In accordance with the results of this vote, the Board of Directors, at its meeting today, determined to implement an annual advisory vote on executive compensation.

ITEM 7.01 REGULATION FD DISCLOSURE

Today, the Registrant is issuing a press release (Exhibit 99.1) announcing its fiscal year 2011 first quarter financial and operating results. The Registrant will conduct a related Webcast conference call today at 4:00 p.m. central time. This press release will be posted on the Registrant's web site located at <http://www.escotechnologies.com>. It can be viewed through the "Investor Relations" page of the web site under the tab "Press Releases", although the Registrant reserves the right to discontinue that availability at any time.

NON-GAAP FINANCIAL MEASURES

The press release furnished herewith as Exhibit 99.1 contains the financial measures "EBIT" and "EBIT margin", which are not calculated in accordance with generally accepted accounting principles in the United States of America ("GAAP"), in order to provide investors and management with an alternative method for assessing the Registrant's operating results in a manner that is focused on the performance of the Registrant's ongoing operations.

The Registrant defines "EBIT" as earnings before interest and taxes from continuing operations. The Registrant defines "EBIT margin" as EBIT as a percent of net sales. The Registrant's management evaluates the performance of its operating segments based in part on EBIT and EBIT margin, and believes that EBIT and EBIT margin are useful to investors to demonstrate the operational profitability of the Registrant's business segments by excluding interest and taxes, which are generally accounted for across the entire Registrant on a consolidated basis. EBIT is also one of the measures used by management in determining resource allocations within the Registrant and incentive compensation.

The Registrant believes that the presentation of EBIT and EBIT margin provides important supplemental information to management and investors regarding financial and business trends relating to the Registrant's financial condition and results of operations. The Registrant's management believes that these measures provide an alternative method for assessing the Registrant's expected future performance that is useful because it facilitates comparisons with other companies in the Utility Solutions Group segment industry, many of which use similar non-GAAP financial measures to supplement their GAAP results. The Registrant provides this information to investors to enable them to perform additional analyses of present and future operating performance, compare the Registrant to other companies, and evaluate the Registrant's ongoing financial operations.

The presentation of the information described above is intended to supplement investors' understanding of the Registrant's operating performance. The Registrant's non-GAAP financial measures may not be comparable to other companies' non-GAAP financial performance measures. Furthermore, the use of these measures is not intended to replace net earnings (loss), cash flows, financial position, comprehensive income (loss), or any other measure as determined in accordance with GAAP.
