FOR IMMEDIATE RELEASE

GSE Systems Announces Contract Awards  
Totaling Over \$7.5 Million

Columbia, Maryland August 13, 2003 - GSE Systems, Inc. (GSE) (AMEX:GVP), a leading global provider of real-time simulation and process control solutions for the energy and process industries, announced today the receipt of several new contracts for power plant simulators. The total value of these contracts exceeds \$5.5 million. These contracts, along with over \$2 million of process

## Edgar Filing: GSE SYSTEMS INC - Form 8-K

automation orders received in July, increase the Company's backlog to just over \$41 million.

The largest order is for a nuclear plant in Asia, and represents the second major contract from this customer this year. The Company also received a contract from the Tennessee Valley Authority (TVA) to build a simulator for the Browns Ferry Nuclear Plant Unit 3. The project includes assisting TVA in modifying the existing simulator software as well as building new panels to simulate the Unit 3 control room.

In addition, GSE received some small orders for engineering services in the nuclear plant security market, which it believes is a precursor to additional activity in this emerging market.

GSE President and Chief Operating Officer, Jerry Jen, said: "The Power Simulation business continues to win new projects both domestically and overseas. We anticipate strong performance from the nuclear segment of the business as plants continue to invest in modernization and life extension activities. Those awards will be turning into revenue and we expect continued profitable performance from our Power Simulation business."

\* \* \*

GSE Systems, Inc. is a real-time simulation, process control, and automation company with three decades of experience, over 500 applications, and 200 customers in more than 30 countries. Our software, hardware and integrated solutions leverage proven technologies to deliver real-world business advantages to the process and power industries worldwide including specialty chemical, food and beverage, petroleum refining, pharmaceutical, and fossil and nuclear power generation. GSE Systems is headquartered in Columbia, Maryland with offices throughout the United States. Our global locations include offices in Japan and Sweden. Information about GSE Systems is available via the Internet at <http://www.gses.com>.

This news release contains forward-looking statements that involve risks and uncertainties. The actual future results of GSE Systems may differ materially due to a number of factors, including but not limited to delays in introduction of products or enhancements, size and timing of individual orders, rapid technological changes, market acceptance of new products and competition. These and other factors are more fully discussed in the Company's annual report on Form 10-K for the year ended December 31, 2002 as filed with the Securities and Exchange Commission.
