Form 10-Q
July 23, 2013

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 30, 2013

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 1-5571

RADIOSHACK CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or
organization)

75-1047710
(I.R.S. Employer Identification No.)

Mail Stop CF3-201, 300 RadioShack Circle, Fort Worth,
Texas

76102

(Address of principal executive offices)

(Zip Code)

(Registrant's telephone number, including area code) (817) 415-3011

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was

Edgar Filing: RADIOSHACK CORP - Form 10-Q

required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes X No ___

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes X No ___

Indicate by check mark if the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer [] Accelerated filer [X] Non-accelerated filer [] Smaller reporting company []

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ___ No X

The number of shares outstanding of the issuer's Common Stock, \$1 par value, on July 15, 2013, was 99,703,041.

The accompanying notes are an integral part of these condensed consolidated financial statements.

RADIOSHACK CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 – BASIS OF PRESENTATION

Throughout this report, the terms “our,” “we,” “us,” “Company,” and “RadioShack” refer to RadioShack Corporation, including its subsidiaries. We prepared the accompanying unaudited condensed consolidated financial statements, which include the accounts of RadioShack Corporation and all majority-owned domestic and foreign subsidiaries, in accordance with the rules of the Securities and Exchange Commission (“SEC”). Accordingly, we did not include all of the information and footnotes required by generally accepted accounting principles (“GAAP”) for complete financial statements. In management’s opinion, all adjustments of a normal recurring nature considered necessary for a fair statement are included. However, our operating results for the three and six month periods ended June 30, 2013 and 2012, do not necessarily indicate the results you might expect for the full year. For further information, refer to our consolidated financial statements and management’s discussion and analysis of financial condition and results of operations included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Reclassifications: Certain amounts in the June 30, 2012, financial statements have been reclassified to conform to the June 30, 2013, and December 31, 2012, presentations. These reclassifications had no effect on net income, total assets, total liabilities, or total stockholders’ equity as previously reported. The most significant reclassification was a change to our presentation of certain deferred rent in the amount of \$25.8 million from a current liability to a non-current liability in our June 30, 2012, Consolidated Balance Sheet to be more consistent with retail industry practice.

NOTE 2 – NEW ACCOUNTING STANDARDS

New Accounting Standards: In February 2013, the Financial Accounting Standards Board (“FASB”) issued new accounting guidance to update the presentation of reclassifications from comprehensive income to net income in consolidated financial statements. Under this new guidance, an entity is required to provide information about the amounts reclassified out of accumulated other comprehensive income either by the respective line items of net income or by cross-reference to other required disclosures. The new guidance does not change the requirements for reporting net income or other comprehensive income in financial statements. This guidance is effective for fiscal years beginning after December 15, 2012. We adopted this guidance effective January 1, 2013, and it did not have any effect on our consolidated financial statements.

NOTE 3 – DISCONTINUED OPERATIONS

We account for closed retail locations as discontinued operations when the cash flows of a retail location have been eliminated from our ongoing operations, and we do not have any significant continuing involvement in its operations. In reaching the determination as to whether the cash flows of a retail location have been eliminated from our ongoing operations, we consider whether it is likely that customers will migrate to our other retail locations in the same geographic market.

We ceased operating all of our Target Mobile centers prior to March 31, 2013. We concluded that the cash flows from these centers were eliminated from our ongoing operations. Therefore, the results of these operations, net of income taxes, have been presented as discontinued operations in the Condensed Consolidated Statements of Comprehensive Income for all periods presented.

Upon ceasing these operations, we transitioned substantially all of our Target Mobile center employees to a third-party service provider that will continue to operate these locations on Target Corporation’s behalf. Net sales and operating revenues related to these discontinued operations were \$2.4 million for the second quarter of 2013 and \$72.2 million

for the first six months of 2013, compared with \$104.7 million and \$199.6 million, respectively, for the same periods last year. The income (loss) before income taxes for these discontinued operations was income of \$0.4 million for the second quarter of 2013 and a loss of \$7.9 million for the first six months of 2013, compared with losses of \$7.1 million and \$12.4 million, respectively, for the same periods last year.

The amounts reported in discontinued operations for the second quarter of 2013 related to adjustments of estimates to actual results for items such as sales returns, wireless deactivations, and advertising expenses.

NOTE 4 – INDEBTEDNESS

2013 Convertible Notes: In the first six months of 2013, we repurchased \$72.5 million of aggregate principal amount of 2.50% convertible senior notes due August 1, 2013 (the “2013 Convertible Notes”). We paid a total of \$71.6 million, which consisted of the purchase price of \$71.4 million for the 2013 Convertible Notes plus \$0.2 million in accrued and unpaid interest, to the holders of the notes. This transaction resulted in a loss of \$0.3 million, which was classified as other loss on our Condensed Consolidated Statements of Comprehensive Income. At June 30, 2013, there was \$214.4 million aggregate principal amount of 2013 Convertible Notes still outstanding.

NOTE 5 – NET LOSS PER SHARE

Basic net loss per share is computed based on the weighted average number of common shares outstanding for each period presented. Diluted net loss per share reflects the potential dilution that would have occurred if securities or other contracts to issue common stock were exercised, converted, or resulted in the issuance of common stock that would have then shared in our earnings.

The following table reconciles the numerator and denominator used in the basic and diluted net loss per share calculations for the periods presented:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Numerator:				
Loss from continuing operations	\$ (53.4)	\$ (16.2)	\$ (88.2)	\$ (20.9)
Discontinued operations, net of taxes	0.3	(4.8)	(8.2)	(8.1)
Net loss	\$ (53.1)	\$ (21.0)	\$ (96.4)	\$ (29.0)
Denominator:				
Weighted-average common shares outstanding	100.7	100.1	100.7	100.0
Dilutive effect of stock-based awards	--	--	--	--
Weighted-average shares for diluted net loss per share	100.7	100.1	100.7	100.0

The following table includes common stock equivalents that were not included in the calculation of diluted net loss per share for the periods presented. These securities could be dilutive in future periods.

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Employee stock options (1) (2)	10.0	7.4	10.0	7.4
Warrants to purchase common stock (3)	15.8	15.8	15.8	15.8
Convertible debt instruments (4)	9.0	15.8	9.0	15.8

(1) Certain employee stock options were excluded from weighted-average shares for diluted net loss per share because the exercise prices exceeded the average market price of our common stock during the period, and the effect of their inclusion would be antidilutive. For the second quarter of 2013 and the first six months of 2013, 6.7 million employee stock options were excluded from both periods for this reason, compared with 7.4 million in the same periods last year.

(2) Certain employee stock options were excluded from weighted-average shares for diluted net loss per share because the effect of their inclusion would reduce our net loss per share and would be antidilutive. For the second quarter of 2013 and the first six months of 2013, 3.3 million employee stock options were excluded from both

periods for this reason.

- (3) These common stock equivalents were excluded because the exercise prices (\$35.88 per share for all periods) exceeded the average market price of our common stock during these periods, and the effect of their inclusion would be antidilutive.
- (4) These common stock equivalents were excluded because the exercise prices (\$23.77 per share for all periods) exceeded the average market price of our common stock during these periods, and the effect of their inclusion would be antidilutive.

NOTE 6 – FAIR VALUE MEASUREMENTS

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

(In millions)	Fair Value of Assets (Liabilities)	Basis of Fair Value Measurements		
		Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Three Months Ended June 30, 2013				
Long-lived assets held and used	\$ 1.1	--	--	\$ 1.1

The FASB's accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions

U.S. RadioShack Company-Operated Stores: For the three months ended June 30, 2013, long-lived assets held and used in certain locations of our U.S. RadioShack company-operated stores segment with a total carrying value of \$3.9 million were written down to their fair value of \$1.1 million, resulting in an impairment charge of \$2.8 million that was included in our operating results for the period.

The inputs used to calculate the fair value of these long-lived assets included the projected cash flows and a risk-adjusted rate of return that we estimated would be used by a market participant in valuing these assets. The projected cash flows for a particular store are based on average historical cash flows for that store and are projected through the remainder of its lease. The risk-adjusted rates of return used to discount these cash flows range from 15% to 20%.

Fair Value of Financial Instruments: Financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities, and long-term debt. With the exception of long-term debt, the financial statement carrying amounts of these items approximate their fair values due to their short-term nature. Estimated fair values for our 2013 Convertible Notes and our 6.75% unsecured notes due in 2019 ("2019 Notes") were determined using recent trading activity and/or bid-ask spreads and are classified as Level 2 in the FASB's fair value hierarchy. Estimated fair values of our secured term loans approximate their carrying values and are classified as Level 3.

Carrying amounts and the related estimated fair values of our long-term debt financial instruments are as follows:

(In millions)	Carrying Amount	Fair Value of Liabilities	Basis of Fair Value Measurements		
			Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of June 30, 2013					
2013 Convertible Notes	\$ 213.5	\$ 211.7	--	\$ 211.7	--
2019 Notes	\$ 323.2	\$ 229.9	--	\$ 229.9	--
Secured term loans	\$ 175.0	\$ 175.0	--	--	\$ 175.0
Other	\$ 1.0	\$ 1.0	--	--	\$ 1.0
As of December 31, 2012					
2013 Convertible Notes	\$ 278.7	\$ 265.9	--	\$ 265.9	--
2019 Notes	\$ 323.0	\$ 198.3	--	\$ 198.3	--

Secured term loans	\$ 175.0	\$ 175.0	--	--	\$ 175.0
Other	\$ 1.0	\$ 1.0	--	--	\$ 1.0

NOTE 7 – INCOME TAXES

We continue to provide a valuation allowance against all of our U.S. federal and state deferred tax assets. As a result, we did not record any U.S. federal or state income tax benefit related to our operating losses for the first six months of 2013. We continue to recognize income tax expense related to our foreign operations and interest accrued on our liabilities for uncertain tax positions. In addition, we continue to recognize income tax expense in certain state jurisdictions.

The effective rate for the second quarter and for the first six months of 2013 was affected by the recognition of previously unrecognized tax benefits of \$2.5 million due to the settlement of state income tax matters during the periods.

NOTE 8 – COMMITMENTS AND CONTINGENCIES

Loss Contingencies: FASB Accounting Standards Codification Topic 450 - Contingencies (“ASC 450”) governs our disclosure and recognition of loss contingencies, including pending claims, lawsuits, disputes with third parties, investigations and other actions that are incidental to the operation of our business. ASC 450 uses the following defined terms to describe the likelihood of a future loss: probable – the future event or events are likely to occur, remote – the chance of the future event or events is slight, and reasonably possible – the chance of the future event or events occurring is more than remote but less than likely. ASC 450 also contains certain requirements with respect to how we accrue for and disclose information concerning our loss contingencies. We accrue for a loss contingency when we conclude that the likelihood of a loss is probable and the amount of the loss can be reasonably estimated. When the reasonable estimate of the loss is within a range of amounts, and no amount in the range constitutes a better estimate than any other amount, we accrue for the amount at the low end of the range. We adjust our accruals from time to time as we receive additional information, but the loss we incur may be significantly greater than or less than the amount we have accrued. We disclose loss contingencies if there is at least a reasonable possibility that a loss has been incurred. No accrual or disclosure is required for losses that are remote.

Brookler v. RadioShack Corporation: On April 6, 2004, plaintiffs filed a putative class action in Los Angeles Superior Court, *Brookler v. RadioShack Corporation*, claiming that we violated California's wage and hour laws relating

to meal and rest periods. The meal period portion of the case was originally certified as a class action in February 2006. Our first Motion for Decertification of the class was denied in August 2007. After a favorable decision at the California Court of Appeals in a similar case, *Brinker Restaurant Corporation v. Superior Court*, we filed a second motion for decertification and in October 2008 the trial court granted our motion. The plaintiffs in *Brookler* appealed this ruling. Due to the unsettled nature of California law regarding the obligations of employers with respect to meal periods, we and the *Brookler* plaintiffs requested that the California Court of Appeals stay its ruling on the plaintiffs' appeal of the class decertification ruling pending the California Supreme Court's decision in *Brinker*. The appellate court denied this joint motion and then heard oral arguments in the case on August 5, 2010. On August 26, 2010, the California Court of Appeals reversed the trial court's decertification of the class, and our Petition for Rehearing was denied on September 14, 2010. On September 28, 2010, we filed a Petition for Review with the California Supreme Court, which granted review and placed the case on hold pending its decision in *Brinker*. On April 12, 2012, the California Supreme Court issued its decision in *Brinker*. On June 20, 2012, the California Supreme Court remanded the *Brookler* case to the California Court of Appeals instructing it to vacate its prior order and reconsider its ruling in light of the Supreme Court's ruling in *Brinker*. Both parties filed supplemental briefs and oral argument was held on November 1, 2012. On December 5, 2012, the Court of Appeals affirmed the trial court's decertification of the meal period class. Plaintiff filed a motion to amend his Complaint to assert rest and meal period as well as off the clock and PAGA claims and to add an additional class representative on June 14, 2013. On July 18, 2013, the Court granted the motion to amend and plaintiff filed his Second Amended Complaint. The outcome of this case is uncertain and the ultimate resolution of it could have a material adverse effect on our consolidated financial statements in the period in which the resolution is recorded.

Ordonez v. RadioShack Corporation: In May 2010, Daniel Ordonez, on behalf of himself and all other similarly situated current and former employees, filed a Complaint against the Company in the Los Angeles Superior Court. In July 2010, Ordonez filed an Amended Complaint alleging, among other things, that we failed to provide required meal periods and rest breaks, pay for all time worked, pay overtime compensation, pay minimum wages, and maintain required records. In September 2010 we removed the case to the United States District Court for the Central District of California. The proposed putative class in *Ordonez* consists of all current and former non-exempt employees who held the position of sales associate or stock person for a period within the four (4) years preceding the filing of the Complaint. The meal period claims raised in *Ordonez* are similar to the claims raised in *Brookler* as discussed above. Pursuant to a motion filed by the *Ordonez* parties, the court granted a Stipulation and Order to Stay Proceedings pending the decision of the California Supreme Court in the *Brinker* case. On April 12, 2012, the California Supreme Court issued its decision in *Brinker*. On July 27, 2012, *Ordonez* filed a Motion for Class Certification. A hearing on the Motion was held on November 19, 2012. On January 17, 2013, the court denied, without prejudice, *Ordonez*'s Motion for Class Certification as to all claims. On February 4, 2013, *Ordonez* filed a Motion for Reconsideration of the court's denial of class certification with regard to the rest period claim. The court ordered that *Ordonez* could take one additional deposition and file a renewed Motion for Class Certification. The deposition was conducted on May 23, 2013 and the deadline for filing the motion is July 26, 2013. The outcome of this case is uncertain and the ultimate resolution of it could have a material adverse effect on our consolidated financial statements in the period in which the resolution is recorded.

Song-Beverly Credit Card Act Litigation: In November 2010 RadioShack received service of process with respect to the first of four putative class action lawsuits filed in California (*Sosinov v. RadioShack*, Los Angeles Superior Court; *Bitter v. RadioShack*, Federal District Court, Central District of California; *Moreno v. RadioShack*, Federal District Court, Southern District of California; and *Grant v. RadioShack*, San Francisco Superior Court). The plaintiffs in all of these cases seek damages under California's Song-Beverly Credit Card Act (the "Act"). Plaintiffs claim that under one section of the Act, retailers are prohibited from recording certain personal identification information regarding their

customers while processing credit card transactions unless certain statutory exceptions are applicable. The Act provides that any person who violates this section is subject to a civil penalty not to exceed \$250 for the first violation and \$1,000 for each subsequent violation. In each of the cases, plaintiffs allege that we violated the Act by asking them for personal identification information while processing a credit card transaction and then recording it. In May 2011 the Bitter case was stayed by the court pending the conclusion of the Sosinov case. In June 2012, the Moreno case was settled for a nominal amount and dismissed. In July 2012, we reached a settlement of the Sosinov case. In November 2012, the court granted preliminary approval of the settlement. Notices were sent to the class members. On March 27, 2013, the court granted final approval of the settlement. The class of plaintiffs in the Sosinov case includes the plaintiffs in the Grant and Bitter cases. Therefore resolving the Sosinov case should resolve the Grant and Bitter claims, although the Bitter and Grant cases have not yet been dismissed. We expect these cases to be dismissed within the next few months. The settlement will not have a material adverse effect on our consolidated financial statements.

FACTA Litigation: On September 26, 2011, Scott D.H. Redman filed a putative class action lawsuit against the Company in the United States District Court for the Northern District of Illinois. Mr. Redman claims that we violated certain provisions of the Fair and Accurate Credit Transactions Act of 2003 (“FACTA”), which amended the Fair Credit Reporting Act, by displaying the expiration dates of our customers’ credit or debit cards on electronically printed transaction receipts. Mr. Redman filed a motion seeking to certify a class that includes all persons to whom the Company provided an electronically printed transaction receipt, in transactions occurring after June 3, 2008, that displayed the expiration date of the person’s credit or debit card. On November 3, 2011, Mario Aliano and Vitoria Radavicuite filed a similar putative class action lawsuit against the Company, also in the United States District Court for the Northern District of Illinois, alleging similar violations of FACTA. Mr. Aliano and Ms. Radavicuite initially filed a motion seeking to certify a class that includes all persons to whom the Company provided an electronically printed transaction receipt, in transactions occurring in Illinois after June 3, 2008, that displayed the expiration date of the person's credit or debit card. On December 28, 2011, Mr. Aliano and Ms. Radavicuite filed an amended complaint and an amended motion seeking to certify a class that was not limited to transactions occurring in Illinois. On January 11, 2012, the Aliano lawsuit was reassigned to the judge presiding over the Redman lawsuit on the basis of relatedness, and the two cases were consolidated for all purposes. On January 25, 2012, the presiding judge referred the matter to the magistrate judge assigned to the consolidated cases for mediation, extending the time by which the Company must respond to the pending complaints to such time as the magistrate judge shall order, and holding the motions for class certification in abeyance. In November 2012 the parties reached a tentative settlement. On May 16, 2013, the parties executed a settlement agreement. On May 29, 2013, the court granted preliminary approval of the settlement. Notices of the settlement have been mailed to known class members and published in several national publications. A hearing on final approval of the settlement is set for September 17, 2013. The outcome of these cases is still uncertain and the ultimate resolution of them could have a material adverse effect on our consolidated financial statements in the period in which the resolution is recorded.

Additional Disclosure: For certain loss contingencies, we are currently able to estimate the reasonably possible loss or range of loss, including reasonably possible loss amounts in excess of our accruals, and we estimate that the aggregate of these amounts could be up to \$16.6 million. This amount reflects recent developments in case law that pertain to certain claims currently pending against the Company. Probable and reasonably possible losses that we are currently unable to estimate are not included in this amount. In future periods, we may recognize a loss for all, part, or none of this amount.

We are currently unable to estimate the reasonably possible loss or range of loss in respect of certain loss contingencies. Some cases remain in an early stage, with few or no substantive legal decisions by the court defining the scope of the claims, the class (if any), or the potential damages. In addition, in some cases we are not able to estimate the amount of the loss, due to a significant unresolved question of law that is expected to have a significant impact on the probability or amount of loss when resolved. As these matters develop and we receive additional information, we may be able to estimate reasonably possible losses or range of loss for these matters.

Our evaluation of our loss contingencies involves subjective assessments, assumptions, and judgments, and actual losses incurred in future periods may differ significantly from our estimates. Accordingly, although occasional adverse resolutions may occur and negatively affect our consolidated financial statements in the period of the resolution, we believe that the ultimate resolution of our loss contingencies for which we have not accrued losses will not materially adversely affect our financial condition.

NOTE 9 – SEGMENT REPORTING

The U.S. RadioShack company-operated stores segment consists solely of our 4,311 U.S. company-operated retail stores, all operating under the RadioShack brand name. We evaluate the performance of our segments based on operating income, which is defined as sales less cost of products sold and certain direct operating expenses, including

labor, rent, and occupancy costs. Asset balances by segment have not been included in the table below, as these are managed on a company-wide level and are not fully allocated to segments for management reporting purposes. Amounts in the other category reflect our business activities that are not separately reportable, which include sales to our independent dealers, sales generated by our Mexican subsidiary and our www.radioshack.com website, sales to commercial customers, and sales to other third parties through our global sourcing operations.

Revenue by reportable segment is as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
U.S. RadioShack company-operated stores	\$ 768.7	\$ 772.4	\$ 1,538.8	\$ 1,606.0
Other	75.8	76.2	154.7	155.9
	\$ 844.5	\$ 848.6	\$ 1,693.5	\$ 1,761.9

Operating income (loss) by reportable segment and the reconciliation to loss from continuing operations before income taxes are as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
U.S. RadioShack company-operated stores	\$ 39.4	\$ 72.0	\$ 100.6	\$ 163.3
Other	3.3	6.0	11.6	14.4
	42.7	78.0	112.2	177.7
Unallocated (1)	(84.1)	(92.1)	(172.1)	(184.7)
Operating loss	(41.4)	(14.1)	(59.9)	(7.0)
Interest income	0.3	0.3	0.7	0.8
Interest expense	(14.1)	(12.9)	(29.1)	(26.0)
Other loss	--	--	(0.3)	--
Loss from continuing operations before income taxes	\$ (55.2)	\$ (26.7)	\$ (88.6)	\$ (32.2)

- (1) The unallocated category included in operating income relates to our overhead and corporate expenses that are not allocated to our operating segments for management reporting purposes. Unallocated costs include corporate departmental expenses such as labor and benefits, advertising, insurance, distribution, and information technology costs, plus certain unusual or infrequent gains or losses.

NOTE 10 – SUPPLEMENTAL GUARANTOR FINANCIAL INFORMATION

The obligation to pay principal and interest on our 2019 Notes is jointly and severally guaranteed on a full and unconditional basis, subject to customary release provisions, by all of the guarantors under our amended and restated \$450 million revolving credit agreement that expires on January 4, 2016 (the “2016 Credit Facility”). The 2019 Notes are guaranteed by all of our wholly-owned domestic subsidiaries except Tandy Life Insurance Company. Refer to Note 5 – “Indebtedness and Borrowing Facilities” of our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2012, for additional information on the 2019 Notes and the 2016 Credit Facility.

The following condensed consolidating financial information represents the financial information of RadioShack Corporation, its guarantor subsidiaries, and its non-guarantor subsidiaries prepared on the equity basis of accounting. Earnings of subsidiaries are, therefore, reflected in the parent company's investment accounts and earnings. The elimination entries primarily eliminate investments in subsidiaries and intercompany balances and transactions. The non-guarantor subsidiaries are comprised of the foreign subsidiaries of the Company and Tandy Life Insurance Company. The financial information may not necessarily be indicative of results of operations, cash flows or financial position had the guarantor or non-guarantor subsidiaries operated as independent entities.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS ("MD&A").

This MD&A section of our Quarterly Report on Form 10-Q discusses our results of operations, liquidity and capital resources, and certain factors that may affect our future results of operations. You should read this MD&A in conjunction with our condensed consolidated financial statements and accompanying notes included under Part I, Item 1, of this Quarterly Report, as well as with our Annual Report on Form 10-K for the year ended December 31, 2012.

RESULTS OF OPERATIONS

We ceased operating all of our Target Mobile centers prior to March 31, 2013. Therefore, unless specifically noted, the following discussion excludes the operating results of the Target Mobile centers, which have been presented as discontinued operations.

Second Quarter Summary

Net sales and operating revenues decreased \$4.1 million, or 0.5%, for the second quarter when compared with the same period last year. Our decrease in net sales and operating revenues was primarily driven by the fact that we operated fewer stores in the first half of 2013, when compared with the first half of 2012. This lost revenue was substantially offset by a comparable store sales increase of 1.3%.

Consolidated gross profit decreased \$26.4 million, or 7.8%, for the second quarter, when compared with the same period last year. The decrease in gross profit dollars was primarily driven by a 2.9 percentage point decrease in our gross margin rate. This decrease was driven by more sales promotions such as aggressive discounts, clearance events, and customer coupons in the second quarter, when compared with the same period last year. We have undertaken an initiative to remove certain older products from our inventory assortment that resulted in us lowering inventory valuations for some of these products during the second quarter.

Consolidated SG&A expense was essentially flat for the second quarter, when compared with the same period last year. This resulted in SG&A expense as a percentage of net sales and operating revenues of 39.9%, which was a 0.2 percentage point increase from the second quarter of 2012.

Our loss from continuing operations was \$53.4 million (\$0.53 per share) for the second quarter, compared with \$16.2 million (\$0.16 per share) for the same period last year.

Adjusted EBITDA from continuing operations was negative \$23.7 million, compared with positive \$4.3 million for the same period last year.

(In millions)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Reconciliation of adjusted EBITDA from continuing operations to loss from continuing operations				
Adjusted EBITDA from continuing operations (1)	\$ (23.7)	\$ 4.3	\$ (23.4)	\$ 30.6
Interest expense, net of interest income	(13.8)	(12.6)	(28.4)	(25.2)

Edgar Filing: RADIOSHACK CORP - Form 10-Q

Income tax benefit	1.8	10.5	0.4	11.3
Depreciation and amortization	(17.7)	(18.4)	(36.5)	(37.6)
Other loss	--	--	(0.3)	--
Loss from continuing operations	\$ (53.4)	\$ (16.2)	\$ (88.2)	\$ (20.9)

(1) Adjusted EBITDA from continuing operations (“Adjusted EBITDA”), a non-GAAP financial measure, is defined as earnings from continuing operations before interest, taxes, depreciation, and amortization. Our calculation of Adjusted EBITDA is also adjusted for other income or loss and cumulative effects of changes in accounting principles, if applicable. The comparable financial measure to Adjusted EBITDA under GAAP is income (loss) from continuing operations. Adjusted EBITDA is used by management to evaluate the operating performance of our business for comparable periods. Adjusted EBITDA should not be used by investors or others as the sole basis for formulating investment decisions, as it excludes a number of important items. We compensate for this limitation by using GAAP financial measures as well in managing our business. In the view of management, Adjusted EBITDA is an important indicator of operating performance because Adjusted EBITDA excludes the effects of financing and investing activities by eliminating the effects of interest, depreciation costs, and other losses.

RadioShack Retail Outlets

The table below shows our retail locations allocated among U.S. and Mexico company-operated stores and dealer and other outlets at the following dates:

	June 30, 2013	March 31, 2013	Dec. 31, 2012	Sep. 30, 2012	June 30, 2012
U.S. RadioShack company-operated stores (1)	4,311	4,331	4,395	4,412	4,423
Mexico RadioShack company-operated stores	273	270	269	237	227
Dealers and other outlets	982	997	1,014	1,044	1,085
	5,566	5,598	5,678	5,693	5,735
Discontinued locations (2)	--	--	1,522	1,512	1,503
Total number of retail locations	5,566	5,598	7,200	7,205	7,238

(1) We closed 92 stores after we decided not to renew their leases in the first six months of 2013.

(2) In the third quarter of 2010, we signed a multi-year agreement with Target Corporation to operate Target Mobile centers in certain Target stores. In October 2012, we exercised our contractual right to notify Target Corporation of our intention to stop operating the Target Mobile centers if we could not amend the current arrangement. An acceptable arrangement was not negotiated; therefore, we exited this business in the first quarter of 2013.

Net Sales and Operating Revenues

Consolidated net sales and operating revenues are as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
U.S. RadioShack company-operated stores	\$ 768.7	\$ 772.4	\$ 1,538.8	\$ 1,606.0
Other	75.8	76.2	154.7	155.9
Consolidated net sales and operating revenues	\$ 844.5	\$ 848.6	\$ 1,693.5	\$ 1,761.9
Consolidated net sales and operating revenues decrease	(0.5%)	(3.4%)	(3.9%)	(5.1%)
Comparable store sales (1) increase (decrease)	1.3%	(2.6%)	(2.4%)	(4.5%)

(1) Comparable store sales include the sales of U.S. and Mexico RadioShack company-operated stores with more than 12 full months of recorded sales. Sales from discontinued operations have been excluded from these calculations.

U.S. RadioShack Company-Operated Stores Segment

U.S. RadioShack company-operated store sales for the second quarter decreased \$3.7 million, or 0.5%, and decreased \$67.2 million, or 4.2%, for the first six months of 2013 when compared with the same periods last year. The decrease in sales for the first six months of 2013 was primarily driven by decreased sales in our consumer electronics and

mobility platforms. Additionally, we operated 112 fewer stores at June 30, 2013, than we did at June 30, 2012, which contributed to a decrease in consolidated sales and affected the sales results for each platform discussed below.

Mobility Platform: Sales in our mobility platform decreased 0.9% for the second quarter, when compared with the same period last year. We reported increased sales in our prepaid wireless business, which was more than offset by decreased sales of postpaid wireless handsets, tablets and e-readers. Comparable store sales in this platform increased 1.7% for the second quarter.

Sales in our mobility platform decreased 4.5% for the first six months of 2013, when compared with the same period last year. The decrease for the first six months of 2013 was driven by decreased sales of postpaid wireless handsets, tablets and e-readers, which was partially offset by increased sales of prepaid wireless handsets. Comparable store sales in this platform decreased 1.9% for the first six months of 2013.

The sales increases in our prepaid wireless business for both periods were driven by an increase in the number of prepaid units sold and an increase in the average revenue per unit sold. The increase in the number of prepaid units sold was driven by customer demand and our expanded assortment and inventory of these devices. The increase in the average revenue per prepaid unit sold for both periods was primarily driven by a change in our sales mix towards higher-priced smartphones.

The sales decreases in our postpaid wireless business for both periods were driven by a decrease in the number of postpaid units sold, which was partially offset by an increase in the average revenue per unit sold. The decrease in the number of postpaid units sold was driven by soft customer demand for these devices, our efforts to match customers with the postpaid or prepaid handset that best meets their needs, and the fact that we had fewer sales promotions for postpaid wireless handsets in the first half of 2013 than in the first half of 2012. The increase in the average revenue per postpaid unit was primarily driven by a change in our sales mix towards higher-priced smartphones.

Signature Platform: Sales in our signature platform increased 4.6% for the second quarter and increased 2.6% for the first six months of 2013, compared with the same periods last year. These sales increases were driven by increased sales of wireless accessories, portable speakers, and sales of Apple Lightning compatible cables and adaptors. These increases were partially offset by decreased sales of warranties. Comparable store sales in this platform increased 6.4% for the second quarter and increased 3.9% for the first six months of 2013.

Consumer Electronics Platform: Sales in our consumer electronics platform decreased 11.3% for the second quarter and decreased 19.0% for the first six months of 2013, compared with the same periods last year. These sales decreases were primarily driven by sales declines in laptop computers, digital music players, GPS devices, cameras, and internet telephone devices. Comparable store sales in this platform decreased 9.8% for the second quarter and decreased 17.8% for the first six months of 2013.

Other Sales

Amounts in other sales reflect our business activities that are not separately reportable, including sales to our independent dealers, sales generated by our Mexican subsidiary and our www.radioshack.com website, sales to commercial customers, and sales to other third parties through our global sourcing operations. Other sales decreased slightly for the second quarter and for the first six months of 2013, when compared with the same periods last year.

Gross Profit

Consolidated gross profit and gross margin are as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Gross profit	\$ 313.8	\$ 340.2	\$ 651.1	\$ 710.3
Gross margin	37.2%	40.1%	38.4%	40.3%
Gross profit decrease	(7.8%)	(17.2%)	(8.3%)	(16.7%)

Consolidated gross profit decreased \$26.4 million, or 7.8%, for the second quarter and decreased \$59.2 million, or 8.3%, for the first six months of 2013, when compared with the same periods last year. The gross profit decrease for the second quarter was primarily driven by a 2.9 percentage point decrease in our gross margin rate. The gross profit decrease for the first six months of 2013 was also driven by decreased gross profit for our postpaid wireless business in our U.S. RadioShack company-operated stores in the first quarter.

Our consolidated gross margin rate for the second quarter of 2013 decreased by 2.9 percentage points, when compared with the same period last year. This decrease was driven by more sales promotions such as aggressive discounts, clearance events, and customer coupons in the second quarter, when compared with the same period last year. We have undertaken an initiative to remove certain older products from our inventory assortment that resulted in us lowering inventory valuations for some of these products during the second quarter.

Gross margin rates for both the second quarter and for the first six months of 2013 also decreased due to a change in our postpaid and prepaid sales mix towards higher-priced and lower gross margin rate smartphones.

Selling, General and Administrative Expense

Consolidated selling, general and administrative expense is as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Selling, general and administrative expense	\$ 336.9	\$ 337.0	\$ 674.8	\$ 682.3
As a percent of net sales and operating revenues	39.9%	39.7%	39.8%	38.7%
Selling, general and administrative expense decrease	(0.0%)	(1.1%)	(1.1%)	(1.9%)

Consolidated SG&A expense was essentially flat for the second quarter and decreased \$7.5 million, or 1.1%, for the first six months of 2013, when compared with the same periods last year. This represents a 0.2 percentage point increase as a percentage of net sales and operating revenues for the second quarter and a 1.1 percentage point increase for the first six months of 2012.

The decrease in SG&A expense for the first six months of 2013 was primarily driven by the receipt of \$5.3 million from a non-merchandise vendor as settlement of a dispute and a \$2.4 million gain on the sale of a building. Additionally, we operated fewer stores in the first six months of 2013 than in the first six months of 2012, which reduced SG&A expense, but these savings were offset by increased advertising and other corporate expenses.

Depreciation and Amortization

Depreciation and amortization from continuing operations, including amounts recorded in cost of products sold, was \$17.7 million for the second quarter and \$36.5 million for the first six months of 2013, compared with \$18.4 million and \$37.6 million for the same periods last year.

Impairment of Long-lived Assets

Impairments for long-lived assets held and used in certain stores were \$2.8 million for the second quarter and \$4.2 million for the first six months of 2013, compared with \$1.0 million and \$1.5 million for the same periods last year. These increase were primarily driven by increases in the number of stores that were evaluated for impairment during the periods because of their decreased operating results. If our operating results do not improve, we will continue to incur a similar or higher amount of long-lived asset impairments for U.S. RadioShack company-operated stores in future periods.

Net Interest Expense

Consolidated net interest expense, which is interest expense net of interest income, was \$13.8 million for the second quarter and \$28.4 million for the first six months of 2013, compared with \$12.6 million and \$25.2 million for the same periods last year.

Interest expense primarily consists of interest paid at the stated rate on our notes and term loans and the non-cash amortization of the discounts on our notes.

Interest expense increased \$1.2 million for the second quarter and increased \$3.1 million for the first six months of 2013, when compared with the same periods last year. These increases were driven by higher average amounts of debt outstanding at a higher average interest rate in 2013 when compared with 2012. Non-cash interest expense was \$2.8 million for the second quarter and \$6.2 million for the first six months of 2013, compared with \$4.4 million and \$8.7 million for the same periods last year.

Income Tax Expense

The income tax provision for each quarterly period reflects our current estimate of the effective tax rate for the full year, adjusted for any discrete events that are recorded in the quarterly period in which they occur. Our effective tax rate was 3.3% for the second quarter and 0.5% for the first six months of 2013, compared with 39.3% and 35.1% for the same periods last year.

For the first six months of 2013, we continued to provide a valuation allowance against all of our U.S. federal and state deferred tax assets. As a result, we did not record any U.S. federal or state income tax benefit related to our operating losses for the first six months of 2013. We continue to recognize income tax expense related to our foreign operations and interest accrued on our liabilities for uncertain tax positions. In addition, we continue to recognize income tax expense in certain state jurisdictions. The effective tax rate for the second quarter and for the first six months of 2013 was affected by the recognition of previously unrecognized tax benefits of \$2.5 million due to the settlement of state income tax matters during the periods.

Our income tax benefits for the second quarter and the first six months of 2012 included offsetting discrete income tax expense items related to certain stock-based compensation effects, interest accrued on our liabilities for uncertain tax positions, and valuation allowances established in the second quarter for certain state income tax deferred tax assets.

Discontinued Operations

We ceased operating all of our Target Mobile centers prior to March 31, 2013. The income (loss) before income taxes for these discontinued operations was income of \$0.4 million for the second quarter and a loss of \$7.9 million for the first six months of 2013, compared with a loss of \$7.1 million and \$12.4 million, respectively, for the same periods last year.

The amounts reported in discontinued operations for the second quarter of 2013 related to adjustments of estimates to actual results for items such as sales returns, wireless deactivations, and advertising expenses.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Refer to Note 2 – “New Accounting Standards” in the Notes to Condensed Consolidated Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow Overview

Operating Activities: Cash provided by operating activities for the first six months of 2013 was \$63.0 million, compared with \$22.9 million for the same period last year. Cash flows from operating activities are comprised of net income plus non-cash adjustments to net income and changes in working capital components. Net income plus non-cash adjustments to net income was negative \$41.6 million for the first six months of 2013, compared with positive \$29.0 million for the same period last year. Cash provided by working capital components was \$104.6 million for the first six months of 2013, compared with cash used in working capital components of \$6.1 million for the same period last year. The decrease in net income plus non-cash adjustments was primarily driven by our increased net loss for the first six months of 2013, when compared with the first six months of 2012.

The increase in cash provided by working capital was primarily driven by increased cash provided by accounts receivable and inventories, which were partially offset by a lower accounts payable balance. A portion of the cash provided by our accounts receivable related to a \$56.4 million income tax refund that we received in the second quarter of 2013. Our lower accounts payable balance at June 30, 2013, when compared with our balances at December 31, 2012, and June 30, 2012, was primarily driven by the timing of our inventory purchases, mostly wireless handsets, during the quarter.

Investing Activities: Net cash used in investing activities was \$14.4 million for the first six months of 2013, compared with \$54.1 million for the same period last year. This decrease was primarily driven by the change in our restricted cash balances in the first six months of 2012, decreased capital expenditures in the first six months of 2013, and proceeds received from the sale of a building in the first six months of 2013. See “Cash Requirements” below in this MD&A regarding our restricted cash and capital expenditures.

Financing Activities: Cash used in financing activities was \$152.3 million for the first six months of 2013, compared with \$42.8 million for the same period last year. This change was primarily driven by the repurchase of \$72.5 million of our 2013 Convertible Notes and the decrease in our cash overdrafts.

Free Cash Flow: Our free cash flow, defined as cash flows from operating activities less dividends paid and additions to property, plant and equipment, was \$51.3 million for the first six months of 2013, compared with negative \$29.7 million for the same period last year. The increase in free cash flow for the first six months of 2013 was attributable to increased cash flows from operating activities as described above and decreased capital expenditures. Additionally, we did not pay a dividend in the first six months of 2013, compared with the payment of \$24.9 million in dividends for the first six months of 2012.

We believe free cash flow is a relevant indicator of our ability to repay maturing debt, make dividend payments or fund other uses of capital that management believes will enhance shareholder value. See “Liquidity Outlook” later in this MD&A for further discussion of our sources of liquidity and our cash requirements in future periods. The comparable financial measure to free cash flow under generally accepted accounting principles is net cash flows provided by or used in operating activities. Net cash flows provided by operating activities was \$63.0 million for the first six months of 2013, compared with \$22.9 million for the same period last year. We do not intend for the presentation of free cash flow, a non-GAAP financial measure, to be considered in isolation or as a substitute for measures prepared in accordance with GAAP, nor do we intend to imply that free cash flow represents cash flow available for discretionary expenditures. The following table is a reconciliation of net cash provided by operating activities to free cash flow.

(In millions, except share amounts)	Six Months Ended		Year Ended
	2013	June 30, 2012	December 31, 2012
Net cash provided by operating activities	\$ 63.0	\$ 22.9	\$ (43.0)
Less:			
Additions to property, plant and equipment	11.7	27.7	67.8
Payments of dividends	--	24.9	24.9
Free cash flow	\$ 51.3	\$ (29.7)	\$ (135.7)

SOURCES OF LIQUIDITY

As of June 30, 2013, we had \$432.0 million of cash and cash equivalents and \$32.1 million of restricted cash. See “Cash Requirements” below in this MD&A regarding our restricted cash. Additionally, at June 30, 2013, we had \$386.4 million of availability under the 2016 Credit Facility. On July 2, 2013, our availability under the 2016 Credit Facility was temporarily reduced under the terms of the credit agreement by \$214.4 million until we repay our 2013 Convertible Notes on August 1, 2013. After the repayment of these notes, this amount will again be available for borrowings under the 2016 Credit Facility.

The 2016 Credit Facility matures on January 4, 2016, and provides for an asset-based revolving credit line of \$450 million, subject to a borrowing base, which was \$479.8 million at June 30, 2013. Obligations under the 2016 Credit Facility are secured by substantially all of our inventory, accounts receivable, cash, and cash equivalents. Obligations under the 2016 Credit Facility are also secured by certain real estate.

The maximum availability for revolving borrowings under the 2016 Credit Facility is determined at the end of each month and is calculated as the lesser of:

- \$450 million, or
- Our borrowing base for revolving borrowings less \$45 million (calculated as \$434.8 million at June 30, 2013), or
- Our borrowing base for revolving borrowings up to a maximum amount of \$450 million less the greater of 12.5% (currently \$56.3 million) or \$45 million if we do not meet a specified consolidated fixed charge coverage ratio during a trailing twelve-month period (calculated as \$393.8 million at June 30, 2013).

As of June 30, 2013, our maximum availability for revolving borrowings under the 2016 Credit Facility was \$393.8 million because we did not meet the consolidated fixed charge coverage ratio test at June 30, 2013. As of June 30, 2013, no revolving borrowings had been made under the facility, and letters of credit totaling \$7.4 million had been issued, resulting in \$386.4 million of availability for revolving borrowings under the 2016 Credit Facility. We currently believe that we will not meet the consolidated fixed charge coverage ratio test for at least the next twelve months.

Refer to Note 5 – “Indebtedness and Borrowing Facilities” in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012, for additional information regarding the 2016 Credit Facility.

CASH REQUIREMENTS

Long-term debt: In the first six months of 2013, we repurchased \$72.5 million of aggregate principal amount of 2013 Convertible Notes. We paid a total of \$71.6 million, which consisted of the purchase price of \$71.4 million for the 2013 Convertible Notes plus \$0.2 million in accrued and unpaid interest, to the holders of the notes. This transaction resulted in a loss of \$0.3 million, which was classified as other loss on our Condensed Consolidated Statements of Comprehensive Income. At June 30, 2013, there was \$214.4 million aggregate principal amount of 2013 Convertible Notes still outstanding.

There have been no other significant changes to our long-term debt since December 31, 2012. Refer to Note 5 – “Indebtedness and Borrowing Facilities” in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012, for information regarding our long-term debt.

Capital Expenditures: We currently estimate that our capital expenditures for 2013 will range from \$50 million to \$70 million, based on our operating performance during the year. U.S. RadioShack company-operated store remodels and relocations and information systems projects will account for the majority of our anticipated 2013 capital expenditures. Cash and cash equivalents and cash generated from operating activities will be used to fund future capital expenditure needs. Additionally, our 2016 Credit Facility could be utilized to fund capital expenditures.

Restricted Cash: Restricted cash totaled \$32.1 million at June 30, 2013, and is included in other current assets in our Consolidated Balance Sheets. This cash is pledged as collateral for standby letters of credit issued to our casualty insurance providers. We have the ability to withdraw this cash at any time and instead provide letters of credit issued under our 2016 Credit Facility. We have elected to pledge this cash as collateral for the letter of credit to reduce our costs associated with our casualty insurance.

Purchase Obligations: We had purchase obligations of \$209.7 million at June 30, 2013, which include product commitments and marketing agreements. Of this amount, \$203.4 million will be spent in the next twelve months.

Contractual Obligations: Other than the decrease in our long-term debt and purchase obligations discussed above, there have been no significant changes to our contractual obligations and commercial commitments outside the ordinary course of business since December 31, 2012. Refer to our Annual Report on Form 10-K for the year ended December 31, 2012, for additional information regarding our contractual obligations and commercial commitments.

LIQUIDITY OUTLOOK

As of June 30, 2013, we had \$432.0 million in cash and cash equivalents. Additionally, we had availability of \$386.4 million as of June 30, 2013, under the 2016 Credit Facility. This resulted in a total liquidity position of \$818.4 million at June 30, 2013. On July 2, 2013, our availability under the 2016 Credit Facility was temporarily reduced under the terms of the credit agreement by \$214.4 million until we repay our 2013 Convertible Notes on August 1, 2013. After

the repayment of these notes, this amount will again be available for borrowings under the 2016 Credit Facility.

We currently intend to repay the 2013 Convertible Notes with cash on hand; however, we continually assess alternatives to our capital structure and evaluate strategic capital initiatives. These may include, but are not limited to, new debt issuances; debt refinancing; or modifications of existing debt, such as the amount of debt outstanding, the types of debt issued, and the maturity dates of the debt. These alternatives, if implemented, could materially affect our capital structure, debt ratios, and cash balances.

If our results of operations for 2013 continue to be significantly worse than 2012, or if our trade payables decrease, we could be required to utilize more of our 2016 Credit Facility in the form of borrowings or additional letters of credit. However, in this event, we could implement cash conservation activities such as reducing our spending for professional fees, reducing our capital expenditures, reducing our spending for advertising, lowering our inventory balances or not taking advantage of discounts for early payments to vendors.

We have considered the impact of our financial projections on our liquidity analysis and have evaluated the appropriateness of the key assumptions in our forecast such as sales, gross profit and SG&A expenses. We have analyzed our cash requirements, including our inventory position, other working capital changes, capital expenditures and borrowing availability under our credit facility. Based upon these evaluations and analyses, we expect that our anticipated sources of liquidity will be sufficient to meet our obligations without disposition of assets outside the ordinary course of business or significant revisions of our planned operations for at least the next twelve months.

If the trend in our results of operations continues or further declines after the next twelve months, we may be required to borrow more under our 2016 Credit Facility, or to take additional actions to improve our liquidity that would be outside the ordinary course of business. These actions could include incurring additional debt at higher interest rates, reducing our capital expenditures to amounts below those required to support our current level of operations, closing a significant number of stores, further reducing our employee headcount, selling one or more subsidiaries, or seeking to raise additional equity capital.

Capitalization

The following table sets forth information about our capitalization on the dates indicated.

(In millions)	June 30, 2013		December 31, 2012		June 30, 2012	
	Dollars	Percent	Dollars	Percent	Dollars	Percent
Current maturities of long-term debt	\$ 213.5	17.5 %	\$ 278.7	20.2 %	\$ 355.4	25.7 %
Long-term debt, excluding current maturities	499.2	40.9	499.0	36.3	323.9	23.4
Total debt	712.7	58.4	777.7	56.5	679.3	49.1
Stockholders' equity	506.6	41.6	598.7	43.5	704.6	50.9
Total capitalization	\$ 1,219.3	100.0 %	\$ 1,376.4	100.0 %	\$ 1,383.9	100.0 %

The declaration of dividends, the dividend rate, and the amount and timing of share repurchases are at the sole discretion of our Board of Directors, and plans for future dividends and share repurchases may be revised by the board at any time. RadioShack's dividend and share repurchase programs could be affected by, among other things, changes in RadioShack's results of operations, capital expenditures, cash flows, and applicable tax laws.

OFF-BALANCE SHEET ARRANGEMENTS

Other than our operating leases, we do not have any off-balance sheet financing arrangements, transactions, or special purpose entities. Refer to Note 14 – “Commitments and Contingencies” in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012, for information regarding our operating leases.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our critical accounting policies and estimates have not significantly changed since December 31, 2012. Refer to our Annual Report on Form 10-K for the year ended December 31, 2012, for a discussion of our critical accounting policies and estimates.

FACTORS THAT MAY AFFECT FUTURE RESULTS

Matters discussed in MD&A and in other parts of this report include forward-looking statements within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are statements that are not historical and may be identified by the use of words such as “expect,” “anticipate,” “believe,” “estimate,” “potential” or similar words. These matters include statements concerning management's plans and objectives relating to our operations or economic performance and related assumptions. We specifically disclaim any duty to update any of the information set forth in this report, including any forward-looking statements. Forward-looking statements are made based on management's current expectations and beliefs concerning future events and, therefore, involve a number of assumptions, risks, and uncertainties, including the risk factors described in Item 1A, “Risk Factors,” of our Annual Report on Form 10-K for the year ended December 31, 2012. Management cautions that forward-looking statements are not guarantees, and our actual results could differ materially from those expressed or implied in the forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

At June 30, 2013, we held no derivative instruments that materially increased our exposure to market risks for interest rates, foreign currency rates, commodity prices or other market price risks.

Our exposure to interest rate risk results from changes in short-term interest rates. Interest rate risk exists with respect to our cash equivalents of \$300.8 million and our \$175 million of term loans that bear interest at variable rates, in each case at June 30, 2013. A hypothetical 1% increase in short-term interest rates would result in a corresponding decrease in annual net interest expense of approximately \$2.1 million. Short-term liquid investments at variable interest rates currently yield less than 1% on an annualized basis. A hypothetical decrease of short-term interest rates to zero would result in a corresponding increase in annual net interest expense of approximately \$0.4 million. This hypothetical example assumes no change in the proportionate relationship between our cash equivalent balance and the amount of our variable interest rate debt.

We have market risk arising from changes in foreign currency exchange rates related to our purchase of inventory from manufacturers located in China and other areas outside the U.S. Our purchases are denominated in U.S. dollars, and any weakening of the U.S. dollar against the Chinese currency, or other currencies, could cause our vendors to increase the prices of items we purchase from them. It is not possible to estimate the effect of foreign currency exchange rate changes on our purchases of this inventory. We are also exposed to foreign currency fluctuations related to our Mexican subsidiary, which accounted for less than 5% of our consolidated net sales and operating revenues in the periods covered by this report.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We have established a system of disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) designed to ensure that information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that such information is accumulated and communicated to management, including our principal executive officer (Chief Executive Officer) and our principal financial officer (Interim Chief Financial Officer), as appropriate, to allow timely decisions regarding required disclosure. An evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report was performed under the supervision and with the participation of management, including our principal executive officer and principal financial officer. Based upon that evaluation, management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Refer to Note 8 – “Commitments and Contingencies” in Notes to Condensed Consolidated Financial Statements of this Quarterly Report on Form 10-Q for information on legal proceedings.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

(c) Stock Repurchases

The following table sets forth information concerning purchases made by or on behalf of RadioShack or any affiliated purchaser (as defined in the SEC's rules) of RadioShack common stock for the periods indicated.

PURCHASES OF EQUITY SECURITIES BY RADIOSHACK

	Total Number of Shares	Average Price Paid	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (1) (2)
(In millions)	Purchased	per Share	Programs (1)	(2)
April 1 – 30, 2013	--	--	--	188,100,224
May 1 – 31, 2013	2,161 (3)	\$ 4.12	--	188,100,224
June 1 – 30, 2013	--	--	--	188,100,224
Total	2,161		--	

(1)

In October 2011 our Board of Directors approved an authorization for a total share repurchase of \$200 million of the Company's common stock to be executed through open market or private transactions. The share repurchase authorization has no stated expiration date. As of June 30, 2013, \$188.1 million of the total authorized amount was available for share repurchases under this program. We announced on January 30, 2012, that we had suspended further share repurchases under this program.

- (2) During the period covered by this table, no publicly-announced stock purchase program expired or was terminated.
- (3) Shares acquired by RadioShack for tax withholdings upon vesting of restricted stock awards, which were not repurchased pursuant to a share repurchase program.

ITEM 6. EXHIBITS.

A list of the exhibits required by Item 601 of Regulation S-K and filed as part of this Quarterly Report on Form 10-Q is set forth in the Index to Exhibits on page 29.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
