UNIVERSAL COMPRESSION HOLDINGS, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2001

1. BASIS OF PRESENTATION

Organization

Universal Compression Holdings, Inc. (the "Company") was formed on December 12, 1997 for the purpose of acquiring Tidewater Compression Service, Inc. ("TCS") from Tidewater Inc. ("Tidewater"). Upon completion of the acquisition on February 20, 1998 (the "Tidewater Acquisition"), TCS became the Company's wholly owned subsidiary and changed its name to Universal Compression, Inc. ("Universal"). Through this subsidiary, the Company's gas compression service operations date back to 1954. The Company is a holding company which conducts its operations through its wholly owned subsidiary, Universal.

On May 30, 2000, the Company completed an initial public offering of 7,275,000 shares of its common stock, which provided the Company with net proceeds (after deducting underwriting discounts and commissions) of approximately \$149.2 million. Concurrently with the initial public offering, the Company implemented a recapitalization pursuant to which all existing classes of the Company's stock were converted into common stock. Also concurrently with the initial public offering, the Company entered into a \$50 million revolving credit

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

facility and \$200 million operating lease facility. The proceeds of the offering and the \$62.6 million in initial proceeds from the new operating lease facility were used to repay \$192.7 million of indebtedness, and the remaining proceeds were used for working capital and to pay expenses associated with the offering and concurrent financing transactions.

On February 9, 2001, the Company completed its acquisition of Weatherford Global Compression Services, L.P. and certain related entities ("Weatherford Global"), a supplier of natural gas compression equipment and services and a division of Weatherford International, Inc. Under the terms of the agreement, a subsidiary of Weatherford International, Inc. was merged into Universal in exchange for 13.75 million shares of the Company's common stock. In connection with the acquisition, Weatherford agreed, subject to conditions, to limit its voting rights to 33 1/3% of the Company's voting power for up to two years.

On July 3, 2001, the Company completed the public offering (the "Offering") of 1,333,333 shares of its common stock, par value \$0.01 per share, together with 2,666,667 shares of the Company's common stock sold by certain selling stockholders, including Castle Harlan Partners III, L.P. and its affiliates. The shares were sold in the Offering at a price of \$28.50 per share, and the Offering provided the Company with net proceeds (after deducting underwriting discounts and commissions) of approximately \$36.1 million. The Company used the proceeds to fund the cash portion of the purchase price in its acquisition of KCI, Inc., to repay a portion of KCI's indebtedness concurrently with the acquisition, as described below, and to partially fund the purchase price in its acquisition of Louisiana Compressor Maintenance, Inc., as described below. Following the Offering, Castle Harlan owned or had voting control over approximately 6% of the Company's outstanding common stock.

The Company completed the acquisition of Gas Compression Services, Inc. ("GCSI") on September 15, 2000, of ISS Compression, Inc. and its operating subsidiary, IEW Compression, Inc. (collectively "IEW") on February 28, 2001, of the international operations of Compressor Systems, Inc. ("CSII") on April 23, 2001, of KCI, Inc. ("KCI") on July 11, 2001, of Louisiana Compressor Maintenance, Inc. ("LCM") on July 13, 2001 and of Technical Compression Service, Inc. ("TCSI") on October 3, 2001.

These consolidated financial statements should be read in conjunction with the consolidated financial statements presented in the Company's Annual Report on Form 10-K for the year ended March 31, 2001. That report contains a more comprehensive summary of the Company's major accounting policies. In the opinion of management, the accompanying unaudited consolidated financial statements contain all appropriate adjustments, all of which are normally recurring adjustments unless otherwise noted, considered necessary to present fairly the financial position of the Company and its consolidated subsidiaries and the results of operations and cash flows for the respective periods. Operating results for the three-month period and six-month period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2002.

EARNINGS PER SHARE (UNAUDITED)

Basic and diluted net income (loss) per share is calculated in accordance with Statement of Financial Accounting Standards No. 128 ("SFAS 128"), "Earnings per Share".

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

The following table sets forth the computation of basic and diluted net income (loss) per share (in thousands, except per share amounts):

	THREE MONTHS ENDED SEPTEMBER 30,		SIX MONTHS ENDED SEPTEMBER 30,	
	2001	2000	2001	2000
BASIC EARNINGS PER SHARE				
Income (loss) before extraordinary items	\$ 12,793	\$ 1,753	\$ 23,338	(\$ 1,753)

Extraordinary loss, net of income tax	--	--	--	--
Diluted net income (loss) per share	\$ 0.42	\$ 0.13	\$ 0.79	(\$ 0.13)

RECLASSIFICATIONS

Certain reclassifications have been made to the prior year amounts to conform to the current year classification.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." In June 2000, the FASB issued SFAS No. 138, which amends certain provisions of SFAS 133 to clarify four areas causing difficulties in implementation. The amendment included expanding the normal purchase and sale exemption for supply contracts, permitting the offsetting of certain intercompany foreign currency derivatives and thus reducing the number of third party derivatives, permitting hedge accounting for foreign-currency denominated assets and liabilities, and redefining interest rate risk to reduce sources of ineffectiveness. SFAS 133 requires that an entity recognize all derivative instruments as either assets or liabilities in the balance sheet and measure those instruments at fair value. If certain conditions

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

are met, a derivative may be specifically designated as (1) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment, (2) a hedge of the exposure to variable cash flows of a forecasted transaction, or (3) a hedge of the foreign currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. We adopted SFAS 133 and the corresponding amendments under SFAS 138 on April 1, 2001. This statement had no impact on our consolidated results of operations, financial position or cash flows.

6

In December 1999, the SEC issued Staff Accounting Bulletin ("SAB") 101, "Revenue Recognition in Financial Statements." SAB 101 summarizes certain of the SEC's views in applying generally accepted accounting principles to revenue recognition in financial statements. On June 26, 2000, the SEC issued an amendment to SAB 101, effectively delaying its implementation until the fourth quarter of fiscal years beginning after December 15, 1999. After reviewing SAB 101 and its amendment, we believe that our revenue recognition policy is appropriate and that the effects of SAB 101 and its amendment were immaterial to our results of operations.

In July 2001, the FASB issued SFAS 141, "Business Combinations," effective for all business combinations initiated after June 30, 2001 and SFAS 142, "Goodwill and Other Intangible Assets". The Company elected to adopt SFAS 142 effective April 1, 2001 as the first interim period financial statements had not previously been issued. SFAS 141 addresses financial accounting and reporting for goodwill and other intangible assets acquired in a business combination at acquisition. SFAS 142 addresses financial accounting and reporting for intangible assets acquired individually or with a group of other assets (but not those acquired in a business combination) at acquisition. It also addresses financial accounting and reporting for goodwill and other intangible assets subsequent to their acquisition. Had SFAS 142 been effective April 1, 2000, we would have adopted it in the first quarter of fiscal 2000 and our net income during the three months ended September 30, 2000 would have been \$2.5 million, as a result of the elimination of \$.7 million of amortization expense related to goodwill. In addition, our net loss and loss before taxes and extraordinary items during the six months ended September 30, 2000 would have been \$7.4 million and \$3.4 million, respectively, as a result of the elimination of \$1.3 million of amortization expense related to goodwill, together with a decrease in the recorded income tax benefit of \$0.5 million.

In August 2001, the FASB issued SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS No. 144). SFAS No. 144 provides new guidance on the recognition of impairment losses on long-lived assets to be held and used or to be disposed of and also broadens the definition of what constitutes a discontinued operation and how the results of a discontinued operation are to be measured and presented. SFAS No. 144 supersedes SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" and Accounting Principle Board Opinion No. 30, while retaining many of the requirements of these two statements. Under SFAS No. 144, assets held for sale (APB Opinion No. 30) that are a component of an entity will be included in discontinued operations if the operations and cash flows will be or have been eliminated from the ongoing operations of the entity and the entity will not have any significant continuing involvement in the operations prospectively. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001, with early adoption encouraged. SFAS No. 144 is not expected

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

to materially change the methods used by the Company to measure impairment losses on long-lived assets, but may result in additional future dispositions being reported as discontinued operations than is currently permitted. The Company plans to adopt SFAS No. 144 on April 1, 2002.

3. ACQUISITIONS

On April 23, 2001, the Company acquired the international operations of Compressor Systems, Inc. based in Midland, Texas for approximately \$30 million in cash. The acquisition resulted in the recording of \$13 million of goodwill, which is not subject to amortization.

On July 11, 2001, the Company acquired KCI, a Tulsa, Oklahoma-based fabricator of large horsepower compressors for approximately \$26.3 million in cash and 694,927 shares of the Company's common stock. In addition, the Company incurred costs and assumed other liabilities related to the transaction of approximately \$6 million. Concurrently with the acquisition, the Company repaid substantially all of KCI's approximately \$51 million of indebtedness. In order to fund the acquisition, the Company used approximately \$50 million of the availability under its revolver and \$27.3 million of the funds received from the public offering of its stock in July 2001. The acquisition resulted in the recording of \$40.2 million of goodwill, which is not subject to amortization.

On July 13, 2001, the Company acquired LCM, a Houma, Louisiana based supplier of maintenance, repair, overhaul and upgrade services to the natural gas pipeline and related markets for approximately \$26.3 million in cash. In order to fund the acquisition the Company used approximately \$25 million of the availability under its revolving credit facility and \$1.3 million of the funds received from the public offering of its stock. The acquisition resulted in the recording of \$17.4 million of goodwill, which is not subject to amortization.

The Company's acquisitions were accounted for as purchases and accordingly, the results of operations of the acquired businesses are included in the accompanying financial statements from the date of acquisition.

7

	-----	-----
Total	\$ 125,161	\$120,939
	=====	=====

5. OPERATING LEASE FACILITIES

In May 2000, the Company and Universal entered into a \$200 million operating lease facility pursuant to which the Company sold and leased back certain

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

compression equipment from a Delaware business trust for a five-year term. The rental payments under the lease facility included an amount based on LIBOR plus a variable amount depending on the Company's operating and financial results, applied to the funded amount of the lease. Under the lease facility, the Company received an aggregate of approximately \$155 million in proceeds from the sale of compression equipment in May, November and December 2000 and in connection with the GCSI acquisition, in September 2000. The equipment was sold and leased back by the Company for a five-year period from May 2000 and deployed by the Company under its normal operating procedures. The equipment sold had a book value of approximately \$106 million and the equipment sale resulted in deferred gain of approximately \$49 million that was transferred to new operating lease facilities.

The Company had residual value guarantees on the equipment under the operating lease facility of approximately 85% of the funded amount that were due upon termination of the lease and which could be satisfied by a cash payment or the exercise of the purchase option. The facility contained certain covenants restricting the Company's operations, including its ability to enter into acquisition and sales transactions, incur additional indebtedness, permit additional liens on its assets and pay dividends. The Company's obligations under this facility were collateralized by liens on its compression equipment subject to the lease and certain related rights. Under the operating lease facility, Universal was the lessee and the Company guaranteed certain of Universal's obligations thereunder. The Company has replaced this facility with new operating lease facilities with similar terms.

In connection with the Weatherford Global acquisition, on February 9, 2001, the Company raised \$427 million under a new seven-year term senior secured notes operating lease facility (the "SSN Operating Lease Facility") funded primarily through an offering of \$350 million 8 7/8% senior secured notes due 2008 by an unaffiliated entity that is the lessor under the operating lease. The Company also entered into a new \$125 million secured revolving credit facility and a new \$200 million asset-backed securitization operating lease facility (the "ABS Operating Lease Facility"), which facility consists of a series of six leases with terms ranging from three to eight years. At the closing of the Weatherford Global acquisition, the Company funded approximately \$80 million under the ABS Operating Lease Facility and had no amounts outstanding under the new revolving credit facility. The proceeds from the two new operating lease facilities were used to restructure previous operating lease obligations and refinance certain existing indebtedness of the Company (including the previous operating lease facility described above in the first paragraph) and Weatherford Global.

During the quarter, the Company funded \$40.0 million under the ABS Operating Lease Facility. The funds were used for acquisitions, capital expenditures and for general working capital purposes. At September 30, 2001, the Company had outstanding lease balances totaling \$607.5 million and the equipment sold under the two new operating lease facilities had a book value of approximately \$503.7 million and the equipment sale resulted in a deferred gain of approximately \$103.8 million.

On October 23, 2001, the Company raised an additional \$122 million under the SSN Operating Lease Facility, which was funded primarily through an offering of an additional \$100 million of 8 7/8% senior secured notes due 2008, together with \$18.3 million in additional borrowings under an existing term loan and an additional \$3.7 million equity investment in an unaffiliated entity that is the lessor under the operating lease. The net proceeds from the sale of equipment under the SSN Operating Lease Facility were used to repay all of the outstanding indebtedness under its revolving credit facility, with the remaining proceeds used to repay a portion of the obligations under the ABS Operating Lease Facility and for other indebtedness and for general corporate purposes.

Under the operating lease facilities, the Company, as lessee, makes rental

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

payments to the lessor for the leased equipment. Under the SSN Operating Lease Facility, the rental payments include amounts based on the interest accrued on the 8 7/8% senior secured notes and an amount based on LIBOR or a variable base rate equal to the sum of the interest accrued on the lessor's term loan, the yield on the equity investment in the lessor and other fees. The equipment leased by the Company under the SSN Operating Lease Facility had an initial appraised value of \$549 million. The Company has residual value guarantees on the equipment under the SSN

8

Operating Lease Facility of approximately 82% of the funded amount that are due upon termination of the lease in the event the purchase option or renewal options are not selected by the lessee.

Under the ABS Operating Lease Facility, the rental payments are based on a variable rate plus the yield on the equity investment in the facility. The ABS Operating Lease Facility is collateralized by a first priority security interest in all of the assets under the facility. At the end of each lease term under the ABS Operating Lease Facility, the Company has residual value guarantees on the equipment under the facility of approximately 85% of the funded amount.

The Company annually assesses whether it is probable that the value of the property at the end of the lease terms will be less than the residual value guarantee for each operating lease. On the date the deficiency becomes probable, the expected deficiency (up to the maximum for which the Company is responsible) would be accrued by the Company using the straight-line method over the remaining term of the leases.

6. LONG-TERM DEBT

Castle Harlan's reduced ownership of our common stock following our offering in July 2001 constituted a change of control under the indenture governing our 9 7/8% senior discount notes, giving the holders of the notes the right to require us to repurchase those notes through August 23, 2001. We repurchased approximately \$5.8 million face value of the 9 7/8% senior discount notes using borrowings under our revolving credit facility.

7. EXTRAORDINARY LOSSES

During the quarter ended June 30, 2000, the Company incurred extraordinary losses of \$6.3 million (net of \$3.8 million income tax benefit) related to its debt restructuring that occurred concurrently with the Company's initial public offering of its common stock.

8. NON-RECURRING CHARGES

During the quarter ended June 30, 2000, the Company incurred non-recurring charges of \$7.1 million, related to the early termination of a management agreement and a consulting agreement and other related fees in connection with the Company's initial public offering and concurrent financing transactions.

9. RELATED PARTY TRANSACTIONS

Management Agreement

Castle Harlan, Inc., an affiliate of a significant stockholder of the Company, entered into an agreement whereby, in exchange for certain management services rendered, the Company agreed to pay a fee to Castle Harlan, Inc. totaling \$3 million per year. The amount was paid in advance for the first year and quarterly in advance thereafter. The agreement was for a term of five years,

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

renewable automatically from year to year thereafter unless Castle Harlan Inc. or its affiliates beneficially own less than 20% of the then outstanding stock of the Company.

In connection with the initial public offering in the quarter ended June 30, 2000, the Company terminated its Management Agreement with Castle Harlan, Inc. In exchange for such termination, the Company paid \$3 million in cash and issued 136,364 shares of its common stock to Castle Harlan.

Transitional Services Agreement

Concurrently with the closing of the Weatherford Global acquisition, Weatherford International Inc. and Weatherford Global, as the Company's subsidiary, entered into a transitional services agreement under which Weatherford International Inc. provided certain administrative and support services, such as shared corporate office space and general communication and information services, to Weatherford Global until June 9, 2001. Weatherford Global paid Weatherford International Inc. \$125,000 for thirty days of these services.

9

10. INDUSTRY SEGMENTS

Prior to the Weatherford Global merger, the Company had three principal industry segments: Domestic Rental and Maintenance, International Rental and Maintenance (including Canada) and Engineered Products. Due to the Weatherford Global merger, the changing nature of the markets the Company serves and in order to align ourselves with those markets, the Company changed its internal business organization during fiscal 2001. In addition, during the second quarter of fiscal 2002 the Company changed the name of its Rental and Maintenance segment to Contract Compression. The Company is now organized into four principal businesses or operating segments: Domestic Contract Compression, International Contract Compression (including Canada), Fabrication and Parts Sales and Service. The two Contract Compression Segments provide natural gas compression rental and maintenance services to meet specific customer requirements. The Fabrication Segment involves the design, fabrication and sale of natural gas and air compression packages to meet customer specifications. The International Contract Compression (including Canada) Segment represents all of the Company's international rental and maintenance (including Canada) operations. The Parts Sales and Service Segment involves the sale of parts to and the service of compressor units owned by oilfield companies.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately since each business requires different marketing strategies due to customer specifications. Each of these business groups has one or more general managers who report directly to the Chief Executive Officer ("CEO"). The CEO has been identified as the Chief Operating Decision Maker as defined by SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." We have restated segment results for prior periods as a result of our fiscal 2001 realignment.

In addition to these four operating segments, accounting, administration, facilities, finance, human resources, legal, marketing, procurement and sales groups also report to the CEO. The CEO does not evaluate the operating segments based upon fully allocated profit and loss statements, and the segments' reportable operating profit excludes allocated expenses. Operating segments do not have material sales to other segments, and accordingly, there are no

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

inter-segment revenues to be reported. The Company also does not allocate our restructuring charges, interest and other income, interest expense or income taxes to operating segments.

The following table presents sales and other financial information by industry segment for the three-month period ended September 30, 2001 (in thousands):

	DOMESTIC CONTRACT COMPRESSION	INTERNATIONAL CONTRACT COMPRESSION	FABRICATION	PARTS SALES AND SERVICE	CORP AND
Revenues	\$68,871	\$16,319	\$56,831	\$32,287

Operating income	\$13,381	\$2,598	\$ 1,717	\$ 358

No one customer accounted for more than 10% of revenues for any of the periods presented.

11. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company is involved in various pending or threatened legal actions. In the opinion of management, the amount of ultimate liability, if any, with respect to these actions will not have a materially adverse effect on the Company's financial position, operating results or cash flows.

The Company has no other commitments or contingent liabilities which, in the judgment of management, would result in losses that would materially affect the Company's consolidated financial position or operating results.

On May 24, 2001, the Company entered into an agreement with Tidewater to settle acquisition-related claims, which included costs for remediation pursuant to an environmental assessment, in exchange for payment to the Company of \$1 million and termination of the purchase price adjustment agreement, which eliminated any payment obligation by the Company under that agreement.

12. SUBSEQUENT EVENTS

On October 3, 2001, the Company completed its acquisition of TCSI, located in Belle Chase, Louisiana. TCSI provides compression parts and services to the natural gas producing industry as well as to the refinery and petrochemical industries. Under the terms of the purchase agreement, the Company acquired TCSI for approximately \$22.5 million in cash. In order to fund the acquisition, the Company used approximately \$19 million under its ABS Operating Lease Facility and approximately \$3.5 million under its revolving credit facility.

On October 17, 2001, 28,379 shares of the Company's common stock were released to the Company from an escrow account, in connection with the GCSI acquisition. The shares relate to a claim made by the Company against the former GCSI shareholders for various items pursuant to the terms of the GCSI acquisition agreement.

On October 23, 2001, the Company sold an additional \$122 million of compression equipment to BRL Universal Equipment 2001 A, L.P. and leased the equipment back under its existing SSN Operating Lease Facility. The Company used the net proceeds from the sale of the compression equipment to repay all of the outstanding indebtedness under its revolving credit facility with the remaining proceeds used to repay a portion of the obligations under its ABS Operating Lease Facility and/or for other indebtedness and for general corporate purposes.

UNIVERSAL COMPRESSION, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2001

1. BASIS OF PRESENTATION

Organization

Universal Compression, Inc. was formed on December 12, 1997 for the purpose of acquiring Tidewater Compression Service, Inc. ("TCS") from Tidewater Inc. ("Tidewater"). Upon completion of the acquisition on February 20, 1998 (the "Tidewater Acquisition"), Acquisition Corp. was merged with and into TCS, which

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

changed its name to Universal Compression, Inc. (the "Company"). The Company is a wholly owned subsidiary of Universal Compression Holdings, Inc. ("Holdings").

On May 30, 2000, Holdings completed an initial public offering of 7,275,000 shares of its common stock, which provided Holdings with net proceeds (after deducting underwriting discounts and commissions) of approximately \$149.2 million. Concurrently with the initial public offering, Holdings implemented a recapitalization pursuant to which all existing classes of Holdings' stock were converted into common stock. Also concurrently with the initial public offering, the Company entered into a \$50 million revolving credit facility and \$200 million operating lease facility. The proceeds of the offering and the \$62.6 million in initial proceeds from the new operating lease facility were used to repay \$192.7 million of indebtedness, and the remaining proceeds were used for working capital and to pay expenses associated with the offering and concurrent financing transactions.

On February 9, 2001, the Company completed its acquisition of Weatherford Global Compression Services, L.P. and certain related entities ("Weatherford Global"), a supplier of natural gas compression equipment and services and a division of Weatherford International, Inc. Under the terms of the agreement, a subsidiary of Weatherford International, Inc. was merged into Universal in exchange for 13.75 million shares of the Company's common stock. In connection with the acquisition, Weatherford agreed, subject to conditions, to limit its voting rights to 33 1/3% of the Company's voting power for up to two years.

On July 3, 2001, Holdings completed the public offering (the "Offering") of 1,333,333 shares of its common stock, par value \$0.01 per share, together with 2,666,667 shares of Holdings' common stock sold by certain selling stockholders, including Castle Harlan Partners III, L.P. and its affiliates. The shares were sold in the Offering at a price of \$28.50 per share, and the Offering provided Holdings with net proceeds (after deducting underwriting discounts and commissions) of approximately \$36.1 million.

The Company completed its acquisition of Gas Compression Services, Inc. ("GCSI") on September 15, 2000, of ISS Compression, Inc. and its operating subsidiary, IEW Compression, Inc. (collectively "IEW") on February 28, 2001, of the international operations of Compressor Systems, Inc. ("CSII") on April 23, 2001, of KCI, Inc. ("KCI") on July 11, 2001, of Louisiana Compressor Maintenance, Inc. ("LCM") on July 13, 2001 and of Technical Compression Service, Inc. ("TCSI") on October 3, 2001.

These consolidated financial statements should be read in conjunction with the consolidated financial statements presented in the Company's Annual Report on Form 10-K for the year ended March 31, 2001. That report contains a more comprehensive summary of the Company's major accounting policies. In the opinion of management, the accompanying unaudited consolidated financial statements contain all appropriate adjustments, all of which are normally recurring adjustments unless otherwise noted, considered necessary to present fairly the financial position of the Company and its consolidated subsidiaries and the results of operations and cash flows for the respective periods. Operating results for the three-month period and six-month period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2002.

RECLASSIFICATIONS

Certain reclassifications have been made to the prior year amounts to conform to the current year classification.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board ("FASB") issued

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." In June 2000, the FASB issued SFAS No. 138, which amends certain provisions of SFAS 133 to clarify four areas causing difficulties in implementation. The amendment included expanding the normal purchase and sale exemption for supply contracts, permitting the offsetting of certain intercompany foreign currency derivatives and thus reducing the number of third party derivatives, permitting hedge accounting for foreign-currency denominated assets and liabilities, and redefining interest rate risk to reduce sources of ineffectiveness. SFAS 133 requires that an entity recognize all derivative instruments as either assets or liabilities in the balance sheet and measure those instruments at fair

15

value. If certain conditions are met, a derivative may be specifically designated as (1) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment, (2) a hedge of the exposure to variable cash flows of a forecasted transaction, or (3) a hedge of the foreign currency exposure of a net investment in a foreign operation, an unrecognized firm commitment, an available-for-sale security, or a foreign-currency-denominated forecasted transaction. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. The Company adopted SFAS 133 and the corresponding amendments under SFAS 138 on April 1, 2001. This statement had no impact on our consolidated results of operations, financial position or cash flows.

In December 1999, the SEC issued Staff Accounting Bulletin ("SAB") 101, "Revenue Recognition in Financial Statements." SAB 101 summarizes certain of the SEC's views in applying generally accepted accounting principles to revenue recognition in financial statements. On June 26, 2000, the SEC issued an amendment to SAB 101, effectively delaying its implementation until the fourth quarter of fiscal years beginning after December 15, 1999. After reviewing SAB 101 and its amendment, the Company believes that our revenue recognition policy is appropriate and that the effects of SAB 101 and its amendment were immaterial to our results of operations.

In July 2001, the FASB issued SFAS 141, "Business Combinations," effective for all business combinations initiated after June 30, 2001 and SFAS 142, "Goodwill and Other Intangible Assets". We elected to adopt SFAS 142 effective April 1, 2001 as the first interim period financial statements had not previously been issued. SFAS 141 addresses financial accounting and reporting for goodwill and other intangible assets acquired in a business combination at acquisition. SFAS 142 addresses financial accounting and reporting for intangible assets acquired individually or with a group of other assets (but not those acquired in a business combination) at acquisition. It also addresses financial accounting and reporting for goodwill and other intangible assets subsequent to their acquisition. Had SFAS 142 been effective April 1, 2000, we would have adopted it in the first quarter of fiscal 2000 and our net income during the three months ended September 30, 2000 would have been \$2.5 million, as a result of the elimination of \$.7 million of amortization expense related to goodwill. In addition, our net loss and loss before taxes and extraordinary items during the six months ended September 30, 2000 would have been \$7.4 million and \$3.4 million, respectively, as a result of the elimination of \$1.3 million of amortization expense related to goodwill, together with a decrease in the recorded income tax benefit of \$0.5 million.

In August 2001, the FASB issued SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS No. 144). SFAS No. 144 provides new

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

guidance on the recognition of impairment losses on long-lived assets to be held and used or to be disposed of and also broadens the definition of what constitutes a discontinued operation and how the results of a discontinued operation are to be measured and presented. SFAS No. 144 supersedes SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" and Accounting Principle Board Opinion No. 30, while retaining many of the requirements of these two statements. Under SFAS No. 144, assets held for sale (APB Opinion No. 30) that are a component of an entity will be included in discontinued operations if the operations and cash flows will be or have been eliminated from the ongoing operations of the entity and the entity will not have any significant continuing involvement in the operations prospectively. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001, with early adoption encouraged. SFAS No. 144 is not expected to materially change the methods used by the Company to measure impairment losses on long-lived assets, but may result in additional future dispositions being reported as discontinued operations than is currently permitted. The Company plans to adopt SFAS No. 144 on April 1, 2002.

3. ACQUISITIONS

On April 23, 2001, the Company acquired the international operations of Compressor Systems, Inc. based in Midland, Texas for approximately \$30 million in cash. The acquisition resulted in the recording of \$13 million of goodwill, which is not subject to amortization.

On July 11, 2001, the Company acquired KCI, a Tulsa, Oklahoma-based fabricator of large horsepower compressors for approximately \$26.3 million in cash and 694,927 shares of the Company's common stock. In addition, the Company incurred costs and assumed other liabilities related to the transaction of approximately \$6 million. Concurrently with the acquisition, the Company repaid substantially all of KCI's approximately \$51 million of indebtedness. In order to fund the acquisition, the Company used approximately \$50 million of the availability under its revolver and \$27.3 million of the funds received from the public offering of its stock in July 2001. The acquisition resulted in the recording of \$40.2 million of goodwill, which is not subject to amortization.

On July 13, 2001, the Company acquired LCM, a Houma, Louisiana based supplier of maintenance, repair, overhaul and upgrade services to the natural gas pipeline and related markets for approximately \$26.3 million in cash. In order to fund the acquisition the Company used approximately \$25 million of the availability under its revolving credit facility and \$1.3 million of the funds received from the public offering of its stock. The acquisition resulted in the recording of \$17.4 million of goodwill, which is not subject to amortization.

16

The Company's acquisitions were accounted for as purchases and accordingly, the results of operations of the acquired businesses are included in the accompanying financial statements from the date of acquisition.

5. OPERATING LEASE FACILITIES

In May 2000, the Company and Holdings entered into a \$200 million operating lease facility pursuant to which the Company sold and leased back certain compression equipment from a Delaware business trust for a five-year term. The rental payments under the lease facility included an amount based on LIBOR plus a variable amount depending on the Company's operating and financial results, applied to the funded amount of the lease. Under the lease facility, the Company received an aggregate of approximately \$155 million in proceeds from the sale of compression equipment in May, November and December 2000 and in connection with the GCSI acquisition, in September 2000. The equipment was sold and leased back by the Company for a five-year period from May 2000 and deployed by the Company under its normal operating procedures. The equipment sold had a book value of approximately \$106 million and the equipment sale resulted in deferred gain of approximately \$49 million that was transferred to new operating lease facilities.

The Company had residual value guarantees on the equipment under the operating lease facility of approximately 85% of the funded amount that were due upon termination of the lease and which could be satisfied by a cash payment or the exercise of the purchase option. The facility contained certain covenants restricting the Company's operations, including its ability to enter into acquisition and sales transactions, incur additional indebtedness, permit additional liens on its assets and pay dividends. The Company's obligations under this facility were collateralized by liens on its compression equipment subject to the lease and certain related rights. Under the operating lease facility, Universal was the lessee and the Company guaranteed certain of Universal's obligations thereunder. The Company has replaced this facility with new operating lease facilities with similar terms.

In connection with the Weatherford Global acquisition, on February 9, 2001, the Company raised \$427 million under a new seven-year term senior secured notes operating lease facility (the "SSN Operating Lease Facility") funded primarily through an offering of \$350 million 8 7/8% senior secured notes due 2008 by an unaffiliated entity. The Company also entered into a new \$125 million secured revolving credit facility and a new \$200 million asset-backed securitization operating lease facility (the "ABS Operating Lease Facility"), which facility consists of a series of six leases with terms ranging from three to eight years. At the closing of the Weatherford Global acquisition, the Company funded approximately \$80 million under the ABS Operating Lease Facility and had no amounts outstanding under the new revolving credit facility. The proceeds from the two new operating lease facilities were used to restructure existing operating lease obligations and refinance certain previous indebtedness of the Company (including the previous operating lease facility described above in the first paragraph) and Weatherford Global.

During the quarter, the Company funded \$40 million under the ABS Operating Lease Facility. The funds were used for acquisitions, capital expenditures and for general working capital purposes. At September 30, 2001, the Company had outstanding lease balances totaling \$607.5 million and the equipment sold under the two new operating lease facilities had a book value of approximately \$503.7 million and the equipment sale resulted in a deferred gain of approximately \$103.8 million.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

On October 23, 2001, the Company raised an additional \$122 million under the SSN Operating Lease Facility, which was funded primarily through an offering of an additional \$100 million of 8 7/8% senior secured notes due 2008, together with \$18.3 million in additional borrowings under an existing term loan and an additional \$3.7 million equity investment in an unaffiliated entity that is the lessor under the operating lease. The net proceeds from the sale of equipment under the SSN Operating Lease Facility were used to repay all of the outstanding indebtedness under its revolving credit facility, with the remaining proceeds used to repay a portion of the obligations under the ABS Operating Lease Facility and for other indebtedness and for general corporate purposes.

Under the operating lease facilities, the Company, as lessee, makes rental payments to the lessor for the leased equipment. Under the SSN Operating Lease Facility, the rental payments include amounts based on the interest accrued on the 8 7/8% senior secured notes and an amount based on LIBOR or a variable base rate equal to the sum of the interest accrued on the lessor's term loan, the

17

yield on the equity investment in the lessor and other fees. The equipment leased by the Company under the SSN Operating Lease Facility had an initial appraised value of \$549 million. The Company has residual value guarantees on the equipment under the SSN Operating Lease Facility of approximately 82% of the funded amount that are due upon termination of the lease in the event the purchase option or renewal options are not selected by the lessee.

Under the ABS Operating Lease Facility, the rental payments are based on a variable rate plus the yield on the equity investment in the facility. The ABS Operating Lease Facility is collateralized by a first priority security interest in all of the assets under the facility. At the end of each lease term under the ABS Operating Lease Facility, the Company has residual value guarantees on the equipment under the facility of approximately 85% of the funded amount.

The Company annually assesses whether it is probable that the value of the property at the end of the lease terms will be less than the residual value guarantee for each operating lease. On the date the deficiency becomes probable, the expected deficiency (up to the maximum for which the Company is responsible) would be accrued by the Company using the straight-line method over the remaining term of the leases.

6. LONG-TERM DEBT

Castle Harlan's reduced ownership of our common stock following our offering in July 2001 constituted a change of control under the indenture governing our 9 7/8% senior discount notes, giving the holders of the notes the right to require us to repurchase those notes through August 23, 2001. We repurchased approximately \$5.8 million face value of the 9 7/8% senior discount notes using borrowings under our revolving credit facility.

7. EXTRAORDINARY LOSSES

During the quarter ended June 30, 2000, the Company incurred extraordinary losses of \$3.4 million (net of \$2.0 million income tax benefit) related to its debt restructuring that occurred concurrently with Holdings' initial public offering of its common stock.

8. NON-RECURRING CHARGES

During the quarter ended June 30, 2000, the Company incurred non-recurring charges of \$7.1 million, related to the early termination of a management

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

agreement and a consulting agreement and other related fees in connection with Holdings' initial public offering and concurrent financing transactions.

9. RELATED PARTY TRANSACTIONS

Management Agreement

Castle Harlan, Inc., an affiliate of a significant stockholder of Holdings, entered into an agreement whereby, in exchange for certain management services rendered, Holdings agreed to pay a fee to Castle Harlan Inc. totaling \$3 million per year. The amount was paid in advance for the first year and quarterly in advance thereafter. The agreement was for a term of five years, renewable automatically from year to year thereafter unless Castle Harlan Inc. or its affiliates beneficially own less than 20% of the then outstanding stock of Holdings.

In connection with the initial public offering in the quarter ended June 30, 2000, Holdings terminated its Management Agreement with Castle Harlan, Inc. In exchange for such termination, Holdings paid \$3 million in cash and issued 136,364 shares of its common stock to Castle Harlan.

Transitional Services Agreement

Concurrently with the closing of the Weatherford Global acquisition, Weatherford International, Inc. and Weatherford Global, as the Company's subsidiary, entered into a transitional services agreement under which Weatherford International, Inc. provided certain administrative and support services, such as shared corporate office space and general communication and information services, to Weatherford Global until June 9, 2001. Weatherford Global paid Weatherford International, Inc \$125,000 for thirty days of these services.

18

10. INDUSTRY SEGMENTS

Prior to the Weatherford Global merger, the Company had three principal industry segments: Domestic Rental and Maintenance, International Rental and Maintenance (including Canada) and Engineered Products. Due to the Weatherford Global merger, the changing nature of the markets the Company serves and in order to align ourselves with those markets, the Company changed its internal business organization during fiscal 2001. In addition, during the second quarter of fiscal 2002 the Company changed the name of its Rental and Maintenance segments to Contract Compression. The Company is now organized into four principal businesses or operating segments: Domestic Contract Compression, International Contract Compression (including Canada), Fabrication and Parts Sales and Service. The two Contract Compression Segments provide natural gas compression rental and maintenance services to meet specific customer requirements. The Fabrication Segment involves the design, fabrication and sale of natural gas and air compression packages to meet customer specifications. The International Contract Compression (including Canada) Segment represents all of the Company's international rental and maintenance (including Canada) operations. The Parts Sales and Service Segment involves the sale of parts to and the service of compressor units owned by oilfield companies.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately since each business

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

requires different marketing strategies due to customer specifications. Each of these business groups has one or more general managers who report directly to the Chief Executive Officer ("CEO"). The CEO has been identified as the Chief Operating Decision Maker as defined by SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." The Company has restated segment results for prior periods as a result of our fiscal 2001 realignment.

In addition to these four operating segments, accounting, administration, facilities, finance, human resources, legal, marketing, procurement and sales groups also report to the CEO. The CEO does not evaluate the operating segments based upon fully allocated profit and loss statements, and the segments' reportable operating profit excludes allocated expenses. Operating segments do not have material sales to other segments, and accordingly, there are no inter-segment revenues to be reported. The Company also does not allocate our restructuring charges, interest and other income, interest expense or income taxes to operating segments.

The following table presents sales and other financial information by industry segment for the three-month period ended September 30, 2001 (in thousands):

	DOMESTIC CONTRACT COMPRESSION	INTERNATIONAL CONTRACT COMPRESSION	FABRICATION	PARTS SALES AND SERVICE	CORP AND
Revenues	\$68,871	\$16,319	\$56,831	\$32,287	
Gross margin	\$43,882	\$11,559	\$ 6,051	\$ 6,637	
Operating income	\$29,708	\$ 6,250	\$ 1,876	\$ 2,770	

The following table presents sales and other financial information by industry segment for the three-month period ended September 30, 2000 (in thousands):

	DOMESTIC CONTRACT COMPRESSION	INTERNATIONAL CONTRACT COMPRESSION	FABRICATION	PARTS SALES AND SERVICE	CORP AND
Revenues	\$24,396	\$4,286	\$8,318	\$1,926	
Gross margin	\$15,525	\$3,254	\$1,363	\$ 401	
Operating income	\$ 7,678	\$1,290	\$ 796	\$ 331	

The following table presents sales and other financial information by industry segment for the six-month period ended September 30, 2001 (in thousands):

	DOMESTIC CONTRACT COMPRESSION	INTERNATIONAL CONTRACT COMPRESSION	FABRICATION	PARTS SALES AND SERVICE	CORP AND
Revenues	\$130,790	\$30,350	\$89,065	\$64,464	
Gross margin	\$ 82,631	\$21,195	\$10,247	\$13,577	
Operating income	\$ 54,069	\$11,938	\$ 3,276	\$ 6,786	

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

19

The following table presents sales and other financial information by industry segment for the six-month period ended September 30, 2000 (in thousands):

	DOMESTIC CONTRACT COMPRESSION	INTERNATIONAL CONTRACT COMPRESSION	FABRICATION	PARTS SALES AND SERVICE	CORP AND
Revenues	\$46,571	\$8,385	\$15,979	\$2,421	
Gross margin	\$29,770	\$6,313	\$ 2,885	\$ 487	
Operating income	\$13,381	\$2,598	\$ 1,717	\$ 358	

No one customer accounted for more than 10% of revenues for any of the periods presented.

11. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company is involved in various pending or threatened legal actions. In the opinion of management, the amount of ultimate liability, if any, with respect to these actions will not have a materially adverse effect on the Company's financial position, operating results or cash flows.

The Company has no other commitments or contingent liabilities which, in the judgment of management, would result in losses that would materially affect the Company's consolidated financial position or operating results.

On May 24, 2001, the Company entered into an agreement with Tidewater to settle acquisition-related claims, which included costs for remediation pursuant to an environmental assessment, in exchange for payment to the Company of \$1 million and termination of the purchase price adjustment agreement, which eliminated any payment obligation by the Company under that agreement.

12. SUBSEQUENT EVENTS

On October 3, 2001, the Company completed its acquisition of TCSI, located in Belle Chase, Louisiana. TCSI provides compression parts and services to the natural gas producing industry as well as to the refinery and petrochemical industries. Under the terms of the purchase agreement, the Company acquired TCSI for approximately \$22.5 million in cash. In order to fund the acquisition, the Company used approximately \$19 million under its ABS Operating Lease Facility and approximately \$3.5 million under its revolving credit facility.

On October 17, 2001, 28,379 shares of the Company's common stock were released to the Company from an escrow account, in connection with the GCSI acquisition. The shares relate to a claim made by the Company against the former GCSI shareholders for various items pursuant to the terms of the GCSI acquisition agreement.

On October 23, 2001, the Company sold an additional \$122 million of compression equipment to BRL Universal Equipment 2001 A, L.P. and leased the equipment back under its existing SSN Operating Lease Facility. The Company used the net proceeds from the sale of the compression equipment to repay all of the outstanding indebtedness under its revolving credit facility with the remaining proceeds used to repay a portion of the obligations under its ABS Operating Lease Facility and/or for other indebtedness and for general corporate purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report contains "forward-looking statements" intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in report are forward-looking statements. You can identify many of these statements by looking for words such as "believes," "expects," "will," "intends," "projects," "anticipates," "estimates," "continues" or similar words or the negative thereof.

Such forward-looking statements include, without limitation:

- o anticipated cost savings and other synergies resulting from the businesses we have acquired;
- o the sufficiency of available cash flows to fund continuing operations;
- o anticipated synergies, future revenues, gross margins and EBITDA, as adjusted, in our business and primary business segments, including from our acquisitions;
- o capital improvements;
- o the expected amount of capital expenditures;
- o our future financial position;
- o the future value of our equipment;
- o our growth strategy and projected costs; and
- o plans and objectives of our management for our future operations.

Such forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this report. The risks related to our business described in our Annual Report on Form 10-K for the year ended March 31, 2001 under "Risk Factors" and elsewhere could cause actual results to differ from those described in, or otherwise projected or implied by, the forward-looking statements. Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, these expectations may prove to be incorrect. Important factors that could cause actual results to differ materially from the expectations reflected in these forward-looking statements include, among other things:

- o our inability to successfully integrate the business we have acquired or may acquire in the future;
- o conditions in the oil and gas industry, including the demand for natural gas and the impact of the price of natural gas;
- o competition among the various providers of contract compression

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

services;

- o changes in safety and environmental regulations pertaining to the production and transportation of natural gas;
- o changes in economic or political conditions in operating markets;
- o acts of war or terrorism or governmental or military responses thereto;
- o introduction of competing technologies by other companies;
- o our ability to retain and grow our customer base;
- o employment workforce factors, including loss of key employees; and
- o liability claims related to the use of our products and services.

21

All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section and elsewhere in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and in our Annual Report on Form 10-K for the year ended March 31, 2001 under "Risk Factors." The forward-looking statements included herein are only made as of the date of this report and we undertake no obligation to publicly update such forward-looking statements to reflect new information, subsequent events or otherwise.

The terms "our", "we," and "us" when used in this report refer to Universal Compression Holdings, Inc. and its subsidiaries, including Universal Compression, Inc. ("Universal"), as a combined entity, except where it is made clear that such term means only the parent company, and includes its predecessors.

GENERAL

We were formed in December 1997 to acquire all of the outstanding stock of Tidewater Compression Service, Inc. Upon completion of the acquisition in February 1998, Tidewater Compression became our wholly-owned operating subsidiary and changed its name to Universal Compression, Inc. Through this subsidiary, our gas compression service operations date back to 1954.

During the quarter ended June 30, 2000, we completed an initial public offering of 7,275,000 shares of our common stock, par value \$0.01 per share, which provided us with net proceeds (after deducting underwriting discounts and commissions) of approximately \$149.2 million. Concurrently with our initial public offering, we implemented a recapitalization pursuant to which all then existing classes of our stock were converted into common stock. We used the proceeds of the offering and the \$62.6 million in initial proceeds from an operating lease facility to repay \$192.7 million of indebtedness, and the remaining proceeds for working capital and to pay expenses associated with the offering and concurrent financing transactions.

On February 9, 2001, the Company completed its acquisition of Weatherford Global Compression Services, L.P. and certain related entities ("Weatherford Global"), a supplier of natural gas compression equipment and services and a division of Weatherford International, Inc. Under the terms of the agreement, a

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

subsidiary of Weatherford International, Inc. was merged into Universal in exchange for 13.75 million shares of the Company's common stock. In connection with the acquisition, Weatherford agreed, subject to conditions, to limit its voting rights to 33 1/3% of the Company's voting power for up to two years.

On July 3, 2001, we completed the public offering of 1,333,333 shares of our common stock, together with 2,666,667 shares of our common stock sold by certain selling stockholders, including Castle Harlan Partners III, L.P. and its affiliates. The shares were sold in the offering at a price of \$28.50 per share, and the offering provided us with net proceeds (after deducting underwriting discounts and commissions) of approximately \$36.1 million. We used the proceeds to fund the cash portion of the purchase price for our acquisition of KCI, Inc., to repay a portion of KCI's indebtedness concurrently with the acquisition and to partially fund the purchase price for our acquisition of LCM. Following the offering, Castle Harlan owned or had voting control over approximately 6% of our outstanding common stock.

Consummation of the July 2001 offering, and Castle Harlan's reduced ownership of our common stock following that offering, gave the holders of Universal's 9 7/8% senior discount notes the right to require us to repurchase those notes at a price equal to 101% of the accreted value, plus accrued and unpaid interest to date. We repurchased approximately \$5.8 million face value of the 9 7/8% senior discount notes using borrowings under our revolving credit facility.

Since our initial public offering, we have completed seven primary acquisitions. Our completed acquisitions include GCSI in September 2000, Weatherford Global and IEW in February 2001, CSII in April 2001, and KCI and LCM in July 2001, and TCSI in October 2001. GCSI added approximately 138,000 horsepower to our fleet and provided us with an increased customer base, additional market segments and additional fabrication capabilities. IEW added approximately 26,000 horsepower to our fleet, as well as important offshore service capabilities. CSII added approximately 34,000 horsepower to our fleet in Mexico and Argentina. KCI added approximately 125,000 horsepower to our domestic fleet as well as significant fabrication expertise and capabilities, a 100,000 square foot fabrication facility in Tulsa, Oklahoma and expertise in the pipeline and related natural gas markets. LCM added to our ability to be a supplier of maintenance, repair, overhaul and upgrade services to natural gas pipeline and related markets. TCSI added to our compression parts and service capabilities for the natural gas producing industry as well as the refinery and petrochemical industries.

Our Weatherford Global acquisition in February 2001 more than doubled our size. We acquired Weatherford Global, which was the second largest natural gas compression services company in the world in terms of horsepower, for 13,750,000 shares of our common stock (approximately 45% of our current total outstanding shares) and the restructuring of approximately \$323 million in debt and operating lease obligations. This acquisition added over 950,000 horsepower to our fleet and provided us with a number of

22

important strategic and operational benefits, including expanded international operations, an increased parts sales and service business and cost savings and synergies. Pursuant to a voting agreement, Weatherford agreed to limit its voting power to 33 1/3% of our outstanding common stock, subject to certain limitations.

We are the second largest provider of natural gas compressor rental, sales,

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

operations, maintenance and fabrication services to the natural gas industry in terms of horsepower, with one of the largest natural gas compressor fleets in the U.S. and a strong presence in key international markets.

UNIVERSAL COMPRESSION HOLDINGS, INC.

Three months ended September 30, 2001 compared to three months ended September 30, 2000

Revenues. Our total revenues for the three months ended September 30, 2001 increased \$135.2 million, or 348%, to \$174.1 million, compared to \$38.9 million for the three months ended September 30, 2000. Our contract compression revenues increased by \$56.5 million, or 197%, to \$85.2 million during the three months ended September 30, 2001 from \$28.7 million during the three months ended September 30, 2000. Domestic contract compression revenues increased by \$44.5 million, or 182%, to \$68.9 million during the three months ended September 30, 2001 from \$24.4 million during the three months ended September 30, 2000. Our international contract compression revenues increased by \$12 million, or 281%, to \$16.3 million during the three months ended September 30, 2001 from \$4.3 million during the three months ended September 30, 2000. The increase in domestic contract compression revenues primarily resulted from continued expansion of our contract compression fleet and through our acquisitions. The increase in international contract compression revenues resulted from expansion of our international contract compression fleet, primarily through the addition of horsepower from our acquisitions, particularly our Weatherford Global acquisition, continued expansion of our existing contract compression fleet and continued high utilization rates.

Domestic average contracted horsepower for the three months ended September 30, 2001 increased by 200% to approximately 1,603,000 horsepower from approximately 535,000 horsepower for the three months ended September 30, 2000. In addition, international average contracted horsepower for the three months ended September 30, 2001 increased by 469% to approximately 313,000 horsepower from approximately 55,000 horsepower for the three months ended September 30, 2000, primarily through expansion of our international contract compression fleet, continued high utilization rates and additional service. Our average horsepower utilization rate for the three months ended September 30, 2001 was approximately 90.2%, up from 86.2% in the three months ended September 30, 2000. At the end of the quarter, we had approximately 2.1 million available horsepower. These average horsepower and utilization amounts include KCI for 81 days and LCM for 79 days from the date of the acquisitions.

Our revenue from fabrication increased to \$56.8 million for the quarter from \$8.3 million in the same quarter a year ago, an increase of 583%. The increase in fabrication revenue, consisting mostly of equipment fabrication, was due primarily to our acquisitions. Revenues from fabrication vary quarter to quarter due to the time of completion of the equipment being sold. Our backlog of fabrication projects at September 30, 2001 was approximately \$101 million, compared with a backlog of \$26.8 million at the same time a year earlier. From June 30 to September 30, 2001, our backlog increased \$54 million, primarily due to the acquisition of KCI.

Our revenues from parts sales and service increased to \$32.2 million during the three months ended September 30, 2001 from \$1.9 million during the three months ended September 30, 2000, an increase of 1,576%. The increase was due primarily to our acquisitions of Weatherford Global and IEW, which have made the parts sales and service segment a more significant part of our business.

Gross Margin. Our gross margin (defined as total revenue less rental expense, cost of sales (exclusive of depreciation and amortization), gain on asset sales and interest income) for the three months ended September 30, 2001

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

increased \$47.7 million, or 233%, to \$68.1 million from \$20.4 million for the three months ended September 30, 2000. Our contract compression gross margin for the three months ended September 30, 2001 increased \$36.6 million, or 195%, to \$55.4 million compared to a gross margin of \$18.8 million for the three months ended September 30, 2000. Contract compression gross margin increased primarily as the result of our contract compression revenue growth discussed above and operating cost improvements realized by contract compression operations. Our fabrication gross margin for the three months ended September 30, 2001 increased \$4.7 million, or 344%, to \$6.0 million compared to a gross margin of \$1.4 million for the three months ended September 30, 2000. Fabrication gross margin increased primarily due to increased sales resulting from our acquisitions, as well as strong customer demand, cost reductions and resulting gross margin effects.

Our parts sales and service gross margin for the three months ended September 30, 2001 increased \$6.2 million, or 1,555%, to \$6.6 million compared to a gross margin of \$401 thousand for the three months ended September 30, 2000. Parts sales and service gross margin increased primarily due to our acquisitions, our continued growth within the industry and operating cost improvements.

23

Selling, General and Administrative Expenses. Our selling, general and administrative expenses for the three months ended September 30, 2001 increased \$12.0 million, or 319%, compared to the three months ended September 30, 2000. Selling, general and administrative expenses represented approximately 9% of revenue for the three months ended September 30, 2001 compared to approximately 10% of revenue for the three months ended September 30, 2000. The percentage decrease was primarily due to synergies achieved in our acquisitions. These reductions have been offset partially by increases in certain expenses related to our operating as a publicly traded company.

EBITDA, As Adjusted. Our EBITDA, as adjusted, for the three months ended September 30, 2001 increased 212% to \$52.1 million from \$16.7 million for the three months ended September 30, 2000, primarily due to increases in total horsepower from acquisitions, continued expansion of our existing contract compression fleet and parts and service division, improved utilization of the compression contract compression fleet, gross margin contribution from fabrication, operating cost improvements realized by contract compression operations, and decreased selling, general and administrative expenses as a percentage of revenues, as discussed above. EBITDA, as adjusted, is defined as net income plus income taxes, interest expense, leasing expense, management fees, depreciation and amortization, excluding non-recurring items and extraordinary gains or losses. EBITDA, as adjusted, is not a measure of financial performance under generally accepted accounting principles and should not be considered an alternative to operating income or net income as an indicator of our operating performance or to net cash provided by operating activities as a measure of its liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. EBITDA, as adjusted, represents a measure upon which management assesses financial performance, and certain covenants in our borrowing arrangements are tied to similar measures. We believe that EBITDA, as adjusted, is a standard measure of financial performance used for valuing companies in the compression industry. EBITDA, as adjusted, is a useful yardstick as it measures the capacity of companies to generate cash without reference to how they are capitalized, how they account for significant non-cash charges for depreciation and amortization associated with assets used in the business (the majority of which are long-lived assets in the compression industry), or what their tax attributes may be.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

Depreciation and Amortization. Depreciation and amortization increased by \$5.0 million to \$11.7 million during the three months ended September 30, 2001, compared to \$6.7 million during the three months ended September 30, 2000. The increase resulted primarily from the expansion of our contract compression fleet, offset partially by the compression equipment sold and leased back under our operating lease facilities. Included in depreciation and amortization for the three months ended September 30, 2000 is \$0.7 million of amortization expense. As of April 1, 2001, the Company adopted SFAS 142, which among other things, eliminated amortization of goodwill.

Operating Lease. Operating lease expense increased by \$11.0 million to \$13.0 million during the three months ended September 30, 2001 from \$2 million during the three months ended September 30, 2000. The increase is due to the expense associated with increased balances on the operating lease facilities entered into concurrently with the Weatherford Global merger. The outstanding balance under the operating lease facilities at September 30, 2001 was \$607.5 million, consisting of \$427.0 million under our SSN Operating Lease Facility and \$180.5 million under our asset-backed securitization operating lease facility.

Interest Expense. Interest expense increased \$1.4 million to \$6.6 million for the three months ended September 30, 2001 from \$5.2 million for the three months ended September 30, 2000 primarily due to the increased accretion of our 9 7/8% senior discount notes and interest on the outstanding balance of our revolving credit facility.

Net Income. We had net income of \$12.8 million for the three months ended September 30, 2001 compared to a net income of \$1.8 million for the three months ended September 30, 2000. The change was primarily due to an increase in our gross margins and an increase in our contracted horsepower related to the continued expansion of our fleet, offset partially by increased depreciation, increased leasing expense resulting from our operating lease facilities, increased selling, general and administrative expense resulting from our increased headcount due to growth and increased income tax expense resulting from our positive operating income.

Six months ended September 30, 2001 compared to six months ended September 30, 2000

Revenues. Our total revenues for the six months ended September 30, 2001 increased \$241.3 million, or 329%, to \$314.7 million, compared to \$73.4 million for the six months ended September 30, 2000. Our contract compression revenues increased by \$106.1 million, or 193%, to \$161.1 million during the six months ended September 30, 2001 from \$55.0 million during the six months ended September 30, 2000. Domestic contract compression revenues increased by \$84.2 million, or 181%, to \$130.8 million during the six months ended September 30, 2001 from \$46.6 million during the six months ended September 30, 2000. Our international contract compression revenues increased by \$21.9 million, or 262%, to \$30.3 million during the six months ended September 30, 2001 from \$8.4 million during the six months ended September 30, 2000. The increase in domestic contract compressions revenue primarily resulted from continued expansion of our contract compression fleet and through our acquisitions. The increase in international contract compression revenues resulted from expansion of our international contract compression fleet, primarily through the addition

of horsepower from our acquisitions, particularly our Weatherford Global acquisition, continued expansion of our contract compression fleet and continued high utilization rates.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

Domestic average rented horsepower for the six months ended September 30, 2001 increased by 197% to approximately 1,529,000 horsepower from approximately 514,000 horsepower for the six months ended September 30, 2000. In addition, international average rented horsepower for the six months ended September 30, 2001 increased 435% to approximately 289,000 horsepower from approximately 54,000 horsepower for the six months ended September 30, 2000, primarily through expansion of our international contract compression fleet, continued high utilization rates and additional service. Our average horsepower utilization rate for the six months ended September 30, 2001 was approximately 88.7%, up from 85.3% in the six months ended September 30, 2000. As of September 30, 2001, we had approximately 2.0 million available horsepower. These average horsepower and utilization amounts include KCI for 81 days and LCM for 79 days from the date of the acquisitions.

Our revenue from fabrication increased to \$89.0 million for the six-month period from \$15.9 million for the comparable period last year, an increase of 457%. The increase in fabrication revenue, consisting mostly of equipment fabrication, was due primarily to our acquisitions. Revenues from fabrication vary quarter to quarter due to the time of completion of the equipment being sold. Our backlog of fabrication projects at September 30, 2001 was approximately \$101 million, compared with a backlog of \$26.8 million at the same time a year earlier. From June 30 to September 30, 2001, our backlog increased \$54 million, primarily due to the acquisition of KCI.

Our revenues from parts sales and service increased to \$64.5 million during the six months ended September 30, 2001 from \$2.4 million during the six months ended September 30, 2000, an increase of 2,563%. Parts sales and service gross margin increased primarily due to our acquisitions, our continued growth within the industry and operating cost improvements.

Gross Margin. Our gross margin (defined as total revenue less rental expense, cost of sales (exclusive of depreciation and amortization), gain on asset sales and interest income) for the six months ended September 30, 2001 increased \$88.2 million, or 223%, to \$127.7 million from \$39.5 million for the six months ended September 30, 2000. Our contract compression gross margin for the six months ended September 30, 2001 increased \$67.7 million, or 188%, to \$103.8 million compared to a gross margin of \$36.1 million for the six months ended September 30, 2000. Contract compression gross margin increased primarily as the result of our contract compression revenue growth discussed above and operating cost improvements realized by contract compression operations. Our fabrication gross margin for the six months ended September 30, 2001 increased \$7.4 million, or 255%, to \$10.2 million compared to a gross margin of \$2.8 million for the six months ended September 30, 2000. Fabrication gross margin increased primarily due to increased sales resulting from our acquisitions, as well as strong customer demand, cost reductions and their resulting gross margin effects.

Our parts sales and service gross margin for the six months ended September 30, 2001 increased \$13 million or 2,688%, to \$13.6 million compared to a gross margin of \$487 thousand for the six months ended September 30, 2000. Parts sales and service gross margin increased primarily due to our acquisitions, our continued growth within the industry and operating cost improvements.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses for the six months ended September 30, 2001 increased \$21.3 million or 294% compared to the six months ended September 30, 2000. Selling, general and administrative expenses represented approximately 9% of revenue for the six months ended September 30, 2001 compared to approximately 10% of revenue for the six months ended September 30, 2000. The percentage decrease was primarily due to the elimination of management fees in connection with our initial public offering in May 2000 in addition to synergies achieved

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

in our acquisitions. These reductions have been offset partially by increases in certain expenses related to our operating as a publicly traded company.

EBITDA, As Adjusted. Our EBITDA, as adjusted, for the six months ended September 30, 2001 increased 205% to \$98.9 million from \$32.4 million for the six months ended September 30, 2000, primarily due to increases in horsepower from acquisitions, continued expansion of our contract compression fleet parts and service division, improved utilization of the compression contract compression fleet, gross margin contribution from fabrication, operating cost improvements realized by contract compression operations, and decreased selling, general and administrative expenses as a percentage of revenue, as discussed above. EBITDA, as adjusted, is defined as net income plus income taxes, interest expense, leasing expense, management fees, depreciation and amortization, excluding non-recurring items and extraordinary gains or losses. EBITDA, as adjusted, is not a measure of financial performance under generally accepted accounting principles and should not be considered an alternative to operating income or net income as an indicator of our operating performance or to net cash provided by operating activities as a measure of its liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. EBITDA, as adjusted, represents a measure upon which management assesses financial performance, and certain covenants in our borrowing arrangements are tied to similar measures. We believe that EBITDA, as adjusted, is a standard measure of financial performance used for valuing companies in the compression industry. EBITDA, as adjusted, is a useful yardstick as it

25

measures the capacity of companies to generate cash without reference to how they are capitalized, how they account for significant non-cash charges for depreciation and amortization associated with assets used in the business (the majority of which are long-lived assets in the compression industry), or what their tax attributes may be.

Non-recurring Charges. During the six months ended September 30, 2000, we incurred non-recurring charges of \$7.1 million related to the early termination of a management agreement and a consulting agreement and other related fees in connection with our initial public offering and concurrent financing transactions.

Depreciation and Amortization. Depreciation and amortization increased by \$8.9 million to \$23.1 million during the six months ended September 30, 2001, compared to \$14.2 million during the six months ended September 30, 2000. The increase resulted primarily from the expansion of our contract compression fleet, offset partially by the compression equipment sold and leased back under our operating lease facilities. Included in depreciation and amortization for the six months ended September 30, 2000 is \$1.3 million of amortization expense. As of April 1, 2001, the Company adopted SFAS 142, which among other things, eliminated amortization of goodwill.

Operating Lease. Operating lease expense increased by \$22.9 million to \$25.6 million during the six months ended September 30, 2001 from \$2.7 million during the six months ended September 30, 2000. The increase is due to the expense associated with increased balances on the operating lease facilities entered into concurrently with the Weatherford Global merger. The outstanding balance under the operating lease facilities at September 30, 2001 was \$607.5 million, consisting of \$427.0 million under our SSN Operating Lease Facility and \$180.5 million under our asset-backed securitization operating lease facility.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

Interest Expense. Interest expense decreased \$1.1 million to \$12.1 million for the six months ended September 30, 2001 from \$13.2 million for the six months ended September 30, 2000, primarily as a result of the reduction of debt resulting from our initial public offering and financing restructurings. The decrease in interest expense was offset partially by increased accretion of our 9 7/8% senior discount notes and interest on the outstanding balance of our revolving credit facility.

Extraordinary Loss. During the six months ended September 30, 2000, we incurred extraordinary losses of \$10.0 million (\$6.3 million net of income tax) related to debt restructurings that occurred concurrently with our initial public offering.

Net Income (Loss). We had net income of \$23.3 million for the six months ended September 30, 2001 compared to a net loss of \$9.2 million for the six months ended September 30, 2000. The change was primarily due to extraordinary and non-recurring charges incurred during the six months ended September 30, 2000, as well as an increase in our gross margins and decrease in interest expense, offset partially by increased depreciation and amortization related to the continued expansion of our fleet, increased leasing expense resulting from our operating lease facilities, increased selling, general and administrative expense resulting from our increased headcount due to growth and increased income tax expense resulting from our positive operating income.

Liquidity and Capital Resources

In May 2000, concurrently with our initial public offering, we entered into a \$200 million, five-year operating lease facility, which involved a sale and leaseback of compression equipment to a trust. Under this operating lease facility, certain of our compression equipment was sold to the trust for approximately \$155 million and leased back by us for a five-year period. At the same time, we repaid and terminated a term loan and revolving credit facility and entered into a \$50 million secured revolving credit facility which had a five-year term. This revolver and our previous operating lease facility were repaid and terminated in February 2001 in connection with our Weatherford Global acquisition.

On July 3, 2001, we completed the offering of 1,333,333 shares of our common stock, par value \$0.01 per share, together with 2,666,667 shares of our common stock sold by certain selling stockholders, including Castle Harlan Partners III, L.P. and its affiliates. The shares were sold in the offering at a price of \$28.50 per share, and the offering provided us with net proceeds (after deducting underwriting discounts and commissions) of approximately \$36.1 million. We used the proceeds to fund the cash portion of the purchase price in our acquisition of KCI, Inc., to repay a portion of KCI's indebtedness concurrently with the acquisition, as described below, and to partially fund the cash portion of the purchase price in our acquisition of Louisiana Compressor Maintenance, Inc., as described below. Following the offering, Castle Harlan owned or had voting control over approximately 6% of our outstanding common stock.

Pursuant to the indenture governing the 9 7/8% senior discount notes due 2008 of Universal, the holders of the notes had the right to require Universal to repurchase the notes through August 23, 2001 as a result of the consummation of the Offering as Castle Harlan's ownership of less than 20% of our common stock constituted a change of control under the indenture. We repurchased approximately \$5.8 million face value of these notes in August 2001 with borrowings under our revolving credit facility. As of

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

September 30, 2001, Universal had approximately \$205.8 million aggregate principal amount outstanding under the 9 7/8% senior discount notes.

During the second fiscal quarter, the Company completed two acquisitions, KCI for approximately \$26.3 million in cash and 694,927 shares of our common stock, and LCM for approximately \$26.3 million in cash. KCI, a Tulsa, Oklahoma-based fabricator of large horsepower compressors, provides us with significant fabrication expertise and capabilities and added approximately 125,000 horsepower to our contract compression fleet with an average horsepower utilization rate of 85%. LCM, a Houma, Louisiana-based supplier of maintenance, repair, overhaul and upgrade services to the natural gas pipeline and related markets is expected to add approximately \$18 million in revenue and approximately \$4.5 million in EBITDA, as adjusted, in the first full year of combined operations.

In connection with the KCI acquisition, we entered into registration rights agreements, which provide certain demand and piggyback registration rights to the former holders of the common stock of KCI and the partnership interests of KCI Compression Company, L.P. Under the terms of the agreements, we agreed to file a registration statement to register the resale of the shares of common stock issued in the acquisition, which registration statement is now effective. In addition, the former KCI holders may request to have the sale of their shares included in certain registration statements with respect to any proposed public offering by us or other holders of our common stock.

Our cash and cash equivalents balance at September 30, 2001 was \$5.6 million, compared to \$12.3 million at March 31, 2001. For the six months ended September 30, 2001, we provided cash flow from operations of \$50.7 million, used \$242.4 million of cash for investing activities, provided another \$183.9 million of cash in financing activities and had a \$1.1 million positive effect of exchange rate change.

During the six months ended September 30, 2001, \$80.0 million was received for compression equipment sold under our asset-backed securitization operating lease facility, \$23.3 million was generated from net income, and \$57.0 million was received from net borrowings under our revolving credit facility. We used this cash as follows: \$91.4 million for capital expenditures, \$153.0 million for acquisitions, \$17.0 million on working capital changes and \$6.4 million to make net principal payments on outstanding indebtedness.

As of September 30, 2001, our book debt to capitalization ratio was 27%. As of that date, including the synthetic lease our debt to capitalization ratio was 55%.

On October 23, 2001, we sold an additional \$122 million of compression equipment to BRL Universal Equipment 2001 A, L.P. and leased the equipment back under our existing SSN Operating Lease Facility. We used the net proceeds from the sale of the compression equipment to repay all of the outstanding indebtedness under our revolving credit facility with the remaining proceeds used to repay a portion of the obligations under its ABS Operating Lease Facility and for other indebtedness and for general corporate purposes.

As of November 10, 2001, subject to covenant and other restrictions, we had unused availability of approximately \$165.5 million (approximately \$40.5 million under our asset-backed securitization facility and \$125 million under our revolving credit facility). Subject to certain covenant restrictions, we also have up to an additional \$244 million available under our SSN Operating Lease Facility until one year from February 9, 2001. Any additional amounts under this facility would be funded through an additional issuance of notes under the indenture by BRL, the unaffiliated lessor under the facility and a corresponding

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

increase in the BRL term loan and equity investment, which would be used to purchase additional equipment to lease to Universal under the operating lease.

We have realized approximately \$20 million of cost savings on an annualized basis from our Weatherford Global acquisition. The key drivers for the savings were the elimination of overlapping areas of various domestic operations, including fabrication facilities, as well as duplicate selling, general and administrative activities.

For fiscal 2002, we expect revenues to be approximately \$670 to \$680 million, with expected EBITDA, as adjusted, of approximately \$213 million. These results are expected based on slight quarterly gross margin improvements in both the domestic and international contract compression segments and the parts, sales and service segment, as well as continued revenue growth in all business segments.

Operating lease and net interest expense for the current fiscal year are expected to be approximately \$80 to \$81 million, with depreciation of approximately \$48 million for the fiscal year.

Under current market conditions, these projections are expected to result in approximately \$1.72 earnings per diluted share for the fiscal year.

Capital expenditures, excluding acquisitions, are expected to be approximately \$190 to \$200 million for the year, with international expenditures between \$30 and \$40 million and approximately \$25 million being used for maintenance capital needs.

27

We believe that funds generated from our operations, together with our existing cash, the net proceeds to us from our July 2001 stock offering, the net proceeds from our recent sale of additional equipment under the SSN Operating Lease Facility, and the additional capacity available under our revolving credit facility and operating lease facilities will be sufficient to finance our current operations, planned capital expenditures and internal growth for the remainder of fiscal year 2002. If we were to make significant additional acquisitions for cash, we may need to obtain additional debt, equity or operating lease financing.

UNIVERSAL COMPRESSION, INC.

Three months ended September 30, 2001 compared to three months ended September 30, 2000

Revenues. Universal's total revenues for the three months ended September 30, 2001 increased \$135.2 million, or 348%, to \$174.1 million, compared to \$38.9 million for the three months ended September 30, 2000. Universal's contract compression revenues increased by \$56.5 million, or 197%, to \$85.2 million during the three months ended September 30, 2001 from \$28.7 million during the three months ended September 30, 2000. Domestic contract compression revenues increased by \$44.5 million, or 182%, to \$68.9 million during the three months ended September 30, 2001 from \$24.4 million during the three months ended September 30, 2000. Universal's international contract compression revenues increased by \$12 million, or 281%, to \$16.3 million during the three months ended September 30, 2001 from \$4.3 million during the three months ended September 30, 2000. The increase in domestic contract compression revenues primarily resulted from continued expansion of our contract compression fleet as

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

well as through Universal's acquisitions. The increase in international contract compression revenues resulted from expansion of Universal's international contract compression fleet, primarily through the addition of horsepower from Universal's acquisitions, particularly our Weatherford Global acquisition, continued expansion of our existing contract compression fleet and continued high utilization rates.

Domestic average rented horsepower for the three months ended September 30, 2001 increased by 200% to approximately 1,603,000 horsepower from approximately 535,000 horsepower for the three months ended September 30, 2000. In addition, international average rented horsepower for the three months ended September 30, 2001 increased by 469% to approximately 313,000 horsepower from approximately 55,000 horsepower for the three months ended September 30, 2000, primarily through expansion of our international contract compression fleet and continued high utilization rates. Our average horsepower utilization rate for the three months ended September 30, 2001 was approximately 90.2%, up from 86.2% in the three months ended September 30, 2000. At the end of the quarter, we had approximately 2.1 million available horsepower. These average horsepower and utilization amounts include KCI for 81 days and LCM for 79 days from the date of the acquisitions.

Universal's revenue from fabrication increased to \$56.8 million for the quarter from \$8.3 million in the same quarter a year ago, an increase of 583%. The increase in fabrication revenue, consisting mostly of equipment fabrication was due primarily to Universal's acquisitions. Revenues from fabrication vary quarter to quarter due to the time of completion of the equipment being sold. Universal's backlog of fabrication projects at September 2001 was approximately \$101 million, compared with a backlog of \$26.8 million at the same time a year earlier. From June 30 to September 30, 2001, Universal's backlog increased \$54 million, primarily due to the acquisition of KCI.

Universal's revenues from parts sales and service increased to \$32.2 million during the three months ended September 30, 2001 from \$1.9 million during the three months ended September 30, 2000, an increase of 1,576%. The increase was due primarily to Universal's acquisitions, which have made the parts sales and service segment a more significant part of Universal's business.

Gross Margin. Universal's gross margin (defined as total revenue less rental expense, cost of sales (exclusive of depreciation and amortization), gain on asset sales and interest income) for the three months ended September 30, 2001 increased \$47.7 million, or 233%, to \$68.1 million from \$20.4 million for the three months ended September 30, 2000. Universal's contract compression gross margin for the three months ended September 30, 2001 increased \$36.6 million, or 195%, to \$55.4 million compared to a gross margin of \$18.8 million for the three months ended September 30, 2000. Contract compression gross margin increased primarily as the result of Universal's contract compression revenue growth discussed above and operating cost improvements realized by contract compression operations. Universal's fabrication gross margin for the three months ended September 30, 2001 increased \$4.6 million, or 344%, to \$6.0 million compared to a gross margin of \$1.4 million for the three months ended September 30, 2000. Fabrication gross margin increased primarily due to increased sales resulting from Universal's acquisitions, as well as strong customer demand, cost reductions and their resulting gross margin effects.

Universal's parts sales and service gross margin for the three months ended September 30, 2001 increased \$6.2 million or 1,555%, to \$6.6 million compared to a gross margin of \$401 thousand for the three months ended September 30, 2000. Parts sales and service gross margin increased primarily due to our acquisitions, our continued growth within the industry and operating cost improvements.

Selling, General and Administrative Expenses. Universal's selling, general and administrative expenses for the three months ended September 30, 2001 increased \$12.0 million, or 319% compared to the three months ended September 30, 2000. Selling, general and administrative expenses represented approximately 9% of revenue for the three months ended September 30, 2001 compared to approximately 10% of revenue for the three months ended September 30, 2000. The percentage decrease was primarily due to synergies achieved in Universal's acquisitions. These reductions have been offset partially by increases in certain expenses related to Universal's operating as a publicly traded company.

EBITDA, As Adjusted. Our EBITDA, as adjusted, for the three months ended September 30, 2001 increased 212% to \$52.1 million from \$16.7 million for the three months ended September 30, 2000, primarily due to increases in total horsepower, continued expansion of our existing contract compression fleet and parts and services division, improved utilization of the compression contract compression fleet, gross margin contribution from fabrication, operating cost improvements realized by contract compression operations, and decreased selling, general and administrative expenses as a percentage of revenues, as discussed above. EBITDA, as adjusted, is defined as net income plus income taxes, interest expense, leasing expense, management fees, depreciation and amortization, excluding non-recurring items and extraordinary gains or losses. EBITDA, as adjusted, is not a measure of financial performance under generally accepted accounting principles and should not be considered an alternative to operating income or net income as an indicator of Universal's operating performance or to net cash provided by operating activities as a measure of its liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. EBITDA, as adjusted, represents a measure upon which management assesses financial performance, and certain covenants in Universal's borrowing arrangements will be tied to similar measures. We believe that EBITDA, as adjusted, is a standard measure of financial performance used for valuing companies in the compression industry. EBITDA, as adjusted, is a useful yardstick as it measures the capacity of companies to generate cash without reference to how they are capitalized, how they account for significant non-cash charges for depreciation and amortization associated with assets used in the business (the majority of which are long-lived assets in the compression industry), or what their tax attributes may be.

Depreciation and Amortization. Depreciation and amortization increased by \$5.0 million to \$11.7 million during the three months ended September 30, 2001, compared to \$6.7 million during the three months ended September 30, 2000. The increase resulted primarily from the expansion of Universal's contract compression fleet, offset partially by the compressor equipment sold and leased back under Universal's operating lease facility. Included in depreciation and amortization for the three months ended September 30, 2000 is \$0.7 million of amortization expense. As of April 1, 2001, the Company adopted SFAS 142, which among other things, eliminated amortization of goodwill.

Operating Lease. Operating lease expense increased by \$11.0 million to \$13.0 million during the three months ended September 30, 2001 from \$2 million during the three months ended September 30, 2000. The increase is due to the expense associated with an increased balances on the operating lease facilities entered into concurrently with the Weatherford Global merger. The outstanding balance under the operating lease facilities at September 30, 2001 was \$607.5 million, consisting of \$427.0 million under our SSN Operating Lease Facility and \$180.5 million under our asset-backed securitization operating lease facility.

Interest Expense. Interest expense increased \$1.4 million to \$6.6 million for the three months ended September 30, 2001 from \$5.2 million for the three

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

months ended September 30, 2000 primarily due to the increased accretion of our 9 7/8% senior discount notes and the assumption and interest on the outstanding balance of Universal's revolving credit facility.

Net Income. We had net income of \$12.8 million for the three months ended September 30, 2001 compared to a net income of \$1.8 million for the three months ended September 30, 2000. The change was primarily due to an increase in Universal's gross margins and an increase in Universal's contracted horsepower related to the continued expansion of Universal's fleet, offset partially by increased depreciation, increased leasing expense resulting from Universal's operating lease facilities, increased selling, general and administrative expense resulting from Universal's increased headcount due to growth and increased income tax expense resulting from Universal's positive operating income.

Six months ended September 30, 2001 compared to six months ended September 30, 2000

Revenues. Universal's total revenues for the six months ended September 30, 2001 increased \$241.3 million, or 329%, to \$314.7 million, compared to \$73.4 million for the six months ended September 30, 2000. Universal's contract compression revenues increased by \$106.1 million, or 193%, to \$161.1 million during the six months ended September 30, 2001 from \$55.0 million during the six months ended September 30, 2000. Domestic contract compression revenues increased by \$84.2 million, or 181%, to \$130.8 million during the six months ended September 30, 2001 from \$46.6 million during the six months ended September 30, 2000. Universal's international contract compression revenues increased by \$21.9 million, or 262%, to \$30.3 million during the six months ended September 30, 2001 from \$8.4 million during the six months ended September 30, 2000. The increase in domestic contract compression revenues primarily resulted from continued expansion of our contract compression fleet as well as through Universal's acquisitions. The increase in international contract compression revenues resulted from expansion of Universal's international contract

29

compression fleet, primarily through the addition of horsepower from Universal's acquisitions, particularly our Weatherford Global acquisition, continued expansion of our contract compression fleet and continued high utilization rates.

Domestic average rented horsepower for the six months ended September 30, 2001 increased by 197% to approximately 1,529,000 horsepower from approximately 514,000 horsepower for the six months ended September 30, 2000. In addition, international average rented horsepower for the six months ended September 30, 2001 increased 435% to approximately 289,000 horsepower from approximately 54,000 horsepower for the six months ended September 30, 2000, primarily through expansion of our international contract compression fleet and continued high utilization rates. Our average horsepower utilization rate for the six months ended September 30, 2001 was approximately 88.7%, up from approximately 85.3% in the six months ended September 30, 2000. At the end of the quarter, we had approximately 2.0 million available horsepower. These average horsepower and utilization amounts include KCI for 81 days and LCM for 79 days from the date of the acquisitions.

Universal's revenue from fabrication increased to \$89.0 million for the six-month period from \$15.9 million for the comparable period last year, an increase of 457%. The increase in fabrication revenue, consisting mostly of equipment fabrication was due primarily to Universal's acquisitions. Revenues

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

from fabrication vary quarter to quarter due to the time of completion of the equipment being sold. Universal's backlog of fabrication projects at September 30, 2001 was approximately \$101 million, compared with a backlog of \$26.8 million at the same time a year earlier. From June 30 to September 30, 2001, Universal's backlog increased \$54 million, primarily due to the acquisition of KCI.

Universal's revenues from parts sales and service increased to \$64.5 million during the six months ended September 30, 2001 from \$2.4 million during the six months ended September 30, 2000, an increase of 2,563%. The increase was due primarily to Universal's acquisitions, which have made the parts sales and service segment a more significant part of Universal's business.

Gross Margin. Universal's gross margin (defined as total revenue less rental expense, cost of sales (exclusive of depreciation and amortization), gain on asset sales and interest income) for the six months ended September 30, 2001 increased \$88.2 million, or 223%, to \$127.7 million from \$39.5 million for the six months ended September 30, 2000. Universal's contract compression gross margin for the six months ended September 30, 2001 increased \$67.7 million, or 188%, to \$103.8 million compared to a gross margin of \$36.1 million for the six months ended September 30, 2000. Contract compression gross margin increased primarily as the result of Universal's contract compression revenue growth discussed above and operating cost improvements realized by contract compression operations. Universal's fabrication gross margin for the six months ended September 30, 2001 increased \$7.4 million, or 255%, to \$10.2 million compared to a gross margin of \$2.8 million for the six months ended September 30, 2000. Fabrication gross margin increased primarily due to increased sales resulting from Universal's acquisitions, as well as strong customer demand, cost reductions and their resulting gross margin effects.

Universal's parts sales and service gross margin for the six months ended September 30, 2001 increased \$13 million or 2,688%, to \$13.6 million compared to a gross margin of \$484 thousand for the six months ended September 30, 2000. Parts sales and service gross margin increased primarily due to our acquisitions, our continued growth within the industry and operating cost improvements.

Selling, General and Administrative Expenses. Universal's selling, general and administrative expenses for the six months ended September 30, 2001 increased \$21.3 million, or 294% compared to the six months ended September 30, 2000. Selling, general and administrative expenses represented approximately 9% of revenue for the six months ended September 30, 2001 compared to approximately 10% of revenue for the six months ended September 30, 2000. The percentage decrease was primarily due to the elimination of management fees in connection with Universal's initial public offering in May 2000 in addition to synergies achieved in Universal's acquisitions. These reductions have been offset partially by increases in certain expenses related to Universal's operating as a publicly traded company.

EBITDA, As Adjusted. Our EBITDA, as adjusted, for the six months ended September 30, 2001 increased 205% to \$98.9 million from \$32.4 million for the six months ended September 30, 2000, primarily due to increases in horsepower from acquisitions, continued expansion of our contract compression fleet and parts and services division, utilization of the compression contract compression fleet, gross margin contribution from fabrication, operating cost improvements realized by contract compression operations, and decreased selling, general and administrative expenses as a percentage of revenue, as discussed above. EBITDA, as adjusted, is defined as net income plus income taxes, interest expense, leasing expense, management fees, depreciation and amortization, excluding non-recurring items and extraordinary gains or losses. EBITDA, as adjusted, is not a measure of financial performance under generally accepted accounting principles and should not be considered an alternative to operating income or

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

net income as an indicator of Universal's operating performance or to net cash provided by operating activities as a measure of its liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. EBITDA, as adjusted, represents a measure upon which management assesses financial performance, and certain covenants in Universal's borrowing arrangements will be tied to similar measures. We believe that EBITDA, as adjusted, is a standard

30

measure of financial performance used for valuing companies in the compression industry. EBITDA, as adjusted, is a useful yardstick as it measures the capacity of companies to generate cash without reference to how they are capitalized, how they account for significant non-cash charges for depreciation and amortization associated with assets used in the business (the majority of which are long-lived assets in the compression industry), or what their tax attributes may be.

Non-recurring Charges. During the six months ended September 30, 2000, we incurred non-recurring charges of \$7.1 million related to the early termination of a management agreement and a consulting agreement and other related fees in connection with Holdings' initial public offering and concurrent financing transactions.

Depreciation and Amortization. Depreciation and amortization increased by \$8.9 million to \$23.1 million during the six months ended September 30, 2001, compared to \$14.2 million during the six months ended September 30, 2000. The increase resulted primarily from the expansion of Universal's contract compression fleet, offset partially by the compressor equipment sold and leased back under Universal's operating lease facility. Included in depreciation and amortization for the six months ended September 30, 2000 is \$1.3 million of amortization expense. As of April 1, 2001, the Company adopted SFAS 14, which among other things, eliminated amortization of goodwill.

Operating Lease. Operating lease expense increased by \$22.9 million to \$25.6 million during the six months ended September 30, 2001 from \$2.7 million during the six months ended September 30, 2000. The increase is due to the expense associated with an increased balances on the operating lease facilities entered into concurrently with the Weatherford Global merger. The outstanding balance under the operating lease facilities at September 30, 2001 was \$607.5 million, consisting of \$427.0 million under our SSN Operating Lease Facility and \$180.5 million under our asset-backed securitization operating lease facility.

Interest Expense. Interest expense decreased \$522 thousand to \$12.1 million for the six months ended September 30, 2001 from \$12.6 million for the six months ended September 30, 2000, primarily as a result of the reduction of debt resulting from Universal's initial public offering and financing restructurings. The decrease in interest expense was offset partially by increased accretion of Universal's 9 7/8% senior discount notes and interest on the outstanding balance of Universal's revolving credit facility.

Extraordinary Loss. During the six months ended September 30, 2000, we incurred extraordinary losses of \$5.4 million (\$3.4 million net of income tax) related to debt restructurings that occurred concurrently with Holdings' initial public offering.

Net Income (Loss). We had net income of \$23.3 million for the six months ended September 30, 2001 compared to a net loss of \$5.9 million for the six months ended September 30, 2000. The change was primarily related to extraordinary and non-recurring charges incurred during the six months ended

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

September 30, 2000, as well as an increase in Universal's gross margins and decrease in interest expense, offset partially by increased depreciation and amortization related to the continued expansion of Universal's fleet, leasing expense resulting from Universal's operating lease facilities, selling, general and administrative expense resulting from Universal's increased headcount due to growth and income tax expense resulting from Universal's positive operating income.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to some market risk due to the floating or variable interest rates under our financing arrangements. A portion of the interest and lease payments under our financing arrangements are based on a floating rate (a base rate or LIBOR, at our option, in the case of our revolving credit facility, and LIBOR, in the case of our operating lease facilities) plus a variable amount based on our operating results. The one-month LIBOR rate at September 30, 2001 was 2.637%. A 1.0% increase in interest rates would result in a \$1.3 million annual increase in our interest and operating lease expense. As of September 30, 2001, approximately \$134 million of our indebtedness and other obligations outstanding bear interest at floating rates.

In order to minimize any significant foreign currency credit risk, we generally contractually require that payment by our customers be made in U.S. dollars. If payment is not made in U.S. dollars, we generally utilize the exchange rate into U.S. dollars on the payment date or balance payments in local currency against local expenses.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

31

On July 11, 2001, we issued 694,927 shares of our common stock to MCNIC Compression GP, Inc., MCNIC Compression LP, Inc. and the former stockholders of KCI, Inc., in connection with our acquisition of all of the outstanding ownership interests of KCI Compression Company, L.P. The shares were issued in reliance on an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 4(2) thereof.

Pursuant to the terms of the registration rights agreements entered into in connection with the acquisition, we have an effective shelf registration statement on Form S-3 that registers the resale from time to time of these shares. Under the registration rights agreements, the selling shareholders may sell up to an aggregate of 347,464 shares in one or more offerings at any time, and may sell the remaining 347,463 shares any time after January 7, 2002. We will not receive any of the proceeds from the sale of any of these shares.

We also entered into an escrow agreement in connection with the KCI acquisition pursuant to which 118,833 of the shares are being held in escrow to indemnify us against certain losses we may incur under the purchase agreement. The shares held in escrow may not be sold unless and until they are released to the selling shareholders in accordance with the terms of the escrow agreement.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 10-Q

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On August 16, 2001 we held our Annual Meeting of Shareholders. The matters voted upon at the meeting and the results of those votes were as follows:

1. Re-election of three Class A members of the Board of Directors for a term expiring at our 2004 Annual meeting of Shareholders:

	Votes For -----	Votes Withheld -----
Thomas C. Case	24,941,007	168,769
Uriel E. Dutton	24,947,207	168,569
C. Kent May	24,940,927	168,849

2. Adoption of the new Employee Stock Purchase Plan, which permits eligible employees to purchase shares of our common stock at a 15% discount and without brokerage fees, subject to various limitations:

	For ---	Against -----	Abstain -----	Broker non-vote -----
24,875,319		231,509	2,954	0

3. Approval of new Restricted Stock Plan for Executive Officers, which permits the granting of shares of our common stock to our officers and key employees, which grants vest over time:

	For ---	Against -----	Abstain -----	Broker non-vote -----
23,479,839		1,628,540	1,897	0

4. Approval of the new Directors' Stock Plan, which allows our non-employee directors that are entitled to receive director fees to elect to receive those fees in shares of our common stock rather than cash:

	For ---	Against -----	Abstain -----	Broker non-vote -----
23,858,385		1,247,544	3,847	0

5. Ratification of the appointment of Deloitte & Touche LLP to serve as the Company's Independent Auditors for Fiscal 2002:

	For ---	Against -----	Abstain -----	Broker non-vote -----
25,101,894		7,148	734	0

ITEM 5. OTHER INFORMATION

None.
