 - .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 2.02 Results of Operations and Financial Condition.

The news release dated May 1, 2006 filed under Item 8.01 Other Events herein is also furnished pursuant to Item 2.02, Results of Operations and Financial Condition.

Item 8.01 Other Events.

A.

Demand-side management (DSM) programs - agreements with the Consumer Advocate. In October 2001, HECO and the Consumer Advocate finalized agreements, subject to the Public Utilities Commission of the State of Hawaii (PUC) approval, for the continuation of HECO's three commercial and industrial DSM programs and two residential DSM programs until HECO's next rate case. These agreements were in lieu of HECO continuing to seek approval of new 5-year DSM programs and provided that DSM programs to be in place after HECO's next rate case would be determined as part of the case. Under the agreements, HECO agreed to cap the recovery of lost margins and shareholder incentives if such recovery would cause HECO to exceed its current authorized return on rate base (i.e. the rate of return on rate base found by the PUC to be reasonable in the most recent rate case for HECO). HECO also agreed it would not pursue the continuation of lost margins recovery and shareholder incentives through a surcharge mechanism in future rate cases. At the time of the agreement, HECO indicated to the Consumer Advocate that it plans to seek alternative incentive mechanisms for DSM programs in its rate case. In November 2001, the PUC issued orders that, subject to certain reporting requirements and other conditions, approved the agreements regarding the temporary continuation of HECO's five existing DSM programs until HECO's next rate case.

In November 2004, HECO filed a request for a rate increase and approval and/or modification of its existing and proposed DSM programs, and associated utility incentive mechanism. In March 2005, the PUC issued a bifurcation order separating HECO's requests for approval and/or modification of its existing and proposed DSM programs from the rate case proceeding into a new docket (EE DSM Docket). The bifurcation order allowed HECO to temporarily continue, in the manner currently employed, its existing three commercial and industrial DSM programs and two residential DSM programs, until further order by the PUC.

As a result of the bifurcation order in HECO's rate case, HECO has been continuing its existing DSM programs and cost recovery mechanisms, including the recovery of program costs, and shareholder incentives and lost margins for its energy efficiency DSM programs through a surcharge mechanism, pending the resolution of the EE DSM Docket. In the EE DSM Docket, HECO requested PUC approval, on an interim basis, for certain modifications to its existing energy efficiency DSM programs and a new interim DSM program (Interim DSM Proposals). HECO did not request shareholder incentives and lost margins for its proposed new interim DSM program, but did so for the modifications to its existing energy efficiency programs. On January 10, 2006, the Consumer Advocate filed comments on HECO's Interim DSM Proposals, which included an objection to the continued recovery of shareholder incentives and lost margins for the existing energy efficiency DSM programs as well as for the modifications. HECO filed its response to the Consumer Advocate's comments on January 31, 2006, reaffirming its position that the continuation of shareholder incentives and lost margins for its existing energy efficiency DSM programs is appropriate and in conformance with the PUC's order allowing the continuation of its existing DSM programs pending the resolution of the EE DSM Docket. The issues of whether DSM incentive mechanisms are appropriate to encourage the implementation of DSM programs, the appropriate mechanism(s) for such DSM incentives, and whether HECO's proposed DSM utility incentive is reasonable are included in the Statement of Issues in the Prehearing Order in the EE DSM Docket.

On April 26, 2006, the PUC issued an Interim Decision and Order approving HECO's request to modify its existing DSM programs and implement its proposed interim DSM programs. However, the PUC also ordered HECO's recovery of lost margins and shareholder incentives for its DSM programs be discontinued within 30 days of the Interim Order, until further order by the PUC. HECO is evaluating the impact of the Interim Order. Lost margins and shareholder incentives are estimated and recorded in the year earned, and collected from ratepayers in the current year (lost margins) or the following year (shareholder incentives). Revenues that HECO expected to accrue for lost margins and shareholder incentives from May 26, 2006 through the end of 2006 had been estimated at \$2.1 million, which amounts to \$1.2 million in after-tax net income.

In October 2001, HELCO and MECO reached similar agreements with the Consumer Advocate regarding the continuation of their DSM programs and filed requests to continue their four existing DSM programs. In November 2001, the PUC issued orders (one of which was later amended) that, subject to certain reporting requirements and other conditions, approved the agreements regarding the temporary continuation of HELCO's and MECO's DSM programs until one year after the PUC makes a revenue requirements determination in HECO's next rate case. Under the orders, however, HELCO and MECO are allowed to recover only lost margins and shareholder incentives accrued through the date that interim rates are established in HECO's next rate case, but may request to extend the time of such accrual and recovery for up to one additional year. The temporary continuation of HECO's existing DSM programs, as a result of the bifurcation order in HECO's rate case, had the effect of postponing the deadline for the recovery of HELCO and MECO's lost margins and shareholder incentives until resolution of the EE DSM Docket. Based on the Interim Order, HELCO and MECO plan to file a request for a one-year extension for the recovery of HELCO and MECO's lost margins and shareholder incentives or until final resolution of the EE DSM Docket. Revenues that HELCO and MECO expected to

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

accrue for lost margins and shareholder incentives from May 26, 2006 through the end of 2006 had been estimated at \$1.1 million and \$2.6 million, respectively, which amounts to \$0.6 million and \$1.5 million in after-tax net income, respectively.

B. News Release

On May 1, 2006, HEI issued the following news release:

HAWAIIAN ELECTRIC INDUSTRIES, INC. REPORTS FIRST QUARTER 2006 EARNINGS

HONOLULU Hawaiian Electric Industries, Inc. (NYSE HE) today reported net income for the three months ended March 31, 2006, of \$32.3 million, or 40 cents per share, compared with \$24.1 million, or 30 cents per share, in the same quarter of 2005.

Although first quarter results were up compared with the same quarter last year, they were only slightly above 2004's first quarter earnings which were \$30.9 million or \$0.40 per share, said Robert F. Clarke, HEI chairman, president and chief executive officer. Utility earnings were up quarter-over-quarter, but essentially back to 2004 levels, helped by increased quarter-over-quarter kilowatthour sales and interim rate relief for our Oahu utility, added Clarke. At our bank, loans and deposits grew in the first quarter, although bank earnings quarter-over-quarter were down modestly. While credit quality at our bank remains excellent, first quarter 2005 results included a \$3.1 million reversal of the allowance for loan losses that did not recur in the first quarter of 2006.

Electric utility net income for the first quarter was \$21.0 million compared to \$12.4 million and \$20.0 million for the same quarters in 2005 and 2004, respectively. Higher kilowatthour sales added \$11 million to revenues for the quarter compared to the first quarter of 2005, and were due to an increase in the number of customers and new construction loads. In addition, interim rate relief for our Oahu utility granted in late September 2005, added \$9 million to first quarter revenues.

Although operations and maintenance expenses were relatively flat quarter-over-quarter, we expect the overall trend of higher expense levels to continue due to load growth and increased retirement benefits expenses, said Clarke.

Bank net income was \$16.8 million in the first quarter of 2006, compared to \$17.8 million for the same quarter last year, a decrease of \$1.0 million, or 5.3%.

While net income was lower compared with the same quarter last year, we are pleased with the performance of the bank's core businesses in an interest rate environment that was more challenging than it was at the same time last year, said Clarke. Good organic growth continued with average loan and deposit balances higher by \$306 million and \$230 million, respectively, than the same period last year. In addition, the yield on loans was 25 basis points higher, while the bank's funding costs increased only 17 basis points when compared to the first quarter of 2005.

Net interest margin was 3.29% in the first quarter of 2006, compared with 3.36% in the first quarter of 2005. The lower net interest margin was primarily a result of lower interest income on mortgage-related securities compared to the same period last year.

Continued strong asset quality offset the need to provision for loan growth in the first quarter. First quarter 2005 results, however, benefited from a \$3.1 million reversal of allowance for loan losses.

Noninterest income increased \$0.9 million compared to first quarter 2005, due primarily to higher fee income on debit cards and merchant services.

Noninterest expenses for the quarter ended March 31, 2006 were \$1.2 million lower than the same period in 2005, due to a \$2.7 million charge related to interest on income taxes in the first quarter of 2005. This decrease was partially offset by compensation and benefit expenses, which were higher by \$1.2 million.

The holding and other companies' results were \$(5.5) million in the first quarter of 2006 versus \$(6.1) million in the first quarter of 2005. The improvement in quarter-over-quarter results was primarily due to lower general and administrative expenses.

HEI will hold its annual shareholders' meeting at 9:30 a.m., on Tuesday, May 2nd, in Honolulu, Hawaii to elect four Class I directors and the Company's independent auditor and to vote on proposals advanced by management.

HEI supplies power to over 400,000 customers or 95% of the Hawaii population through its electric utilities, Hawaiian Electric Company, Hawaii Electric Light Company and Maui Electric Company and provides a wide array of banking and other financial services to consumers and businesses through American Savings Bank, the state's third largest financial institution based on asset size.

Forward-Looking Statements

This release may contain forward-looking statements, which include statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plans, believes, predicts, estimates or similar expressions. In addition, any statements concerning future financial performance (including future revenues, expenses, earnings or losses or growth rates), ongoing business strategies or prospects and possible future actions, which may be provided by management, are also forward-looking statements. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties and assumptions about HEI and its subsidiaries, the performance of the industries in which they do business and economic and market factors, among other things. These forward-looking statements are not guarantees of future performance.

Forward-looking statements in this release should be read in conjunction with the Forward-looking Statements discussion (which is incorporated by reference herein) set forth on page v of HEI's Form 10-K for the fiscal year ended December 31, 2005, and in HEI's future periodic reports that discuss important factors that could cause HEI's results to differ materially from those anticipated in such statements. Forward-looking statements speak only as of the date of this release.

Results of operations for interim periods are not necessarily indicative of results to be expected for future interim periods or the full year.

In June 2004, ASB recorded a cumulative after-tax charge to net income of \$24 million for an unfavorable tax ruling involving its real estate investment trust subsidiary, which was settled in December 2004. As a result of the settlement, ASB recognized \$3 million in additional net income in the fourth quarter of 2004.
