenth resolution*, we ask you to grant all powers allowing the decisions of the General Meeting to be executed and the necessary formalities to be completed.

Thirteenth resolution

Authorisation to be given to the Board of Directors to increase the share capital of the Company by the issue of shares and of any type of securities which give immediate or future access to the Company's shares, with maintenance of preferential subscription rights

The general meeting, deliberating pursuant to the quorum and majority requirements for extraordinary General Meetings, having examined the report of the Board of Directors and the special statutory auditors' report, and in accordance with the provisions of the French *Code de Commerce*, in particular in its article L.225-129 III:

- 1- decides to cancel the authorisations granted to the Board by the extraordinary and ordinary shareholders' meeting of 3 July 2002, in its eighth, ninth and tenth resolutions;

- 2- delegates to the Board of Directors, for a period of twenty-six months from the date of this Meeting, all powers necessary to carry out an increase in the share capital, either all at once or in more than one stage, through the issue, both in France and abroad, of shares or of any other securities, including any equity warrants not attached to any securities and issued ex gratia or against payment, which give immediate or future access to shares of the Company, which can be subscribed for either cash or by set-off of debt and which have the same rights as those attached to existing shares except for the date at which they give rise to a dividend; the above mentioned securities shall be denominated in euros or, with respect to securities other than shares, in any other lawful currency or in any other account unit established by reference to a panel of currencies;

- 3- decides that:

the global nominal amount of the shares that may be issued immediately and/or at a later date by virtue of this authorisation shall not exceed 600 million euros to which may be added the nominal amount of the additional shares to be issued in order to maintain the rights of the holders of securities giving access in the future to the shares of the Company, in accordance with applicable laws, regulations and contractual provisions;

the global nominal amount of the securities that are representative of debts of the Company and which may be issued by virtue of this authorisation, shall not exceed 1.5 billion euros or the exchange value of this amount in any other currency;

- 4- decides that in the event of an offer to subscribe for securities, the shareholders will be allowed to exercise their preferential subscription rights in accordance with the conditions set out by law. In addition, the Board of Directors will have the power to grant the shareholders the right to subscribe further securities in order to obtain a greater number than that to which they are entitled by virtue of their preferential subscription rights, in accordance with the provisions of the law.

If subscriptions by way of exercise of preferential rights and, if applicable, by way of exercise of any additional rights, do not account for the whole issue, the Board of Directors may, in the order that it shall decide, exercise either or both of the following options:

Edgar Filing: ALSTOM - Form 6-K

freely allot all or part of the securities which have not been subscribed between persons of its choice;

limit the issue to the amount of the subscriptions received, provided that this amount reaches at least three quarters of the issue decided initially;

freely offer to the public, on the French or international market, all or part of the securities which have not been subscribed;

5- decides that if free warrants by scrip issue are allocated to holders of existing shares, the Board of Directors shall have the power to decide that rights to fractions of warrants will not be negotiable and that the corresponding warrants will be sold, the proceeds of the sale being allocated to those entitled to such fractions at the latest within 30 days of the date of registration in the registers of the total number of warrants allotted to them;

6- notes that the present authorisation and delegation of powers:

implies, for the benefit of the holders of the securities which give access to shares of the Company by virtue of this authorisation, other than bonds convertible into shares and equity warrants, the waiver by the shareholders of their preferential subscription rights to the securities to which the securities issued may give right;

implies the express waiver by the shareholders of their preferential subscription rights to the shares of the Company to which the bonds convertible into shares or the equity warrants may give access by virtue of this authorisation.

- 7- decides that the Board of Directors will have all powers, with the power to subdelegate in accordance with the provisions of the law, to implement this authorisation and delegation of powers, and in particular:

to fix the dates and terms and conditions of the issues, their characteristics and method under which the securities to be issued immediately or in the future will be fully paid up, including the conditions in which they will give rights to shares;

to fix in the event of an issue of debt securities, whether or not they have subordinated status, their redemption terms and conditions, their fixed or variable redemption price with or without premium and the terms and conditions by which securities issued may be repurchased or exchanged;

to fix the date (which may be retroactive) from which the new shares will bear dividends;

to suspend, if applicable, the exercise of the rights attached to the securities issued and giving access to shares of the Company in accordance with applicable law, regulation or contractual provisions for a period not exceeding three months;

to determine the terms and conditions by which the rights of the holders of securities issued and giving rights to shares will be maintained in accordance with applicable law, regulation or contractual provisions;

to proceed with any offset of expenses against the amount of premiums;

to take generally all necessary measures and enter into any arrangement to bring the contemplated issue to a successful conclusion;

to take any necessary measures for the admission to the listing on the *Premier marché d Euronext Paris* (or on any other regulated market) of the securities issued by virtue of this authorisation;

to record the completion of the share capital increases; to amend the Articles of Association accordingly and to accomplish all required formalities and publications.

- a) Adjusted for changes in business composition and exchange rates.
- b) We define Free Cash Flow to mean Net cash provided by (used in) operating activities less Capital expenditures, net of proceeds from disposals of property, plant and equipment (excluding proceeds from the sale of real estate as part of our strategic plan) and Increase (decrease) in variation in existing receivables considered as source of funding of our operations. However, this measure is not a measurement of performance either under French or US GAAP.
- c) We define Economic debt to mean Net debt (or Financial debt net of short term investments and cash and cash equivalents) plus cash proceeds from sale of trade receivables (securitisation of existing receivables). Economic debt does not represent our Financial debt as calculated under French GAAP, and should not be considered as an indicator of our currently outstanding indebtedness because trade receivables securitised are sold irrevocably and without recourse.

Summary of activity

Despite an unfavourable economic climate, markets remained generally buoyant in rail transport and stable in both electricity transmission and power generation service. Conditions were unfavourable, however, in large gas- and steam-related plant and equipment activities in power generation, following the end of the gas boom in the US market, and remained difficult in electricity distribution. Our Marine market remained very weak.

Overall, Group order intake was down 4% on a comparable basis against the prior year, mainly due to a sharp decrease in Power and Marine, partly offset by a strong increase in orders received by Transport. Sales were broadly stable (+1%). The order backlog amounted to over 30.3 billion at 31 March 2003, representing approximately 17 months of sales.

Operating income was (434) million in fiscal year 2003, after the impact of exceptional provisions of (1,300) million, primarily to cover the additional costs of our GT24/GT26 gas turbines and to a lesser extent, additional costs associated with our UK trains issues.

Excluding these provisions, operating income and operating margin were respectively 866 million and 4.1% in fiscal year 2003 (4.0% in fiscal year 2002).

Restructuring charges increased from 227 million in 2002 to 268 million in 2003. Pensions charges increased from 139 million to 214 million due to the increase in amortisation of the difference between benefits and market value of pension assets. Financial income improved from (294) million to (270) million. Due to the negative pre-tax result, a tax credit of 241 million was recorded in fiscal year 2003. Goodwill amortisation remained broadly stable at 284 million.

Net consolidated income after exceptional provisions, was (1,381) million for fiscal year 2003.

Free cash flow improved to (265) million in fiscal year 2003, from (1,151) million in fiscal year 2002, reflecting a substantial improvement in working capital. Excluding cash outflows relating to the GT24/GT26 gas turbines, free cash flow was 790 million positive.

Economic debt was 4,918 million at the end of March 2003, compared with 5,290 million at the end of March 2002, a reduction of 372 million. This primarily reflects the impact of the capital increase in July 2002 and the disposals, partly offset by the negative free cash flow.

On 12 March 2003, we presented our action plan with the key objectives to focus the Group's activities through an extended disposal programme, to strengthen the financial base and to improve the operational performance of the Group. Several steps have already been achieved:

Edgar Filing: ALSTOM - Form 6-K

50% of new 3.0 billion target for disposals secured;

New credit lines confirmed;

Senior management renewed & new organisation implemented;

Restructuring & overhead reduction plans launched.

Whilst we expect overall demand to be generally low over the next few months due to the depressed power generation market, we are confident that market fundamentals will lead, in the medium to long-term, to growing demand for both new equipment and service.

The timing of recovery in the power generation equipment and cruise-ship markets is uncertain. The Transport market, however, should remain sound, even if activity may be slightly lower than last year's exceptionally high level.

Given the progress in our operating margin before exceptional provisions in fiscal year 2003, coupled with the extensive restructuring plans now underway, we are confident of achieving our target of 6% operating margin by fiscal year 2006. In view of the current free cash flow, we foresee the Group to generating positive free cash flow, once the GT24/GT26 gas turbine problem is resolved.

We also anticipate our economic debt will be reduced from 4.9 billion in March 2003 to a level in the range of (2.0-2.5 billion) by March 2005, depending on the quantity of additional funds raised through the planned capital increase.

The success of our strategy and the achievement of the objectives of our action plan depends on risk factors, described particularly in the section entitled 'Risks' of our Annual Report for fiscal year 2003.

Ø REPORT OF THE BOARD OF DIRECTORS ON THE GROUP'S MANAGEMENT AND THE CONSOLIDATED FINANCIAL STATEMENTS

This report is included in ALSTOM's Annual Report 2003 within the section Operating and financial review and prospects .

Ø REPORT OF THE BOARD OF DIRECTORS ON THE ORDINARY PART OF THE GENERAL MEETING

Ø Comments on ALSTOM's statutory accounts

ALSTOM is the holding company of the ALSTOM group. ALSTOM's investments consist exclusively of the shares of ALSTOM Holdings.

ALSTOM centralises a large part of the external financing of the group and directs the funds so obtained to its subsidiary ALSTOM Holdings through loans and a current account. Fees from its indirect subsidiaries for the use of the ALSTOM name are ALSTOM's main other source of revenue.

Income

ALSTOM's net loss amounted to 7,474.1 million and comprised:

n income of 92.1 million arising from fees for the right to use the ALSTOM name;

n operating expenses of 29.9 million;

n financial loss of 7,563.1 million; and

n income tax credit of 26.8 million.

The financial loss in the year was the result of the necessity to write down the investments in a subsidiary of the Company, caused by continuing issues in the group Gas Turbines business, problems in Transport UK and delayed implementation in the Company's Restore Value Programme. The result was a significant reduction in the market capitalisation due to the afore mentioned factors and high debt levels and a resultant permanent diminution in the value of the investment, previously considered temporary as it had been supported by market capitalisation and the Restore Value Programme.

Balance sheet

The balance sheet amounts to a total of 4,895.4 million, the main elements of which are as follows:

n included in assets, ALSTOM Holdings' investments gross value of 6,553.5 million has been totally depreciated. Advances to ALSTOM Holdings of 5,668.1 million have been depreciated for 1,020.2 million;

n included in liabilities, a financial debt of 4,516.7 million including bonds with a principal amount of 1,200 million, commercial paper with a principal amount of 83 million and various loans amounting to 3,184.5 million which include syndicated lines of credit for 2,626.3 million.

The availability of most of the loans is subject to compliance with financial covenants as described in Note 7 to the statutory accounts. In addition, a significant amount of the Company's financial debt matures in fiscal year 2004.

The composition and the chairmanship of the Board of Directors have changed during the past fiscal year.

The General Meeting of 3 July 2002 approved the renewal of Mr James B. Cronin's mandate and the appointment of Mr Georges Chodron de Courcel, for four years.

Following Mr Pierre Bilger's resignation as Chairman of the Board and Director of the Company on 11 March 2003, the Board of Directors held on the same day resolved to abandon earlier than originally anticipated the separation of the functions of Chairman of the Board of Directors and Chief Executive Officer effective since 1 January 2003 and appointed Mr Patrick Kron as both Chairman and Chief Executive Officer with immediate effect.

The Board also appointed with immediate effect, Mr Gérard Hauser as a Director for the remaining term of Mr Bilger's mandate. Therefore, this appointment is submitted for ratification to the shareholders in this resolution.

Acquisition by the Company of its own shares

Tenth resolution

The authorisation, which the General Meeting of 3 July 2002 gave to the Company to acquire its shares, was not used during the course of the past fiscal year.

However, in order to provide flexibility to the Company, it is proposed in this resolution to cancel this former authorisation which shall expire and to renew it for a period expiring on the date of the General Meeting which will approve the financial statements for the fiscal year beginning on 1 April 2003.

This authorisation will allow the Company to acquire its own shares not only for stabilisation purposes or to allow sale and purchase of shares depending on the market, but also to allocate such shares to employees and management of the Group (in particular through stock option plans), to retain the shares acquired and, if need be, to sell, transfer or exchange the shares acquired in the context of any financial transaction (including the exercise of rights attached to securities), as well as in the context of the general and financial management of its share capital and shareholders equity, in particular with regard to its financing requirements. The shares may also be cancelled pursuant to the *fifteenth resolution* submitted to this General Meeting.

The purchase, sale, transfer or exchange of these shares may be effected on or off the market, at any time, including during any take-over bid, and by any means, including through block transfer or the use or exercise of any financial instruments, derivative products and, particularly, through optional transactions such as the purchase and sale of put and call options. These shares may also be transferred free of charge under the conditions specified by law, in particular articles L. 443-1 *et seq.* of the French *Code du Travail*.

Edgar Filing: ALSTOM - Form 6-K

The number of shares which may be purchased pursuant to the present authorisation cannot exceed 10% of the share capital as of 31 March 2003, i.e 28,166,052 shares.

We propose that the maximum purchase price of shares be fixed at 20 and that the minimum sale price be fixed at 1.25.

ALSTOM, the parent company of the ALSTOM Group, has no employees and no industrial or commercial activity.

Fundamental Conventions of the International Labour Organisation ALSTOM seeks to ensure compliance by its French and overseas subsidiaries of the fundamental Conventions of the International Labour Organisation (ILO), understood as:

equal opportunities and non-discrimination in the workplace (conventions 110 and 111),

freedom of association freedom to form unions or to adhere to unions and freedom to bargain collectively with employers (conventions 97 and 98),

child labour ban on employment of children under 15 years of age and under 18 years of age for high risk jobs (conventions 138 and 182),

forced labour ban on use of forced labour, slavery and use of imprisoned workers (conventions 29 and 105).

Our Code of Ethics is incorporated in the collection of the Group s policies and instructions (known as the e-Book) which is available through the Group s Intranet to all employees world-wide.

The Code of Ethics stipulates that all employees must be aware of the laws, regulations and requirements relating to their job, location and environment and must avoid activities which would involve ALSTOM in any unlawful practice. Compliance with the policies and instructions contained in the e-Book is obligatory. An internal audit team routinely checks our Units throughout the world for compliance with the Corporate Instructions contained therein.

We believe therefore that in almost all countries in which the group operates, the countries labour law complies with ILO fundamental conventions, and that we respect these laws. In addition, the e-Book stipulates a policy of equal opportunity and

non-discrimination in the work-place. We do not believe that any of our operations employ child or forced labour of any kind. However, some of the group s operations may be run under jurisdictions which do not respect all ILO conventions, such as freedom of association (conventions 97 and 98). So far, we have not introduced measures to ensure systematic monitoring of our suppliers compliance with the ILO fundamental conventions listed above.

Impact of foreign subsidiaries operations on regional development and local populations Our foreign subsidiaries take into account the impact of their operations on regional development and local populations principally through observance of the group's environmental, health and safety policy, which is monitored on a site by site basis. Impact on regional development in terms of employment is monitored and reported by our human resources network.

Foreign subsidiaries environmental objectives With respect to environmental objectives assigned to our foreign subsidiaries, all sites in principle monitor and measure performance on a wide range of such issues. Our Environment, Health and Safety (EHS) function has elaborated a road-map methodology which is used by external auditors to grade each site in terms of its performance. Our environmental management plan requires that each site measure its water, raw material and energy consumption, pollution and waste. We assign target improvements in each of these areas as necessary.

We do not assign at the Group level explicit objectives in respect of biological stability, natural environments or protected species of animals and wildlife, though some of our sites are involved in local initiatives to preserve local wildlife.

While we do not assign objectives in respect of environmental certification, 38 of our Power Sector sites, 8 Transport Sector sites and 20 T&D sites are currently ISO 14001/EMAS certified. Our internal road-map methodology is based on a management system approach, linked to performance.

We carry out environmental assessment on a site by site basis and during fiscal year 2003 such assessment covered 168 of our operating units. This assessment programme aimed to evaluate the current and historical environmental impact of each site's activities and where necessary, will lead to further on-site investigation, and elaboration of a remedial action plan in fiscal year 2004.

In most of the jurisdictions in which we operate our industrial activities are subject to operating permits, licenses or/and authorisations and most must comply with these permits, licences or authorisations and are subject to regular administrative inspections. Through our internal methodology, which is externally audited, we control each site's compliance in this respect, including operating units of our foreign subsidiaries.

We do not currently consolidate our expenditure on environmental impact prevention, but we believe that all our sites have adequate environmental management systems in place. Each site employs an environmental, health and safety manager responsible for allocating resources to the reduction of environmental risk and for reporting on and managing environmentally-damaging accidents, should such accidents arise. These environmental health and safety managers are trained on a regular basis, as are the group's unit managing directors: in fiscal year 2003, 106 unit managing directors underwent a two-day training session, while 80 EHS managers followed a longer, and more in-depth technical programme.

Report of the Board of Directors

Ø REPORT OF THE BOARD OF DIRECTORS ON THE EXTRAORDINARY PART OF THE GENERAL MEETING

Ø Decisions following the loss of the fiscal year 2003

Eleventh and twelfth resolutions

As a result of the loss of (7,474,080,874.35) recorded in the statutory accounts for the fiscal year 2003, the shareholders' equity amounts to less than half of the share capital and it is therefore proposed in the *eleventh resolution*, pursuant to the French *Code de Commerce*, to not decide the anticipated liquidation of the Company.

Following the appropriation of the loss of the fiscal year as set forth in the *third resolution* which results in a negative balance carried forward, it is proposed in the *twelfth resolution* to decide to reduce the share capital from 1,689,963,138 to 352,075,653.75 in order to offset the major part of the balance carried forward, and to implement this reduction in the share capital by reducing the nominal value of each share from 6 to 1.25.

Ø Renewal of financial authorisations

Thirteenth, fourteenth, and fifteenth resolutions

All the extraordinary resolutions to be put before the General Meeting relate to the renewal of some of the financial authorisations given to the Board of Directors by the General Meeting of 24 July 2001 and 3 July 2002 and which have not been used.

It is first proposed in the *thirteenth resolution* to cancel the former authorisations given by the General Meeting of 3 July 2002 in its eighth and ninth resolutions which, if not approved, would remain valid, and to vote a new authorisation to increase the share capital with maintenance of preferential subscription rights for the reason explained below.

As part of the signing by a group of banks in March 2003 of a 600 million bridge loan (the *Bridge Loan*) and of agreements which postponed the maturity date of former credit lines amounting to 475 million (the *Extended Credit Lines*), the Company has undertaken to submit a resolution before the General Meeting in order to authorise the Board of Directors for a period of 26 months, to launch at the appropriate time a capital increase with maintenance of the preferential subscription rights of the shareholders.

Edgar Filing: ALSTOM - Form 6-K

Pursuant to the terms and conditions of the Bridge Loan and Extended Credit Lines agreements, would the General Meeting not grant such authorisation, the banks would have the ability to request the immediate repayment of the 600 million Bridge Loan and of the 475 million of Extended Credit Lines. Therefore, the Board recommends to the shareholders to approve this resolution.

The Board of Directors has recommended to implement to the extent possible and subject to prevailing market conditions before the end of the calendar year 2003, a share capital increase with maintenance of preferential subscription rights and to raise up to 600 million in net proceeds.

Therefore, pursuant to this *thirteenth resolution*, it is proposed to authorise the Board of Directors, for a period of 26 months as from the date of the General Meeting, to issue, in any currency and on any financial market, shares of the Company, and/or securities redeemable, convertible or otherwise exchangeable immediately or in the future into capital shares of the Company, while maintaining the preferential subscription rights of existing shareholders of the Company, including warrants issued independently of other securities with or without consideration, within the limit of an aggregate nominal amount of increase in share capital of 600 million, which will represent approximately 164% of the share capital after the reduction contemplated in the *twelfth resolution* (excluding adjustments linked to subsequent issues of securities) and the nominal amount of debt securities which could be issued pursuant to this resolution could not exceed 1.5 billion or its exchange value in any other currency.

Shareholders Meeting 2003

Table of Contents

Report of the Board of Directors

This proposed authorisation should give the Board of Directors for a new 26 months period, the flexibility necessary to allow it to proceed with the issue of all financial instruments in order to refinance or reduce the Company's debt with the objective to improve the debt maturity profile and/or reduce financial expenses, and to strengthen the shareholders' equity.

Where the Board decides to use the authorisation, the amount to which the Company is or may be entitled for each of the shares issued, will be at least equal to the nominal value of the share of the Company.

If bonds or other debt securities with warrants or otherwise giving right to capital shares of the Company are issued pursuant to this authorisation, their issue price will be fixed in accordance with market practice.

The right to receive shares attached to securities issued pursuant to these resolutions may be exercised on fixed dates or during one or several periods to be determined by the Board of Directors in accordance with any rules applicable to the securities issued, starting at the earliest as from the issue of such securities and expiring, in the event of the redemption, conversion or exchange of debt securities, at the latest three months after their maturity date, and in other cases at the latest seven years after the issuance of the securities unless an earlier limit is required by applicable law.

Pursuant to the provisions of the French *Code de Commerce*, the renewal of the authorisation we propose in the *thirteenth resolution*, also leads us to propose in the *fourteenth resolution* to renew the authorisation granted to the Board of Directors at the General Meeting of 3 July 2002 in the eleventh resolution to proceed with capital increases reserved for employees although this resolution has not been used and is still valid.

We propose in the *fourteenth resolution* to cancel the previous authorisation and to renew it by authorising the Board of Directors, for a period of 26 months, to undertake increases in the share capital of the Company by the issue of shares or any other securities which give access to the share capital of up to a maximum nominal amount of 35,200,000 which will represent approximately 10% of the share capital after reduction (excluding adjustments), reserved for members (who may subscribe to these new shares, in accordance with the laws and regulations currently in force, directly or indirectly through mutual funds) of a Company savings plan belonging to the Company or its subsidiaries. This will result in the express waiver by the existing shareholders of their preferential subscription right for the benefit of the persons to whom the issue is reserved.

The subscription price of the issued shares, in accordance with the laws and regulations currently in force, shall not be lower by more than 20% of the average price of the Company share prices during the last twenty trading days preceding the date on which the issue is decided, or higher than such average price. A free allocation of shares or other securities giving access to the Company's capital may be effected.

Where the Board decides to use these authorisations, in accordance with the provisions of article 155-2 of the French decree of 23 March 1967, the final conditions of the issues as well as their effect shall be the subject of additional reports by the Board of Directors and the statutory auditors.

Edgar Filing: ALSTOM - Form 6-K

The *fifteenth resolution* is intended to renew the authorisation granted by the General Meeting of 24 July 2001 in its twentieth resolution which will expire on next 24 July and to authorise your Board, for a period of twenty-four months, to reduce the share capital by up to 10% of its amount by cancelling all or part of the shares that would be repurchased by the Company under any share repurchase authorisation granted by the General Meeting of the shareholders, and in particular the *tenth resolution* of this Meeting subject to your approval.

Finally, in the *sixteenth resolution*, we ask you to grant all powers allowing the decisions of the General Meeting to be executed and the necessary formalities to be completed.

Notes to the financial statements

Ø Note 1 Basis of preparation

ALSTOM (the Company) is a société anonyme organised under the laws of France and prepares its financial statements using accounting principles generally accepted in France.

The Company, in preparing the Financial Statements, has used the following main assumptions that:

- n the shareholders prior to 31 July 2003 will approve at the shareholders meetings the principles of a capital increase;
- n the financial covenants will be met, renewed or renegotiated as required;
- n maturing debt will be reimbursed or refinanced as required.

Note 7 of these financial statements sets out the Company's financial debt covenants and maturity. The Company's ability to meet the assumptions used in the preparation of its Financial Statements set out above also depends on the success of the ALSTOM Group's (the Group) new action plan.

The Company has taken into account the matters set out above and all other matters including the risks disclosed in the notes to the Consolidated Financial Statements and has confirmed the applicability of the fundamental accounting principles, including going concern, cut-off between accounting periods (Accruals concept) and consistency of accounting principles.

Ø Note 2 Summary of accounting policies

a Summary of accounting policies

The accounts as of 31 March 2003 have been prepared in accordance with the provisions of the French Law dated 30 April 1983, pursuant to French decree dated 29 November 1983 and of the French General Accounting Rules 1999 as described by French CRC regulation 99-03 dated

21 September 1999.

Since 1 April 2002, the Company applies the *Règlement* 00-06 of the *Comité de Réglementation Comptable*. The application as of 1 April 2002 of the *Règlement* has had no impact on equity.

b Investments

Investments are recorded at direct acquisition cost. Any additional costs are recorded as expenses to be amortised over a five-year period.

Investments are valued at the lower of cost or valuation. When the valuation of the investment is lower than the book value, a provision is recorded to cover the difference. The year end valuation is made on the basis of current use value defined as the value of the investment to the Company employing a number of valuation methods, including return on assets, fair value and other methods, as appropriate.

c Borrowings

Borrowings are recorded at the nominal value. Borrowings costs are recorded as expenses to be amortised over the duration of the borrowings.

d Exchange operations

There were no specific foreign exchange operations during fiscal year 2002/03 other than in the ordinary course of business.

e Financial instrument

Financial instruments (swaps) are used to cover interest rate risks on bonds and other long-term debt.

f Tax consolidation

The Company is the leader of the French Tax group, and any tax savings are recorded in its books.

Ø Note 3 Main events

Edgar Filing: ALSTOM - Form 6-K

The shares of ALSTOM Holdings have been fully depreciated during the year (see Note 1 to the Balance Sheet).

NOTES TO THE BALANCE SHEET

Ø Note 1 Financial Assets

ALSTOM Holdings is the only subsidiary of ALSTOM. It owns all operating entities of the Group. Gross financial assets that correspond to the shares of ALSTOM Holdings amount to 6,553.5 million and ALSTOM Holdings advances of 5,868.1 million, including 44.0 million as accrued interest. A 7,573.7 million provision has been recorded, affected to the investment (6,553.5 million) and ALSTOM Holdings advance of 1,020.2 million.

The write-down of ALSTOM Holdings shares and advances made to ALSTOM Holdings follows an impairment test, the necessity of which was triggered by the conjunction of a number of factors including the following:

- n significant continuous reduction of ALSTOM s share price during fiscal year 2002/03,
- n exceptional losses during the year of 1.38 billion suffered by subsidiaries in connection with additional provisions, including the GT24/GT26 Gas Turbines issues.

A valuation was performed combining internal and external valuation studies of the Group. The methodology aimed at measuring the enterprise value through consolidated discounted cash flows from which consolidated financial debt, pension provisions, unrecognised actuarial net losses and consolidated financial debt of special purpose vehicles in which the Company has some interest have been deducted.

Discounted cash flows were derived from the ALSTOM Three Year Plan to obtain a ten-year projection to which an estimated terminal value has been added.

Such valuation of the ALSTOM Group approximates the value in use of ALSTOM Holdings, the company s only subsidiary which owns all operating subsidiaries of the Group and reflects a permanent diminution in value.

Table of Contents**Statutory accounts****Ø Note 5 Shareholders equity**

The share capital was increased during the fiscal year 2002/03. Pursuant to the authorisations given by the General Meeting of 24 July 2001 and the Board of Directors at its meeting of 6 May 2002, the Chairman of the Board of Directors decided on 27 May 2002 to increase the share capital from 1,292,324,754 to 1,689,963,138 by the issue of 66,273,064 new shares of 6 nominal value each with maintenance of the preferential subscription rights of the shareholders in the ratio of 4 new shares for each 13 existing shares held, at the subscription price of 9.60 per share.

	<u>Number</u>	<u>Per value</u>
Existing shares at beginning of year	215,387,459	6
Shares issued	66,273,064	6
Existing shares at year end	281,660,523	6

The difference between the subscription price of 9.60 and the nominal value of 6.00 minus relevant costs is 216.9 million and is included in the capital surplus.

No dividend has been distributed for this fiscal year.

Ø Note 6 Undated subordinated notes

ALSTOM, the parent company, issued on 29 September 2000 250 million Auction Rate Coupon Undated Subordinated Notes. These notes may be redeemed at the option of the issuer except in certain exceptional circumstances, including any failure to pay interest when due, when they may be redeemed at the option of their holders. They rank pari passu with holders of other subordinated indebtedness. Interest will be payable semi-annually, at variable rates based on EURIBOR. The payment of the interest accrued may be suspended if both of the following conditions are satisfied:

- n the annual non-consolidated accounts of ALSTOM show an absence of income available for distribution;
- n the annual consolidated accounts of the Company show that the consolidated net income is less than or equal to zero.

As part of the negotiation with the banks which took place in March 2003, the Undated Subordinated Notes that had been privately placed with a group of banks, have been amended and are now redeemable on 29 September 2006. They have however kept their subordinated nature.

Therefore this instrument has been re-classified as long-term debt and is included in borrowings (see Note 7 below).

Statutory accounts

At 31 March 2003, in addition to drawn down amounts of syndicated loans, ALSTOM has unused confirmed credit lines of 600 million (bridge facility maturing 15 December 2003).

In March 2003 an agreement was signed with a consortium of banks the lenders to extend until 21 January 2004 the maturity of a syndicated loan of 400 million and two bilateral loans totalling 75 million that were originally to mature in March and April 2003.

Both extended and bridge facilities are subject to compliance with new financial covenants, which have also replaced existing covenants in the two other existing syndicated loans (totalling commitments of 1,250.0 million and 976.3 million respectively). They are unsecured and rank pari passu with the other syndicated loans.

While the bridge facility and the extended facilities documentation were signed on 25 March 2003, they were further conditioned by the formalisation of amendments in particular with respect to financial ratios in some other financing arrangements of the Group. Those amendments were finalised and documented in the early part of April 2003.

The bridge facility and the extended facilities are repayable and cancellable upon receipt of proceeds from disposals subject to certain thresholds, with the bridge facility repayable prior to the extended facilities.

The newly extended credit facilities of 475 million and the 600 million new bridge facility are immediately repayable if the Group fails to meet its financial covenants set out below in the coming financial year:

- n Consolidated total debt defined as the sum of the gross financial debt and the net amount of sale of trade receivables shall be tested on the last day of each month until maturity and shall not exceed at respectively 31 March 2003 and 30 September 2003 amounts of 7,000 million(1) and 6,800 million. At 31 March 2003, the consolidated total debt amounted to 6,688 million.

- n Consolidated economic debt defined as the sum of the net financial debt and the net amount of sale of trade receivables shall be tested on the last day of each month until maturity and shall not exceed at respectively 31 March 2003 and 30 September 2003 amounts of 5,300 million and 5,500 million. At 31 March 2003, the consolidated economic debt amounted to 4,918 million.

- n Consolidated net worth defined as the sum of shareholders equity and minority interests shall not be lower at respectively 31 March 2003 and 30 September 2003 than 800 million and 500 million. At 31 March 2003, the consolidated net worth amounted to 900 million.

Financial covenants mentioned above also apply to the 1,250.0 million and 976.3 million syndicated revolving credit facilities. Similar ratios are applicable until maturity of the credit facilities. At 31 March 2004, consolidated total debt shall not exceed 4,800 million, consolidated economic debt shall not exceed 3,600 million and consolidated net worth shall not be lower than 500 million. Interest cover, the ratio between EBITDA(2) and consolidated net financial expenses(3), shall not be lower than 1.8 at 31 March 2004. Differing ratios apply in the periods up to the last

maturity in 2006.

In addition to these financial covenants, under the 475 million newly extended credit lines and the 600 million new bridge facility, the Group's lenders may request the early repayment of all or part of these lines if at the Shareholders' Meeting to be held at the latest on 2 July 2003 the shareholders do not approve resolutions authorising the Board of Directors to increase the share capital.

Subsequent to the year-end, subsidiaries of the Company signed binding assets disposal agreements which are expected to receive 1.1 billion of which 0.7 million has been received.

-
- (1) *Additional flexibility of 500 million is granted at the two month-ends following this date.*
 - (2) *EBITDA is defined as Earnings Before Interest and Tax plus depreciation and amortisation as set out in Consolidated Statements of Cash flow less goodwill amortisation and less capital gain on disposal of investments (see Consolidated Accounts Note 4).*
 - (3) *Consolidated net financial expenses are defined as net interest income plus securitisation expenses (see Consolidated Accounts Note 5).*

The capital increases that may be realised immediately or in the future, in connection with the issuance of shares, may not exceed a maximum nominal aggregate amount of 600 million and the maximum nominal amount of the securities representatives of debt which may be issued may not exceed 1.5 billion or the exchange value of this amount.

The Board of Directors has requested the shareholders grant it powers to approve the terms of such operations for a period of 26 months.

We have examined the proposed issue of capital shares and securities by conducting the procedures deemed necessary by us in accordance with generally accepted standards in France.

Subject to the subsequent examination of the terms of the proposed issue, we have no observation to make as to:

the terms governing the calculation of the share price,
