Item 8.01 Other Events

As previously reported, in April 2011, Thermo Fisher Scientific Inc. (The “Company”) sold its Athena Diagnostics and Lancaster Laboratories businesses (the “Divested Businesses”). The company has reclassified the Divested Businesses as discontinued operations. The results of operations for the Divested Businesses were reported as discontinued operations for each period presented in the Company’s first quarter 2011 Quarterly Report on Form 10-Q filed with the SEC on May 6, 2011.

Exhibit 99.1 of this Form 8-K updates Items 6, 7 and 8 of the Company’s Annual Report on Form 10-K for the year ended December 31, 2010 (the “2010 Form 10-K”), which was filed with the Securities and Exchange Commission on February 24, 2011 to reflect the reclassification of the Divested Businesses as discontinued operations. The reclassification had no effect on the Company’s historical reported net income or earnings per share.

The information set forth in Exhibit 99.1 continues to speak as of the date of the 2010 Form 10-K and the Company has not updated or amended the disclosures contained therein to reflect events that have occurred since the filing of the 2010 Form 10-K, or modified or updated those disclosures in any way other than as required to reflect the Divested Businesses as discontinued operations. Accordingly, Exhibit 99.1 should be read in conjunction with the Company’s filings made with the SEC subsequent to the filing of the 2010 Form 10-K on February 24, 2011.

This Current Report on Form 8-K contains forward-looking statements that involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are set forth in the Company’s Quarterly Report on Form 10-Q for the quarter ended April 2, 2011, under the caption “Risk Factors,” which is on file with the Securities and Exchange Commission and available in the “Investors” section of our Website under the heading “SEC Filings.” Important factors that could cause actual results to differ materially from those indicated by forward-looking statements include risks and uncertainties relating to: the need to develop new products and adapt to significant technological change; implementation of strategies for improving internal growth; general worldwide economic conditions and related uncertainties; dependence on customers’ capital spending policies and government funding policies; the effect of exchange rate fluctuations on international operations; the effect of healthcare reform legislation; use and protection of intellectual property; the effect of changes in governmental regulations; the effect of laws and regulations governing government contracts; and the effect of competing with certain of our customers and suppliers. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change and, therefore, you should not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Current Report on Form 8-K.
